CHAPTER

Resource and Development

Previous Year Questions

Multiple Choice Type Questions

1. Which of the following is correctly matched?
[CBSE 2023]

- (a) Alluvial Soil - Gangetic plain
- (b) Black Soil - Himalayan Region
- (c) Arid Soil - Western Ghats
- (d) Laterite Soil - Desert Area

2. Match the column - 1 with column - 2 and choose the correct option
[CBSE 2023]

Column-1 Resources		Column-2 Examples	
(I)	Biological	1.	Coal
(II)	Renewable	2.	Wildlife
(III)	Non-renewable	3.	Solar Energy

- I II III IV
- (a) 1 3 2
 - (b) 3 2 1
 - (c) 2 3 1
 - (d) 1 2 3

3. Which of the following is correctly matched?
[CBSE 2023]

- (a) Alluvial Soil - Consist of sand and silt
- (b) Black Soil - salt content is high
- (c) Arid Soil - Diffusion of iron in crystalline
- (d) Laterite Soil - Made up of Lava flows

4. In which one of the following states overgrazing is the main reason for land degradation?
[CBSE Term-I 2021-22]

- (a) Maharashtra
- (b) Punjab
- (c) Haryana
- (d) Uttar Pradesh

5. Deforestation due to mining has caused severe land degradation in which one of the following states?

- (a) Odisha
- (b) Tamil Nadu
- (c) Kerala
- (d) Gujarat

[CBSE Term-I, 2021-22] U

6. Which one of the following human activities has contributed most in land degradation?

- (a) Deforestation
- (b) Overgrazing
- (c) Mining
- (d) Over-irrigation

[CBSE Term-I, 2021-22] An

7. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option.

Assertion (A): Indian farmers should diversify their cropping pattern from cereals to high-value crops.

Reason (R) : This will increase income and reduce environmental degradation simultaneously.

- (a) Both A and R are correct and R is the correct explanation of the A.
- (b) Both A and R are correct, but R is not the correct explanation of the A.
- (c) A is correct, but R is incorrect.
- (d) A is incorrect, but R is correct.

[CBSE Term-I, 2021-22]

8. Identify the soil which ranges from red to brown in colour and saline in nature.

- (a) Red soil
- (b) Laterite soil
- (c) Arid soil
- (d) Alluvial soil

[CBSE Term-I, 2021-22]

9. Which one of the following forces leads to maximum soil erosion in plains?

(a) Wind (b) Glacier
(c) Running water (d) Earthquake

[CBSE Term-I, 2021-22]

10. Which among the following is NOT a problem of resource development? [CBSE Term-I, 2020-22]

(a) Depletion of resources for satisfying the greed of few individuals
(b) Accumulation of resources in few hands
(c) Indiscriminate exploitation of resources
(d) An equitable distribution of resources.

11. Which of the following is classified as a renewable resource? [CBSE 2018]

(a) Coal (b) Petroleum
(c) Solar energy (d) Natural gas

Very Short Type Questions

12. Fill in the blanks of the following table with suitable information:

Resource on the basis of exhaustibility

Types of Resources	Examples
(A) _____	Solar and Wind energy
(B) _____	Mineral and Fossil fuels

[CBSE 2020]

13. Fill in the blanks.

Types of Resources	Examples
Biotic and abiotic	A-?
Renewable and non-renewable	B-?

[CBSE Delhi 2020]

14. Fill in the blanks of the following table with suitable information.

Type of resources : Or the basis of ownership

Types of Resources	Examples
A-?	Grazing grounds, ponds etc
B-?	Cultivated land of farmer.

[CBSE 2020]

15. How much percentage of forest area is desired in a geographical area to maintain ecological balance as outlined in the National Forest Policy?

[CBSE 2020 C]

16. Read the following features of a soil and name the related soil : [CBSE 2020]

(a) Develops in high rainfall area
(b) Intense leaching process takes place
(c) Humus content is low

17. Give one example of the main commercial crop cultivable in laterite soil. [CBSE 2020]

18. Favorable conditions for wind energy exist in Western Rajasthan and Gujarat, but they have not been utilised and developed to the maximum. It falls in which category of resources? [CBSE 2019 C]

19. How is over irrigation responsible for land degradation in Punjab? [CBSE Delhi 2019]

20. How is cement industry responsible for land degradation? [CBSE Delhi 2019]

21. Highlight the importance of contour ploughing.

[CBSE AI 2019]

22. Which type of soil is most suitable for growing the crop of cashew nut? [CBSE 2019]

23. Which soil type is the most widely spread and important soil in India? [CBSE 2019, 2015]

24. Classify resources based on origin. [CBSE 2018, 2015, 2014]

25. Give one difference between renewable and non-renewable resources. [CBSE 2016]

26. In which states has mining caused severe land degradation? [CBSE 2014]

27. Which soil types are made up of lava flows? [CBSE 2014]

Short Answer Type Questions

28. Suggest any two ways to solve the problem of land degradation. [CBSE 2024]

29. Read the source given below and answer the questions that follow:

Mining sites are abandoned after excavation work is complete leaving deep scars and traces of overburdening. In states like Jharkhand, Chhattisgarh, Madhya Pradesh and Odisha, deforestation due to mining has caused severe land degradation. In states like Gujarat, Rajasthan, Madhya Pradesh, arid Maharashtra, overgrazing is one of the main reasons

far land degradation. In the states of Punjab, Haryana, Western Uttar Pradesh, over-irrigation is responsible for land degradation due to water logging leading to increase in salinity and alkalinity in the soil. The mineral processing like grinding of limestone for cement industry and calcite and soapstone for ceramic industry generates huge quantity of dust in the atmosphere. It retards the process of infiltration of water into the soil after it settle down the land. In recent years, industrial effluents as waste have become a major source of land and water pollution in many parts of the country.

Answer the following MCQs by choosing the most appropriate option:

- (i) In which one of the following states is overgrazing the main reason for 'land degradation'?
 (a) Gujarat (b) Himachal Pradesh
 (c) Punjab (d) Madhya Pradesh
 - (ii) Which one of the following is a major source of water pollution?
 (a) Rainfall (b) Landslide
 (c) Over-irrigation (d) Industrial waste
 - (iii) Why is 'over-irrigation' responsible for land degradation?
 (a) Increases the salinity of soil
 (b) Decreases the water absorption capacity of soil
 (c) Increases landslides
 (d) Decreases the fertility of soil
 - (iv) Which one of the following is the main reason of 'land degradation' in Jharkhand? [CBSE 2021 C]
 (a) Overgrazing (b) Over-irrigation
 (c) Industrial waste (d) Mining
30. Describe the importance of judicious use of resources. [CBSE 2020]
 31. Describe the different steps 'resource planning'. [CBSE 2020, 2017, 2014]
 32. "Resource Planning is essential for sustainable existence of all forms of life." Support the statement with examples. [CBSE 2020 C]
 33. Explain with examples, the ways to solve the problem of land degradation in the Himalayan region. [CBSE 2020 C]

34. Describe any three main features of Alluvial soil' found in India. [CBSE 2019]
35. Describe any three main features 'Black soil' found in India. [CBSE 2019]
36. Name the soil type which is widely found in Western Rajasthan. Explain two important characteristics of this soil type which makes it unsuitable for cultivation. [CBSE 2017]
37. What is Agenda 21? List its two principles. [CBSE 2016]
38. Classify the resources on the basis of exhaustibility. State two characteristics of each. [CBSE 2016]
39. "In India some regions are rich in certain types of resources but deficient in some other resources". Do you agree with the statement? Support your answer with any three examples. [CBSE 2016]
40. Distinguish between red soil and laterite soil stating any three points of distinction. [CBSE 2015]
41. 'Land is a natural resource of utmost importance. Justify the statement with appropriate arguments. [CBSE 2014]

Long Answer Type Questions

42. What are the three stages of resource planning in India? Why is it essential to have resource planning? [CBSE 2017, 2014]
43. Explain the two types of soil erosion mostly observed in India. Explain three human activities responsible for soil erosion. [CBSE 2016]
44. Discuss the factors responsible for land degradation in India. [CBSE 2015, 2014]
45. Describe any five distinct characteristics of 'Arid. [CBSE 2015]
46. Why is soil considered as a resource? Explain with five arguments. [CBSE 2015]
47. What type of soil is found in the river deltas of the eastern coast? Give four main features of this type of soil. [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (a) Alluvial Soil - Gangetic plain
2. (c) I-2, II-3, III-1
3. (a) Alluvial soil - Consist of sand and silt.
4. (a) Overgrazing is the main cause of land degradation in states like, Maharashtra, Madhya Pradesh. Rajasthan arid Gujarat.
5. (a) Mining sites are abandoned after excavation work is complete leaving deep scars and traces of over-burdening. This is a major cause of land degradation in Odisha.
6. (a) Deforestation has contributed most in land degradation. It makes the soil infertile for use therefore it causes droughts and land pollutions.
7. (a) Indian farmers should diversify their cropping pattern from cereals to high-value crops. This will increase income and reduce environmental degradation simultaneously Because fruits, medicinal herbs, flowers, vegetables, bio-diesel crops like jatropha and jojoba need much less irrigation than rice or sugarcane. India's diverse climate can be harnessed to grow ranges of high-value crops.
8. (c) Arid soil is red to brown in colour and saline in nature. It is sandy in texture and lacks humus and moisture.
9. (c) Running water leads to the maximum soil erosion in plains. It is of different types like- gully erosion and sheet erosion.
10. (d) Equitable distribution of resources is necessary for resource development
11. (c) Solar energy
12. (A) - Renewable
(B) - Non-renewable
13. (A) - Fishery, Water
(B) - Water, Fossil fuels
14. (A) - Community owned resources
(B) - Individual resource
15. 33%
16. Laterite soil
17. Tea, coffee and Cashew nut
18. Potential resources or stock.
19. Over irrigation in Punjab causes the lowering in fertility rate of the soil because of water logging leading to increased salinity and alkalinity of the soil.
20. Grinding and crushing of limestone for the cement industry generate a large amount of dust As the dust settles down on the soil it reduces the process of infiltration of water into the soil.
21. Contour ploughing, the practice of tilling sloped land along lines of consistent elevation in order to conserve rainwater and to reduce soil losses from surface erosion.
22. Laterite soil
23. Alluvial soil
24. Resources can be categorised on the basis of origin.
(i) Abiotic resources comprise non-living things (*e.g.*, land, water, air and minerals).
(ii) Biotic resources are obtained from the biosphere. These have life such as humans, flora and fauna.
25. **Renewable:** Replenished by nature *e.g.*, crops and plants.
Non-renewable : Resources which get exhausted after years of use; *e.g.*, crude oil.
26. Jharkhand, Chhattisgarh, Madhya Pradesh and Odisha.
27. Black soil

Short Answer Type Questions

28. Two effective ways to address land degradation are:
- (i) **Afforestation and Sustainable Grazing:** Planting trees and managing grazing activities can help restore soil health and prevent erosion.
 - (ii) **Wasteland Management and Pollution Control:** In industrial and suburban areas, managing wastelands, regulating mining activities, and controlling industrial effluent disposal can significantly reduce land degradation.
29. (i) (a) Gujarat
(ii) (d) Industrial waste
(iii) (d) Decreases the fertility of soil
(iv) (d) Mining
30. The importance of judicious use of resources are:
- (i) It maintains the sustainability of the resources.
 - (ii) Resources are available only in limited quantity.
 - (iii) Resources are vital for any developmental activity
31. The different steps of resource planning are :
- (i) Identification and inventory of resources across the regions of the country.
 - (ii) Evolving a planning structure endowed with appropriate technology, skill and Institutional set-up.
 - (iii) Matching the resource development plans with overall national development plans.
32. Resource planning is essential for sustainable existence of all forms of life. It is so, because of following reasons.
- (a) It helps to identify the various resources present in different regions of the-country.
 - (b) It helps to reducing wastage of resources.
 - (c) It helps In equal distribution of resources among the regions that have acute shortage of it.
33. Ways to solve the problem of land degradation in Himalayan region:
- (i) Afforestation is the solution for any kind of land degradation.
 - (ii) Proper management of grazing. It is the one of the main reasons. of land degradation in hilly areas.
 - (iii) Adopting terrace farming in hilly areas, as it increase water retention capacity of soil.
34. (i) This soil type is most Important and widely spread.
(ii) The entire northern plains are made of alluvial soil. Mostly these soils contain adequate-proportion of potash, phosphoric acid and lime which are ideal for the growth of sugarcane, paddy, wheat and of her cereal and pulse crops.
(iii) Due to its high fertility, regions of alluvial soils are intensively cultivated and densely populated. Soils in the drier areas are more alkaline and can be productive after proper treat merit and irrigation.
35. (i) These are black in colour and are also known as 'regur' soils. Ideal for growing cot ton these are also known as black cotton soil.
(ii) The black soils are made up of extremely fine *i.e.*, clayey material. They are well-known for their capacity to hold moisture.
(iii) They develop deep cracks during hot weather, which helps in the proper aeration of the soil.
36. The soil type in Western Rajasthan is arid soil, following are its characteristics :
- (i) It consists very high Kankar nodules due to increasing calcium content downwards .
 - (ii) It is brown - red in its colour It is generally sandy in texture and saline in nature.
 - (iii) Salt content is very high and it lacks humus and moisture.
 - (iv) It is difficult to cultivate anything on this type of soil, but cultivation can he encouraged after proper irrigation as in Western Rajasthan.
37. Agenda 21 was adopted at first International Earth Summit held in 1992 at Rio de Janeiro, Brazil.
- The two principles are as follows:
- (i) To combat environment damage, poverty, disease through global cooperation on common interests. mutual needs and shared responsibilities.
 - (ii) Every local government should draw its own local Agenda 21.
38. (i) **Renewable Resources** : Resources that can be replenished after a short period of time are called renewable resources. For example - agricultural crops, wind energy, water, forest, wildlife, etc.
(ii) **Non-renewable Resources** : Re-sources which take mil I ion' years of time to replenish are called

non-renewable resources. For example - fossil fuels, We must remember that some resources like metals are recyclable.

39. Yes, there are regions which are rich in certain types of resources but are deficient in some other resources.

- (i) Jharkhand, Chhattisgarh and Madhya Pradesh are rich in minerals and coal deposits.
- (ii) Arunachal Pradesh has abundance of water resources but lacks in infrastructural development
- (iii) Rajasthan is endowed with solar and wind energy but lacks in water resources.
- (iv) Ladakh has rich cultural heritage but lacks in water resources and infrastructure.

40. **Red soil:**

- (i) Red soil is formed due to weathering of igneous and metamorphic rocks.
- (ii) It is highly porous and less fertile but where is deep It is fertile.
- (iii) It is less crystalline.
- (iv) It is red in colour due to presence of iron in it. It is found in parts. of Tamil Nadu, Karnataka, Andhra Pradesh, Odisha and Jharkhand.

Laterite soil :

- (i) It is formed by the leaching process in the heavy rainfall areas of tropical India.
- (ii) It is less fertile, only grass grows on it in abundance.
- (iii) It is crystalline.
- (iv) It is found in hill of the Deccan, Karnataka, Kerala, Odisha, Assam and Meghalaya.

41. (i) We live on land, we perform our economic activities on land and we use it in different ways.
- (ii) It supports natural vegetation, wildlife, human life, economic activities, transports and communication system.
- (iii) It is an asset of a finite magnitude.

Long Answer Type Questions

42. **Stages of resource planning are :**

- Identification and inventory of resources across the regions of the country. This involves surveying, mapping and qualitative-and quantitative estimation and measurement of the resources.
- Evolving a planned structure endowed with appropriate technology. skill and institutional set-up

for implementing resource development plans.

- Matching the resource development plans with overall national development plans.

Resource planning is a technique or skill for proper utilisation of resources.

- (i) As resources are limited, their planning is necessary so that we can use them properly and also save them for our future generation.
- (ii) Resources are not only limited but they are distributed over different parts of the country.
- (iii) Resource planning is also essential for production of resources and to protect them from over exploitation.

43. **Types of soil erosion :**

- (i) **Gullies :** The running water cuts through the clayey soil and makes deep channels/gullies. The unfit land caused by gullies is called badland or ravines.
- (ii) **Sheet erosion :** Water flows as a sheet over large areas down a slope. The top soil is washed away. This process is known as sheet erosion.

Three human activities which are responsible for the process of soil erosion are deforestation over-grazing, mining and construction etc.

44. The Important factors responsible for land degradation in India are as follows:

- (i) **Deforestation :** By an estimate over one million hectares of forest is lost every year in India.
- (ii) **Erosion :** Loss of vegetation cover makes land more susceptible to erosion. Wind and water have left vast tracts of land barren. Water erodes top soil to an extent of around 12,000 millions tons per annum.
- (iii) **Over-irrigation :** Successive cropping and over-irrigation, leads to water-logging and consequent salinisation and alkalisation. This situation mainly arises due to poor drainage.
- (iv) **Floods and Droughts :** Drought is both man-made and environment-induced. Man has played a key role in the creation of drought-prone areas by over-exploitation of natural resources like forests, degradation by grazing, excessive withdrawal of ground water, silting of tanks, rivers, etc.

Floods, on the other hand, are caused by heavy rains in a very short period. Each situation could

have been altered had there been good vegetation cover. Vegetation helps in reducing run-off, increasing infiltration and reducing soil erosion.

- (iv) **Over-grazing** : India has the worlds largest cattle population, but not enough pasture land.

This has led to serious problems as animals have encroached into forest lands and even agricultural lands. Land degradation due to over-grazing leads to desert like conditions.

- (vi) **Pollution** : Pollution of land is caused by disposal of solid waste, leftover from domestic, industrial and agricultural sectors. Another major source of land pollution Is the creation of derelict land due to mining particularly due to surface and underground mining activities.

- 45 (i) Arid soils range from red to brown in colour.

(ii) Sandy in texture and saline in nature.

(iii) Evaporation from this soil Is faster, soil lacks humus and moisture.

(iv) Soil occupied by Kankar.

(v) kankar restricts the infiltration of water.

46. (i) Soil is considered as a resource because it is used to satisfy our needs.

(ii) It is the most important renewable natural resource.

(iii) It is the medium of plant growth. It consists of organic (humus) and inorganic materials.

(iv) It supports different types of living organisms on the earth.

(v) It is the base of our life.

47. Alluvial soil is found in the entire northern plain, it is the most widely spread soil of India.

Main features of alluvial soil:

(i) It is formed by the deposition of materials brought down by the Himalayan rivers.

(ii) It is highly fertile. Due to its high fertility, regions of alluvial soils are intensively cultivated and densely populated.

(iii) It consists& various proportion of sand, silt and clay.

(iv) It is rich in potash, phosphoric acid and lime but deficient in organic matter.

(v) it is ideal for the growth of sugarcane, paddy, wheat and other cereal and pulse crops.

2

CHAPTER

Forest and Wildlife Resources

Previous Year Questions

Multiple Choice Type Questions

1. Two statements are given below. They are **Assertion (A)** and **Reason (R)**. Read both the statements and choose the correct option. [CBSE 2024]

Assertion (A): We need to protect forests and wildlife.

Reason (R): Conservation maintains ecological diversity.

- (a) (A) is true, but (R) is false.
- (b) (A) is false, but (R) is true.
- (c) Both (A) and (R) are true and (R) is the correct explanation of (A).
- (d) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

Short Answer Type Questions

2. In which year was the 'Indian Wildlife Protection Act' implemented in India? Describe the main thrust area of this programme. [CBSE 2017]

3. 'Forests and wildlife are vital to the quality of life and environment. Justify the statement by giving three reasons. [CBSE 2016]
4. 'Large-scale development projects have also contributed significantly to the loss of forests. Justify this statement with relevant examples. [CBSE 2016]
5. Explain any three factors responsible for the depletion of flora and fauna in India. [CBSE 2014]

Long Answer Type Questions

6. What is biodiversity? Why is biodiversity important for human lives? Analyse. [CBSE 2017]
7. Analyse any four reasons for the depletion of forest resources in India. [CBSE 2015]
8. Describe the steps taken to conserve the flora and fauna of the country. [CBSE 2015, 2014]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (b)

Short Answer Type Questions

2. (i) In the 1960s and 1970s, the conservationists demanded some rules to protect the wildlife. Conceding to their demand, the government enacted the Indian Wildlife (Protection) Act 1972. Under this act, an all India list of protected species was published.
- (ii) Hunting was banned to protect the remaining population of some endangered species.
- (iii) Trade in wildlife was restricted and the habitats of wildlife were given legal protection. Many national parks and wildlife sanctuaries were established by central state governments and the state governments.
- (iv) Several projects were announced for protecting specific animals, eg. Project Tiger. Project Tiger was launched in 1973 to protect tigers from becoming extinct.
3. (i) Forests and wildlife are vital to the quality of life and environment. This is because destruction of forests and wildlife leads to:
- (i) Loss of cultural diversity In addition to the loss of flora and fauna in the forest; the communities that depend on various forest produce suffer a lot.
- (ii) Impact on women In almost all rural societies, women bear the responsibility to collect fire wood, fodder and water. Depletion of these resources makes them work much harder and the tasks become more time taking. This often leads to various health problems in them.
- (iii) Poverty-When the poor tribal population fail to get their supplies of basic items, they have to buy those by spending money which is in short supply. Thus, greater economic pressure is created on them.
4. (i) Since 1951, over 5000 sq km forest was cleared for River Valley Projects.

- (ii) Clearing of forests is still continuing with projects like the Narmada Sagar Project in Madhya Pradesh which would inundate 40,000 hectares of forest.
- (iii) Mining is another important factor behind deforestation.

5. Three major reasons which are responsible for depletion of flora and fauna in India:

- (i) Agricultural expansion: After Independence, agricultural expansion became the major cause of depletion of forest resources. Between 1951 and 1980, according to the Forest Survey of India, over 26,200 sq. km of forest area was converted into agricultural land all over the India.
- (ii) Mining: It is another major factor responsible for deforestation, eg. dolomite mining has seriously threatened the Buxa Tiger Reserve in West Bengal. This ongoing mining has disturbed the natural habitat and blocked the migration route of great Indian elephant.
- (iii) Large-scale development projects: Since 1951, over 5000 sq km of forest was cleared for River Valley Projects. Large hydro projects have inundated large forest areas.

Long Answer Type Questions

6. Biodiversity refers to diverse flora and fauna that exist in a given area. Plants, animals and human beings are interdependent. It is necessary for human beings as we get fresh air, water, food etc., from them. Thus, the existence of human beings depends on them. Biodiversity boosts ecosystem productivity where each species, no matter how small, all have an important role to play.

For example, a larger number of plant species means a greater variety of crops. Greater species diversity ensures natural sustainability for all life forms. Healthy ecosystems can better withstand and recover from a variety of disasters. And so, while we dominate this planet, we still need to preserve the diversity in wildlife.

Each species depends on the services provided by other

species to ensure survival. It is a type of cooperation based on mutual survival that is provided by a balanced eco system. That is why when the ecosystem is disturbed survival of the species becomes difficult.

7. Reasons for depletion of forest resources in India are:

- (i) Extensive use of forest products such as wood, barks, leaves, rubber, medicines, dyes, food, fuel, fodder, manure etc.
- (ii) Agricultural expansion, development of railways, mining, commercial and social forestry.
- (iii) Substantial forests in the tribal belts of north-eastern states have been degraded by shifting cultivation (Jhumming) or slash and burn agriculture.
- (iv) Large scale developmental projects like Narmada Sagar Project of Madhya Pradesh which would inundate 40,000 hectares of forests.
- (v) Mining is another important factor, as in the Buxa Tiger Reserve in West Bengal is seriously threatened by dolomite mining. It has disturbed the natural habitat of many species and migration route of animals, especially the great Indian elephant.

8. The various steps taken to conserve the flora and fauna of the country include:

- (i) Implementation of the Indian Wildlife Protection Act 1972.
- (ii) Desired control on deforestation and implementing afforestation programmes.
- (iii) Providing legal protection to animals by bringing and implanting laws such as banning of hunting and poaching.
- (iv) Spreading the awareness about the values of forests and its flora and fauna among the public.
- (v) Setting up of biosphere reserves; 18 Biosphere Reserves have been set-up in India. Providing financial and technical assistance to many botanical gardens.
- (vi) Implementation of specific focused projects such as: Project Tiger, Project Rhino, Project Great Indian Bustard and many other eco developmental projects. 106 national parks, 565 Wildlife sanctuaries and zoological gardens are set-up to take care of natural heritage.

CHAPTER

Water Resources

Previous Year Questions

Multiple Choice Type Questions

1. Which one of the following is the irrigation system in Meghalaya [CBSE 2024]
 - (a) To irrigate land only during the rainy season.
 - (b) To use large volumes of water for irrigation.
 - (c) To remove water from soil
 - (d) To use a bamboo drip irrigation system

Very Short Type Questions

2. Which river is known as the 'River of Sorrow' [CBSE 2015]
3. Name two social movements which were against the multipurpose projects. [CBSE 2015]
4. The Nagarjuna Bagar Dam is built on which river? [CBSE 2015]
5. On which river the Salal Dam is built? [CBSE 2015]
6. In which regions the release of water from dams during heavy rains aggravated the food situation in 2006? [CBSE 2015]
7. On which river Bhakhra Nangal Dam has been constructed? [CBSE 2014, 2015]
8. Who proclaimed dams as the temples of modern India? [CBSE 2014]
9. Which largest artificial lake was built in 11th century? [CBSE 2014]
10. On which river has the Hirakud Dam been constructed? [CBSE 2014]
11. Name any one river valley project which has significantly contributed to the loss of forests. [CBSE 2014]
12. Which water is recharged by roof-top rainwater harvesting technique? [CBSE 2014]
13. In which state Bamboo Drip Irrigation is prevalent? [CBSE 2014]
14. Mention one state where canal irrigation has developed. [CBSE 2013]
15. What percentage of the total volume of world's water is estimated to exist in oceans? [CBSE 2012]
16. In which region, people built 'Guls' or 'Kuls' for irrigation? [CBSE 2012]
17. How much percent of the total volume of world's water is estimated to exist as fresh water? [CBSE 2011]
18. What are the causes of water scarcity? [CBSE 2011]
19. Write the major source of freshwater in India? [CBSE 2010]
20. Name the river on which Sardar Sarovar dam is built. [CBSE Delhi 2011]
21. Name two techniques of rooftop rainwater harvesting. [All India 2011]
22. What is the need of rainwater harvesting? [CBSE Delhi 2011]
23. What was the main purpose of launching multi-purpose projects in India after independence? [All India 2010]
24. On which river is the Nagarjunsagar dam built? [All India 2010]
25. What is the traditional system of rainwater harvesting? [CBSE Foreign 2010]
26. Name the river on which Nagarjunsagar dam is constructed. [CBSE Delhi 2009]

27. Name the river on which Mettur dam has been built.
[CBSE Delhi 2000]

Short Answer Type Questions

28. Mention any four main objectives of multi-purpose river valley projects. Name any two Multipurpose Projects of India.
[CBSE 2015]

OR

What is a multipurpose river valley project? Mention any four objectives of it.
[CBSE 2016-17]

29. Water scarcity in most cases is caused by over exploitation, excessive use and unequal access to water among, different social groups. Explain the meaning of the statement with the help of examples
[CBSE 2015]

30. Explain the working of underground tanks as a part of roof top rainwater harvesting system practised in Rajasthan.
[CBSE 2015, 2014, 2012, 2010]

OR

How were the underground tanks beneficial to the people of Rajasthan? Explain. [CBSE 2012, 2016-17]

OR

Discuss how rainwater harvesting in semiarid regions of Rajasthan is carried out.
[NCERT]

31. Why did Jawaharlal Nehru proclaim dams as the 'temples of modern India'? Explain any three reasons.
[CBSE 2014]

32. How have intensive industrialization and urbanization posed a great pressure on existing freshwater resources in India. Explain.
[CBSE 2014]

How does urbanization and urban lifestyle lead to over exploitation of water resources? Explain.
[CBSE 2013]

OR

How have intensive industrialization and urbanization posed a great pressure on existing freshwater resources in India? Explain.
[CBSE 2012]

33. Describe any three traditional methods of rainwater harvesting adopted in different parts of India.
[CBSE 2014, 2015, 2016-17]

OR

Describe any three different rainwater harvesting systems practised in India.
[CBSE 2012]

OR

"Rainwater harvesting system is viable alternative both socially, economically and environmentally". Support the statement with three examples.
[CBSE 2012]

34. List any three advantages and three disadvantages of multipurpose river project.
[CBSE 2013, 2012]

OR

What are the advantages and disadvantages of multipurpose river project.
[CBSE 2014]

35. What is Bamboo Drip Irrigation? Mention any two features of it.
[CBSE 2012]

36. Highlight any three hydraulic structures as part of water management programmes initiated in ancient India along with the period when they were built.
[CBSE 2011, 2012]

37. Why is groundwater a highly overused resource?
[CBSE 2011]

Long Answer Type Questions

37. Why is roof-top water harvesting important in Rajasthan? Explain.
[CBSE 2014]

38. Explain any three reasons responsible for water scarcity in India.
[CBSE 2013, 2011]

OR

Water is available in abundance in India. Even then scarcity of water is experienced in major parts of the country. Explain it with four examples.

39. Describe any four traditional methods of rainwater harvesting adopted in different parts of India.
[CBSE 2011]

40. Why are different water harvesting systems considered a viable alternative both socio-economically and environmentally in a country like India? [CBSE 2010]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (d)

Very Short Type Questions

2. Damodar river
3. Namada Bachao Andolan and Tehri Dam Andolan.
4. Krishna
5. Chenab
6. Maharashtra and Gujarats
7. River Satluj
8. Jawaharlal Nehru
9. Bhopal lake
10. River Mahanadi
11. Gardar Sarovar Dam
12. Ground water
13. Meghalaya
14. Nagaland
15. 96.0 percent
16. Western Himalayas
17. 25 percent
18. Rapid growth of population, uneven distribution of water resources and increase in demand of water.
19. Groundwater
20. Sardar Sarovar dam is built on the Narmada.
21. (a) Construction of tanks so as to store the rainwater
(b) Collection of excess rainwater in the dugwell
22. Rainwater harvesting is needed to provide it for agriculture, collect drinking water, irrigate the fields and to moisten the soil.
23. The main purpose of launching multi-purpose projects after independence was that they would integrate development of agriculture with rapid industrialization.
24. The Nagarjunsagar Dam is built on the Krishna.
25. The traditional system of rainwater harvesting is to

build underground tanks or tankas for storing drinking water. This system is mainly practised in the arid and semi-arid regions of Rajasthan.

26. The Nagarjunsagar Dam is built on the Krishna.
27. Mettur dam has been built on the Kaveri.

Short Answer Type Questions

28. A project where many uses of the impounded water are integrated with one another is known as multipurpose project. It is built for irrigation, power generation, water supply, flood control, recreation, etc.
29. We can understand the meaning of the above statement through these examples:
 - (a) After a heavy downpour, a boy collects drinking water in Kolkata.
 - (b) A Kashmiri earthquake survivor carries water in the snow in a devastated village.
 - (c) A Rajasthani woman balances her matka and travels large distances to collect water.
30. (a) In semi-arid and arid regions of Rajasthan almost all the houses traditionally had underground tanks for storing drinking water.
 - (b) They are extremely reliable source of drinking water when other sources are dried up. This is considered the purest form of natural water.
 - (c) The tanks can be as large as big rooms.
 - (d) The tanks were part of the well- developed rooftop rainwater harvesting system.
 - (e) The tanks were built inside the main house or the courtyard giving cooling effect to the rooms in the summer.
 - (f) Those tanks were connected to the sloping roofs of the houses through a pipe.
 - (g) Rain falling on these rooftops would travel down the pipe and stored in these underground tanks.
 - (h) Usually first: rain water is not collected to clean the rooftop and the pipe.
31. Jawaharlal Nehru proclaimed the dams as the “temples of modern India” because
 - (a) They eliminate or reduce flooding.
 - (b) Provide water for agriculture.
 - (c) Provide water for human and industrial consumption.

- (d) Provide hydroelectricity for houses and industries.
32. Post independent India witnessed industrialisation and urbanisation. intensive

(CBSE Marking Scheme, 2013).

- (a) Arrival of MNC's: Apart from fresh water they require electricity which comes from hydroelectric power.
- (b) Multiplying urban centers with large and dense populations and urban life styles have not only added to water and energy requirements, but have further aggravated the problem.
- (c) Large-scale migration from rural to urban areas is causing over exploitation of water resources.
33. (a) In hilly and mountainous regions, people build diversion channels like 'gul' or 'kul' in Western Himalaya for agriculture.
- (b) Roof-top rainwater harvesting was commonly practised to store drinking water particularly in Rajasthan.
- (c) In West Bengal, people develop inundation channels to irrigate their fields.
- (d) In semi-arid regions agricultural fields are converted into rainfed storage structures that allowed the water to stand and moist the soil.

34. Advantages:

- (a) These are the main source of power generation.
- (b) They provide us neat, pollution free and cheapest energy which is the backbone of industry and agriculture.
- (c) These projects control the floods because water can be stored in them. These projects have converted many, 'rivers of sorrows into 'rivers of boon'.
- (d) These projects are the main source of irrigation and also help in conserving soil.

Disadvantages:

- (a) Due to the construction of dams, there are no adequate floods in the river. Because of this, the soil of the downstream region does not get nutrient rich silt.
- (b) Dams also fragment rivers making it difficult for aquatic fauna to migrate for spawning, i.e., to produce eggs.
- (c) It resulted in displacement of local communities. The local people often have to give up their land and livelihood and their meagre access and control over resources for the greater need of the nation.
35. Bamboo Drip Irrigation system is a 200-year-old system of tapping stream and spring water by using

bamboo pipe and transporting water from higher to lower regions through gravity.

Features:

- (a) 18-20 liters of water enters the bamboo pipe system, get transported over hundreds of meters and finally reduces to 20-80 drops per minute at the site of the plant.
- (b) The flow of water into the pipes is controlled by manipulating the pipe positions.
36. Sophisticated hydraulic structures like dam built of stone rubble, reservoirs or lakes, embankments and canals for irrigation were built in various regions of the country.
- (a) A sophisticated water harvesting system channelling the flood water of river Ganga was built at Sringerapur near Allahabad in the 15th century BC.
- (b) Nagarjunakonda in Andhra Pradesh, Bennur in Karnataka, Kolhapur in Maharashtra and Kalinga in Odisha have evidences of irrigation structures.
- (c) In the 11th century, Bhopal Lake, one of the largest artificial lakes of its time was built.
- (d) The tank in Hauz Khas, Delhi was constructed by Iltutmish in the 14th century to supply water to the Siri Fort Area.
37. Groundwater is a highly overused resource because of the following reasons:
- (a) Due to large and growing population and consequent greater demands for water and unequal access to it.
- (b) To facilitate higher food grain production for large population, water resources are being over exploited to expand irrigated areas and dry season agriculture.
- (c) In the housing societies or colonies in the cities, there is an arrangement of own ground water pumping devices to meet water needs.

Long Answer Type Questions

37. Roof top water harvesting is important in Rajasthan because:
- (a) It was commonly practised to store drinking water.
- (b) The rainwater can be stored in the tanks till the next rainfall, making it an extremely reliable source of drinking water when all other sources are dried up, particularly in the summers.
- (c) Rain water, or palar pani, as commonly referred

to in these parts, is considered the purest form of natural water.

- (d) Many houses construct underground rooms adjoining the tanka to beat the summer heat as it would keep the room cool.
- (e) Some houses still maintain the tanks since they do not like the taste of tap water.

38. (a) The availability of water resources varies over space and time, mainly due to the variations in seasonal and annual precipitation.
- (b) Over-exploitation, excessive use and unequal access to water among different social groups.
- (c) Water scarcity may be an outcome of large and growing population and consequent greater demands for water. A large population means more water to produce more food. Hence, to facilitate higher food-grain production, water resources are being over exploited to expand irrigated areas for dry-season agriculture.
- (d) Most farmers have their own wells and tubewells in their farms for irrigation to increase their production. But it may lead to falling groundwater levels, adversely affecting water availability and food security of the people. Thus, inspite of abundant water there is water scarcity.

39. Methods of rainwater harvesting used in India are:

- (a) **Guls and Kuls:** People built guls and kule in hilly and mountainous regions to divert water. These are simple channels. They are mainly used in the Western Himalayas.
- (b) **Roof top rainwater harvesting:** Commonly practised to store drinking water in Rajasthan.

(c) Inundation Channels: These channels developed in the flood plains of Bengal to irrigate fields.

(d) **Khadins and Johads:** In arid and semi-arid regions, some agricultural fields were converted into rain fed storage structures. These structures are found in Rajasthan.

(e) **Tankas:** The tankas were built inside the main house or the courtyard. They were connected to the clogging roofs of the houses through a pipe. Rain falling on the rooftops would travel down the pipe and was stored in these underground tankas. The first spell of rain was usually not collected as this would clean the roofs and the pipes. The rainwater from the subsequent showers was then collected. The rainwater can be stored in the tankas.

40. Keeping in view the disadvantages and rising resistance against the multi-purpose projects, water harvesting system is considered a viable alternative both socio-economically and environmentally.

- (a) In ancient India also along with the sophisticated hydraulic structures, there existed an extraordinary tradition of various water harvesting systems.
- (b) People adopted different techniques in different areas. In hilly regions people built diversion channels like the 'guls' or 'kuls' for agriculture.
- (c) Roof-top rainwater harvesting was commonly practised to store drinking water, particularly in Rajasthan.
- (d) In the flood plains of Bengal, people developed inundation channels to irrigate their fields. Khadins, Johads and Tanks are the forms of rainwater harvesting practised in Rajasthan.

4 CHAPTER

Agriculture

Previous Year Questions

Multiple Choice Type Questions

- Which of the following is not a characteristic of 'Intensive Subsistence Farming'? [CBSE 2021]
 - This is practised in areas of high population.
 - It is an example of labour-intensive farming.
 - High doses of biochemical inputs are used.
 - It is an example of commercial farming.
- Identify the crop with the help of the following information and choose the correct option. [CBSE 2023]
 - This is the second most important Cereal Crop.
 - This a Rabi crop.
 - It requires a cool growing season and bright sunshine at the time of ripening.
 - It requires 50 to 75 cm annual rainfall.
 - Wheat
 - Maize
 - Rice
 - Sugarcane

Very Short Type Questions

- Explain any two features of Intensive Subsistence farming [CBSE 2023]
- Give one example of the main commercial crop cultivable in laterite soil. [CBSE Delhi 2020]
- Write the temperature requirement of Maize crop. [CBSE 2020]
- Complete the following table with correct information for A and B: [CBSE 2020]

Sugarcane crop	Annual rainfall required	Climate	Temperature required for its growth (in degrees)
	A-?	Hot and Humid	B-?

- By which name is specialised cultivation of fruits and vegetables known? [CBSE 2017]
- Describe 'Jhumming cultivation' in one sentence. [CBSE 2017]
- Which factors have helped Punjab and Haryana to grow more and more of rice? [CBSE 2017]
- How can small and marginal farmers be supported by the government? [CBSE 2017]
- Which is the leading coffee producing state in India? [CBSE 2016]
- What is the importance of millets? [CBSE 2016]
- By which other name is 'slash and burn' agriculture known? [CBSE 2014]
- India is the largest producer as well as consumer of which agricultural product in the world? [CBSE 2014]
- Which crop is the major crop of rabi? [CBSE 2014]

Short Answer Type Questions

- Read the following information and identify the crop.
 - It is the staple food crop of the majority of people in India.
 - India is the second largest producer of this crop.
 - It is a Kharif crop.
 - It requires high humidity with 100 cm of annual rainfall.
 Crops: [CBSE 2024]
 - Ragi
 - Bajra
 - Wheat
 - Rice
- Read the given statements and choose the correct option with regard to the Rabi cropping season from the following. [CBSE 2024]
 - Rabi crops are sown in winter
 - Sown from October to December and harvested from April to June.
 - Important crops are Maize, Cotton, and Jute

- (iv) Punjab, Haryana, and Uttar Pradesh are important for the production of Wheat.

Options:

- (a) i iii and iv
(b) ii iii and iv
(c) i ii and iv
(d) i ii and iii
18. Explain any three institutional reforms taken for the development of Indian agriculture. [CBSE 2023]
19. Describe any three main features of 'Rabi crop season'. [CBSE Delhi 2020, 2019]
20. Describe any three main features of 'Kharif crop season'. [CBSE Delhi 2019]
21. Describe the geographical conditions required for rubber cultivation. [CBSE 2019 C]
22. Categorise the following as 'Rabi crops' and 'Zaid crops':
(i) Wheat (ii) Watermelon
(iii) Fodder crops (iv) Mustard
(v) Cucumber (vi) Peas [CBSE 2019]
23. Describe geographical conditions required for tea cultivation. [CBSE 2019 C]
24. Describe the geographical conditions required for the growth of 'wheat' in India. [CBSE 2019 C, 2014]
25. Explain any three steps for agriculture reforms taken by the Government of India, after the independence. [CBSE Delhi 2018]
26. What is the importance of pulses in our country? Why are pulses grown as a rotation crop? [CBSE 2017]
27. What are the growing conditions required for the main staple food crop of India? Mention the main growing regions. [CBSE 2015]
28. How many cropping seasons are found in India? Name them and write a short note on each. [CBSE 2015, 2014]
29. Describe any three technological and institutional reforms made in the field of agriculture in India. [CBSE 2014]

Long Answer Type Questions

30. Explain the initiatives taken by the government to ensure the increase in agriculture production. [CBSE 2024]
31. Analyse any five features of Commercial farming. [CBSE 2020]
32. Why is agriculture called the backbone of Indian economy? Explain. [CBSE Delhi 2020]
33. Name the two major beverage crops grown in India. Describe their growing areas. [CBSE 2019]
34. Name the two major fibre crops grown in India. Describe the conditions required for growth of these two crops with their growing areas. [CBSE 2019]
35. Name any four oilseeds produced in India. Explain the importance of oilseeds in our day to day life. [CBSE 2017]
36. The government of India has introduced various institutional and technological reforms to improve agriculture in the 1980's and 1990. Support this statement with examples. [CBSE Delhi 2018]
37. Explain any five initiatives taken by the government to ensure the increase in agricultural production. [CBSE 2017]
38. What are millets? Give brief description of the climatic conditions and producing states of the millets grown in India. [CBSE 2017]
39. Which crop is known as the 'golden fibre'? Explain any two geographical conditions essential for the cultivation of this crop. Mention its any four uses. [CBSE 2016]
40. Mention any two geographical conditions required for the growth of maize crop in India. Describe any three factors which have contributed to increase in maize production. [CBSE 2015]
41. Explain any three geographical conditions required for the growth of rice in India. How is it possible to grow rice in areas of less rainfall? Explain with examples. [CBSE 2015]

OR

What are the climatic conditions required for the growth of rice? [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Type Questions

1. (d) It is an example of commercial farming.
2. (a) Wheat

Very Short Type Questions

3. Two features of Intensive Subsistence farming are:
 - (i) It is practised in densely populated area.
 - (ii) It involves high degree of use of bio-chemical inputs and irrigation.
4. Commercial crops- Cashewnuts / Oilseeds / Tea / Coffee/Rubber/Coconut
5. It requires the temperature range between 21°C – 27°C.
6. A-75cm to 100 cm and B-21° to 27°C
7. Horticulture
8. Jhumming cultivation, also known as the slash and burn agriculture, is the process of growing crops by first clearing the land of trees or vegetation and burning them thereafter.
9. Development of dense canal network and inputs like fertilisers and pesticides.
10. Loan facilities to the farmers at lower rates of interest. Kisan Credit Card (KCC) and crop insurance etc.
11. Karnataka
12. In addition to their good nutritional value, an important feature of these crops is that they require much less water to grow than rice and wheat. They can be successfully cultivated in semi-arid tropics and on poor soils.
13. Shifting cultivation
14. Pulse
15. Wheat

Short Answer Type Questions

16. (d)
17. (c)
18. The institutional reforms introduced by the Government, to help the farmers are given below.

- (i) Crop insurance was provided for disease, fire, cyclone, flood, and drought.
 - (ii) To provide loans to farmers at low interest rates, banks, cooperative societies, grameen banks were established.
 - (iii) For the benefit of farmers, some of the schemes introduced were the Personal Accident Insurance Scheme (PAIS), Kissan Credit Card (KCC).
 - (iv) To help the farmers, special agricultural programmes and special weather bulletins were introduced on television and radio.
 - (v) To check exploitation of farmers by middlemen and speculators, procurement and remunerative prices, minimum support price was introduced by the Government for many important crops.
19. (a) Rabi crops are also known as winter crops. They are sown from October to December and harvested from April to June.
 - (b) Wheat, barley, pea, gram and mustard are the important rabi crops. Punjab, Haryana, Himachal Pradesh, Jammu & Kashmir, Uttarakhand and Uttar Pradesh are the important producers of rabi crops.
 - (c) Availability of precipitation during winter months due to the western disturbances helps in the success of these crops. However, the success of the green revolution in Punjab, Haryana, western Uttar Pradesh and parts of Rajasthan has also been an important factor in the growth of the above mentioned rabi crops.
 20. (i) Kharif crops are also known as summer crops. They are sown at the beginning of monsoon and harvested in September-October.
 - (ii) Paddy, maize, jowar, bajra, tur, moong, urad, cotton, jute, groundnut and soybean are important kharif crops. Assam, West Bengal, coastal regions of Odisha, Andhra Pradesh, Tamil Nadu, Kerala, Maharashtra, Uttar Pradesh and Bihar are important rice growing states.
 - (iii) In Assam, West Bengal and Odisha; three crops of paddy are grown in a year. These are called Aus, Aman and Boro.
 21. Rubber is a crop of equatorial region but it is also grown in tropical and subtropical regions.

- (i) It needs moist and humid climate with rainfall more than 200 cm.
- (ii) A temperature range above 25°C is required for rubber plantation.
- (iii) In India, rubber is mainly grown in Kerala, Tamil Nadu, Karnataka and Andaman & Nicobar Islands and also in the Garo hills of Meghalaya.

22.

Rabi Crops	Zaid Crops
Wheat, pea, and mustard	Watermelon, cucumber, fodder crops

23. Conditions needed for the cultivation of tea are as follows:

- (a) **Temperature:** It requires hot and wet climate. The ideal temperature for the growth of tea bushes and leaf varies between 20°C to 30°C. Temperatures below 10°C and over 35°C, can harm the tea bushes.
- (b) **Rainfall:** Tea requires a good amount of rainfall ranging between 150-300 cm and the annual rainfall should be well distributed throughout the year. Long dry spell is harmful for tea.
- (c) **Soil:** Tea bush grows well in well drained, deep, loamy soil. However, virgin forest soils rich in humus and iron content are considered to be the best soils for the tea plantation. Tea is a shade loving plant and grows better when planted along with shady trees.

24. Wheat requires a cool growing season and a bright sunshine at the time of ripening. It requires 50 to 75 cm of annual rainfall evenly distributed over the growing season. Fertile alluvial soil or mixed soil and plain land or gentle slope is ideal for wheat cultivation.

There are two important wheat-growing zones in the country the Ganga-Satluj plains in the northwest - and black soil region of the Deccan. The major wheat-producing states are Punjab, Haryana, Uttar Pradesh, Bihar, Rajasthan and parts of Madhya Pradesh.

25. Three steps were as follows:

- (i) From the earliest days agriculture was given great importance in the “five year plans”. Other important steps included
- (ii) Abolishment of zamindari system. The right to own the land was given to the actual cultivators which then led to the increase in the production.
- (iii) Cooperative societies were formed which provided quality seeds and fertilizers to farmers at low price.
- (iv) Another act called ‘land ceiling act’ was passed, according to which the land could not be held by

a person beyond a defined limit.

Other important institutional reforms were also carried out by the Government of India like:

- (i) Provision for crop insurance against drought, flood, cyclone, fire and disease.
- (ii) Establishment of Grameen (regional rural) banks, cooperative societies and banks for providing loan facilities to the farmers at lower rates of interest.
- (iii) Establishment of Indian Council of Agricultural Research (ICAR), agricultural universities, veterinary services and animal breeding centers, horticulture development, research and development in the field of meteorology and weather forecasting etc.

26. India is the largest producer and consumer of pulses in the world. Pulses are rich in proteins and are the main source of protein. It is second important constituent of Indian diet after cereals.

Pulses are mostly grown in rotation with other crops because

- (i) Pulses need less moisture and survive even, dry conditions.
- (ii) Being leguminous crops, all these crops help in restoring soil fertility by fixing nitrogen from the air.
- (iii) Major pulse producing states are: Madhya Pradesh and Uttar Pradesh.

27. The main staple food crop of India is rice.

- (i) Growing conditions required for rice:
 - (a) High temperature (above 25°C). It is a Kharif crop.
 - (b) High humidity with annual rainfall above 100 cm.
- (ii) Main growing regions: Northern plains, north eastern India, Coastal areas, deltaic plains and river valleys.

28. The three cropping seasons in India are:

- (i) Rabi
- (ii) Kharif
- (iii) Zaid

These are characterised as:

- (i) The kharif season largely coincides with Southwest Monsoon under which the cultivation of tropical crops such as rice, cotton, jute, jowar, bajra and tur is possible.
- (ii) The rabi season begins with the onset of winter in October-November and ends in March-April. The low temperature conditions during this season facilitate the cultivation of temperate and subtropical crops such as wheat, gram and mustard.

- (iii) Zaid is a short duration summer cropping season beginning after harvesting of rabi crops.
- 29. (i) **Land reforms:** Collectivisation, consolidation of land holdings, cooperation and abolition of zamindari.
- (ii) **Agricultural reforms:** Green revolution and white revolution.
- (iii) **Land development programmes:** Provision for crop insurance against drought, flood, cyclone etc., establishment of Grameen banks.
- (iv) Issuing of Kisan Credit Card and Personal Accident Insurance Scheme, etc.
- (v) Special weather bulletins and programmes for farmers on radio and TV.

Long Answer Type Questions

30. (a) As the Agriculture sector provided livelihood for more than 60 percent of India's population, there was a need for serious institutional and technical reforms.
 - (b) Thus after independence, priority was given to bringing about institutional reforms in the country through various measures such as the abolition of zamindari, consolidation of holdings, cooperation, collectivization, etc.
 - (c) The main focus of our First Five Year Plan was 'Land Reforms.'
 - (d) Consolidation of holdings was necessary as there was fragmentation of land holdings which was caused by the right of inheritance.
 - (e) Providing loan facilities to the farmers at lower rates of interest, banks, cooperative societies, and Grameen banks were established.
 31. (i) In commercial farming, most of the produce is sold in the market to earn money (as opposed to subsistence farming).
 - (ii) In this system, farmers use inputs like irrigation, chemical fertilisers, insecticides, pesticides and high yielding varieties of seeds etc.
 - (iii) Some of the major commercial crops grown in different parts of India are cotton, jute, sugarcane, groundnut, etc.
 - (iv) Rice farming in Haryana is mainly for commercial purpose as people of this area are predominantly wheat eaters.
 - (v) However, in East and North-Eastern states of India, rice cultivation would be largely of subsistence type.
 32. (i) Agriculture is considered as the main occupation of majority of people in India.
 - (ii) Agriculture provides raw materials to the manufacturing sector.
 - (iii) It provides food and fodder.
 - (iv) It helps in the development of tertiary sector.
 - (v) It is the main source of our national income.
 - (vi) It also provides a substantial portion of the country's export.
 - (vii) It not only helps to feed large population but also supports the secondary sector.
 33. (i) Major beverage crops - Tea and coffee
 - (ii) Initially cultivation of coffee was introduced in the Baba Budan Hills. Today coffee cultivation is confined to the Nilgiri in Karnataka, Kerala and Tamil Nadu. Karnataka accounts for 70% of the coffee produced in India. Major tea producing states are Assam, West Bengal, Tamil Nadu and Kerala. Apart from these, Himachal Pradesh, Uttarakhand, Meghalaya, Andhra Pradesh and Tripura are also tea-producing states in the country. India is the second largest producer of tea after China.
 34. Two major fibre crops grown in India are cotton and jute.
 - (i) Conditions required for cotton:
 - (a) Temperature: Cotton is the crop of tropical and sub-tropical areas and requires uniformly high temperature varying between 21°C and 30°C.
 - (b) Rainfall: It grows mostly in the areas having at least 210 frost free days in a year. It requires modest amount of rainfall of 50 to 100 cm.
 - (c) Soil: Cotton cultivation is very closely related to Black soils of Deccan and Malwa plateau.
 - (ii) Condition required for jute: Jute grows well on well-drained fertile soils in the flood plains where soils are renewed every year. High temperature is required during the time of growth.
 35. (i) Groundnut
 - (ii) Mustard
 - (iii) Coconut
 - (iv) Sesamum
 - (v) Soybean, Sunflower etc.
- Importance of oil seeds: Most of these are edible in the form of oil. Used as raw materials for manufacturing paints, varnishes, soaps, perfumes, etc.. Oil cake is used as cattle feed and fertiliser.
36. The various institutional reforms introduced by the government in the interest of farmers are mentioned below:

- (i) Provision for crop insurance against drought, flood, cyclone, and disease.
- (ii) Establishment of Grameen banks, cooperative societies and banks for providing loan facilities to the farmers at lower rates of interest.
- (iii) Kisan Credit Card (KCC). Personal Accident Insurance Scheme (PAIS) are schemes introduced by the Government of India for the benefit of the farmers.
- (iv) Special weather bulletins and agricultural program for farmers have been introduced on the radio and television.
- (v) The government also announces minimum support price, remunerative and procurement prices for important crops to check the exploitation of farmers by speculators and middle men.

The technological advancements gave birth to Green Revolution, White Revolution or Operation Flood. Considering the importance of agriculture the Government of India took steps to modernize agriculture.

Indian Council of Agricultural Research (ICAR) was established. The government encourages the use of

- (a) Soil testing facilities
- (b) Technology such as drip irrigation
- (c) Better seeds, fertilisers and pesticides

37. The main initiatives include:

- (i) Land reforms Collectivisation, consolidation of land holdings, cooperation and abolition of zamindari.
- (ii) Agricultural reforms: Green revolution and white revolution.
- (iii) Land development programmes Provision for crop insurance against drought, flood, cyclone, etc., establishment of Grameen banks, Cooperative societies and banks for providing loans.
- (iv) Issuing of Kisan Credit Card and Personal Accident Insurance Scheme, etc.
- (v) Special weather bulletins and agricultural programmes for farmers on radio and TV.
- (vi) Government announces Minimum support Price (MSP) and remunerative and procurement prices

to check exploitation.]

- (vii) The government provides HYV seeds and fertilisers.
- (viii) Government provides technical assistance and training for farmers.
- (ix) Soil testing facilities, cold storage and transportation for farmers.

38. Millets are coarse grains but have high nutritional value, e.g., ragi-rich in iron and calcium.

- (i) Jowar-Rain fed crop mostly grows in moist area.
- (ii) Bajra-grows well on sandy soils and shallow black soil. Producing states - Rajasthan, Maharashtra, Gujarat, Haryana and U.P.
- (iii) Ragi-grows well in dry region on red, black, sandy and loamy soils.

States Producing - Tamil Nadu, Himachal Pradesh, Uttarakhand and Sikkim.

39. (i) Jute is called the golden fibre.

(ii) Geographical conditions required:

- (a) Grows well in drained fertile soil of the flood plains where the soil is renewed every year.
- (b) High temperature is required during the time of growth.

Uses: Can be used to manufacture gunny bags, mats, ropes, yarn, carpets and other artefacts.

40. Geographical conditions required for the growth of maize crop in India:

- (i) It is a kharif crop which requires temperature between 21°C to 27°C.
- (ii) It grows well in alluvial soil.
- (iii) Use of modern inputs such as HYV seeds, fertilizers and irrigation have contributed to the increased production of maize.

41. (i) Three geographical conditions for the growth of rice:

- (a) It requires high temperature (above 25°C).
- (b) Annual rainfall above 100 cm.
- (c) High humidity
- (ii) It is possible to grow rice in areas of less rainfall with the help of irrigation as done in Punjab and Haryana.

5

CHAPTER

Mineral and Energy Resources

Previous Year Questions

Multiple Choice Type Questions

- Which one of the following is an example of the Ferrous Metal? [CBSE 2023]
(a) Copper (b) Tin
(c) Bauxite (d) Nickel
- In which of the following states is Kalpakkam nuclear power plant located? [CBSE 2020]
(a) Gujarat (b) Odisha
(c) Kerala (d) Tamil Nadu
- Choose the correct option from column A and B. [CBSE 2020]

(A)	(B)
(a) Chandrapur thermal power plant	(i) Coking coal
(b) Mayurbhanj iron ore mines	(ii) Amarkantak
(c) Kalol oil fields	(iii) Limestone
(d) Bauxite mines	(iv) Jharkhand
- In which of the following States is Narora Nuclear Power Plant located? [CBSE 2020]
(a) Karnataka (b) Kerala
(c) Tamil Nadu (d) Uttar Pradesh
- Which one of the following minerals is used to harden steel during its manufacturing? [CBSE 2014]
(a) Iron ore (b) Coking coal
(c) Manganese (d) Limestone

Very Short Type Questions

- Suggest any two ways to conserve energy resources in India. [CBSE 2023]
- Suggest any two ways to improve the usage of solar energy. [CBSE 2023]

- Fill in the blank:

_____ is well known for effective use of wind energy in Rajasthan. [CBSE 2020]

- Suggest any one way to enhance the use of natural gas in India. [CBSE 2020]

- Fill in the blanks:

‘Gobar gas plants provide twin benefits to the farmers in the form of _____ and _____. [CBSE 2020]

- Suggest any one way to maximize the use of nuclear energy in the field of medicine. [CBSE 2020]
- Why should the use of cattle cake as fuel be discouraged? [CBSE 2016]
- How are ‘Gobar Gas Plants’ beneficial to the farmers? [CBSE 2016]
- Why are there a wide range of colours, hardness, crystal forms, lustre and density found in minerals? [CBSE 2016]
- How is iron-ore transported from Kudremukh mines to a port near Mangaluru? [CBSE 2016]
- Why aluminium metal has great importance? [CBSE 2015]
- How do minerals occur in sedimentary rocks? [CBSE 2015]
- What are the two types of occurrence of minerals in igneous and metamorphic rocks? [CBSE 2015]
- What is a mineral? [CBSE 2015]

Short Answer Type Questions

- Read the given case and answer the questions that follow.

Conservation of Energy Resources

Energy is a basic requirement for economic development. Every sector of the national economy – agriculture, industry, transport, commercial and domestic needs inputs of energy. The economic development plans implemented since independence necessarily required increasing amounts of energy to remain operational. As a result, consumption of energy in all forms has been steadily rising all over the country. In this background, there is an urgent need to develop a sustainable path of energy development. Promotion of energy conservation and increased use of renewable energy sources are the twin planks of sustainable energy. India is presently one of the least energy efficient countries in the world. We have to adopt a cautious approach for the judicious use of our limited energy resources. For example, as concerned citizens we can do our bit by using public transport systems instead of individual vehicles; switching off electricity when not in use, using power-saving devices and using non conventional sources of energy. At last “Energy Saved is energy produced”. [CBSE 2023]

- (i) Why is sustainable energy a key to sustainable development?
 - (ii) Why is consumption of energy rising in all over India?
 - (iii) Explain Energy saved is energy produced.
21. Classify metallic minerals with an example of each. [CBSE 2020]
 22. “Minerals occur in various forms. Support” this statement with examples. [CBSE 2020]
 23. “Minerals are an indispensable part of our lives”. Support this statement with examples. [CBSE 2020]
 24. Differentiate between anthracite and bituminous coal on the basis of quality. [CBSE 2020]
 25. Describe any three characteristics of the Durg-Bastar-Chandrapur iron-ore belt in India. [CBSE 2017]
 26. Describe any three characteristics of ‘Odisha-Jharkhand belt’ of iron ore in India. [Delhi 2017]
 27. Describe any three characteristics of Ballari-Chitradurga, Chikkamagaluru-Tumakuru iron-ore belt in India. [CBSE Foreign 2017]
 28. “India is an important iron and steel producing country in the world. Yet we are not able to perform to our full potential” Suggest and explain any three measure to get full potential. [CBSE Foreign 2016]

29. Consumption of energy in all forms has been rising all over the country. There is an urgent need to develop a sustainable path of energy development and energy saving. Suggest and explain any three measures to solve this burning problem. [AI 2016]
30. “There is a pressing need to use renewable energy resources.” Justify the statement with suitable arguments. [CBSE 2016]
31. Which minerals are used to obtain nuclear energy? Name all the six nuclear power stations of India. [CBSE 2016]
32. “Natural gas is considered an environment friendly fuel.” Explain the statement in two points. [CBSE 2015]
33. How is geothermal energy produced? Explain. [CBSE 2015]
34. How can biogas solve the energy problem mainly in rural India? Give your suggestions. [CBSE 2015]
35. Describe any three features of ferrous minerals found in India. [Foreign 2015]
36. How is the mining activity injurious to the health of the miners and environment? Explain. [Delhi 2015]
37. Why is mica considered the most important mineral in electric and electronic industries? Give three reasons. [CBSE AI 2014]
38. Why is energy required for all activities? How can energy be generated? Explain. [CBSE Delhi 2014]

Long Answer Type Questions

39. Why is it necessary to conserve mineral resources? Explain any four ways to conserve mineral resources. [AI 2017]
40. ‘Energy saved is energy produced. Assess the statement. [CBSE 2017]
41. Why should we use renewable energy resource? Explain with arguments. [Foreign 2017]
42. Explain the importance of conservation of minerals. Highlight any three measures to conserve them. [CBSE AI 2016]
43. Highlight the importance of petroleum. Explain the occurrence of petroleum in India. [Delhi 2016]
44. How can solar energy solve the energy problem to some extent in India? Give your opinion. [CBSE 2015]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (d) : Nickel
2. (d) : Tamil Nadu
3. (c) : Kalol oil fields - Gujarat
4. (d) : Uttar Pradesh
5. (c) : Manganese

Very Short Type Questions

6. Methods to conserve energy resources:
 - (i) Minerals should be used in a planned and sustainable manner.
 - (ii) Improved technology needs to be constantly evolved to allow use of low grade ore at low cost.
 - (iii) Recycling of minerals must be practiced.
(Any two points to be explained) (2)
7.
 - (i) Reducing the cost of solar panels.
 - (ii) Increase awareness of using solar energy.
 - (iii) Buy panels with high Concentrated Photovoltaic cells (CPV).
 - (iv) Buy one of the most efficient solar panel models.
(Any two points to be explained) (2)
8. Nagarcoil and Jaisalmer
9. Use of natural gas :

Making people aware about the importance of using this clean energy resources because this gas is considered environment friendly.
10. Energy and manure
11. Nuclear medicine use radio-active substances, mostly to diagnose cancer as well as cardiac and other diseases.
12. (a) Cattle cake creates pollution.
(b) By burning, a manure resource is destroyed, which can improve soil fertility.
13. Gobar Gas Plants are beneficial to the farmers in two ways. It provides a clean fuel for domestic cooking and lighting. It also provides high quality manure.
14. The varied colours found in minerals are due to its

chemical composition, and the parameters such as temperature, pressure, rate of cooling etc., present during its formation.

15. Iron ore is transported as slurry through pipelines.
16. Aluminium metal combines the properties of great strength, lightness, malleability and conductivity.
17. In sedimentary rocks, minerals occur in beds and layers.
18. In igneous and metamorphic rocks, minerals may occur in the cracks, crevices, faults or joints. The smaller occurrences are called veins and the larger are called lodes.
19. Mineral is a naturally occurring substance with a definite chemical and crystallographic structure.

Short Answer Type Questions

20.
 - (i) Sustainable energy is a key to sustainable development, as sustainability demands that resource reserves including exhaustible, natural and environmental resources, be maintained.
 - (ii) After getting independence development of all sectors like agriculture, industry, transport, domestic needs etc. necessarily required to remain in operation, hence consumption of energy in all forms has increased all over India.
 - (iii) Energy saved is energy produced. We cannot keep on producing non-renewable energy like petrol, diesel and electricity. So the need of the hour is the better utilisation of existing resources. We have to adopt cautious approach for the judicious use of our limited energy resources.
21. Metallic minerals can be classified as:
 - (i) Ferrous: Provides a strong base for development of metallurgical industries. e.g., Iron ore, manganese
 - (ii) Non-ferrous Plays a vital role in metallurgical, engineering and electrical industries. eg., Copper, lead, bauxite.
 - (iii) Precious: It is an expensive metallic mineral and not corroded by water. It is found in placer deposits eg. gold, silver, platinum etc.
22. Occurrence of minerals:
 - (i) In igneous and metamorphic rocks, minerals may occur in the cracks, crevices, faults or joints. The

smaller occurrences are called veins and the larger are called lodes.

- (ii) In most cases, they are formed when minerals in liquid/ molten and gaseous forms are forced upward through cavities towards the earth's surface. They cool and solidify as they rise. Major metallic minerals like tin, copper, zinc and lead, etc., are obtained from veins and lodes.
- (iii) In sedimentary rocks, a number of minerals occur in beds or layers. They have been formed as a result of deposition, accumulation and concentration in horizontal strata. For example gypsum, potash salt and sodium salt. These are formed as a result of evaporation especially in arid regions.
- (iv) Another mode of formation involves the decomposition of surface rocks and the removal of soluble constituents, leaving a residual mass of weathered material containing ores. Bauxite is formed this way.
- (v) Certain minerals may occur as alluvial deposits in sands of valley floors and the base of hills. These deposits are called 'placer deposits' and generally contain minerals, which are not corroded by water. Gold, silver, tin and platinum are most important among such minerals.

23. Minerals are an indispensable part of our lives.

- (i) Almost everything we use, from a tiny pin to a towering building or a big ship, all are made from minerals.
- (ii) The railway lines and the roads, our implements and machines are all made from minerals.

24.

	Basis of difference	Anthracite coal	Bituminous coal
(i)	Quality	This is the highest quality hard coal.	This is comparatively low grade in quality.
(ii)	Carbon content	It causes less pollution as compared to bituminous, as it has high carbon.	It causes high pollution compare to anthracite, as it has less carbon.
(iii)	Availability	In India, it is available in small quantity.	In India, it is available in abundance.

25. Durg-Bastar-Chandrapur belt lies in Chhattisgarh and Maharashtra.

- (a) It provides very high grade hematite from the famous Bailadila range of hills in the Bastar district of Chhattisgarh.
- (b) The range of hills comprise of 14 deposits of super high-grade hematite iron ore. It has the best physical properties needed for steel making.
- (c) Iron ore from these mines is exported to Japan and South Korea via Vishakhapatnam port.

26. Odisha-Jharkhand belt:

- (a) In Odisha, high grade haematite ore is found in Badampahar mines in the Mayurbhanj and Kendujhar districts.
- (b) In the adjoining Singhbhum district of Jharkhand haematite iron ore is mined in Gua and Noamundi.
- (c) These mines feed the steel industry in the eastern and other parts of India.

27. Ballari-Chitradurga-Chikkamagaluru-Tumakuru belt in Karnataka has large reserves of iron ore.

- (a) The Kudremukh mines located in the Western Ghats of Karnataka.
- (b) They are a 100 per cent export unit.
- (c) Kudremukh deposits are known to be one of the largest in the world. The ore is transported as slurry through a pipeline to a port near Mangaluru.

28. Though, India is an important iron and steel producing country in the world yet, we are not able to perform to our full potential largely due to the following reasons: High costs and limited availability of coking coal and poor supportive infrastructure. Many of the steel plants have outdated technology.

We can greatly improve our performance by adapting the following measures :

- (a) Modernising the technology and machinery.
- (b) Streamlining supply of inputs such as iron ore coke etc.
- (c) Having adequate buffer of electricity capacity.
- (d) Streamlining customer demand and supplies.

29. Energy is a basic requirement for economic development. The strategy of economic development that India adopted since independence required increasing amount of energy consumption. As a result, consumption of energy in all forms has been rising. To take care of this concern various measures that need to be adopted are as follows :

- (i) We need to increase the use of renewable energy resources like solar, wind power, biogas, tidal energy and geothermal energy. This will decrease

the dependence on non-renewable resources.

- (ii) We have to adopt a cautious approach for judicious use of our limited energy resources. For example, as a concerned citizen we can use public transport system in place of individual vehicle.
- (iii) Another measure that needs to be adopted is promotion of energy conservation, e.g., switching off electrical devices when not in use, using power saving devices etc.

30. Need to use renewable energy resources are :

- (i) The growing consumption of energy has resulted in the country becoming increasingly dependent on fossil fuels such as coal, oil and gas.
- (ii) Rising prices of oil and gas and their potential shortages have raised uncertainties about the security of energy supply in future.
- (iii) Has serious repercussions on the growth of our country.
- (iv) Hence, there is a pressing need to use renewable energy resources like solar energy, wind, tide, biomass and energy from waste material.

31. The minerals which are used to obtain nuclear energy are uranium and thorium.

Nuclear Power Stations in India

- (i) Narora nuclear power station.
- (ii) Kakrapar nuclear power station.
- (iii) Tarapur nuclear power station.
- (iv) Kaiga nuclear power station.
- (v) Rawat Bhata nuclear power station.
- (vi) Kalpakkam nuclear power station.

32. Natural gas is used as a source of energy as well as an industrial raw material.

- (i) It can be transported easily through pipelines.
- (ii) Pipelines have helped in setting up fertilizer plants and power plants on its way.
- (iii) Natural gas is a clean source of energy. This is because it causes very less pollution.

33. The earth grows progressively hotter with increasing depth. Where the geothermal gradient is high, high temperatures are found at shallow depths. Groundwater in such areas absorbs heat from the rocks and becomes hot. It is so hot that when it rises to the earth's surface it turns into steam. This steam is used to drive turbines and generate electricity.

34. Biogas can solve energy problem:

- (i) Availability of raw material is not a problem.

(ii) Awareness to be created about biogas.

(iii) It will reduce the burden on conventional sources of energy.

(iv) Educate the rural people about the use of biogas.

(v) It is a renewable source of energy.

(vi) Eco-friendly.

35. Ferrous minerals in India account for approximately three-fourths of the total price of the production of metallic minerals. They provide a strong foundation for the expansion of metallurgical industries. India is also a leading exporter of ferrous minerals, magnetite, hematite are some of the common ferrous minerals. Odisha, Chhattisgarh and Maharashtra are the chief states where these minerals are found.

36. The mining activity is injurious to the health of the miners and environment as :

- (a) The dust and toxic fumes can cause pulmonary disease to the miners.
- (b) The roofs and walls of the mines have a risk of collapsing.
- (c) Flooding or fire are a great risk in mines.
- (d) The water bodies in the region get contaminated by mineral dust.
- (e) Dumping of waste and slurry degrades the land.

37. Mica is :

- (i) Excellent di-electric in strength and has low power loss factor.
- (ii) It has insulating properties and resistance to high voltage.
- (iii) It is the most indispensable mineral used in electric and electronic industries.

38. (i) Energy is a basic requirement for economic development.

(ii) Every sector of the national economy needs input of energy.

(iii) Consumption of energy in all forms has been steadily rising all over the country.

(iv) Rising prices of oil and gas and their potential shortage have raised uncertainties about the security of energy supply in future.

Energy can be generated from fuel minerals like coal, petroleum, natural gas, uranium and from electricity.

Long Answer Type Questions

39. The various reasons for conservation are :

- (i) Strong dependence of industry and agriculture upon minerals. But, are limited in availability.

- (ii) Process of mineral formation is slow.
- (iii) They are non-renewable and exhaustible.

Methods to conserve :

- (i) Minerals should be used in a planned and sustainable manner.
- (ii) Improved technology needs to be constantly evolved to allow use of low grade ore at low cost.
- (iii) Recycling of minerals must be practiced.
- (iv) Use of alternative renewable substitutes.

40. Energy is required for all activities in industries, agriculture, transport and domestic use. It implies that all these activities can take initiatives to conserve energy if we discipline ourselves.

To begin with, each one of us should be always ready and be vigilant to take note of wasteful use and correct it immediately. It may be as simple as putting off an electrical appliance when not in use.

We should develop a mindset to use public transport system instead of individual vehicles.

Electronic devices must be switched off when not in use.

We should use more and more power saving devices and at home we should plan to install solar panels to generate some electricity.

When we do not use a particular quantity of electric power someone else can use it. In absolute sense power plants will need to produce that much less of power; which benefits the environment as that much less fossil fuel will have to be burnt.

41. In the present circumstances particularly in India, there is a pressing need to use renewable energy resources because:
- (i) Non-renewable resources are limited and will get exhausted in few decades, thus there is a need to use inexhaustible energy resources such as solar power, for sustainable development.
 - (ii) There has been a rapid depletion of non-renewable resources like coal, gasoline, petroleum that took millions of years to form. Thus, it makes immense sense to use renewable non-polluting energy resources.
 - (iii) Fossil fuels like coal, petroleum products etc., create pollution which has resulted in environmental degradation making clean energy an urgent requirement.

- (iv) Newer sources of fossil fuels are becoming more and more difficult to find hence they have become more expensive. Thus, it again points to adaptation to renewable energy sources like solar, geothermal, wind energy etc.

42. Conservation of minerals is the need of the hour:

- (i) Minerals are considered to be the backbone of the economy.
- (ii) Industry largely depends on mineral deposits.
- (iii) Total volume of workable mineral deposits is very less-only 1% of the earth's crust.
- (iv) Mineral resources are being consumed rapidly, and minerals deposits need millions of years to be created and concentrated.
- (v) The geological process of mineral formation are so slow that the rates of replenishment are infinitely small in comparison to the present rates of consumption.
- (vi) Mineral resources are finite and non-renewable.
- (vii) The rich mineral deposits of our country are extremely valuable but short-lived possessions.

43. Importance of petroleum are as follows :

- (i) Petroleum is the major energy source in India.
- (ii) It provides fuel for heat and lighting.
- (iii) It provides lubricant for machinery.
- (iv) It provides raw materials for a number of manufacturing industries.
- (v) Petroleum refineries act as core industry for synthetic, textile, fertilizer and chemical industries.

Occurrence :

- (i) Most of the petroleum reserves in India are associated with anticlines and fault traps.
 - (ii) In regions of folding anticline or domes, it occurs where oil is trapped in the crust of the upfold.
 - (iii) Petroleum is also found in fault traps between porous and non-porous rocks.
44. (i) India is a tropical country, therefore it receives sunlight in abundance throughout in rural and remote areas.
- (ii) Solar plants can be easily established in rural and remote areas.
 - (iii) It will minimise the dependence of rural household on firewood and dung cakes which in turn will contribute to environmental conservation and adequate quantity of manure.

6

CHAPTER

Manufacturing Industries

Previous Year Questions

Multiple Choice Type Questions

1. Which of the following industries use bauxite as a raw material? [CBSE 2020 C]
(a) Cement (b) Aluminium smelting
(c) Iron and steel (d) Chemical

Very Short Type Questions

2. Differentiate between the Public and Private Sector. [CBSE 2024]
3. Why does the textile industry occupy unique position in the Indian economy. Explain. [CBSE 2023]
4. Explain any three ways through which industrial pollution can be reduced. [CBSE 2023]
5. Why is the iron and steel industry called as the 'basic industry'? Explain. [CBSE 2021-22C]
6. Explain the importance of 'cement' industry. [CBSE 2021-22 C]
7. Fill in the blank:
_____ industry is used for manufacturing aircraft, utensils and wires. [CBSE Delhi 2020]
8. Limestone, silica, alumina and gypsum are the raw materials of. industry. [CBSE 2020]
9. Suggest any one measure to promote handspun khadi in India. [CBSE Delhi 2020]
10. Suggest any three steps to minimise the environmental degradation caused by the industrial development in India. [CBSE 2016]
11. Why has the 'National Manufacturing Competitiveness Council' been set-up? [CBSE 2015]

12. Why is the 'least cost' known as decision making factor for ideal location of an industry? [CBSE 2014]

Short Answer Type Questions

13. Manufacturing Industries are considered the backbone of economic development. Justify the statement. [CBSE 2024]
14. Read the case given below carefully and answer the questions that follow:

NTPC shows the way

NTPC is a major power providing corporation in India. It has ISO certification for EMS (Environment Management System) 14001. The corporation has a pro-active approach for preserving the natural environment and resources like water, oil, gas and fuels in places where it is setting up power plants. This has been possible through [CBSE 2021-22]

- (a) Optimum utilisation of equipment adopting latest techniques and upgrading existing equipment.
 - (b) Minimising waste generation by maximising ash utilisation.
 - (c) Providing green belts for nurturing ecological balance and addressing the question of special purpose vehicles for afforestation.
 - (i) Which is the major power providing corporation in India?
 - (ii) Name the institution which issues ISO certification for Environment Management System.
 - (iii) Explain the pro-active approach of NTPC for preserving the natural environment.
15. "Manufacturing sector is considered as the backbone

of economic development of a country.” Support the statement with examples.

[CBSE 2021 C, Foreign 2017]

16. Describe the role of industries in the development of agriculture. [CBSE 2019]
17. Explain with examples the interdependence of agriculture and industries. [CBSE Delhi 2017]
18. Classify industries on the basis of source of raw materials. How are they different from each other? [CBSE 2016]
19. “The textile industry is the only industry in the country which is self-reliant and complete in the value chain.” Justify the statement. [CBSE Delhi 2016]
20. Classify industries on the basis of their main role. How are they different from each other? [CBSE Foreign 2016]
21. Classify industries on the basis of capital investment. How are they different from one another? Explain with examples. [CBSE 2016]

Long Answer Type Questions

22. Explain the ways through which the industrial pollution of fresh water can be reduced. [CBSE 2020]
23. How are industries responsible for environmental degradation in India? Explain with examples.

[CBSE Delhi 2019]

24. Describe any five factors responsible for the concentration of iron and steel industry in and around Chota Nagpur Plateau region. [CBSE 2019, 2014]
25. Analyse the role of chemical industries in the Indian economy. [CBSE 2017]
26. Explain the contribution of textile industry in the Indian economy. [CBSE Foreign 2017]
27. Why is economic strength of a country measured by the development of manufacturing industries? [CBSE 2018, Delhi 2016]
28. Explain the pro-active approach adopted by the National Thermal Power Corporation (NTPC). [CBSE 2015]
29. ‘Agriculture’ and ‘Industry’ are complementary to each other.” Explain with five examples. [CBSE Delhi 2014]
30. Why was the cotton textile industry concentrated in the cotton growing belt in the early years? Explain. [CBSE 2014]
31. “Many of our spinners export cotton yarn while apparel manufacturers have to import fabric.” Explain this statement with appropriate reasons. [CBSE 2014]
32. “Production and consumption of Steel is often regarded as the index of a country’s development”. Examine the statement. [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Type Questions

1. Aluminium smelting

Very Short Type Questions

2. The main difference between the public and private sectors is that the government owns, controls, and manages public sectors. In contrast, private sectors are owned, controlled, and managed by individuals, groups, or business entities.

3. It is the only industry in the country, which is self-reliant and complete in the value chain i.e., from raw material to the highest value-added products.

Textile industries create demand for other industries such as chemicals, dyes, packaging materials and engineering works. Thus, it can be concluded that the textile industry occupies a unique position in Indian economy.

4. Three ways through which industrial pollution can be reduced are:

- (i) Machinery and equipment can be used and generators should be fitted with silencers.
- (ii) Waste and effluents should be recycled or treated through biological process and mechanical means.
- (iii) By fitting suitable smoke screens in factories with electrostatic precipitators, scrubbers etc.

5. Iron and steel Industry called as the basic industry' because it is needed to manufacture a variety of engineering goods, construction materials, defence, medical, telephonic scientific equipments and a variety of consumer goods.

6. Importance of cement industry are:

- (i) It is essential for construction activity such as building houses, factories, bridges etc.
- (ii) With the increasing capital expenditure of the government, this industry plays a significant role in the development and produces a variety of cement.

7. Aluminium

8. Cement industry

9. Schemes for promoting khadi: Government should promote it by reducing cost of khadi.

10. Three steps to minimise the environmental degradation caused by industrial development in India are:

- (i) Minimising use of water for processing by reusing and recycling it in two or more successive stages.
- (ii) Harvesting of rain water to meet water requirements.
- (iii) Treating hot water and effluents before releasing them in rivers and ponds.
- (iv) Particulate matter in the air can be reduced by fitting smoke stacks of factories with electrostatic precipitators, fabric filters, scrubbers and inertial separators.
- (v) Smoke can be reduced by using oil or gas instead of coal in factories.
- (vi) Generators should be fitted with silencers.
- (vii) Almost all machineries can be redesigned to increase energy efficiency and reduce noise.

11. To improve the productivity of the industrial sector. However, this has been wound up in March 2016.

12. Ideal location of the industry depends on many factors, availability of raw materials, labour, capital, power and market at a lower cost, to which combines to make the "least cost factor. This is done so that the cost of production is low and the industries can earn greater profits.

Short Answer Type Questions

13. The manufacturing sector is considered the backbone of the economic development of the country due to the following reasons:

- (a) Manufacturing industries not only help modernize agriculture, which forms the backbone of our economy, but they also reduce the heavy dependence of people on agricultural income by providing them jobs in secondary and tertiary sectors.
- (b) Industrial development eradicates unemployment and poverty in our country. This was the main philosophy behind India's public sector industries and joint sector ventures.
- (c) It also tries to reduce regional disparities by establishing industries in tribal and backward areas.

- (d) Export of manufactured goods expands trade and commerce and brings in much-needed foreign exchange.
- (e) Countries that transform their raw materials into a wide variety of highly valued furnished goods are prosperous. India's prosperity lies in increasing and diversifying its manufacturing industries as quickly as possible.
14. (i) NTPC is the major power providing corporation in India, which is expanded as National Thermal Power Corporation.
- (ii) An ISO certification in India can be issued by a third party certification body that is accredited by the National Accreditation Board of certification
- (iii) (a) Optimum utilisation of equipment adopting latest techniques and upgrading existing equipment
- (b) Minimising waste generation by maximising ash utilisation.
- (c) Providing green belts for nurturing ecological balance and addressing the question of special purpose vehicles for afforestation.
15. (i) Manufacturing sector provides the basic inputs to the agricultural sector. For example, industries providing tractors, harvesting machines, fertilisers etc., that make the basic inputs for the sector. It helps in modernisation of the agricultural activity.
- (ii) An example is the establishment of industries in tribal and backward areas. The industrial sector provides employment to a large number of people and improves their economic status.
- (iii) Manufacturing sector improves employment because manufacturing sector is added value to goods, the country can export products instead of raw materials. For example, USA.
16. (i) Industries provide agricultural implements machine and other products to the agricultural sector such as PVC pipes, irrigation pumps, fertilisers, pesticides, insecticides etc.
- (ii) Due to these products provided by the industries to the agricultural sector, the agricultural production increases. These inputs also improve the efficiency of production.
- (iii) Green revolution in Punjab and Uttar Pradesh was achieved only because the industries provided products like fertilisers, tractors and irrigation pumps to the farmers.
- (iv) Thus, agricultural development is possible only due to the support from the manufacturing industries.
- (v) Because of the inputs from the industry the employment opportunities in the agricultural sector also increases.
17. The interdependence of agriculture and industries is based on many things like adequate rainfall and good crops. Some of the examples are when the rain fails, the crops fail, the industries suffer and we have losses in our business as the purchasing power falls. If the cotton crops fail the clothing industries suffer and the other industries also suffer.
- If the poultry farms do not produce enough eggs the bakery industries which use egg as their important ingredient also suffers.
18. On the basis of sources of raw materials industries are classified as:
- (i) **Agro based:** Agro based industries draw their raw materials from agricultural products. For example,
- (ii) Textiles, sugar, coffee, tea and edible oil.
- (iii) Mineral based: They draw their raw materials from minerals. For example, Iron and Steel industries, cement, petrochemicals etc.
- While in agro based industries, value addition is done at every stage; in case of mineral based industries refining is a more important activity.
19. The textile industry is considered as self-reliant because products produced at each stage are used as raw materials for next stage of production. Value chain refers to a number of activities that industry performs right from the production of raw materials to the delivery of finished products and add substantial value to that product at each stage of processing.
20. Industries can be classified according to the role they play in the economy of the country. They are:
- (i) Basic or key industries which supply their products or raw materials to manufacture other goods eg. iron and steel and copper smelting, aluminium smelting. These industries help in the establishment of other industries.
- (ii) Consumer industries that produce goods for direct use by consumers sugar, toothpaste, paper, sewing machines, electric fans etc.
21. (i) Classification of the industries on the basis of capital investment:
- (a) Small Scale Industry
- (b) Large Scale industry
- (ii) Difference: Small scale Industries They employ less number of people and capital. Most of the

work is done by small machines and manpower. They use less raw materials and their production is also less. Example Radio, TV making, agricultural implements etc.

Large scale Industries These industries employ large number of people and capital. Work is done by large machines and manpower. They use large amount of raw materials and produce more products. Examples are textile industry, steel industry etc.

Long Answer Type Questions

22. When an industry discharges one litre of polluted water without any proper treatment, it can pollute at least eight times the quantity of freshwater. To reduce the pollution of water bodies the following action should be taken

- (i) Minimising use water for processing by reusing and recycling it in two or more successive stages.
- (ii) Harvesting of rainwater to meet water requirements.
- (iii) Treating hot water and other effluents before releasing them in water bodies.
- (iv) Overdrawing of ground water reserves by industry or even for agricultural purposes need to be regulated, and a viable solution needs to be implemented.

23. Industries are responsible for environmental degradation in the following ways:

- (i) Many times pollution norms are not followed by the industries. The effluents are not treated before they discharge into air or water bodies.
- (ii) Toxic gas leaks can be very hazardous with long-term effects, as happened after the Bhopal Gas tragedy. Hence meticulous maintenance of equipment is necessary.
- (iii) Thermal pollution of water occurs when hot water from factories and thermal plants is drained into rivers and ponds before cooling, this greatly harms the aquatic plants and animals.
- (iv) They release toxic dyes, detergents, acids, salts and heavy metals like lead and mercury, various pesticides fertilisers, synthetic chemicals, plastics and rubber etc. into the water bodies.
- (v) Mismanagement of wastes from nuclear power plants can cause cancers and birth defects.

24. Chotanagpur region is the hub of many iron and steel plants because:

- (i) Iron and steel industry requires iron ore, coal,

limestone and manganese which are available in close proximity.

- (ii) Good network of roads and railway facilitates the movement of raw materials to iron and steel plants.
 - (iii) Rivers provide the cheapest means of inland water transport for iron and steel goods.
 - (iv) Nearness to the city of Kolkata provides huge market, banking, insurance and financial services for iron and steel plants.
 - (v) Availability of cheap labour from Bihar, West Bengal, Jharkhand and Chhattisgarh.
 - (vi) Hence due to these locational advantages iron and steel plants like Jamshedpur, Durgapur, Burnpur, Bokaro and Rourkela are confined to the Chhotanagpur region.
25. (i) The chemical industry in India is fast growing and diversifying. India is a strong global dye-supplier accounting for approximately 10% of the world production of dye stuff and dye intermediates. India ranks 9th in export and 6th in imports of chemical (excluding pharmaceutical products) globally.
- (ii) Rapid growth has been recorded in both inorganic and organic sector. Organic chemicals include petrochemicals which are used for manufacturing of synthetic fibres, rubber, plastics, and dye stuffs. Inorganic chemicals include sulphuric acid, fertilisers, synthetic fibres, plastics, adhesives, paints etc.
 - (iii) The chemical industry is its own largest consumer with value addition.
26. (i) The textile industry occupied unique position in the Indian Economy.
- (ii) It contributes significantly to industrial production employment generation and foreign earnings.
 - (iii) In a developing country like India, the textile industry is very important, as it has to meet the demands for clothes from within the country and also for exports.
27. The economic strength of a country is measured by development of a country”.
- (i) **Utilisation of Natural Resources:** Utilisation of huge volume of natural resources has become possible with the development of industries in the country.
 - (ii) **Balanced Sectoral Development:** Growth of Industrialisation in the country can attain balanced sectoral development and it can reduce

the too much dependence of the economy on the agricultural sector.

(iii) **Enhanced Capital Formation:** Increasing volume of investment in industries has led to enhancement in the rate of capital formation in the country.

(iv) **Increase in National Income and Foreign Exchange:** Industries contribute a good portion of the total national income of our country.

(v) **Increase in Job Opportunities:** It Increases the job opportunities for a large section of population of the country.

(vi) Development of Industries brings down regional economic and social disparities as incomes rise and people from different strata of the society work together.

28. The pro-active approach adopted by the National Thermal Power Corporation (NTPC) for preserving the natural environment are as follows:

(i) Optimum utilisation of equipment adopting latest techniques and upgrading existing equipment.

(ii) Minimising waste generation by maximising ash utilisation.

(iii) Providing green belts for nurturing ecological balance and afforestation.

(iv) Reducing environmental, pollution through ash pond management, ash water recycling system and liquid waste management.

(v) Ecological monitoring review and online database management for all its power stations.

29. Importance of Manufacturing:

(i) Manufacturing industries help in modernising agriculture, which helps the efficiencies of agricultural practices.

(ii) It reduces the heavy dependence of people on agricultural income. This becomes possible because of creation of new jobs in secondary and tertiary sectors.

(iii) Industrial development helps in eradication of unemployment and poverty. Industries in underdeveloped areas reduce regional disparity.

(iv) Export of high quality manufactured goods expands trade and commerce faster and brings in much needed foreign exchange. This is many times better than exporting basic raw materials as was happening during the British era.

(v) A country with high level of manufacturing activities becomes prosperous.

Agriculture and industry are closely interlinked. Manufacturing gives a boost to agriculture by raising its productivity. Industrial products that are commonly used in agriculture include irrigation pumps, tractors, fertilizers, insecticides, pesticides, plastic and PVC pipes and other machines and tools.

30. The cotton textile industries were mainly concentrated in the cotton growing belt of Gujarat and Maharashtra, in the early years because:

(i) The moist climate of the area helped in the growth of cotton. So raw cotton was readily available in the area.

(ii) There were ports nearby so the manufactured goods could be easily transported.

(iii) There was enough labour force in the area. There were farmers, cotton ball pluckers and workers who did the work of spinning, weaving, dyeing, tailoring and sewing.

(iv) It was easy to access the markets for finished goods from here.

(v) Other supporting Industries involved in manufacturing dyes and packaging materials were available in the area.

31. (i) The weaving, knitting and processing units cannot use much of the high quality yarn that is produced in the country.

(ii) Cotton textile industries face the problem of an erratic power supply which decreases in labour productivity.

(iii) The output of labour is low due to poor machine and power supply

(iv) The machine need to be upgrade especially in the weaving and processing sectors.

(v) Therefore, many of our spinners export cotton yarn while apparel/garment manufactures have to import fabric.

32. (i) Steel production is the backbone of any country's economy since it is the basic unit for the development of the nation.

(ii) Almost every industry depends on iron and steel for its manufacturing and production.

(iii) Construction material, defence, medical, telephonic and scientific equipments are the gifts of iron and steel industries.

(iv) In today's era of globalisation, consumption of goods is increasing. Thus, it can be concluded that growth in production of steel is regarded as the index of country's development.

7 CHAPTER

Lifelines of National Economy

Previous Year Questions

Multiple Choice Type Questions

1. Match the following and select the correct option:
[CBSE 2021 C]

Sea		Port State	
I.	Kandla	1.	West Bengal
II.	Tuticorin	2.	Odisha
III.	Paradwip	3.	Tamil Nadu
IV	Haldia	4.	Gujarat

I II III IV

- (a) 1 2 3 4
(b) 2 3 1 4
(c) 4 3 2 1
(d) 4 3 1 2
2. Which of the following is a source of 'mass communication'?
[CBSE 2021 C]
(a) Book (b) Telephone
(c) Personal letter (d) Parcel
3. National Waterway No. 1 is navigable between which of the following places?
[CBSE 2014]
(a) Sadiya and Dhubri
(b) Allahabad and Haldia
(c) Udyogamandal and Champakkara
(d) Kottapuram and Komman

Very Short Type Questions

4. Read the following table and answer the question that follow:

The Indian Railway network

Gauge in Meters	Route (Km)	Running Track (Km)	Total Track (Km.)
-----------------	------------	--------------------	-------------------

Broad Gauge (1.676)	63,491	89,521	1,17,560
Meter Gauge (1.000)	3,200	3,462	3,775
Narrow Gauge (0.762 and 0.610)	1,751	1,752	1,901
Total	68,442	94,735	1,23,236

- (i) Which gauge covers maximum of track length in hilly areas in India?
(ii) Which gauge has the highest length in India?
[CBSE Term-11, 2021-22]
5. Which is the oldest artificial sea port of India?
[CBSE Delhi 2020]
6. Name the first major sea port developed soon after Independence on the Western Coast. [CBSE 2020]
7. Name the inland riverine major sea port of India.
[CBSE 2020]
8. Which is the deepest, landlocked and well protected sea port of India?
[CBSE Delhi 2020]
9. Which organisation is responsible for constructing and maintaining State Highways in India?
[CBSE 2020 C]
10. Name the organisation that constructs and maintains the District Roads.
[CBSE 2020 C]
11. Suggest any one way to enhance pilgrimage tourism through Indian Railways. [CBSE Delhi 2020]
12. Suggest any one way to improve the postal system in India. [CBSE 2020]
13. Name the river related to National Waterways No. 2.
[CBSE AI 2017]
14. Name the river which is related to National Waterways No. 1.
[CBSE AI 2017]
15. Name the state related to National Waterways No. 3.
[CBSE Foreign 2017]

16. What is a new arrival on the transportation map of India? [CBSE 2016]
17. What is the major objective to develop super highways? [CBSE 2015]
18. Why was Jawaharlal Nehru port developed? [CBSE 2015]
19. Why was the Haldia seaport set-up? [CBSE 2015]

Short Answer Type Questions

20. Read the source given below carefully and answer the questions that follow :

Lifelines of National Economy

For a long time, trade and transport were restricted to a limited space. With the development in science and technology, the area of influence of trade and transport expanded far and wide. Today, the world has been converted into a large village with the help of efficient and fast moving transport. Transport has been able to achieve this with the help of equally developed communication system. Therefore, transport, communication and trade are complementary to each other.

Today, India is well linked with the rest of the world despite its vast size, diversity and linguistic and socio-cultural plurality. Railways, airways, waterways, newspapers, radio, television, cinema and internet, etc., have been contributing to its socio-economic progress in many ways. The trades from local to inter national levels have added to the vitality of its economy. It has enriched our Life and added substantially to growing amenities and facilities for the comforts of life.

- (i) How is science an important factor in the development of transport?
- (ii) How has transport integrated socio-cultural plurality? Explain.
- (iii) Analyse the significance of communication for a nation. [CBSE Term-II, 2021-22]
21. "Rail transport suffers from certain problems in India" Support the statement with examples. [CBSE 2020]
22. 'Efficient means of transport are pre-requisites for the fast development' Express your views in favour of this statement. [CBSE 2020 Delhi 2016]

OR

'Dense and efficient network of transport is a pre-requisite for local and national development'. Analyse the statement. [CBSE 2018 AI 2017]

23. 'The pace of change in the communication sector has been rapid in modern times: Support the statement with examples. [CBSE 2020]
24. Examine with example the role of means of transport and communication in making our life prosperous and comfortable. [CBSE AI 2017]
25. Elaborate any three advantages of railways in India. [CBSE 2016]

OR

Explain the importance of railways as the principal mode of transportation for freight and passengers in India. [CBSE AI 2015]

26. What is pipeline transportation? Write two merits and demerits of the same. [CBSE 2016]
27. Describe the rural roads in India. [CBSE 2015]
28. Describe any three features of waterways in India. [CBSE AI 2015]
29. Describe any three factors that accord prominence to airways as a mode of transportation. [CBSE 2015]
30. Why are metalled roads better than unmetalled roads? What is the role of border roads and national highways in transportation? [CBSE 2015]
31. Describe the significance of tourism as a trade in India. [CBSE 2015]
32. Explain the ways in which tourism promotes the related industries and services of the destination country. [CBSE 2015]
33. How do means of transport and communication play an important role in the economic development of the country? Explain. [CBSE Delhi 2014]

Long Answer Type Questions

34. What role did ancient waterways play in India's transportation system, and how do they continue to be significant in modern times? [CBSE 2023]
35. How are waterways an important mode of transport for both passenger and cargo traffic in India? Explain. [CBSE 2023]

36. Explain the important features of Air Transport of India. [CBSE 2023]

37. Read the following source and answer the questions that follows:

Tourism

Tourism in India has grown substantially over the last three decades. More than 15 million people are directly engaged in the tourism industry. Tourism also promotes national integration, provides support to international understanding about our culture and heritage. Foreign tourists visit India for heritage tourism, eco tourism, adventure tourism cultural tourism, medical tourism and business tourism.

There is a vast potential for development of tourism in all parts of the country. Efforts are being made to promote different types of tourism for this upcoming industry.

(i) Explain the importance of tourism.

(ii) Give an example of 'Heritage tourism':

(iii) Assess the benefits of improving tourism in India.

[CBSE Term-II 2021-22]

38. Describe the physical and economic factors that influenced the distribution pattern of the Indian Railway. [CBSE 2020, Foreign 2016, 2015]

39. Describe the growing importance of road transport. [CBSE 2020]

40. 'Roadways still have an edge over railways in India'. Support the statement with examples. [CBSE 2020 C, Delhi 2019, AI 2016]

41. 'Communication provides entertainment and creates awareness among masses'. Justify the statement. [CBSE 2020 C]

42. "Tourism in India provides large amount of employment and promotes national integration." Justify the statement. [CBSE 2020 C]

43. Highlight the significance of pipelines as the means of transportation, with the help of suitable examples. [CBSE 2019 C]

44. Highlight major problems faced by road transport in India. [CBSE 2019 C]

45. Why is air travel preferred in North-Eastern States of India? Explain with examples. [CBSE 2019 C]

46. Describe any five benefits of tourism in India. [CBSE AI 2019] R

47. Highlight any five features of Hazira-Vijaipur-Jagdishpur gas pipeline. [CBSE 2016]

48. How do modern means of transport serve as lifelines of our nation? Explain. [CBSE 2016]

49. Classify communication services into categories. Explain main features of each. [CBSE 2016]

50. What is trade? Explain the importance of international trade. [CBSE 2016] R

51. Define the term 'Tourism: Why is tourism known as a trade? Explain. [CBSE 2016] An

52. 'Road transport and Rail transport in India are not competitive but complementary to each other: Justify the statement. [CBSE Foreign 2015]

53. "Advancement of international trade of a country is an index to its prosperity." Support the statement with suitable examples. [CBSE 2014]

Explanations

Multiple Choice Questions

1. (b) 2. (c) 3. (c) 4. (b) 5. (a)
6. (c) 7. (b) 8. (d) 9. (c) 10. (a)
11. (a) 12. (a) 13. (a) 14. (d) 15. (a)
16. (c) 17. (a) 18. (c)

Case-Based Type Questions

Case Study-I

1. (d) 2. (a) 3. (d)

Case Study-II

1. (d) The distribution pattern of railway network is influenced by topographical, economic and administrative factors.
2. (c) Railways were first introduced to India in 1853, when a line was constructed from Mumbai to Thane covering a distance of 34 km.
3. (b) Indian railway network is mostly concentrated in Ganga Plains due to their topographical uniformity, high population density and rich agricultural resources.

Image Based Type Questions

1. (b) 2. (d)

Map Based Type Questions

1. (a) It is located in West Bengal.
2. (b) It is located in Maharashtra.
3. (c) It is located in Tamil Nadu.

Previous Year Questions

Multiple Choice Questions

1. (c) 4 3 2 1
2. (a) : Book
3. (b) Allahabad and Haldia

Very Short Type Questions

4. (i) Since hilly areas have dissecting and undulating terrain, narrow gauge would be an appropriate option.
(ii) To broad gauge base the highest length in India is 1,17,560 km.
5. Chennai
6. Kandla port was developed soon after independence, on the western coast.
7. Kolkata port is the inland riverine major port of India.
8. Visakhapatnam
9. Border roads have improved the accessibility in areas of strategic importance and rid of difficult terrain. They also helped in the economic development of these areas.
10. SPWD (state public works department)
11. Railways for enhancing pilgrimage -Pilgrim special tourist train, by providing tourist packages, by making different boarding and de-boarding stations.
12. Use of Technology in postal system.
13. The Brahmaputra river between Sadiya and Dhubri (891. km).
14. The Ganga river between Allahabad and Haldia (1620 km).
15. Kerala
16. Pipeline transportation network is a new arrival on the transportation map of India. It transports gas, liquids and solids in slurry form.
17. The major objective behind developing super highways is to reduce distance and time taken to travel between the large cities of India.
18. JLN port was developed with the aim to decongest the Mumbai port and serve as a hub to this region.
19. Haldia seaport was set-up as a subsidiary port to reduce the load of Kolkata port.

Short Answer Type Questions

20. (i) Today transport is cheaper, carries goods farther

and get us to our destination easily. It is an outcome of science that improved and developed the operational characteristics such as speed, affordability, price, etc.

- (ii) Transport integrated the socio-cultural plurality by efficiently moving goods and people from one place to another.
- (iii) Communication helps in quick transmission of ideas, information and messages from person to person and from one place to another. It has connected all regions of a nation and all nation with the world. Well-developed communication also gives boost to transport system of a nation.

21. Problems faced by railway transport:-

- (i) Indian railway receives low investment as compared to other departments.
- (ii) It has also faced a problem as sinking of track in some stretches and land slides.
- (iii) Poor infrastructure such as old track, poor quality of food etc.

22. We need various things to sustain our lives in the form of goods, services and support systems. The same applies to all occupational activities. Each of the requirements cannot be in the close vicinity of our place of living.

We need to move the goods and services from the supply localities to the demand localities and this is done by the transportation system. We also need efficient transportation for people to reach their places of work, play and learning efficiently. All these activities, which are integral in the economic growth of the local population and the country as a whole is greatly dependent on the transport sector.

Thus a dense and efficient network of transportation is a pre-requisite for local and national development. Examples are as follows :

- (i) Fast and efficiently moving transport is required for traded items to reach their destinations on time, otherwise business will suffer.
- (ii) Transport is required to carry raw materials to production centers.
- (iii) From manufacturing hubs to market particularly for perishable goods.

23. The pace of change in the communication sector has been rapid in modern times’.

- (i) Long distance communication is far easier without physical movement of the communicator or

receiver.

- (ii) Personal communication and mass communication including television, radio, press, films, etc. are the major means of communication in the country.
- (iii) The Indian postal network is the largest in the world. It handles parcels as well as personal written communications.
- (iv) Cards and envelopes are considered first-class mail and are airlifted between stations covering both land and air.
- (v) The second-class mail includes book packets, registered newspapers and periodicals.

24. Transportation and communication have made our life prosperous and comfortable in the following ways:

- (i) Because of transport, raw materials reach the factory and finished products reach to consumers. The pace of development of a country depends upon the production of goods and services as well as their movement over time. Therefore efficient means of transport are a pre-requisite for fast development.
- (ii) Apart from transport, the ease and mode of communications, like mobiles, internet and WiFi makes the seamless flow of information possible.
- (iii) Today, India is well-linked with the rest of the world despite its vast size, diversity and linguistic and socio-cultural plurality. Railways, airways, waterways, newspaper, radio, television, cinema and internet etc, have been contributing to its socio-economic progress in many ways. The trade from local to international level has added to the vitality of its economy. It has enriched our life and has added substantially to growing amenities and facilities for the comforts of life.

25. (i) Railways facilitates regular and efficient long distance travel and transportation of bulky goods which are not easily transported through motor vehicles.

- (ii) It helps in the industrialisation process of a country by easy transportation of coal and raw-materials efficiently and at a cheaper rate.
- (iii) It helps in the quick movement of goods from one place to another at the time of emergencies like famines and scarcity.
- (iv) It encourages mobility of labour and there by

provides a great scope for employment.

- (v) Railway is the safest form of transport. The chances of accidents and breakdown of railways are minimum as compared to other modes of transport. Moreover, the traffic can be protected from the exposure to sun, rain snow, etc.
- (vi) The carrying capacity of the railways is extremely large. Moreover, its capacity is elastic which can easily be increased by adding more wagons.
- (vii) It is the largest public sector undertaking in the country. Railways perform many public utility services. Their charges are based on charge what the traffic can bear which helps the poor.

26. Pipeline transport network is the new mode of transport. In the past pipelines were used to transport water to cities and industries. Now, these are used for transporting crude oil, petroleum products and natural gas from oil and natural gas fields to refineries, fertiliser factories and big thermal power plants. Solids can also be transported as slurry.

Merits :

- (i) Useful in transporting gas, liquids and solid slurry from far away location.
- (ii) Subsequent running costs after laying down the network are minimal
- (iii) It rules out trans-shipment losses or delays.

Demerits :

- (i) Initial cost of laying pipelines is high.
- (ii) Pipelines can burst or can have leakage leading to wastage of valuable resource like water, mineral oil etc.

27. (i) Rural roads link rural areas and villages with important towns.

- (ii) These roads received special impetus under the Pradhan Mantri Gram Sadak Yojna.
- (iii) Special provisions are made so that every village in the country is linked to a major town in the country by an all season motorable road.

28. Features of waterways in India are :

- (i) India has been one of the sea-facing countries.
- (ii) Sea men sailed far and near; carrying and spreading Indian commerce and culture.
- (iii) Waterways are the cheapest means of transport.
- (iv) They are most suitable for carrying heavy and bulky goods over long distance.

- (v) It is fuel-efficient and environment friendly mode of transport.

29. Following are the factors that accord prominence to airways as a mode of transportation:

- (i) They are the fastest mode of transportation.
- (ii) They are the best means of transport for remote, inaccessible and hostile areas.
- (iii) Airways play a vital role in the event of natural and (human-made calamities like floods, famines, earthquake, epidemics and war by virtue of their swiftness.

30. Metalled roads are made of either cement, concrete or bitumen of coal therefore, these are durable over unmetalled road. Unmetalled roads go out of use in rainy season.

Border roads play an important role in connecting strategically important difficult areas in the Indian borders and helps in the economic development of the area. National Highways are the primary road system which links extreme parts of the country.

31. Significance of tourism as a trade in India.

- (i) Tourism in India has grown substantially over the last three decades.
- (ii) Foreign tourists arrival has witnessed an increase thus, contributing to foreign exchange.
- (iii) Over 41 million people are directly engaged in the tourism industry.
- (iv) It provides support to local handicrafts and cultural pursuits.
- (v) Domestic tourism also promotes national integration.
- (vi) It helps in development of international understanding about our culture and heritage.
- (vii) Foreign tourists visit India for heritage tourism, eco-tourism, adventure tourism, cultural tourism, medical and business tourism.

32. The industries closely linked with tourism is handicraft industry, sculpture, sea-shell, regional handloom, etc. Indian handicraft and handloom in particular hold special attraction for the western tourists. Hospitality in services sectors is benefited immensely by tourism.

The transportation services reap tilt benefits of tourism. Over 10 million foreign tourists visit India in 2017. For example, tourism contributed \$230 billion

to the Indian exchequer in year 2017 and generated employment for over 15 million people in the tourism industry.

33. Transport and communication are the basic arteries of a nation's economy because :

- (i) Economic development of a region or a country very largely depends upon the dense network of transport and communication.
- (ii) They link areas of production with consumption, agriculture with industry and village with towns and cities.
- (iii) They help the industry by transporting raw materials and distribution of finished goods.

Long Answer Type Questions

34. Importance of Waterways in India

- (i) **Ancient Transport:** Waterways, including rivers and canals, have historically facilitated the movement of goods and people via boats and steamers.
- (ii) **Efficient Cargo Movement:** They enable efficient transport of heavy goods like coal and cement, linking inland areas to coastal ports.
- (iii) **Access to Remote Areas:** Inland waterways provide crucial transport options in dense forests and difficult terrains.
- (iv) **Fuel Efficiency:** Water transport is more fuel-efficient and environmentally friendly compared to road and rail options.
- (v) **Modernization Efforts:** India is enhancing navigability through dredging and building dams, improving trade and passenger transport.

35. Waterway's is an important mode of transport for both passenger and cargo traffic in India.

- (i) The most ancient mode of water transport includes rivers, canals, lakes and coastal areas. Cargo as well as passenger was transported from one place to another through boats and steamers.
- (ii) Heavy and bulky goods being exported or imported are easier for trans-shipment from water ways to ship on the coast as the waterways led to ports.
- (iii) Inland waterways are the only means of transport in dense forests. Also, heavy cargo goods like coal, cement, timber and metallic ores can be transported through this mode.

(iv) It is fuel efficient and environment friendly mode of transport, so it most suitable for carrying heavy and bulky goods and people over long distance.

(v) Its importance has been recognised in the developed world for both domestic and international trade. Efforts have been made to modify rivers to enhance navigability by dredging, stabilising river banks, and building dams and barrages for better regulation of water flow.

36. (i) The air travel, today, is the fastest most comfortable and prestigious mode of transport.

(ii) It can cover very difficult terrains like high mountains, dreary deserts, dense forests, and long oceanic stretches with great ease, serving India (varied relief and terrain) adequately.

(iii) In India, it is because of air travel that visits to the north-eastern part of the country marked by dissected relief rivers, dense forests, frequent floods and international frontiers has become much convenient and easier.

(iv) Air transport is essential in providing for import and export of various goods.

(v) It also provides for quick relief measures and rescue operations in difficult times of natural calamities and disasters.

The advancement in the means of air transport has proved to be of great importance to the efficiency of the Indian economy as a whole. From increasing the popularity of tourist destinations to the role of a lifesaver during emergency situations, it has significantly added to the vitality of the Indian Economy.

37. (i) Tourism boosts the revenue of the economy, creates thousands of jobs, develops the infrastructures of a country, and plants a sense of cultural exchange between foreigners and citizens.

(ii) Monuments like Qutub minor, Taj mahal. etc. are examples of cultural heritage.

(iii) Tourism has great capacity to create large scale employment of diverse kind - from the most specialised to the unskilled. Tourism can only be sustainable when it is carefully managed. It helps to preserve several places which are of historical importance by declaring them as heritage site. Tourism can also help in conserving the natural habitats of many endangered species.

38. The distribution pattern of the Railway network :

- (i) The northern plains with their vast level land, high population density and rich agricultural resources provided the most favourable condition for the growth of railways.
- (ii) In the hilly terrains of the peninsular region, railway tracks are laid through low hills, gaps or tunnels.
- (iii) The Himalayan mountainous regions are unfavourable for the construction of railway lines due to high relief, sparse population and lack of economic opportunities.
- (iv) It was difficult to lay railway line on the sandy plain of western Rajasthan, swamps of Gujarat, forested tracks of Madhya Pradesh, Chhattisgarh, Odisha and Jharkhand.
- (vi) The stretch of Sahyadri mountains could be crossed only through gaps or passes (Ghats). Development of railways in these areas have been difficult and so it is sparse.

39. The growing importance of road transport:

- (i) Construction cost of roads is much lower than that of railway lines.
- (ii) Roads can traverse comparatively more dissected and undulating topography.
- (iii) Roads can negotiate higher gradients of slopes and as such can traverse mountains such as the Himalayas.
- (iv) Road transport is economical in transportation of few persons and relatively smaller amount of goods over short distances.
- (v) It also provides door-to-door service, thus the cost of loading and unloading is much lower.

40. Roadway's still have an edge over the railways. This is because:

- (i) Construction cost of roads is much lower than that of railway lines and construction time is also comparatively less.
- (ii) Roads can traverse comparatively more dissected and undulating topography which is a limitation in case of railways.
- (iii) Roads can negotiate higher gradients of slopes and as such can traverse mountains like the Himalayas,

whereas the mountainous regions are unfavourable for the construction of railway lines due to high relief. Similarly it is difficult to lay railway lines on the sandy plains in the deserts, swampy or forested tracks.

- (iv) Road transport is economical in transportation of few persons and relatively smaller amount of goods over short distances, whereas railways are suitable for transportation of large number of people and goods in bulk, especially over long distances.
- (v) Roadways provide the 'last mile connectivity' and provide the door to door service, thus the cost of loading and unloading is much lower.
- (vi) Road transport is the feeder mode of transport to other modes of transport such as they provide a link between railway stations, air and seaports.

41. Communication refers to convey messages and ideas between individuals or masses. They provide entertainment and create awareness among the masses and integrated the people in the following ways:

- (i) Everyday at regular intervals, we hear or watch the news on the radio and television.
- (ii) News are given on variety of subjects and topics and people come to know what is happening in the society, politics and economy.
- (iii) Doordarshan, the national television channel of India, is one of the largest terrestrial networks in the world. It broadcasts a variety of programmes for entertainment, educational, sport etc. for people of different age groups.
- (iv) People are entertaining through watching videos, feature films and short films.
- (v) India is one of the fastest growing mobile networks in the world. Mobile phones have changed the way of business. Now, even low-income group people like vegetable vendors, plumbers and carpenters do better businesses because they are connected through mobile phones.

42. There has been a sustained growth in tourism in India over the last three decades. More than 15 million people are directly engaged in the tourism industry. Over 10 million foreign tourists arrived in India in 2017.

Tourism also promotes national integration, provides support to local handicrafts and cultural pursuits.

It also helps in the development of international understanding about our culture and heritage.

Foreign tourists visit India for heritage tourism, eco-tourism, adventure tourism, cultural tourism, medical tourism and business tourism.

43. Pipeline transport is the transportation of goods or materials through a pipe. In the past, pipes were used to transport water to cities and industries. Now, these are also used for transporting crude oil, petroleum products and natural gas from oil and natural gas fields to refineries, fertiliser factories and big thermal power plants. Solids can also be transported through a pipeline when converted into slurry.

The far inland locations of refineries like Barauni, Mathura, Panipat and gas based fertiliser plants have been functioning only because of pipelines. Initial cost of laying pipelines is high but subsequent running costs are minimal. It rules out trans-shipment losses or delays.

44. Road transportation in India faces a number of problems. Keeping in view the volume of traffic and passengers, the road network is inadequate.

About half of the roads are unmetalled and this limits their usage during the rainy season.

The National Highways are inadequate too. Moreover, the roadways are highly congested in cities and most of the bridges and culverts are old and narrow.

45. Factors that made air travel prominent in North-Eastern states in India.

- (i) It can cover difficult terrain areas like high mountains which are, by road, difficult to reach.
- (ii) The north-eastern part of the country marked with the presence of big rivers, dense forest and frequent floods and international frontiers has made air travel important.
- (iii) As per the geographical location of north-eastern states, the area known by road can be accessed to the Siliguri corridor (Sikkim) is the only route to connect with other parts of India. In this scenario, air travel is placed on utmost importance.

46. Tourism is very important for the Indian economy :

- (i) According to the World Travel and Tourism Council, tourism generated US\$230 billion or 9.4% of the nation's GDP in 2017 and supported 41.622 million jobs, 8% of its total employment. Over 10

million foreign tourists arrived in India in 2017.

- (ii) Tourism also promotes national integration, provides support to local handicrafts and cultural pursuits.
- (iii) It also helps in the development of international understanding about our culture and heritage. Foreign tourists visit India for heritage tourism, eco-tourism, adventure tourism, cultural tourism, medical tourism and business tourism.
- (iv) The various industries that benefit from tourism are handicraft industry, sculpture, sea-shell, regional handloom etc.
- (v) Hospitality is another sector that benefits tremendously from tourism. So does the transport sector including air, railways and road transport.

47. (i) This pipeline is about 1700 km long.

- (ii) Hazira-Jaipur-Jagdishpur gas pipeline links Mumbai High and Bassien with the fertiliser, power and industrial complexes in western and northern India.

- (iii) This artery has provided an impetus to India's gas production.

- (iv) The power and fertiliser industries are the key users of natural gas.

- (v) Use of Compressed Natural Gas (CNG), for vehicles to replace liquid fuels, is gaining wide popularity in the country.

48. Transport is the basic arteries of nation's economy because:

- (i) Economic development of a region or a country largely depends upon the dense network of transport and communication.

- (ii) They link areas of production with consumption, agriculture with industry and will age with towns and cities.

- (iii) They help the industry by transporting raw materials and distribution of finished goods.

49. Communication services can be classified in two categories

- (i) Personal communication

- (a) Communication between two or more persons at personal level is personal communication.

- (b) The India postal network handles parcels as well as personal written communication.

(c) Cards and envelopes, posts and telegraph and email are examples.

(d) Telephone services like STD, ISD provide easy and comfortable network to a large number of people that facilitates personal communication.

(ii) Mass communication

(a) It is the communication through which one can communicate with several people at the same time.

(b) It provides the entertainment (movies) and creates awareness among people about various national programmes and policies very quickly.

(c) It includes print media like newspapers, magazines, books, etc. and electronic media like radio, television, etc.

50. (i) The exchanges of goods among people, states and countries is referred to as trade.

(ii) Trade between two or more countries is called international trade.

(iii) When the value of export exceeds the value of imports, it is called a favorable balance of trade.

(iv) When the value of imports exceeds the value of exports, it is termed as unfavorable balance of Trade.

Importance :

(i) International trade of a country is an index to its economic prosperity.

(ii) It is considered as the economic barometer for a country.

(iii) As the resources are space bound, no country can survive without international trade.

(iv) Countries have trade relations with the major trading blocks.

(v) In the present times exchange of commodities and goods have been superseded by the exchange of information and knowledge.

51. "The cultural, recreational and commercial visit to different places is known as Tourism." It is called trade because it provides huge income to the country and employment to people.

The industries closely linked with tourism is handicraft industry, sculpture, sea-shell, regional handloom, etc Indian handicraft and handloom in particular hold special attraction for the western

tourists. Hospitality in services sectors is benefitted immensely by tourism.

The transportation services reap the benefits of tourism. Over 10 million foreign tourists visit India in 2017. For example, tourism contributed \$230 billion to the Indian exchequer in year 2017 and generated employment for over 41 million people in the tourism industry (2017).

52. The statement 'Road transport' and 'Rail transport' in India are not competitive but complementary to each other is justified in the following ways:

(i) Road transport is more suitable for short distances whereas rail transport is more suitable for long distance travel.

(ii) Road transport is economical in transportation of few people and relatively smaller amount of goods over short distances, whereas rail transport is more suitable for large number of people and heavy goods.

(iii) It is beneficial for perishable goods to be carried by road in short period of time, whereas non-perishable and bulky goods are transported by railways for a longer distances.

(iv) Road transport increases the efficiency of railways.

(v) Road transport links the rural areas with railway stations.

(vi) The deficiency of railways is compensated by road transport and vice versa.

53. (i) No country in the world is self-sufficient in all its needs. Goods produced by one country are required by the other country and *vice-versa*. Hence, difference in resources, needs and development among nation creates conditions for international trade between them.

(ii) It helps in exchange of surplus goods with those of deficit countries through foreign trade.

(iii) Foreign trade has helped India's economic growth, raising income levels of people thus, increasing the foreign exchange reserves.

(iv) International trade helps to import advanced technology of other countries to improve its own production.

(v) Thus, prosperity of a country depends on the advancement of the international trade and hence, it is called the 'economic barometer' of a nation.

CHAPTER

Development

Previous Year Questions

Multiple Choice Type Questions

- Which one of the following definitions is most suitable for the 'Literacy Rate'? **[CBSE 2024]**
 - The literate population at the global level
 - The proportion of literate population in the seven years and above
 - The total number of children attending school in a region
 - The average number of schools in a region
- Which of the following is a key indicator used to measure a country's development? **[CBSE 2024]**
 - Primary Production
 - Secondary Production
 - Gross Domestic Product
 - Net Domestic Product
- Assume there are four families in a locality. If the monthly income of each family is ₹ 10,000, ₹ 20,000, ₹ 30,000 and ₹ 40,000 then what is the average income of the locality. Choose the correct option from the following. **[CBSE 2023]**
 - ₹ 25,000
 - ₹ 30,000
 - ₹ 20,000
 - ₹ 10,000
- Which one of the following is a developmental goal of the factory workers? **[CBSE 2023]**
 - Better wages
 - Better technology
 - More hours of work
 - More labour work
- Which of the following countries has the highest 'Life

Expectancy' at the birth'? **[CBSE 2023]**

- Nepal
 - Bangladesh
 - India
 - Pakistan
- Which of the following countries has better rank in Human Development Index? **[CBSE 2023]**
 - Afghanistan
 - Myanmar
 - India
 - Nepal
 - Read the following data and answer the question that follow :

Some comparative Data on Haryana, Kerala and Bihar

State	Infant Mortality Rate (per thousand person)	Literacy Rate%	Net Attendance Ratio (per 100 person)
Haryana	30	82	61
Kerala	7	94	83
Bihar	32	62	43

How much is the Net Absence Ratio of Haryana ?
Choose the appropriate option from the following :

[CBSE 2023]

- 39
 - 27
 - 38
 - 18
- Read the following statements about Human Development and choose the correct option : **[CBSE 2023]**
 - It is the composite Index prepared by United Nations Development Programme (UNDP).
 - Parameters to measure it are Longevity, Literacy and Per Capita Income.

(III) Developing countries.

(IV) World Bank also prepares report of Human Development on the basis of Quality of Life.

- (a) I and II (b) II and III
(c) I and III (d) II and IV

9. Suppose there are four families in your locality, the average per capita income of whom is 10,000 . If the income of three families is 6, and 14,000 respectively, what would be the income of the fourth family?

[CBSE 2021-22]

- (a) 5,000 (b) 10,000
(c) 12,000 (d) 15,000

10. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option. [CBSE 2021-22]

Assertion (A) : Kerala has low Infant Mortality Rate.

Reason (R) : Kerala has adequate provision of basic health and education facilities.

- (a) Both A and R are correct and R is the correct explanation of the .
(b) Both A and R are correct, but R is not the correct explanation of the .
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.

11. Choose the correct option from Column A and Column B. [CBSE 2020]

Column A		Column B	
(a)	Prosperous farmers from Punjab	(i)	More days of work and better wages.
(b)	Landless rural labourers	(ii)	Availability of additional sources of irrigation facilities.
(c)	Farmers who depend only on rain for growing crops	(iii)	Higher support prices for their crops for farmers.
(d)	A girl from a rich urban family	(iv)	She gets as much freedom as her brother.

12. Choose the incorrect option from column A and column B. [CBSE 2020]

Column A (Category of person)	Column B (Developmental goals/Aspirations)
----------------------------------	--

(a)	Landless rural labourers	(i)	More days of work and better wages
(b)	Prosperous farmers from Punjab	(ii)	Availability of other sources of irrigation
(c)	Farmers who depend only on rain for growing crops	(iii)	Assured a higher support prices for their crops
(d)	A rural woman from a land owning family	(iv)	Regular job and high wages to increase her income

Very Short Type Questions

13. "Different persons can have different developmental goals." Support the statement with an example.

[CBSE 2023]

14. Define the term per capita income. [CBSE 2020]

15. Define the term literacy rate. [CBSE 2020]

16. Study the table and answer the question given below:

Some comparative data on Haryana, Kerala and Bihar			
State	Infant Mortality Rate per 1,000 live births (2016)	Literacy Rate % 2011	Net Attendance ratio (per 100 persons) secondary stage (age 14 and 15 years) 2013-14
Haryana	33	82	61
Kerala	10	94	83
Bihar	38	62	43

In comparison to Kerala which state has the highest infant mortality rate? [CBSE 2020]

17. "Suppose the average income of a country is not being increased over time but the records of the National Income show a rise". What does this situation signify? [CBSE 2020]

18. Fill in the blank :

Human Development Index (HDI) level in India can be improved through_____. [CBSE 2020]

19. What may be a goal of landless rural labourers regarding their income? [CBSE 2019]

20. What may be a goal of prosperous farmer of Punjab? [CBSE 2019]

21. What may be a developmental goal of urban

- unemployed youth? [CBSE 2019]
22. Why is average income considered as an important criteria for development? Give one reason. [CBSE 2017]
23. What is the development goal of rural people of India as per your viewpoint? [CBSE 2015]
24. Why Kerala has a low infant mortality rate? [CBSE 2017, 2016, 2015]
25. In what respect is the criterion used by the UNDP for measuring development of the countries different from the one used by the World Bank? [CBSE 2015]
26. What is the full form of HDI? [CBSE 2015]
27. State any one reason for overuse of resources. [CBSE 2015]
28. "There is enough for everybody's need but not for everybody's greed." Who said these words? [CBSE 2015]
29. What is the most common indicator for measuring economic development of a country? [CBSE 2014]
30. Why do different people have different developmental goals? [CBSE 2014]
31. What is the advantage of knowing per capita income? Mention any one. [CBSE 2014]
32. How is the average income of a country calculated? [CBSE 2014]
33. State any two goals of development other than income. [CBSE 2014]
34. Explain the term Net Attendance Ratio. [CBSE 2015, 2014]
35. What term is used for report published by UNDP which compares countries based on the education levels of the people, their health status and per capita income? [CBSE 2014]

Short Answer Type Questions

36. 'The question of sustainability of development raises many fundamentally new issues about the nature and process of development'. Explain it with examples. [CBSE 2023]
37. 'The issue of sustainability is important for development'. Examine the statement. [CBSE 2020-21]

38. Suggest any three ways to maintain Body Mass Index. [CBSE 2020]
39. On the basis of which three indicators of HDI 2004 Sri Lanka has better rank than India? [CBSE 2017, 2016]
40. What is the meaning of development? Explain the two aspects of development. [CBSE 2017, 2015]
41. Explain the three components of Human Development Index. [CBSE 2016, 2014]
42. Which three efforts should be made by any country to improve its HDI? [CBSE 2016]
43. "For development, people look at a mix of goals". Support the statement with three suitable examples. [CBSE 2016]

OR

- "People have conflicting developmental goals". Support the statement with suitable examples. [CBSE 2016]
44. "Money cannot buy all the goods and services that a person may need to live well". Explain the statement with suitable examples. [CBSE 2021 C, 2020, 2016]
45. Explain the factors on which the quality of life depend. [CBSE 2016, 2015]
46. Which three development goals will you like to prescribe for rural labourers? [CBSE 2015]
47. What is meant by economic development? What are the two bases of measuring economic development of a country? [CBSE 2015]
48. What is sustainable development? Why is the issue of sustainability important for development? Explain. [CBSE 2016, 2015]
49. Suggest any three measures for sustainable development. [CBSE 2015]
50. State any three factors other than income that are important in life. [CBSE 2015-14]
51. Why do we use averages? Are there any limitations to their use? Explain giving examples. [CBSE 2014]
52. Explain the role of education and health in the overall development of a country. [CBSE 2014]
53. "Sustainability of development is a new area of knowledge." Do you agree? Justify your answer. [CBSE 2014]

Long Answer Type Questions

54. "Different people have different goals of development". Explain the statement. **[CBSE 2020]**
55. Why is the issue of sustainability important for development? Explain. **[CBSE 2020]**
56. "Sustainability of development is a crucial aspect in present times". Support the statement with examples. **[CBSE 2020]**
57. What is average income? What is its importance? Mention its limitations related to development. **[CBSE 2017]**
58. In what respect is the criterion used by the UNDP different from that of the World Bank? What are the limitations of the criterion used by the World Bank? **[CBSE 2021, 2017]**
59. What is the main criterion used by the World Bank in classifying different countries? Describe its limitations. **[CBSE 2017, 2016]**
60. How is it that the average person in Punjab has more income than the average person in Kerala but it lags behind in many other crucial areas? Explain. **[CBSE 2017, 2016]**
61. "Consequences of environment degradation do not respect national or state boundaries". Support the statement with example. **[CBSE 2019, 2016]**
62. What is national development? What are the aspects covered under the national development? **[CBSE 2016]**
63. What is development? Why do different people have different development goals? Explain with four examples. **[CBSE 2021, 2020, 2015]**
64. What does sustainability of development mean? How can sustainable development be achieved? **[CBSE 2015]**
65. Explain with example that there are other important development goals also besides income. **[CBSE 2014]**
66. How can we ensure the sustainability of development in our country? Suggest any one way. **[CBSE 2014]**
67. Explain the importance of sustainable development by giving the example of ground water. **[CBSE 2016, 2014]**
68. Why is sustainable development essential? How does it help to prevent environment degradation? **[CBSE 2015, 2014]**
69. 'The earth has enough resource to meet the needs of all but not enough to satisfy the greed of even one person'. How is this statement relevant to the discussion of development? Explain. **[CBSE 2014]**

Explanations

Previous Year Questions

Multiple Choice Type Questions

1. (b)
2. (c)
3. (a) ₹ 25,000
4. (a) Better wages
5. (b) Bangladesh
6. (c) India
7. (a) 39
8. (a) I and II
9. (c) Suppose the income of fourth family is x .

According to question

$$10000 = \frac{x + 6000 + 8000 + 14000}{4}$$

$$\Rightarrow 10000 = \frac{x + 28000}{4}$$

$$\Rightarrow x + 28000 = 40000 \Rightarrow x = ₹12000$$

10. (a) There is low infant mortality rate in Kerala. Its reason is that, Kerala has adequate provision of basic health and educational facilities.
11. (d) A girl from a rich urban family - She get as much freedom as her brother
12. (c) Farmers who depending on rain for growing crops - Assured a higher support prices for their crops.

Very Short Type Questions

13. "Different persons can have different developmental goals". People have different developmental goal because they come from different background. Development goal for farmer might be irrigation facilities for an unemployed youth it may mean employment opportunities.
14. Per capital income measures the average income earned per person in a given area in a specified year. It is calculated by dividing the areas total income by its total population.

15. Literary rate is defined by the percentage of the population of a given age group (7 and above), that can read and write.
16. Bihar
17. When the average income of a country is not being increased over time but the records of the National Income show a rise it is a situation of unequal distribution of income.
18. (i) Increasing educational level of the people
(ii) Increasing their health status.
(iii) Increasing people's per capital income.
19. Development goals for landless rural labourer are more days of work and better wages.
20. The prosperous farmers of Punjab can aspire for better irrigation facilities. As a developmental goal, they can look forward to sending their children to better schools. They would also look for better yielding crop varieties.
21. To get employed with good salary package. Allocation of job as per his/her requirements and qualifications
22. Average income represents the total income of a country divided by the total population. If the average income is adequate to meet the basic requirements and other facilities, then country is considered developed
23. It can be (i) Regular income (ii) Regular job (iii) Own a piece of land (iv) Better health.
24. Kerala has low infant mortality rate as it has high development of education and health facilities.
25. UNDP compares countries on educational level, health status and per capita income, whereas the World Bank uses only per capita income for measuring development.
26. Human Development Index
27. (a) Increasing population
(b) lack of awareness of resources among people
(c) Excessive use of ground water for irrigation.
28. Mahatma Gandhi
29. Per capita income

30. Different people have different developmental goals based on their unique socio-economic circumstances, needs, aspirations, and values.
31. It is the most appropriate criteria for measuring the development of a country.
32. It is calculated by dividing the total income of the country by total population.
33. (i) Education (ii) Health
34. The net attendance ratio is the percentage of the official primary school age population that attends primary school. The Gross Attendance Ratio (GAR) is the total number of students attending primary school, regardless of age.
35. Human Development Index (HDI)

Short Answer Type Questions

36. (i) Sustainable development has continued to evolve as that of protecting the world's resources while its true agenda is to control the world's resources.
(ii) Environmentally sustainable economic growth refers to economic development that meets the needs of all without leaving future generations with fewer natural resources than those we enjoy today.
(iii) The essence of this form of development is a stable relationship between human activities and the natural world, which does not diminish the prospects for future generations to enjoy a quality of life at least as good as our own.
(iv) Example: Crude oil that we extract from the earth is a non-renewable resource. Still its explorations are being done non-judiciously
37. The statement "The issue of sustainability is important for development" highlights that development must meet current needs without compromising future generations. Sustainable development ensures efficient resource use, protects the environment, promotes economic stability, and addresses social inequalities. It is crucial for mitigating climate change and ensuring a viable future for all.
38. The three ways to maintain Body Mass Index (BMI):
(i) It is important to exercise at least 60-90 minutes most days of the week.
(ii) Stay hydrated and eat a balanced diet.
(iii) Avoid fast food and oily food
39. (i) Life expectancy
(ii) Gross enrollment ratio
(iii) Per capita income
40. Development refers to progress or improvement in lifestyle. Important aspects of development are:
(i) Different persons can have different developmental goals.
(ii) What may be development for one may not be development for the other. It may even be destructive for other.
41. Human Development Index is published by the UNDP.
(i) It includes the level of development of a country.
(ii) It indicates about a country how far it has travelled and how far it has yet to travel to achieve high ranks in matters such as per capita income of the people.
(iii) It includes important welfare elements such as life expectancy, literacy, educational level of people and health status.
42. The three efforts which could be made by any country to improve its HDI are:
(i) Providing 100% literacy to the people.
(ii) Improving health facilities.
(iii) Creating a pollution-free environment.
43. For development, people look at a mix of goals, for example:
(i) People have different developmental goals because people come from different background.
(ii) Different people have different dreams and aspirations.
(iii) People set their goals according to the changing circumstances and the prevailing situation
(iv) People may change the goal with the change in situation which could be contradictory to previous goal
(v) For example: A person willing to do higher education will change his goal for employment because of weak economic situation of the family
44. Money cannot buy all the goods and services that a person may need to live well. Income by itself is not a completely adequate indicator of material goods and services that citizens are able to use. For example, normally, money cannot buy a pollution-free

environment or ensure that a person gets unadulterated medicines, unless a person can afford to shift to a community that already has all these things. Money may also not be able to protect individual from infection, disease, unless the whole of our community takes preventive steps.

45. The quality of life depends upon the following factors:

- (i) Money and material things
- (ii) Presence of family members, friends and relatives
- (iii) Good working atmosphere at the office
- (iv) An opportunity to learn and contribute
- (v) A position of self respect in the family
- (vi) A safe and secure environment.

46. Three development goals for rural labourers are:

- (i) More days of work and better wages.
- (ii) Local schools to provide quality education for their children.
- (ii) There should be no social discrimination.

47. Economic development means the rate of production is greater than the rate of increase in population and the rate of growth of GDP is high enough to fulfill the basic needs of the population.

Two basis of measuring development of a country are:

- (i) Average or per capita income.
- (ii) National income and public facilities.

48. Sustainable development means development should take place without damaging the environment and development in the present should not compromise with the needs of the future generation.

Issue of sustainability is important and desirable for development.

- (i) Economic development is a continuous process. Hence resources are not exploited. At the same time, development should not harm the environment.
- (ii) It is desirable because everyone would certainly like the present level of development to go further or at least be maintained for the future generations.

49. (i) Controlling overuse and creating an awareness to provide sustainable development.

- (ii) Increased use of renewable resources
- (iii) Less use of fossil fuels.
- (iv) Introduction of organic farming.
- (v) Adopting measures to reduce global warming.

50. Though income is one of the most important aspects of our lives, there are other important things, such as

- (a) Education, equal treatment, freedom, security, good health and respect.
- (b) Women need safe and secure environment to take up a variety of jobs or run a business.
- (c) People also need political rights and civil liberties.
- (d) People need pollution-free environment and clean surroundings

51. Averages are used to compare different countries, states, or regions. As countries have different populations, comparing total income will not tell us what an average person has earned. Thus averages are good criteria for comparisons.

Averages have many limitations which are:

- (i) They do not give us the true picture regarding the distribution of income.
- (ii) Averages don't give us any information regarding the non-materialistic goods and services.

While averages are useful for comparison, they also hide disparities. For example, the infant mortality rate of a country does not differentiate between the male and female infants born in that country. Such an average tells us nothing about whether the number of children dying before the age of one are mostly boys or girls.

52. (i) Role of education It plays a vital role in the overall development of a human being and society, therefore stress on imparting education has been given in our constitution.

- (ii) Role of Health: The general health standard in India is quite low. This is quite inevitable as nearly one-fourth of the population lives below the poverty line.

A community based programme on health care and medical services in rural areas is launched. As a result of these efforts, there has been a fall in the incidents of certain diseases like tuberculosis, leprosy and polio.

53. Yes, we agree with this statement. The reasons are:

- (i) Sustainability of development is comparatively a new area of knowledge in which scientists, economists, philosophers and other social scientists are working together.

- (ii) In general, the question of development or progress is continuous.
- (iii) At all times, as a member of the society and as individuals we need to ask where we want to go, what we wish to become and what our goals are.

Long Answer Type Questions

54. Different people have different development goals:

- (i) People have different developmental goals because people come from different background.
- (ii) Different people have different dreams and aspirations.
- (iii) People set their goals according to the changing circumstances and the prevailing situation
- (iv) People may change the goal with the change in situation which could be contradictory to previous goal
- (v) For example: A person willing to do higher education will change his goal go for employment because weak economic situation of the family.

55. The issue of sustainability is important for development because of the passage of time the generation changes and with this change society wants more and more benefits from the resources which are present in our nature. Because of the increasing needs of people of our society, things are decaying day by day, and excessive use is making things worse. If the speed of using resources remains the same then the available resources will be exhausted soon and our coming generation will stay deprived of all kind of needs.

The issue of sustainability is important for development because of the following reasons:

- (a) The growth and development should be done by keeping in mind future usage.
- (b) If resources are not sustained, then our natural resources will stagnate after some time and no upcoming generation will be able to take advantage of these natural resources.

56. It is felt that the economic growth and industrialisation have led to reckless exploitation of natural resources. Sustainability promotes a rational use of natural resources.

- (i) Currently, reckless exploitation of non-renewable natural resources is going on. Since the stock of natural resources like oil and minerals is limited, development should not take place at the cost of these scarce natural resources as they are not renewable in the near future.

- (ii) Ground water is an example of renewable resource. But if we use more than what is replenished by nature, then we would be overusing this resource.
- (iii) Once the non-renewable resources would be exhausted, we would not be able to use them in future. So, using the resources judiciously will help in maintaining the sustainability of development of our ecosystem.
- (iv) Economic development is a continuous process. Resources are to be used in such a way that they are not exploited. At the same time, development should not harm the environment.

57. Average income is the total income of a nation (GDP) divided by its population, also called per capita Income. It helps in classifying countries as developed, under developed or developing.

As done by World Bank it hides disparities, as in the middle east countries, a small population is rich but a very large population is poor.

Limitations of calculating per capita income are:

- (i) A rise in per capita income can be due to rise in prices and not due to increase in physical output, it is not a reliable index of economic development.
- (ii) National income rises but lack of distribution makes the rich richer and the poor poorer.
- (iii) It excludes all non-marketed goods and services, even though they may be important for human happiness and better quality of life.
- (iv) Rise in per capita income may be due to use of modern capital intensive technology in production which may be labour displacing in nature thus adversely affecting the poor masses.
- (v) If rate of population growth, is higher than the rate of growth of national income, this will lead to fall in per capita availability of goods and services and economic welfare.
- (vi) Contribution of commodity to economic welfare may be higher than its money value e.g., money value of salt, needle, thread etc. included in national income is lower than their contribution to economic welfare

58. The World Bank uses per capita income to measure the development. But it does not give the clear picture about the condition of the people in the country. That is why UNDP has adopted Human Development index. The Human Development Index (HDI) is based on:

- (i) Per capita income: When the total national income of the country is divided by its population, we get the per capita income.
 - (ii) Life expectancy: It measures the average age of a person in a country. It helps us to know the health facilities of the country.
 - (iii) Literacy rate: Education is also one of the most important criteria for the development of a country.
 - (iv) Gross enrollment ratio: It measures the education gained at three levels at the primary, secondary and higher education level.
- 59.** (i) Per capita income is the base for comparison by the World Bank.
- (ii) Narrow concept of development.
 - (iii) Countries are divided into rich and poor.
 - (iv) The World Bank defined low and high income countries according to per capita income.
 - (v) Countries with per capita income of US \$ 49,300 per annum and above in 2019 are called rich countries.
 - (vi) Countries with per capita income of US \$ 2500 or less are called low-income or poor countries.
- Limitations in classifying different countries by World Bank:
- (i) This criteria takes into account only the economic aspect of life and ignore the social aspect of life.
 - (ii) It ignores education, health, life expectancy, sanitation etc.
- 60.** (i) Per capita income of Punjab is 26,000 and Kerala is 22,800.
- (ii) Literacy rate of Punjab according to 2011 census is 75% and Kerala is 94% J.e., Punjab lags behind Kerala.
 - (iii) Therefore, income by itself is not a completely adequate indicator of material goods and services that citizens are able to use.
 - (iv) Over the past decade, health and education indicators have come to be widely used along with income as a measure of development
 - (v) Human Development Report published by UNDP compares countries on the basis of educational levels, health status and per capita income.
 - (vi) Kerala has a low infant mortality rate as it has adequate provision of basic health and educational facilities.

- 61.** Consequences of environment degradation do not respect national or state boundaries. This issue is no longer a regional or national issue. Our future is linked together. Sustainability of development is essential for all the mankind and it is our common responsibility to save the environment. These days, it is a matter of discussion among different countries of world. Global warming, acid rain etc. are not bound to a country and cannot be controlled by one nation. It is a global matter for thinking and finding the solutions.

- 62.** National development is the ability of the nation to improve the standard of living of its population. It can be done by providing various needs and opportunities of livelihood to the people and providing them employment. etc. It also includes providing basic hygiene, healthcare and education.

The important aspects of national development are:-

- (i) Enlargement of economic awareness
 - (ii) Increasing agricultural outputs
 - (ii) Eradication of poverty
 - (iv) Development of rural areas
 - (v) Handling of growth in urban areas
 - (vi) Ensuring gender parity in the society
 - (vii) Resolving conflicts by discussion and negotiation
- 63.** Development means continuous progress or increase in real per-capita income. In other words, there is improvement in economic welfare of the people and their standard of living.

The four characteristics of development are:

- (i) Developmental goals are different for different people.
 - (ii) What may be development for one may not be development for the other.
 - (iii) For development people look at a mix of goals.
 - (iv) Different persons could have different as well as conflicting notions of country's development.
- 64.** Sustainable development is defined as meeting the needs of the present without compromising the ability of future generations to meet their own needs. Unless the development is sustainable it cannot be continued for a prolonged period of time.

Sustainable development is the upliftment of a particular section of the society achieved by cooperation and utilization of various types of natural and man made

resources without harming the environment, it's various elements and above all the natural resources.

It can be achieved by -

- (i) Using eco-friendly processes and producing eco-friendly products.
- (ii) Recycling and reusing as many products as possible.
- (iii) Use of things that don't harm the environment.
- (iv) Judicious use of fossil fuels and working it towards alternative energy sources.
- (v) Curb activities that lead to pollution.

65. Apart from money, people may seek growth and development through independence, security, respect, equitable treatment, unpolluted environment, etc.

- (i) Independence is essential for success because it enhances confidence, eliminates over-dependence on others, promotes enjoyment, provides a sense of accomplishment, and helps people make better decisions. For creatures to function efficiently in the world, they must be self-sufficient
- (ii) Security is a financial instrument, usually any tradable financial asset. The definition of what constitutes security varies depending on the jurisdiction in which the assets are exchanged.
- (iii) Respect is a strong emotion of appreciation for someone or something based on their abilities, attributes, or accomplishments.
- (iv) Equality is about ensuring that every individual has an equal opportunity to make the most of their lives and talents.

66. Sustainable development is development that meets the needs of the present generation without compromising the ability of future generations to meet their own needs. An important measure that we can take to attain sustainability is to adopt measures to reduce global warming and carbon emission.

- (i) Improvement in human capacity is needed through better education and healthcare that will result in improving the quality of life and better decisions related to the environment.
- (ii) Consumption and production should be managed responsibly so as to avoid wastage.
- (iii) Decarbonise the energy system so as to provide clean and affordable energy to all.

(iv) Providing access to clean drinking water and nutritious food.

(v) Protecting the environment from damage due to human activities.

(vi) Planning smart infrastructure so that the population can be managed properly.

(vii) Responsible use of information technology to support sustainable development.

67. (i) Sustainable development is all about judicious use of resources at present keeping in mind the future requirements of the coming generation.

(ii) Ground water is overused for agriculture.

(iii) Water is drawn from wells and this leaves the underground water-table depleted.

(iv) Though water is a renewable resource it is used more than what is being replenished.

68. Sustainable development is important for economic growth because:

(i) Environment must be conserved while development is taking place.

(ii) Resources must be used in such a way that it is conserved or replenished for future generations.

(iii) The standard of living of all people must be raised.

Measures to ensure sustainable development:

(i) We should focus on using renewable resources.

(ii) The present resources must be used judiciously, with planning, and overexploitation should be avoided.

69. This statement was given by Mahatma Gandhi:

(i) It means that the earth has abundant resources to satisfy everyone's needs but in our greed and hurry to develop, we have been recklessly exploiting the resources.

(ii) In the name of development, we have indulged in activities such as deforestation, overgrazing, encroachment into forest land, overuse of ground water, use of plastics etc.

(iii) The exploitation of natural resources not only harms the environment but may cripple the future generations of the development process itself.

(iv) If fossil fuels are exhausted, the development of all countries would be at risk.

(v) Thus, there is a need for conservation and judicious use of resources for development.

2

CHAPTER

Sectors of the Indian Economy

Previous Year Questions

Multiple Choice Type Questions

1. Which one of the following pair is correctly matched?
[CBSE 2023]

- | | |
|------------------------|---------------|
| (a) Primary Sector | Fisherman |
| (b) Secondary | Sector Priest |
| (c) Tertiary Sector | Basket Weaver |
| (d) Quarternary Sector | Gardener |

2. Which one of the following pairs is correctly matched?
[CBSE 2023]

- | | |
|----------------------|-------------------|
| (a) Primary Sector | Flower Cultivator |
| (b) Secondary Sector | Milk Vendor |
| (c) Tertiary Sector | Fisherman |
| (d) Manufacturing | Sector Gardener |

3. Kanta works in an office. She gets her salary regularly at the end of every month. In addition to the salary, she also gets other benefits laid down by the government. In which of the following sector Kanta is working?
[CBSE 2023]

- (a) Organised Sector
(b) Unorganised Sector
(c) Primary Sector
(d) Quarternary Sector

4. Which of the following organisation is providing data regarding employment in India?
[CBSE 2023]

- (a) National Statistical Office
(b) Niti Aayog
(c) National Informatics Centre
(d) Public Service Commission

5. Which one of the following sectors contribute highest in the GDP of India?
[CBSE 2023]

- (a) Primary
(b) Secondary
(c) Tertiary
(d) Quarternary

6. Activities that help in the development of Primary and Secondary sectors come under which one of the following sectors?
[CBSE 2021-22]

- (a) Primary
(b) Secondary
(c) Tertiary
(d) Quarternary

7. At the initial stages of development, which one of the following sectors was the most important of economic activity?
[CBSE 2021-22]

- (a) Primary
(b) Secondary
(c) Tertiary
(d) Quarternary

8. Activities in which natural products are changed into other forms come under which one of the following sectors?
[CBSE 2021-22]

- (a) Primary
(b) Secondary
(c) Tertiary
(d) Quarternary

9. The products received by exploiting natural resources come under which one of the following sectors?
[CBSE, 2021-22]

- (a) Quarternary
(b) Tertiary
(c) Secondary
(d) Primary

10. Which one of the following activities comes under 'Primary sector'?
[CBSE 2021 C]

- (a) Mining
(b) Transport
(c) Education
(d) Storage

11. In the question given below, there are two statements marked as Assertion(A) and Reason (R). Read the statements and choose the correct option: Assertion
Assertion (A): The Government of India buys wheat and rice from farmers at fair price.

Reason (R): Public sector contributes to the economic development. [CBSE 2020]

- (a) Both assertion and reason are true and R is the correct explanation of A
- (b) Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion
- (c) Assertion is true, but Reason is false.
- (d) Assertion is false, but Reason is true.

Very Short Type Questions

- 12. How is Public sector different from Private sector? [CBSE 2020]
- 13. How does public sector help in the development of a country? [CBSE 2020, 2015]
- 14. "Harita attends her office from 9:30 am to 5:30 pm. She gets her salary regularly at the end of every month. In addition to the salary, she also gets Provident Fund and other facilities as per the rules laid down by the Government" Identify the employment sector in which Harita is working. [CBSE 2020 C]
- 15. Suggest any one measure for the development of any activity of 'Secondary Sector' [CBSE 2020]
- 16. Distinguish between 'primary' and 'secondary' sectors. [CBSE Delhi 2019]
- 17. Mention any one feature of organised sector. [CBSE 2017]
- 18. What do you understand by under employment? [CBSE 2017]
- 19. Why tertiary sector is also called the service sector? [CBSE 2017, 2014]
- 20. When was Mahatma Gandhi National Rural Employment Guarantee Act implemented? [CBSE 2016]
- 21. What is disguised unemployment? [CBSE 2016]
- 22. State the meaning of under employment. [CBSE 2016]
- 23. In which sector is Seasonal and Disguised Unemployment most prevalent in India? [CBSE 2016]
- 24. What is another name of underemployment? [CBSE 2016]
- 25. Suggest any one way to solve under-employment situation in rural areas in India. [CBSE 2016]

- 26. Mention any one factor responsible for the growth of service sector in the Indian economy. [CBSE 2016]
- 27. Which sector has gained prominence over the last thirty years? [CBSE 2016]
- 28. TISCO and Reliance are owned by which sector? [CBSE 2016]
- 29. What is the intention of the government in raising money through taxes? [CBSE 2015]
- 30. Who has the ownership of the assets in the public sector? [CBSE 2015]
- 31. In which sector are natural products changed into form through ways of manufacturing? [CBSE 2015]
- 32. AT.M. is an example of which sector? [CBSE 2015]
- 33. What does comprise the unorganised sector in rural areas? [CBSE 2015]
- 34. Which communities generally find themselves in the unorganised sector? [CBSE 2015]
- 35. Which sector helps in the development of the primary and secondary sector? [CBSE 2014]
- 36. In which sector is manufacturing included? [CBSE 2014]
- 37. What do final goods and services mean? [CBSE 2014]

Short Answer Type Questions

- 38. Compare the employment conditions prevailing in the organised and unorganised sector. [CBSE 2023]
- 39. Explain how 'Tertiary Sector' is different from other sectors. [CBSE 2023]
- 40. How do the workers of organised sector receive the benefits of employment security? Explain with examples. [CBSE 2021 C]

OR

- Why do people prefer to work in an organised sector? Explain. [CBSE 2015]
- 41. Why is the 'tertiary sector' becoming important in India? Explain any three reasons [CBSE 2020, Delhi 2019]
- 42. "All the services of the "service sector" are not growing equally well Evaluate the statement. [CBSE 2020]
- 43. Suggest any three ways to save workers of unorganised sector from exploitation. [CBSE 2020]

44. "Tertiary sector activities help in the development of the primary and secondary sectors". Evaluate the statement. **[CBSE 2020]**
45. "Primary sector was the most important sector of economic activity at initial stages of development." Evaluate the statement. **[CBSE 2020]**
46. Suggest any three ways to improve the condition of the public sector at grass root level. **[CBSE 2020]**
47. What historical changes have been brought about in the primary economy? **[CBSE 2017]**
48. How are the three sectors of the economy different from each other? Explain. **[CBSE 2017]**
49. What constitutes the unorganised sector in urban areas? Why do workers in this sector need protection? **[CBSE 2015]**
50. Explain any three reasons for the primary sector to be the largest employer in India. **[CBSE 2015]**
51. "The declining share of agriculture in the Gross Domestic Product (G.D.P.) is a matter of serious concern in India. Support the statement with any five reasons. **[CBSE 2015]**
52. Distinguish between the public sector and the private sector. **[CBSE 2015]**

OR

Classify the sector of economy on the basis of ownership. **[CBSE 2014]**

53. Explain the meaning of tertiary sector. Mention any four economic activities of this sector. **[CBSE 2014]**
54. Classify the economic sectors on the basis of nature of activities. Mention the main feature of each. **[CBSE 2014]**
55. Explain the term 'unemployment. What is disguised unemployment? **[CBSE 2014]**
56. Why is NREGA also called the right to work? Explain. **[CBSE 2014]**

Long Answer Type Questions

57. Examine the Role of Public Sector in the Development of the Country. **[CBSE 2024]**
58. Read the source given below and attempt any 5 questions.
Take the case of Laxmi with her two-hectare plot of unirrigated land. The government can spend some

money or banks can provide a loan, to construct a well for her family to irrigate the land. Laxmi will then be able to irrigate her land and take a second crop. wheat, during the rabi season. Let us suppose that one hectare of wheat can provide employment to two people for 50 days (including sowing, watering fertiliser application and harvesting). So two more members of the family can be employed in her own field. Now suppose a new dam is constructed and canals are dug to irrigate many such farms. This could lead to a lot of employment generation within the agriculture sector itself reducing the problem of underemployment.

[CBSE 2021-22]

- (i) Which one of the following economic sectors is Laxmi related to?
(a) Primary (b) Secondary.
(c) Tertiary (d) Quaternary
- (ii) Which one of the following categories of farmers is Laxmi related to?
(a) Big
(c) Medium
(b) Marginal
(d) Agricultural labourer
- (iii) In which one of the following sectors is underemployment seen at the maximum?
(a) Industry (b) Agriculture
(c) Trade (d) Commerce
- (iv) How does construction of dams and canals create employment in large numbers in rural areas?
(a) Large number of engineers are needed
(b) Large number of technicians are also required
(c) Adjustment of large number of unskilled labourers
(d) Executives and administrators can easily be adjusted
- (v) Which one of the following is the main result of increasing irrigation facilities in the field of agriculture?
(a) Increase in production
(b) Increase in productivity
(c) Change in cropping pattern
(d) Promote high yielding of crops
- (vi) Which one of the following means of irrigation generally comes under the Public Sector?
(a) Well (b) Tubewell
(c) Tank (d) Canal

59. Suggest any three measures through which underemployment in agriculture sector can be minimised. **[CBSE 2020]**

60. Highlight any five features of 'Public Sector'. **[CBSE 2019]**

61. Explain why service sector is gaining more importance in the global economy. **[CBSE 2019, 2017]**

62. How does public sector contribute to the economic development of a nation? Explain. **[CBSE 2019, 2014]**

63. Compare the employment conditions of workers in the organised and unorganised sectors. **[CBSE 2017, 2016]**

OR

Differentiate between organised and unorganised sector. **[CBSE 2015]**

64. Describe any five provisions of 'National Rural Employment Guarantee Act 2005'. **[CBSE 2017]**

65. Suggest any five measures to reduce the unemployment. **[CBSE 2016]**

66. Describe the estimates of Planning Commission to create jobs in tourism and education. **[CBSE 2016]**

67. There has been a big change in the three sectors of economic activities, but a similar shift has not taken place in the share of employment. Explain the above statement on the basis of facts. **[CBSE 2015]**

68. Suggest some ways which can be helpful in creating employment in rural areas. **[CBSE 2015]**

69. "When a country develops, the contribution of primary sector declines and that of secondary and tertiary sector increases." Analyse the statement. **[2015, 2014]**

70. Why is agriculture the most labour absorbing sector in India? How does disguised unemployment make it worse? Explain with an example. **[CBSE 2014]**

Explanations

Previous Year Questions

Multiple Choice Questions

1. (a) Primary sector Fishermen.
2. (a): Primary sector - Flower cultivator
3. (a) Organised Sector
4. (a) National Statistical Office
5. (c) Tertiary
6. (c) Tertiary sector generates services rather than goods. They promote primary and secondary sectors by providing expertise, finance, transportation, advertisement, etc.
7. (a) It has been noted from the history of many newly developed countries that at initial stages of development, primary sector was the most important sector of economic activity.
8. (b) Manufacturing industries are secondary activities. They change natural products into other forms.
9. (d) Primary sector
10. (a) Mining
11. (b) Both A and R are true, but R is not the correct explanation of A

Very Short Type Questions

12. Public sector is controlled by Government whereas private sector is under the control of individual or a firm.
13. Public sector invests in key sectors, such as health, education, defence
14. Organised sector
15. Development of secondary sector can be happen through:
 - (i) Adoption of new and advance technology
 - (ii) Incentives to be provided by the government of promote secondary sector.
16. When the economic activity depends mainly on exploitation of natural resource, then that activity comes under the primary sector. Agriculture and its related activities are the primary sectors of the

economy, so farming is an example of primary sector activity. While the activities in which natural products are changed into other forms comes under secondary sector.

17. A worker is assured of regular work and regular salary and also other benefits.
18. It is the condition in which people in a labour force are employed at less than full-time or regular jobs or at jobs inadequate with respect to their training or economic needs.
19. Tertiary sector is the sector which provides services, such as banking, selling, transportation, etc. These services actually help in proper functioning of the primary and secondary sectors.
20. In Feb. 2006
21. Disguised unemployment: A situation where labour that is employed in a job is not actually utilised for the production of goods and services.
22. Underemployment happens when the workers are working at less than their capabilities. The underemployment of workers is not reflected in official unemployment statistics because of the way they are compiled.
23. It is mainly in the agriculture sector (Primary sector).
24. Overstaffing or hidden unemployment
25. The government can spend money on development of infrastructure projects, such as construction of roads, canals, etc. The government can provide easy credit to people and encourage entrepreneurship.
26. As income level rose, certain section of the population started demanding many services like eating out, tourism, private hospital, etc. The rise of information and communication technology can be largely attributed to improvement in telecommunication and power sector.
27. Tertiary sector
28. Private sector
29. Government raises money through taxes to meet the expenses of the various services rendered by it.
30. The Government

31. Secondary sector
32. Service sector
33. Agricultural activities
34. Scheduled tribes, scheduled castes and backward communities
35. Service sector
36. Secondary sector
37. It represents the total production/output of the sectors.

Short Answer Type Questions

38. Employment conditions under:
 - (a) Organised sector
 - (i) Rules and regulations (labour laws) as proposed by the government are followed.
 - (ii) Formal processes and procedures are followed.
 - (iii) Security of employment to workers, who are employed for full time is ensured.
 - (iv) Working hours fixed, overtime is paid for extra hours of work.
 - (v) Workers get benefits like provident fund, gratuity, medical benefits, paid leave, etc.
 - (b) Unorganised sector
 - (i) Outside the control of the government laws.
 - (ii) Small and scattered units.
 - (iii) Rules and regulations are not followed
 - (iv) Low-paid and irregular jobs
 - (v) High degree of insecurity.
 - (vi) No provision for overtime, paid leave, holidays, etc.
39. Tertiary sector is different from other sectors because:
 - (i) The activities of the tertiary sector help in the development of secondary and primary sectors.
 - (ii) Tertiary sector activities do not produce goods by themselves, but they support or aid the process of production in other sectors.
 - (iii) To help in the trade or production, credit would be required, hence the need to borrow from banks would arise, and communication through phones or letters are also a necessity to complete the processes involved in production and trade.
 - (iv) After production, the need to store the produce in go downs or cold storage facilities will also arise.
40. People enjoy working in the organised sector as there is a proper and systematic way to get the work done from the employees. Benefits of organised sector:
 - (i) People enjoy security of employment.
 - (ii) Work for fixed hours.
 - (iii) If they work more, they get overtime allowances.
 - (iv) They have registered by the government and have to follow its rules and regulations which are given in various laws such as Factories Act, Shop Act etc.

Examples are Reliance Industries Limited, Tata Motors etc.
41. Tertiary sector in India has been growing rapidly for a number of reasons. In the year 2013-14, the tertiary sector has emerged as the largest sector in India replacing the primary sector. The reason for the growth of the tertiary sector are as follows:
 - (a) Basic services such as hospitals, educational institutions, post and telegraph services, police stations, courts, village administrative offices, municipal corporations, defence, transport, banks, insurance companies, requires a large number of people to be engaged in these tertiary sector activities.
 - (b) The growth of agriculture and industry leads to the development of services such as transport, trade and storage. The demand for these services increases when the primary and secondary sectors are well developed.
 - (c) As the income rise certain sections of people start demanding many more services like eating out, tourism, shopping, private hospitals, private schools, professional training etc. We can see these changes in the big cities.
42. (i) Service sector in India employs many different kinds of people. At one end there are a limited number of services that employ highly skilled and educated workers. such as managers, lawyers, accountants, etc.
 - (ii) At the other end, there are a very large number of workers engaged in services, such as small shopkeepers, repair persons, transport persons. These people barely manage to earn a living and yet perform these services.
 - (iii) There is no alternative opportunity for them. Only a part of this sector is growing in importance.

43. Workers can be saved from unorganised sector possible in the following way:

- (i) Social security to workers.
- (ii) Support from Labour Ministry
- (iii) Provide support for the conversion of unorganised sector to organised sector.

44. Transport, storage, communication, banking and trade are some examples of tertiary sector. Since, these activities generate services rather than goods, they promote primary and secondary sector by:

- (i) Providing expertise and finance
- (i) They are helpful for advertisement and marketing.
- (ii) Provide transportation and communication facilities

45. Primary sector was the important sector of economic activity at the initial stages of development

- (i) It is concerned with the extraction of raw materials Le., mining, fishing, farming, etc.
- (ii) It gives employment to the large population.
- (iii) It enables the workers to leave the agricultural sector and move to other secondary and tertiary sectors.

46. Reforms to improve public sector:

- (i) More investment by Government at grass root level.
- (ii) More banks and cooperatives
- (iii) Infrastructural development at grass root level.
- (iv) Health and education profits at grass root level.

47. As new methods of manufacturing were developed manufacturing became important. Its first effects were felt in Europe and consequently in British India. Craftsmen and artisans found it difficult to sell their wares and were forced to return to agriculture leading to severe over employment. The situation began to improve after India became independent.

In 1972 the primary sector was the largest, contributing 45% of the GDP. In 2003 it came down to 25%. This was principally because the secondary and tertiary sectors were growing very fast. In 2017 the primary sector contributed just 17% to the GDP however, it still employs 53% of the Indian workforce.

During this period the agricultural sector has seen major changes, such as:

Two green revolutions leading more productivity by use of better seeds, fertilizers, etc.

Vast improvements in animal husbandry, fisheries, etc. Growth in food processing and allied held.

48. (i) Primary Sector: Activities undertaken by using natural resources, eg. forestry, agriculture, fishing, etc.

(ii) Secondary Sector Activities include various manufacturing activities and add utility to primary sector, eg. cotton to cloth, Iron ore to Steel, etc.

(ii) Tertiary Sector: Includes all such activities which support primary and secondary sector by providing services, such as transportation etc.

49. In the urban areas, unorganised sector comprises workers in small scale industry, casual workers in construction, trade and transport, etc. It also includes street vendors, head load workers, garment makers, rag pickers, etc.

Workers in this sector need protection from over exploitation, different treatment because of belonging to SC and ST category.

50. Primary sector continues to be the largest employer because:

- (i) Enough jobs have not been created by the secondary and tertiary sectors.
- (ii) In the tertiary sector though the production has risen almost eleven times the employment has grown only 3 times.
- (iii) When people do not get employment they flock to the primary sector.

51. (i) Indian farmers are facing challenges from international competition.

(ii) Government is reducing investment in agricultural sector, especially irrigation sector.

(iii) Subsidy in fertilizers has decreased, leading to a rise in cost of production.

(iv) Reduction in import duties on agricultural products.

(v) Farmers are withdrawing their investment from agriculture causing a downfall in the employment in agriculture.

52. On the basis of ownership sectors can be classified as public sector and private sector

Public sector

- (i) The government controls the assets and provides the services
- (ii) The purpose of the public sector is not just to earn profits. Government raises money through taxes to invest on the services rendered by it.
- (iii) Railways or post office is an example of the public sector.

Private Sector:

- (i) Ownership of assets and delivery of services is in the hands of private individuals or companies.
 - (ii) Activities in the private sector are guided by the motive to earn profit. To provide such services the companies invest their own money or raise it from the public.
 - (iii) Tata Iron and Steel Company (TISCO) or Reliance Industries Ltd. (RIL) are examples of private sector.
53. Tertiary sector: These are activities that help in the development of the primary and secondary sectors. These activities, by themselves, do not produce a good but they are a support for the production process. Four economic activities of this sector are banking, transport, storage, communication etc.
54. Classification of economic sector on the basis of nature of activities are as follows:
- (i) Primary sector: When we produce goods by exploiting natural resources, it is an activity of the primary sector, such as agriculture, dairy farming, fishing, forestry.
 - (ii) Secondary sector: In this, natural products are converted into other forms through manufacturing that we associate with industrial activity. The product is not produced by nature but has to be made and therefore, some process of manufacturing is essential. For example, using cotton fibre that we get from plant is spun and cloth is made.
 - (iii) Tertiary sector: It helps in the development of the primary and secondary sectors. They provide aid or a support for the production process. Transport, storage, communication, banking, trade are some

examples of tertiary activities.

55. (i) Unemployment. When a person is willing to work at the prevailing wage rate but fails to get a job, it is called unemployment.
- (ii) Disguised unemployment: When more people are working than required, it is called disguised unemployment. Even if we remove a few people from the job, the process of production will not be affected.
56. NREGA is also called Right to Work:
- (i) It has been implemented in 200 poorest of the poor districts of India.
 - (ii) NREGA guarantees 100 days of assured work to the people who are able and in need of work.
 - (iii) If the government fails to provide work, it will provide unemployment allowances to the people.
 - (iv) One-third of the jobs are reserved for women.

Long Answer Type Questions

57. The public sector is crucial for the overall development of a country. Its functions and contributions can be outlined as follows:

1. **Infrastructure Development:** The public sector is primarily responsible for building and maintaining essential infrastructure, such as roads, bridges, ports, and telecommunications. This infrastructure is vital for facilitating communication, trade, and commerce, serving as the backbone of economic activity.
2. **Provision of Social Services:** The public sector plays a key role in delivering fundamental social services, including healthcare, education, and housing. By ensuring access to these services, the public sector helps improve the quality of life for citizens and promotes social equity.
3. **Regulation and Governance:** The public sector establishes and enforces laws and regulations governing economic activities. This includes monitoring business practices to ensure consumer safety, preventing monopolies, and safeguarding the environment. Effective regulation is essential for maintaining fair competition and promoting sustainable development.
4. **Employment Generation:** The public sector is a significant source of employment, providing jobs directly in government services and indirectly

through public enterprises and infrastructure projects. This helps reduce unemployment and supports economic stability.

5. Economic Stability and Growth: By investing in various sectors, the public sector contributes to economic stability and growth. Public investments can stimulate private sector activity and create a conducive environment for entrepreneurship and innovation.

58. (i) (a) Laxmi works on agricultural land. It is a primary sector.

(ii) (b) A farmer cultivating 2 to 4 hectare is a medium farmer.

(iii) (b) More people are engaged in agriculture than needed. It is underemployment.

(iv) (c) Labourers. Adjustment of large number of unskilled

(v) (c) Increasing irrigation has changed the cropping pattern of many regions with farmers shifting to water intensive and commercial crops.

(vi) (d) Canals are constructed and maintained by the government. It comes under Public Sector.

59. Underemployment is a situation where there is under-utilisation of labour, either they are not in job where they can use their skill or they do not get full time job. these methods may help to solve the problem of underemployment:

(i) One or two members of farmers family can work in the farms of big landlord and earn wages.

(ii) More irrigated facilities can be provided to grow two or three crops in a year.

(iii) By opening processing units of agriculture production, more employment opportunities can be created.

60. The features of the public sector can be enumerated as follows:

(i) Some projects need spending of large sums of money, which is beyond the capacity of the private sector. Collecting money from thousands of people who use these facilities is not easy. This is seen in various public conveniences.

(ii) In certain cases of national security such as the defense forces, only the public sector can be trusted. Large scale operations of governing the banks and management of money circulation can only be done by the public sector.

(iii) Even if they do provide these things the private sector is more likely to charge a high rate for their use. Examples are construction of roads, bridges, railways, harbors, metro rail, providing irrigation through dams etc.

(iv) Only the governments can undertake such heavy spending and ensure that these facilities are available for everyone. There are some activities, which the government has to support.

(v) In some cases, the government subsidizes the goods that are meant for the poor. This includes cooking gas, fertilisers, irrigation, electricity in rural sector support purchase price of farm produce, primary education and medical care etc.

61. Tertiary sector in India has been growing rapidly for a number of reasons:

(i) In a developing country, the government has to take the responsibility for the provision of basic services for example, hospitals, educational institutions, post and telegraph services, police stations, courts, village administrative offices, municipal corporations, defence, transport, banks, insurance companies, etc.

(ii) The development of agriculture and industry leads to the development of services, such as trade, transport, storage, etc. Greater the development of the primary and secondary sectors, more would be the demand for such services

(iii) As income levels rise, certain sections of people start demanding many more services, such as eating out, tourism, shopping, private hospitals; private schools, professional at training, etc. This change was quite sharp in cities, especially in big cities.

(iv) Over the past decade or so, certain new services, such as those based on information and communication technology have become important and essential.

(v) Government policy of privatisation has also led to growth of this sector.

- (vi) A large number of workers are engaged in services, such as small shopkeepers, repair persons, transport persons, etc.
 - (vii) However, the entire sector has not grown. Large numbers of people engaged as construction workers, maids, peons, small shopkeepers, etc. do not find any change in their life.
- 62.** Public sector undertakes various activities which are important for the development of the public in general and also which require huge amount of investment.
- (i) It promotes rapid economic development through creation and expansion of infrastructure in underdeveloped areas.
 - (ii) It creates employment opportunities through its various projects.
 - (iii) It generates financial resources for economic and social development.
 - (iv) It ensures a balanced regional development.
 - (v) It encourages development of small, medium and cottage industries as ancillaries.
 - (vi) It ensures easy availability of goods at moderate rates.
 - (vii) It contributes to community development by providing health and educational services.
- 63.** Employment conditions under:
- (a) Organised sector
 - (i) Rules and regulations (labour laws) as proposed by the government are followed.
 - (ii) Formal processes and procedures are followed.
 - (iii) Security of employment to workers, who are employed for full time is ensured.
 - (iv) Working hours fixed, overtime is paid for extra hours of work.
 - (v) Workers get benefits like provident fund, gratuity, medical benefits, paid leave, etc.
 - (b) Unorganised sector
 - (i) Outside the control of the government laws.
 - (ii) Small and scattered units.
 - (iii) Rules and regulations are not followed
 - (iv) Low-paid and irregular jobs
 - (v) High degree of insecurity.
 - (vi) No provision for overtime, paid leave, holidays, etc.
- 64.** Provisions of National Rural Employment Guarantee Act (NREGA), 2005 are:
- (i) It provides 100 days assured employment every year to each rural household.
 - (ii) One-third of the proposed jobs are reserved for women.
 - (iii) If an applicant is not employed within 15 days he/she is entitled to a daily unemployment allowance.
 - (iv) The government have to establish Central Employment Guarantee Funds and state employment guarantee funds for the implementation of the scheme.
 - (v) The scheme is to be extended to 600 districts.
- 65.** To reduce unemployment there has to be a multi-prolonged action.
- (i) Planned development by accelerating industrialisation is the need of the hour. At the same time, work has to be done to stimulate demand of goods and services. This will create sustainable jobs in industrial sector.
 - (ii) More employment opportunities in the rural areas needs to be created by processing farm produce and farm waste. Cooperative farming should be introduced for the benefit of small farmers. Villagers should be encouraged to develop allied activities, such as fisheries, apiculture, etc., and cottage industries.
 - (iii) To eliminate seasonal unemployment, projects should be planned accordingly. Allied economic activity should be arranged by providing micro-finance and community self-help in both rural and urban areas.
 - (iv) Educational programs related to adaptive technology must be demonstrated in simple and implementable form. This will encourage entrepreneurial spirit amongst the people.
 - (v) Self-employment schemes in services or small manufacturing, connected to the core activity in the rural/urban areas for the unemployed youth have to be launched to enable them to start their own business or small-scale firm, which can also generate employment for many others.
- 66.** Regarding jobs in schools:
- (i) Planning Commission estimates that nearly 20 lakh jobs can be created in education sector alone.
 - (ii) For more children to attend school, more teachers and more infrastructure will be required.

Regarding jobs in Tourism:

- (i) Planning Commission estimates that nearly 35 lakh jobs can be created in tourism sector.
 - (ii) Regional Crafts and Cottage industry can also create jobs.
 - (iii) New services, such as IT also are job generators.
- 67.** (i) Industrial output has increased by eight times but employment in the sector has increased only by 2-5 times.
- (ii) In the tertiary sector, the production of services rose by eleven times but employment in the services rose only by three times.
 - (iii) More than half of the workers in the country are working in the primary sector producing only one quarter of the goods.
 - (iv) Secondary and tertiary sectors produce three fourths of the produce whereas, they employ only one quarter of the people.
 - (v) Primary sector has disguised employment whereas workers in secondary and tertiary sectors work overtime
- 68.** Some ways to increase employment in rural areas. are:
- (i) Construction of new dams and canals- Constructing dams, canals or digging wells in villages. This would serve the needs of farmers for irrigation and people engaged in such construction activity would gain employment.
 - (ii) Development in transport facility by government and creating storage facilities of farm produce in rural areas.
 - (iii) Credit from local banks, so that crops can be grown every year.
 - (iv) Agro-based industries can be set up in rural areas

or semi-rural belts.

- (v) Making provisions for education and health services in rural belts can also result in employment.
- 69.** (i) In the initial stages of development, the primary sector was the most important sector of economic activity. As the methods of farming changed and agriculture sector began to prosper, people began to take up other activities.
- (ii) New methods of manufacturing were introduced: factories came up and started expanding.
 - (iii) The secondary sector gradually became the most important in total production and employment.
 - (iv) With the development of areas like transport and administration, the service sector kept on growing, in the past 100 years, there has been a shift from the secondary to the tertiary sector in developing economies.
 - (v) The service sector has become the most important in terms of total production and employment. This is the general pattern observed in developed countries.
- 70.** (i) Agriculture is the most labour absorbing sector in India because the secondary and tertiary sectors have failed to provide more employment.
- (ii) Disguised unemployment is generally found in agriculture sector. People engaged in farming are generally more than required. Though it seems that they are working in the cultivation of land, but actually they are partly employed.
 - (iii) For example: A farmer who has a land of three hectare, which requires only two persons for farming related to work, but all the seven family members are engaged in it. If five persons out of them are withdrawn from the job, the total production will not fall. Therefore, five persons will come under the category of disguised unemployment.

CHAPTER

Money and Credit

Previous Year Questions

Multiple Choice Type Questions

1. Suppose, the monthly income of the family members is as follows respectively: [CBSE 2024]

- ❖ Mother - Rs. 50,000/-
- ❖ Father - Rs. 40,000/-
- ❖ Son - Rs. 20,000/-
- ❖ Daughter - Rs. 20,000/-

The average income of the family would be:

- (a) Rs. 32,000/- (b) Rs. 30,000/-
(c) Rs. 32,500/- (d) Rs. 33,000/-
2. Why do lenders often require collateral before lending loan? Choose the most suitable option from the following. [CBSE 2024]
- (a) To lower interest rates for borrowers.
(b) To establish personal relations.
(c) To increase their profit margins.
(d) To mitigate the risk of loan default.
3. Look at the given picture carefully and infer the income of the bank. [CBSE 2024]

Choose the correct option from the following.

- (a) The difference between the amount deposited and borrowed by the bank to Reserve Bank of India.

- (b) The difference of amount of interest between what is charged from borrowers and what is paid to depositors.
(c) The difference of interest rate between what is charged from borrowers and what is charged from depositor.
(d) The difference between the amount deposited by the depositor and borrowed by the borrower.
4. The exchange of goods with a commodity is known as: [CBSE 2021]
- (a) Double coincidence of wants
(b) Local trade
(c) Domestic trade
(d) Foreign trade.
5. Which one of the following mediums of exchange is convenient ? [CBSE 2021]
- (a) Money (b) Commodity
(c) Gold (d) Silver
6. Which of the following authorities of India issues currency notes on behalf of the Central Government ? [CBSE 2021]
- (a) The State Bank of India
(b) The Reserve Bank of India
(c) The Allahabad Bank
(d) The Punjab National Bank
7. Read the information given below and select the correct option.

Rohan has taken a loan of Rs.5 lakhs from the bank to purchase a house on 12% rate of interest. He has to submit papers of new house and salary record to the bank. What is this process called as?

[CBSE 2020]

- (a) Interest Rate (b) Collateral
(c) Principal Amount (d) Installments

8. Which one of the following is a formal source of credit? [CBSE 2014]

- (a) Relatives
(b) Traders
(c) Money-lenders
(d) Cooperative societies

9. Which one of the following refers to investment? [CBSE 2014]

- (a) The money spent on religious ceremonies.
(b) The money spent on social customs.
(c) The money spent to buy assets such as land.
(d) The money spent on household goods.

Very Short Type Questions

10. Why are transactions made in money? Explain. [CBSE 2021-22]

11. How does a bank work as a key component of the financial system? Explain. [CBSE 2021-22]

12. Analyse the situation in which credit pushes the borrower into a situation from which recovery is painful. [CBSE 2021-22]

13. Read the following source and answer the questions that follow:

A House Loan

Megha has taken a loan of Rs 5 lakhs from the bank to purchase a house. The annual interest rate on the loan is 12 per cent and the loan is to be repaid in 10 years in monthly installments. Megha had to submit to the bank, documents showing her employment records and salary before the bank agreed to give her the loan. The bank retained as collateral the papers of the new house, which will be returned to Megha only when she repays the entire loan with interest.

- (i) From which source of credit Megha has taken loan?
(ii) Explain the terms of credit given in the source.

[CBSE 2021-22]

14. Krishna is working in a neighboring field with very less wages. Expenses on sudden illnesses or functions in the family are also met through loans.

The landowner charges as interest rate of 5 percent per month. At present she owes the landowner Rs 5,000. Analyse the credit arrangements given above.

[CBSE 2020]

15. Krishna is working in a neighbouring field with very less wages. Expenses on sudden illnesses or functions in the family are also met through loans. The landowner charges an interest rate of 5 per cent per month. At present she owes the landowner Rs. 5,000.

Analyse the credit arrangements given above

[CBSE 2020]

16. Why are demand deposits considered as money? [CBSE 2019]

17. Give any two examples of informal sector of credit. [CBSE 2018]

18. How is 'double coincidence of wants' not appreciable in the contemporary scenario? [CBSE 2019-2017]

19. How is money beneficial in transactions? [CBSE 2017]

20. Why one cannot refuse a payment made in rupees in India? [CBSE 2016]

21. How does money eliminate the need for double coincidence? [CBSE 2016]

22. How do the deposits with banks become their source of income? [CBSE 2016]

23. Why do banks maintain cash reserve? [CBSE 2016]

24. Prove with an argument that there is a great need to expand formal sources of credit in rural India. [CBSE 2016]

25. Why is the supervision of the functioning of formal sources of loans necessary? [CBSE 2016]

26. Why do farmers require credit? [CBSE 2016]

27. Why is money called a medium of exchange? [CBSE 2019]

OR

How does money act as medium of exchange? [CBSE 2015]

28. What is barter system? [CBSE 2015]

29. What is a cheque? [CBSE 2015]

30. Who issues currency notes in India? [CBSE 2015]

Short Answer Type Questions

31. Explain the role of banks with regard to money which they accept from the public. [CBSE 2023]
32. "The use of money spans a very large part of our everyday life". Support the statement. [CBSE 2021]
- OR
- How is money used in every day life? Explain with examples. [CBSE 2014]
33. "The Reserve Bank of India supervises the functioning of formal sources of loans." Support the statement with examples. [CBSE 2020]
34. How do demand deposits have the essential exchange it for goods or services? Give examples to explain [CBSE 2020]
35. Explain any three functions of the Reserve Bank of India. [CBSE 2023, AI 2019]
36. Self-Help Groups are the building blocks of organisation of the rural poor. Suggest any three ways to make them popular for social issues. [CBSE 2020 C]
37. Describe the bad effects of informal sources of credit on borrowers. [CBSE 2019]
38. Explain the three important terms of credit. [CBSE 2019]
39. Explain any three situations in which credit helps in the development of agriculturists. [CBSE 2019 C]
40. Describe the importance of formal sources of credit in the economic development. [CBSE Delhi 2019]
41. Explain any three loan activities of banks in India. [CBSE 2017]
42. "Banks are efficient medium of exchange." Support the statement with arguments. [CBSE Delhi 2017]
43. Illustrate with examples the role of 'loan' in "business". [CBSE Foreign 2017]
44. Dhananjay is a government employee and belongs to a rich household, whereas Raju is a construction worker and comes from a poor rural household. Both are in need and wish to take loan. Create a list of argument explaining who between the two would successfully be able to arrange money from a formal source. Why? [CBSE Term-II, 2021-22 C, 2016]
45. How can money be used to easily exchange it for goods or services? Give examples to explain. [CBSE 2016]

46. How is money transferred from one bank account to another bank account? Explain with an example. [CBSE 2016]
47. Mention three points of difference between formal sector and informal sector loans. [CBSE 2016]
48. How is the concept of Self Help Groups important for poor people? Give your view point. [CBSE Foreign 2016]
49. "Poor households still depend on informal sources of credit". Support the statement with examples. [CBSE 2016]
50. "The credit activities of the informal sector should be discouraged." Support the statement with arguments. [CBSE 2016]
51. why is modern currency accepted as a medium of exchange without any use of its own? Find out the reason. [CBSE 2015]
52. Explain with examples, how people are involved with the banks? [CBSE 2014]
53. Why do lenders ask for collateral while lending? Explain. [CBSE 2020, Foreign 2014]
54. Formal credit meets only about half of the total credit needs of the rural people. Where does the other half come from? [CBSE 2014]

Long Answer Type Questions

55. "Cheap and affordable credit is crucial for the country's development." Justify the statement. [CBSE 2023]
56. Justify the role of 'Self Help Groups' in the rural economy. [CBSE 2023]
57. Explain with an example the role of credit for development. [CBSE Term-II, 2021-22]
58. How are formal sources of credit different from informal sources? Explain with example. [CBSE Term-II, 2021-22]
59. "Bank plays an important role in the economic development of the country". Support the statement with example. [CBSE 2020]
60. "Credit sometimes pushes the borrower into a situation from which recovery is very painful". Support the statement with examples. [CBSE 2020]
61. "Self Help Groups' help borrowers to overcome the problem of lack of collateral." Examine the statement. [CBSE 2020, Delhi 2017]

62. Review any three merits and any two demerits of 'Formal sector of credit' in India. **[CBSE Foreign 2017]**
63. What are demand deposits? Explain any three features of it. **[CBSE 2016]**
64. Describe the vital and positive role of credit with examples. **[CBSE 2019, Delhi 2016]**
65. How can the formal sector loans be made beneficial for poor farmers and workers? Suggest any five measures. **[CBSE 2016]**
66. How are deposits with the bank beneficial for individual as well as for the nation? Explain with examples. **[CBSE 2015]**
67. Why is it necessary for banks and cooperatives to increase their lending in rural areas? Explain. **[CBSE Foreign 2014]**
-

Explanations

Previous Year Questions

Multiple Choice Questions

- (c) Rs. 32,500/-
- (d) To mitigate the risk of loan default.
- (b) The difference of amount of interest between what is charged from borrowers and what is paid to depositors.
- (a) Double coincidence of wants
- (a) Money
- (b) The Reserve Bank of India
- (b) Collateral
- (d) Cooperative societies
- (c) The money spent to buy assets such as land.

Very Short Type Questions

- A person holding money can easily exchange it for any commodity or service that he or she might want. Thus, everyone prefers to receive payments in money and then exchange the money for things that they want.
- Banks mediate between those who have surplus funds (the depositors) and those who are in need of these funds (the borrowers). People need small amount of money for their day-to-day needs and deposit the surplus amount in the bank. Bank accepts the deposit and also pay an amount of interest on the deposits. In this way people's money is safe and earns an amount as an interest.

Bank use the major portion of the deposits to meet the loan requirements of the people.

- (1) Debt trap pushes the borrower into a situation from which recovery is painful. It characterised by

non-orepayment of credit, which leads the borrower into this visions cycle.

(2) It can be caused by :

- crop failure
- use of loan for non- productive furpuses. Therefore, it is crucial for the borrower to analyse the support available in case of lose, before taking a loan.

[Topper's Answer, 2022]

- Formal source
 - Terms of credit given in the source are
 - ❖ Document required - Salary slip and employment record.
 - ❖ Interest rate - per annum
 - ❖ Mode of repayment - Monthly instalment
 - ❖ Collateral - New house papers
- Informal credit.
- Credit arrangement- Informal sources of credit / No intervention of government in controlling the credit activities carried out by informal sources.
- Demand deposits are considered as money, because they can be withdrawn when required and the money withdrawn can be used for making payments. So, they are also considered as money in the modern economy.
- Moneylenders, traders, employees, relatives and friends, etc.
- For double coincidence of wants to work out, an individual must require what the other person is willing to give away and vice-versa. If this situation is not reached exchange of goods does not happen. This problem is eliminated by the use of money.
- Money is very beneficial in transactions as it eliminates the inconvenience of double coincidence of wants. Thus, it has replaced the barter system. Now, people can buy whatever they want.
- A payment in rupees cannot be refused because it is accepted as the medium of exchange in India. It is authorised by the Government of India.
- Money eliminate the need of double coincidence by providing the crucial intermediate step. For example, it

is not necessary for a shoe maker to look for a farmer who will buy shoes made by him and at the same time, sell rice to him. All he has to do is to find a buyer for his shoes, who will pay him money for them. With this money, he can purchase rice or any other commodity available in the market.

22. When we deposit our money in the bank we get an interest on it. However the bank uses that money to give loan to people. The bank charges an interest on its loan at a higher rate than what is paid to the depositors. Thus, the banks earn money from the deposits.
23. Banks maintain cash reserve to ensure smooth daily withdrawal by depositors.
24. The formal source of credit needs to be expanded in rural sector because then only the rural poor will get credit at reasonable rate and the credit will not be proved to be a liability.
25. The supervision of the functioning of the formal sources of credit is necessary because the banks should not only provide loans to rich sections of society but also to poor people. Also, the banks should follow the right procedures of borrowing and lending money as stipulated by the RBI.
26. Farmers require credit to pay for agricultural inputs such as seeds, fertilizers, pesticides, etc.
27. Money acts as an intermediate in the transaction and the exchange process. We can buy things with the help of money.
28. Barter system is an old way of exchanging goods between two parties to satisfy their needs. In this system goods were exchanged without the use of money.
29. A cheque is an instruction, written on paper, to the bank to pay a specific amount as mentioned, to the person whose name the cheque bears.
30. Reserve Bank of India (RBI).

Short Answer Type Questions

31. Bank plays an important role in regarding the money accept from public.
 - (i) They keep money of the public in its safe custody.
 - (ii) They give interest on the deposited money to the public.
 - (iii) Bank use the major portion of deposits to extend loans. These loans are then recovered with an interest.

- (iv) It is easy for individuals to get credit who have savings and current account in the banks.

32. In everyday lives, we use money to fulfill our requirement in different ways:

- (i) To buy goods and services like in market, money can be used to buy clothes, vegetables etc.
 - (ii) To deposit in banks so that money can be saved and used for future use. For example: If a labourer deposits his monthly salary in his bank account, then, he can use it in installments during the entire month.
 - (iii) As a store value. For instance, we cannot store perishable goods like milk, grain etc. to exchange; but we can keep money for future use.

33. Reserve Bank of India (RBI) supervised the bank in the following ways:

- (i) It monitor the balance kept by banks for day-to-day transactions
 - (ii) It checks that the banks give loans not just to profit-making business and traders but also to small borrowers.
 - (iii) Periodically, banks have to give details about lenders, borrowers and interest rate to RBI

It is necessary for securing public welfare. It avoids the banks to run the business with profit motive only. It also keeps a check on interest rate of credit facilities provided by bank. RBI makes sure that the loans from the banks are affordable and cheap.

34. Demand deposits considered as money:

- (i) The facility of cheques against demand deposits makes it possible to directly settle payments without the use of cash. Since demand deposits are accepted widely as a means of payment, along with currency, they constitute money in the modern economy.
 - (ii) Banks accept the deposits and also pay an interest rate on the deposits.
 - (iii) In this way, people's money is safe with the banks and it earns an interest.

35. The Reserve Bank of India has many important roles that affects the common public.

- (a) RBI monitors the balance kept by the bank for day to day transactions.
 - (b) RBI monitors the banking activity, particularly the loan giving activity of the banks. It ensures that the banks give loans to priority sector like agriculture and not just to profit making sectors.

- (c) The RBI undertakes the responsibility of controlling credit created by the commercial banks. RBI uses quantitative and qualitative techniques to control and regulate the credit flow. This includes interest rates and percentage of loans to a sector.
- (d) The RBI gives guidelines to the bank about setting up the terms of credit that the bank may decide upon for the borrowers.
- 36. Ways to make SHGs popular for social issues :**
- Government should make proper provisions to provide funding to SHGs for various social programmes.
 - SHGs members can resolve families internal issues like domestic violence faced by women and providing the financial assistance for marriages.
 - SHGs can be given separate fund for pregnant women's health, which provide can proper diet and medical requirement.
- 37. The informal sector consists of money lenders, traders, employers, friends, relatives, merchants and landlords. There is no organisation which supervises the credit activities of lenders in the informal sector.**
- The informal lenders usually charge a very high rate of interest. A higher cost of borrowing is often detrimental to the borrower. It usually results in a debt trap for the borrower. The borrower is seldom able to escape the never ending cycle of loan repayment.
 - Most loans from informal lenders carry a very high interest rate and have other stringent conditions. They do little to increase the income of the borrowers.
 - It has been observed that the loan recovery mechanics in the informal sector is particularly harsh in cases of loan repayment default. There have been cases of selling of properties at throw away prices and total loss of belongings and even suicides.
- 38. The three important terms of credit are ;**
- Interest Rate** - It is interest that the borrower pays to the bank. An interest component is added to the principal that the borrower pays to the bank as loan payment installment.
 - Collateral**: An asset which is owned by the borrower and is used as a guarantee to a lender until the loan is repaid is called the collateral. Land, house, vehicle, livestock, deposits with banks, insurance policy, gold, etc., are examples of assets that can be kept as collateral. If the borrower fails to repay the loan, the lender reserves the right to sell the collateral to obtain payment.
 - Documentation**: The transaction between the lender and the borrower are put on record by documenting it. It includes rate of interest, tenure, collateral and mode of repayment. The terms of credit vary from one loan agreement to another and also on the nature of the lender and the borrower.
- 39. Role of credit indevelopment of agriculturists:**
- The gestation period between sowing to selling agricultural produce is very long. In such situation credit is necessary.
 - Indian farmer require credit to meet their short term needs like purchasing seeds, fertilisers; paying wages to hire workers etc.
 - For big farmers credit is required for buying harvest machines etc.
- 40. The formal source of credit comprises of banks and cooperative societies. The Reserve Bank of India supervises the functioning of formal sources of loans.**
- Even though collateral and paper work is needed to secure loan from banks the interest rates here are lesser than informal sources.
 - The formal sources of credit are part of the greater national economy. Hence even small borrowers should try to avail this facility and not go for informal sources of borrowing. The Self Help Groups (SHG) have been really of great help for the rural poor.
 - The role of formal sources of credit has been very great particularly for financing large developmental projects and various business projects in the private sector and the public sector.
- 41. (i) Bank provided loans for various economic activities to people or organisations.**
- Banks keep only a small proportion of the deposits with them as cash, to meet daily payments. The deposits are used to meet the loan requirement of the people.
 - Banks intermediates between those who have surplus funds and those who are in need of these funds.
- Bank offer less interest on deposits than what they charge on loans.

42. People deposit their money with banks by opening a bank account. Banks keep the money safe and provides interest on the deposited amount.

The deposited money can be withdrawn from banks as and when required on demand.

Banks also facilitate easy transfer of money through cheques, demand drafts and internet banking from one account to another in the same or any other bank.

Banks keep only 15% of their total cash deposits to meet the everyday withdrawal demands of their customers. Major portion of the remaining deposits are used to give loans to people at specific rate of interest. Thus, we see that money is very efficiently exchanged between various people.

43. Loan or credit plays a crucial role in business. By sanctioning loans to developing industries and trade, banks provide them with the necessary aid for functioning, developing and expanding business. This leads to increase in the production, profits and employment.

For this reason, it is important that the formal sector gives out more loans so that borrowers are not duped by moneylenders, and can ultimately contribute to national development.

44. Dhananjay will be able to get loan from a formal source.

Arguments :

Banks are not present everywhere in rural India. Even when they are present, getting a loan from a bank is much more difficult than taking a loan from informal sources.

Bank loans require proper documents and collateral. Absence of collateral is one of the major reasons which prevent the poor from getting bank loans.

Informal lenders such as moneylenders, on the other hand, know the borrowers personally and hence, are often willing to give a loan without collateral.

45. Money acts as a medium of exchange itself for goods and services. A person holding money can easily exchange it for any commodity or service that he or she might want. Everyone prefers to receive payments in money and exchange the money for things they want.

For example : A shoemaker wants to sell shoes in the market and buy wheat. The shoemaker will first exchange shoes for money and then exchange the money for wheat. If the shoemaker had to directly exchange shoes for wheat without the use of money,

he would have to look for a wheat growing farmer who not only wants to sell wheat, but also wants to buy the shoe in exchange. Both the parties have to agree to sell and buy each others commodities. This process is very difficult, time consuming and unhealthy.

46. If a person has to make a payment to his or her friend and writes a cheque for a specific amount, this means that the person instructs his bank to pay this amount to his friend. His friend takes this cheque and deposits it in his account in the bank. This said amount is transferred from one bank account to another bank account.

47. Formal sector loans:

- (i) Loans from bank and cooperatives need collateral.
- (ii) Under supervision of the Reserve Bank of India.
- (iii) Reasonable rates of interest.

Informal sector loans :

- (i) Loans from money lenders, relatives, friends, traders, etc., does not need collateral.
- (ii) No supervision of any institution.
- (iii) Very high rates of interest.

48. Self Help Groups are known as SHGs :

- (i) These are mainly created by the poor, often females of rural area for their own benefits.
- (ii) In this all members deposit their monthly savings to the leader.
- (iii) This creates self employment for the members.
- (iv) If any member needs money for domestic work such as renovation of house, buying fertilizers or agriculture equipment he/she can borrow it from the group.
- (v) Members can get timely loan at reasonable interest and without any collateral and documentation. It operates on mutual trust.

49. (i) Banks are not present everywhere in rural India, whereas informal sources are easily available in all everywhere.

- (ii) Getting a loan from a bank is difficult for poor people than taking a loan from the informal resources, because bank loans require proper documents and collaterals.
- (iii) Money lenders provide loan to the poor people without any collateral.
- (iv) Formal sources provide loan only for productive purpose, whereas the informal sources provide credit for productive and non-productive purposes.

- (v) Other informal sources of credit are friend and relatives, or traders and landlords, who know the borrowers personally and therefore, do not demand collateral.
- 50.** The credit activities of the informal sector should be discouraged because :
- (i) 85% of loans taken by the poor household in the urban areas are from informal sources.
 - (ii) Informal lenders charge very high interest on their loans.
 - (iii) There are no boundaries and restrictions.
 - (iv) Higher cost of borrowing means a larger part of the earnings of the borrowers is used to repay the loans.
 - (v) In certain cases, the high interest rate for borrowing can mean that the amount to be repaid is greater than the income of the borrower.
 - (vi) This could lead to increasing debt and debt trap, therefore the credit activities of the informal sector should be discouraged.
- 51.** Modern currency is accepted as a medium of exchange without any use of its own because
- (i) Modern currency is authorised by the government of a country.
 - (ii) In India, the Reserve Bank of India issues all currency notes on behalf of Central Government.
 - (iii) No other individual or organisation is allowed to issue currency.
 - (iv) The law legalises the use of rupee as a medium or payment that cannot be refused in setting transactions in India.
 - (v) No individual in India can legally refuse payment made in rupees.
- 52.** We know that banks accept the deposits from the people who have surplus money and also pay an interest on the deposits.
- But banks keep only a small portion (15 per cent in India this amount keeps changing) of their deposits as cash with themselves. This is kept as a provision to pay the depositors who might come to withdraw money from their account in the bank on any day. They use the major portion of the deposits to extend loans to those who need money. In this way, banks mediate between those who have surplus money and those who need money.
- 53.** Lenders ask for collateral while lending :
- (i) It works as guarantee to a lender until the loan is repaid.
 - (ii) If the borrower fails to repay the loan, the lender has the right to sell the asset or collateral to obtain payment.
 - (iii) Reduction of exposure in order to do more business with each other when credit limits are under pressure.
- 54.** (i) The formal sources of credit in India still meets only about half of the total credit needs of the rural people. The other half comes from the informal sources such as money lenders, friends, relatives etc.
- (ii) Compared to formal lenders, most of the informal lenders charge much higher interest rates on loans like 3% to per month, i.e., a year.
 - (iii) Besides the high interest rate, informal lenders impose various other tough conditions. For example, they make the farmers promise to sell the crop to him at a low price. There is no such condition in formal sector.
 - (iv) Loans taken by poor people from informal lenders sometimes, lead them to debt trap because of high interest rate.

Long Answer Type Questions

- 55.** Cheap and affordable credit is crucial for the country's development due to the following factors:
- (i) More lending would lead to higher incomes and encourage people to invest in agriculture, engage in business and set up small scale industries.
 - (ii) Cheap credit means more income would be left with the borrower to reinvest rather than return as interest. This leads to acceleration of economic activity.
 - (iii) Cheap credit would also allow weaker sections of society to enter formal sector of lending and rid them of exploitation at the hands of informal moneylenders.
 - (iv) Affordable credit would also end the cycle of debt trap and lead to sustainable economic activity that would allow borrowers to invest in better technology to make their business more competitive.
- 56.** (i) SHGs have emerged as building blocks of the rural poor as it is the group as a whole which is responsible of the repayment of the loan. In case of non-repayment, it is taken up in a serious manner by the group members.
- (ii) The SHGs are organisations of the rural poor

people especially women. They provide small loans on reasonable rates.

- (iii) The members of SHGs pool their savings and take loans at nominal rates of interests.
- (iv) This creates self employment opportunities for the members particularly rural poor women.
- (v) The SHGs help poor borrowers to overcome the problem of lack of collateral.

57. 'Credit' refers to an agreement in which the lender supplies the borrowers with money, goods or services in return for the promise of future payment.

Credit plays vital role for development in different ways as:

- (i) Credit helps people from all walks of life in setting up their business, increase their income and support their families.
- (ii) To some people loan helps a lot in constructing their houses and get relief from monthly rent, to others it helps a lot in raising their standards of living.
- (iii) Example of Salim: The credit helps him and he is able to meet the ongoing expenses of production, complete production on time and thereby increase his earning.

58.

	Formal Sources		Informal Sources
1.	supervised by RBI (Reserve Bank of Andia).	1.	unsupervised
2.	urban regions	2.	rural regions
3.	Low	3.	high
4.	required	4.	not necessary
5.	good	5.	bad soprrrowers are often harassed
6.	required	6.	usually not required
7.	banks, resferatives	7.	moneylendire, relatives, Fradify

59. Banks play an important role in the economic development of the country.

- (i) Capital formation : Banks offer very attractive schemes to attract the people to save their money with them and organised money market.
- (ii) They mobilize the small savings of the people through their branches and make it available for productive purposes.
- (iii) Credit creation leads to increased production,

employment and caused faster economic development.

- (iv) The banks help in the development of different type of industries by extending loans to concern persons.
 - (v) It ensures full utilisation of resources.
60. (i) In rural areas, the main demand for credit is for crop production. Crop production involves considerable costs on seeds, fertilisers, pesticides, water, electricity, repair of equipment, etc.
- (ii) There is a minimum stretch of three to four months between the time when the farmers buy these inputs and when they sell the crop.
- (iii) Farmers usually take crop loans at the beginning of the season and repay the loan after harvest.
- (iv) Repayment of the loan is crucially dependent on the income from farming.
- (v) Example of credit which is painful for a borrower : A farmer picks up the loan from a money lender to meet the expenses of cultivation. But unfortunately crops hit by the pests and fails. So, he is unable to repay the loan and debt grows larger with interest. Next year, he picks up a fresh loan and is able to have a normal crop that year. But earnings are not enough to pay the earlier loan. He can repay the loan, only after selling a part of the land. So we can say that "Credit sometimes pushes the borrower into a situation from which recovery is very painful".

61. Self - Help Groups (SHGs) have helped borrowers to borrow money without collateral in the following ways:

- (i) Self help groups have organized rural poor more so women in collecting their money and in extending loans to its members.
- (ii) SHG charge less rate of interest as compared with any other forms of rural banking or even those charged by moneylenders.
- (iii) These groups gradually can seek loans from bank so as to create employment opportunities for its members.
- (iv) Banks have been extending loans to these groups to meet their needs like buying fertilizers, seeds, raw materials, etc.
- (v) These SHG have emerged as building blocks of the rural poor as it is the group as a whole which is responsible of the repayment of the loan. In case, of nonrepayment it is taken up in a serious manner by the group members. Thus, because of this, banks offer money to women organised in these

groups without any collateral. Similarly, members of these groups can get loans when required which is repayable in small installments.

62. Banks and cooperatives are the formal sources of credit.

Advantages :

- (i) These institutions are regulated by the Reserve Bank of India. Their rates of interest for loans are controlled. The rates and terms are fixed.
- (ii) There is no exploitation by the lenders.
- (iii) Everyone can take a loan that includes big businessmen as well as the small cultivators or borrowers.
- (iv) The cost of borrowing is usually less.

Disadvantages :

- (i) The procedure to get the loan is time consuming.
- (ii) They require collateral security.

63. People save their money in banks by opening an account. The deposits in the bank accounts can be withdrawn on demand, so these deposits are called demand deposits.

- (i) Banks accept the deposits and also pay an interest on the deposits. In this way people's money is safe with the banks and it earns interest.
- (ii) The facility of cheques against demand deposits makes it possible to directly settle payments without the use of cash. Since, demand deposits, can be used as a means of payment, along with currency, they constitute money in the modern economy.
- (iii) The depositor can withdraw the money as and when he/she needs the money.

64. 'Credit' refers to an agreement in which the lender supplies the borrower with money to buy, goods or services in return for the promise of future payment. Credit plays a vital and positive role as :

- (i) Credit helps people from all walks of life in setting up their business, increases their income and support their families.
- (ii) To some people loan helps in constructing their houses and get relief from monthly rent.
- (iii) To other it helps in raising their living standards.
- (iv) **Example:** Sheela has joined a job. She has taken a loan to buy a scooty that she can attend office conveniently and build a career. Without the loan she would have to travel in bus which takes more time. Thus she would not be able to attend evening classes.

65. Formal sector loans can be made beneficial for poor farmers and workers in the following ways :

- (i) Create awareness to farmers about formal sector loans.
- (ii) Process of providing loans should be made easier.
- (iii) It should be simple, fast and timely.
- (iv) More number of Nationalised Bank/cooperative banks should be opened in rural sector.
- (v) Banks and cooperatives should increase facility of providing loans so that dependence on informal sources of credit reduces.
- (vi) While formal sector loans need to expand, it is also necessary that everyone receives these loans.

66. Bank offers very attractive schemes to attract the people to save their money with them and organise money market. The deposits with banks are beneficial for individuals as well as to the nation in the following ways:

- (i) Bank accept deposit and also pay an amount as interest and in this way people earn money.
- (ii) People's money is safe with banks.
- (iii) It is easy for individuals to get credit who have savings and current account in the banks.
- (iv) Poor people who are engaged in production need credit.
- (v) Credit provided by the banks for government projects help in development of the nation.
- (vi) Bank provide loans for the promotion of international trade.
- (vii) Development of infrastructure is undertaken with the loans provided by the banks.

67. There is a necessity for the banks and cooperative societies to increase their lending in rural areas due to the following reasons :

- (i) It reduces dependence on informal sources of credit.
- (ii) Banks will provide more loan facilities to rural households.
- (iii) It will save rural people from exploitation.
- (iv) The poor can benefit from the cheaper loans by improving their economic condition.
- (v) The increased lending facilities will improve the livelihood of the people in the rural areas.

CHAPTER

Globalisation and Indian Economy

Previous Year Questions

Multiple Choice Type Questions

- Which one of the following is a major benefit to an MNC when it works on joint production with a local company? **[CBSE 2023]**
 - MNC shares its latest technology with the local company.
 - MNC decides all parameters and prices of the product.
 - MNC shares its institutional policy with local company.
 - MNC built good and familial relations with the local company.
- Why did the Indian government liberalize trade regulations in 1991? **[CBSE 2023]**
 - Government wanted foreign exchange equivalent to Indian Currency.
 - Government wanted maintain good relations with Western Countries.
 - Government wanted Indian producers to compete in the World Market.
 - Government wanted to provide socio-economic justice to all.
- Choose the correct statement about factors regarding globalisation in India:
 - Improvement in transportation technology.
 - Liberalisation of foreign trade and foreign investment.
 - Favourable rules of WTO towards India in comparison to developed countries.Choose the correct options from the codes given below:
[CBSE 2020]
 - I and II only
 - I and III only
 - II and III only
 - III only.

- Removing barriers or government is known as restrictions set by the **[CBSE Foreign 2014]**
 - Globalisation
 - Privatisation
 - Nationalisation
 - Liberalisation
- Which one of the following has been the major source of foreign exchange for I.T. Industry? **[CBSE Delhi 2014]**
 - Bharat Heavy Electricals Limited
 - Oil India Limited
 - Steel Authority of India Limited
 - Business Process Outsourcing

Very Short Type Questions

- Read the source given below and answer the questions that follow:

We have seen that the liberalisation of foreign trade and investment in India was supported by some very powerful international organisations. These organisations say that all barriers to foreign trade and investment are harmful. There should be no barriers. Trade between countries should be 'free'. All countries in the world should liberalise their policies. World Trade Organisation (WTO) is one such organisation whose aim is to liberalise international trade. Started at the initiative of the developed countries, WTO establishes rules regarding international trade, and sees that these rules are obeyed. 149 countries of the world are currently members of the WTO (2006). Though WTO is supposed to allow free trade for all, in practice, it is seen that the developed countries have unfairly retained trade barriers. On the other hand, WTO rules have forced the developing countries to remove trade barriers. An example of this is the current debate on trade in agricultural products. **[CBSE 2021 C]**

- (i) Which among the following organisations establishes the rules regarding international trade?
 (a) WHO (b) WTO
 (c) UPU (d) IMF
- (ii) Which of the following is the aim of World Trade Organisation?
 (a) To liberalise international trade
 (b) To provide loans to the developing countries
 (c) To help countries economically
 (d) To resolve the political disputes between countries
- (iii) Which one of the following options defines 'Liberalisation'?
 (a) Impose the tax on economic activities
 (b) To set barriers by the government in the economic field
 (c) To remove barriers set by the government
 (d) Self-control on all economic activities
- (iv) Who among the following had initiated to start the World Trade Organisation (WTO)?
 (a) European Union
 (b) Non-Aligned countries
 (c) Developing countries
 (d) Developed countries

7. State any one example of 'Trade Barrier' [CBSE 2019]

8. Why do MNCs set up their offices and factories in those regions where they get cheap labour and other resources? [CBSE 2016]

9. Differentiate between investment and foreign investment. [CBSE 2016]

10. Due to which reason the latest models of different items are available within our reach? [CBSE Foreign 2016]

11. What is the meaning of 'Investment'? [CBSE 2015]

12. Why are MNCs setting their customer care centres in India? [CBSE 2015]

13. What attracts the Foreign investment? [CBSE 2015]

14. Why did the Indian Government remove barriers to a large extent on foreign trade and foreign investment? [CBSE Foreign 2015]

Short Answer Type Questions

15. How is information technology connected with globalisation? [CBSE 2023]

16. Examine the steps taken by the central and state governments to attract foreign companies to invest in India. [CBSE Term-II, 2021-22]

17. Examine the debate that took place in the World Trade Organisation for the developing countries. [CBSE Term-II, 2021-22]

18. Analyse any three factors that make globalisation more fair. [CBSE 2019]

19. Analyse the impact of globalisation on Multi-national Corporations (MNCs) in India. [CBSE 2019]

20. How is foreign trade interlinking markets of different countries? Explain with example. [CBSE Foreign 2017]

OR

How do multinational corporations (MNCs) interlink production across countries? Explain with examples. [CBSE 2017]

21. Examine any three conditions which should be taken care of by multinational companies to set up their production units. [CBSE Delhi 2017]

22. What are the Special Economic Zones (SEZs)? Why is the government setting up SEZs? [CBSE 2016]

23. "Information and communication technology has played a major role in spreading out production of services across countries." Justify the statement with examples. [CBSE Foreign 2016]

24. Why had the Indian government put barriers to foreign trade and foreign investments after Independence? Analyse the reasons. [CBSE 2016, 2015]

25. Explain by giving example that multinational corporations (MNCs) are spreading their production in different ways. [CBSE 2016]

26. Elaborate any three disadvantages of multinational corporations. [CBSE 2016]

27. "A wide ranging choice of goods are available in the Indian Markets." Support the statement with examples in context of globalisation. [CBSE 2016]

OR

In recent years how our markets have been transformed? Explain with examples. [CBSE Delhi 2015]

28. "Foreign trade is an important component of globalisation". Explain any three points in this regard. [CBSE 2015]

29. How did Cargill Food become the largest producer of edible oils in India? Explain. [CBSE 2014]
30. Why did Ford Motors Company want to develop Ford India as a component supplying base for its other plants across the globe? Explain. [CBSE 2014]

Long Answer Type Questions

31. Examine the transformations observed in India's trade since 1991? [CBSE 2024]
32. Examine the factors that have enabled Globalisation in India? [CBSE 2024]
33. Explain any five steps taken by the developing countries to attract Foreign investment. [CBSE 2023]
34. "Liberalisation of foreign trade involves policy framework at National and International level. Explain the statement. [CBSE 2023]
35. Explain the rapid transformation in the communication sector in the modern times. [CBSE 2023]
36. Explain the characteristics of International trade of India. [CBSE 2023]
37. "Technology is the vital force in the modern form of globalisation. Explain the statement with suitable examples. [CBSE 2021-22]
38. "Globalisation is the process of rapid integration between countries". Examine the statements. [CBSE 2021-22 C]
39. "The impact of globalisation has not been uniform". Explain the statement with suitable examples. [CBSE 2021-22, 2020]
40. Read the sources given below and answer the questions that follow:

Source A: Production across countries

Until the middle of the twentieth century, production was largely organised within countries. What crossed the boundaries of these countries were raw material, food stuff and finished products. Colonies such as India exported raw materials and food stuff and imported finished goods. Trade was the main channel connecting distant countries. This was before large companies called multinational corporations (MNCs) emerged on the scene.

Source B: Foreign trade and integration of markets
Foreign trade creates an opportunity for the producers

to reach beyond the domestic markets, i.e., markets of their own countries. Producers can sell their produce not only in markets located within the country but can also compete in markets located in other countries of the world. Similarly, for the buyers, import of goods produced in another country is one way of expanding the choice of goods beyond what is domestically produced.

Source C: Impact of globalisation in India

Globalisation and greater competition among producers both local and foreign producers has been of advantage to consumers, particularly the well-off sections in the urban areas. There is greater choice before these consumers who now enjoy improved quality and lower prices for several products. As a result, these people today, enjoy much higher standards of living than was possible earlier. [CBSE 2020]

Source A: Production across countries

(i) How are MNCs a major force in connecting the countries of the world?

Source B: Foreign trade and integration of markets

(ii) How does foreign trade become a main channel in connecting countries?

Source C: Impact of globalisation in India

(iii) How is globalisation beneficial for consumers?

41. Why do multinational corporations (MNCs) set up their offices and factories in certain areas only? Explain any five reasons. [CBSE Delhi 2019, Foreign 2016]
42. How has foreign trade been integrating markets of different countries? Explain with examples. [CBSE 2018]
43. How do we feel the impact of globalisation on daily life? Explain with examples. [CBSE 2018]
44. Analyse any five positive effects of globalisation on the Indian economy. [CBSE 2017]
45. What is liberalisation? Describe any four effects of liberalisation on the Indian economy. [CBSE 2017]
46. How has information and communication technology stimulated globalisation process? Explain with examples. [CBSE 2017, 2014]
47. What is globalisation? Describe the role of Multinational Corporations (MNCs) in promoting globalisation process. [CBSE Delhi 2016]
48. Describe the impact of globalisation on Indian economy with examples. [CBSE 2016]
49. Describe the major problems created by the globalisation

for a large number of small producers and workers.
[CBSE Foreign 2016]

50. What steps should be taken to make trade more fair between the countries? **[CBSE 2016]**
51. How are Multinational Corporations (MNCs) controlling and spreading their productions across the world? Explain. **[CBSE Delhi 2015]**
52. "Globalisation and greater competition among producers has been advantageous to consumers." Support the statement with examples. **[CBSE 2015]**

53. "Fair globalisation would create opportunities for all and also ensure that benefits of globalisation are shared better." Support the statement. **[CBSE Foreign 2015]**
54. "Advancement of international trade of a country is an index to its prosperity." Support the statement with suitable example. **[CBSE 2014]**
55. "Globalisation has been advantageous to consumers as well as to producers." Support the statement with suitable examples. **[CBSE 2014]**

Explanations

Previous Year Questions

Multiple Choice Type Questions

1. (a) MNC shares its latest technology with the local company.
2. (c) Government wanted Indian producers to compete in the world Market
3. (a) 1 and II only
4. (d) Liberalisation
5. (d) Business Process Outsourcing

Very Short Type Questions

6. (i) (a) WHO
(ii) (a) To liberalise international trade
(iii) (c) To remove barriers set by the government
(iv) (d) Developed countries
7. Tax on imports is an example of trade barrier
8. Multinational companies usually set up their offices and factories in regions (countries) where they get land, labour and raw materials at a cheaper rate. This makes them more competitive in the world market and can lead to greater profitability.
9. Investment by any person or entity is the money spent for buying building, land or other assets with a motive to earn a profit in future by selling it or in any other fashion. Foreign investment is any investment made by a foreign business entity such as a MNC, or an individual or a foreign government in India for buying assets with the motive to earn a profit from it
10. Due to globalisation, the latest models of different items are available within our reach.
11. The money that is spent to buy assets such as land, building, machines and other equipment is called an investment.
12. Due to the availability of cheap skilled labour and good English speaking workforce.
13. Infrastructural facility and the possibility of making more profits in near future to attract the foreign investment.
14. To protect the Indian industries from competition of superior foreign goods.

Short Answer Type Questions

15. Information technology has fastened the pace of globalization. It has revolutionized the way interaction is done. Owing to its development, people can get connected to anyone, in every corner of the world, instantly. Except physical movement of products, every other transaction is possible through internet.

Without it, Globalisation would have taken many more years to spread out, as the required information for taking any decision, would have taken more time to be communicated and thus would have delayed the pace of integration among countries.

16. The steps taken by the central and state governments to attract foreign companies to invest in India are:
 - (i) Sezs special economic zones have been developed in the country. They are to have world class facilitates of water, electricity, education, labour etc. Industries established in these regions do not have to pay taxes for an initial period of five years.
 - (ii) Flexibility in labour laws: governments allowed flexibility in labour laws i.e. workers were employed on a temporary basis. This meant that worker's jobs were no longer secure. They had to put in long working hours and night shifts during the peak season. Their income was meagre and the working conditions were poor.
 - (iii) Liberalisation: Standing around 1991, some far reaching changes were made in the trade policy of India, which attracted foreign investment.
17. All WTO agreements contain special provisions for developing countries, including longer periods to implement agreements and commitments, measures to increase their trading opportunities and support to help them build the infrastructure for WTO work, handle disputes, and implement technical standards.
18. Globalisation is the trend of increasing interaction between people or companies on a worldwide scale due to advances in transportation and communication technology. However, it must be ensured that globalisation must benefit all the segments of the society only then it can be called fair globalisation. This can happen if we can ensure
 - (i) Proper implementation of labour laws.
 - (ii) It must be ensured that the small businesses are

- adequately supported so that they do not lose out to large corporations.
- (iii) As and when needed trade barriers must be applied to protect new sectors.
 - (iv) Our country must be able to join forces with other countries to fight domination of developed countries and negotiate with WTO for fair rules.
- 19.** Globalisation has made a very positive effect on the Multi-National Corporations. The ways in which they have benefitted are:
- (i) MNCs have been able to set up production where it is close to the markets; where there is skilled and unskilled labour available at low costs; and where the availability of other factors of production is assured.
 - (ii) MNCs also look for government policies that take care of their interests and thus they have been able to select beneficial bases for their business.
 - (iii) Because of the prevailing rules, MNCs have been able to set up production jointly with local companies. The benefit to the local company can be in terms of capital and technology.
 - (iv) Because of globalisation the MNC's have been able to bring better, safer, products to the people, that too at competitive prices.
- 20.** (i) Through the trade, goods travel from one market to another.
- (ii) Choice of goods in the markets increases and prices become competitive.
 - (iii) Producers in the two countries now compete against each other and best products become successful.
- 21.** The MNCs must ensure that
- (a) Cheap raw material is available.
 - (b) Cheap yet skilled labour is available.
 - (c) The overall production cost is low.
 - (d) Availability of large consumer base
- 22.** SEZs or Special Economic Zones are industrial areas with world class facilities.
- (i) Companies who set-up units in SEZs are exempted from tax for initial 5 years.
 - (ii) They are set-up to attract foreign investment.
 - (iii) Government has allowed flexibility in labour laws to attract foreign investment
- 23.** Rapid improvement in information and communication technology has stimulated the globalisation process.
- (i) While transportation technology has made much faster delivery of goods across long distances at lower costs, this would not have been possible without IT.
 - (ii) There have been remarkable development in information and communication technology.
 - (iii) Telecommunication and interest facilities are used to contact one another around the world, to access information instantly, and to communicate from remote areas.
 - (iv) Through internet, one can obtain and share information. It also allows to send e-mail and talk across the world at negligible costs.
 - (v) For example, a news magazine published for Mumbai readers can be designed and printed in Delhi office. The designers in the Delhi office get order on how to design the magazine from the office in Mumbai using internet facilities. The designing is done on a computer and sent to Mumbai. The printing is done in Mumbai.
- Even the payment of money for designing from a bank in Mumbai to a bank in Delhi is done instantly through net- banking.
- 24.** Reasons for putting trade barriers to foreign trade and investment by the Indian government after Independence are:
- (i) To protect local producers and goods from foreign competition.
 - (ii) Industries needed protection in early stages so that they could grow and develop in order to be ready to compete with developed countries later on.
 - (iii) It imposed restrictions on the import of certain goods.
- 25.** Multinational Corporations are spreading their productions in different ways.
- (i) By setting up partnership with local companies.
 - (ii) By placing order with local companies. For example, garments, footwear, sports items, etc.
 - (iii) By closely competing with the local companies.
 - (iv) By buying local companies. Example, Cargill Foods, a very large American MNC has taken over smaller Indian company such as Parakh Foods.
- 26.** The disadvantages of MNCs are:
- (i) Small manufacturers like makers of capacitors, plastic toys, tyres, dairy products and vegetable oil became victims of competition.
 - (ii) Closing down of small units rendered many workers jobless.
 - (iii) Most employers prefer to employ workers 'flexibly, this mean that workers jobs are no longer secure. Small Indian companies were hard hit because of Government's changed policies such as allowing import of the goods which were previously not

allowed.

27. With globalisation wide ranging choice of goods are available in the Indian markets. The various transformations in Indian market in recent years are:

- (i) There is availability of wide range of choice of goods and services.
- (ii) Products are of better quality and at competitive prices.
- (iii) We can easily avail the latest products with advanced technology, e.g. digital cameras, mobile phones, etc.
- (iv) Some Indian companies have become more competitive and have become multinationals with overseas production bases; such as Tata Motors, Tata Tea, Mahendra & Mahendra, Sun Pharma, etc.
- (v) There has been a jump in foreign trade and the Indian markets are very well integrated with the world. Notable have been the growth of Information Technology industry with companies like TCS, Infosys, etc.

28. (i) Foreign trade implies exchange of goods and services across the countries.

- (ii) It helps to expand the size of market for producers.
- (iii) Producers and consumers can get commodities produced in any part of the world.
- (iv) It works to integrate markets in different countries.

29. (i) Cargill Foods is a very large American MNC. It has bought over smaller Indian companies such as Parakh Foods and expanded the range of its production of edible oil in India.

(ii) Parakh Foods had built a large marketing network in various parts of India, where its brands was well-reputed. Also, Parakh Foods had four oil refineries whose control has now shifted to Cargill. It has become the largest producer of edible oils in India. It refines and markets various edible oil, for the food industry.

(iii) Many popular brands like Sweekar, Nature Fresh, and Gemini have become part of Cargill Foods.

30. Ford Motors wanted to develop Ford India as a component supplying base for its other plants across the globe due to following reasons:

- (i) A number of local manufacturers are supplying

component to their Chennai plant and the MNC feels that they can supply component to other plants across the globe.

- (ii) Cost of labour and material is very low in India.
- (iii) The components can be easily supplied to other MNC car manufacturers in India and China.

Long Answer Type Questions

31. Indian markets have been transformed since 1991 in the following ways:

- (i) We have a wider choice of goods and services before us.
- (ii) The latest models of digital cameras, mobile phones and televisions made by the leading manufacturers of the world are within our reach now. Example: New models of automobiles can be seen on Indian roads in every season.
- (iii) Today, Indians are buying goods produced by nearly all the top companies in the world. Example: An explosion of brands can be seen in the market for a variety goods, from shirts to televisions to processed fruit juices.
- (iv) Producers from any country can sell their produce in another country and hence, the markets are linked worldwide by trade and purchase. Example: Online shopping services such as amazon, flipkart etc.
- (v) Enterprises are granted the liberty to freely choose what goods to import or export. It is suggested that the government is more liberal since it places far less limitations than it did previously.

32. The factors which have enabled globalisation in India are:

- (i) One significant factor in the rise of service production has been information technology (IT).
- (ii) Over the last 50 years, several improvements in technology have taken place. For instance, containers are increasingly utilised in transportation technology to move commodities. As a result, costs have significantly decreased and market share has increased.
- (iii) One of the main things that has accelerated the growth of globalisation is the rapid advancement of transportation. This has allowed for considerably cheaper and speedier long-distance transportation

of commodities.

- (iv) Earlier trade barriers and limitations have been lifted by the Indian government. This made it possible to import and export products and services.

33. Steps taken by developing countries to attract foreign trade are as follows:

- (i) Some governments have set up Special Economic Zones with best facilities of electricity, water etc.
- (ii) Companies who set up their units in SEZs don't need to pay taxes for the first five years.
- (iii) The government has allowed flexibility in labour laws so that the companies find it profitable.
- (iv) Companies can hire workers without the security of jobs that is for the time when there is the intense pressure of work.
- (v) The government provides various legal concessions to attract companies to invest in India.

34. Removing barriers or restrictions set by the government is known as liberalisation. Liberalisation of foreign trade involves policy framework at national and international level. This statement can be described on the following grounds:

- (i) Around 1991, some far reaching changes in policy were made in India. It felt that competition would improve the performance of producers within the country to improve their quality.
- (ii) Barriers on foreign trade and foreign investment were removed to a large extent. This decision was supported by powerful international organisations.
- (iii) This meant that goods could be imported and exported easily and also foreign companies could set up factories and offices in a particular country.
- (iv) The government imposes much less restrictions than before and is therefore said to be more liberal.

35. In recent times technology in the telecommunications computer, internet has been changing rapidly. Telecommunication facilities (telegraph, telephone including mobile phones etc) are used to contact one another around the world to access information instantly and to communicate from remote areas. Information and communication technology has played a major role in spreading out production of services across countries. A news magazine published for London readers can also be designed and printed in

Delhi. The text of the magazine is sent through internet to the Delhi office.

36. Some characteristics of International Trade of India are:

- (i) Gross National product (GNP) of India is very significant for foreign trading as it is the value of nation's finished domestic goods and services owned by country's residents.
- (ii) India's share in world trade be it import or export is slowly decreasing by every passing year.
- (iii) Change in the composition of Imports and Exports, as in India Imports are increasing and exports are getting reduced.
- (iv) Few ports in the country make them over busy and the trading little difficult.
- (v) India's foreign trade is a lot dependent on foreign shipping companies and banks that need to be tackled down.

37. Globalisation and technology are intimately intertwined. The movement of people, goods and ideas is accelerated and broadened by new forms of transport and communication. Technological development is, in turn, enhanced by the diversity of ideas and the increased scale that comes from global reach. Technology is the vital force in the modern form of globalisation. Technology has revolutionised the global economy and has become critical competitive strategy. Globalisation has led to new markets and information technologies fostered to the new market in this increasing competitive world. Technology has helped us in overcoming the major hurdles of globalisation and international trade such as trade barrier, lack of common ethical standard, transportation cost and delay in information exchange thereby changing the market place. Technology has enabled the software experts to work collaboratively over the network with companies from around the world. Ex Improvement in transportation technology made faster delivery of goods across long distance possible at lower costs.

38. Globalisation means integrating the economy of a country with the economies of other countries under conditions of free flow of trade, capital and movement of persons across borders. For a long time foreign trade has been the main channel connecting different countries. Integration of markets occur through foreign trade, when goods from the market of one country travels to the market of another country, thus connecting them Since earlier times, foreign trade has been connecting the different countries. Early

trade routes helped in connecting Asia to the rest of the world. These trade routes not only facilitated the movement of goods, but also the movement of people and ideas. Later on, trading interests attracted various trading companies such as the East India Company got attracted towards India. Thus, foreign trade creates opportunities for producers to reach beyond the domestic markets and compete in markets located in other countries of the world. Similarly, the buyers have more choices of goods, beyond domestically produced goods. With the opening of trade, goods travel from one market to another and choices of goods in the markets rises. Prices of similar goods in the two markets tend to become equal. And, producers in the two countries compete against each other even though they are separated by thousands of miles. Thus, foreign trade results in connecting the markets or integration of markets in different countries.

39. (i) While globalisation has benefitted the well off consumers and also producers with skills, education and wealth, but many small producers and workers have suffered as a result of the rising competition.
- (ii) Removal of trade barriers and liberalisation of the government to facilitate globalisation have hit the local producers and manufacturers hard.
- (iii) Globalisation and the pressure of competition have substantially changed the lives of workers. Faced with growing competition most employers these days prefer to employ workers flexibly. This means that workers jobs are no longer secure. Example Developed countries took resources from underdeveloped countries at cheap rate and exported costly finished products to underdeveloped countries.
40. (i) Countries like India exports raw material, food stuff and finished products through multinational companies to the other countries. Hence, MNCs a major force in connecting the countries of the world.
- (ii) Foreign trade creates an opportunity for the producers to reach beyond the domestic markets, i.e., foreign countries.
- (iii) For consumers there is a greater choice than before who enjoy improved quality and lower priced for several products.
41. The Multinational Corporations set up offices and factories in certain areas because of the following reasons:
 - (i) MNCs set up production where it is close to the markets: where there is skilled and unskilled labour available and where the availability of other factors of production is assured.
 - (ii) MNCs set up offices and factories for production in regions they can get factors of production at cheaper rate.
 - (iii) This is done so that the cost and other resources of the production is low and the MNCs can earn greater profits.
 - (iv) MNCs also look for government policies that take care of their interests. Any investment is made with the hope that these assets will earn profits.
 - (v) At times, MNCs set up production jointly with local companies. The benefit to the local company can be (a) MNCs can provide money for additional investments, like buying new machines for faster production. (b) MNCs might bring with them the latest technology for production.
42. (i) Foreign trade has increased substantially with globalisation. It has led to integration of the economy of a country with the economies of other countries under conditions of free flow of trade, capital and movement of persons across borders.
- (ii) Integration of markets has led people in one country to use and appreciate products and culture of other countries. The markets now behave like one huge 'world market'.
- (iii) MNCs are playing a major role in the process of rapid integration or interconnection between countries. For example, if we take the case of automobiles, we find that an Indian citizen can select to buy from a large number of international brands., that are made in India. This has been possible only because of integration of markets.
- (iv) Now, more regions of the world are in closer contact with each other than a few decades back. This has been possible with the increased flow of goods and services.
- (v) MNCs play an important role in the Indian economy by setting up production jointly with some of the local companies.
- (vi) Rapid improvement in information and communication technology has been one major factor that has stimulated the Globalisation process.
43. (i) There is a wide choice of goods and services before them in the market. The latest models of digital camera, mobile phones and televisions made by

the leading manufactures of the world are within our reach.

- (ii) Every season new model of automobile can be seen on Indian roads that are produced by the top companies of the world.
- (iii) A similar explosion of brands can be seen for many other goods such as clothes or foods.
- (iv) Consumers now enjoy improved quality and lower prices for several products. As a result these people enjoy much higher standards of living.

44. Positive effect of the globalisation on Indian economy:

- (i) Availability of variety of products which has enabled the consumers to have greater choice and enjoy improved quality at lower prices for several products.
- (ii) This has led to better standards of living.
- (iii) This has led to increase in foreign direct investment
- (iv) New jobs have been created in many industries.
- (v) Top Indian companies have been benefited by investing in new technology and production methods along with successful collaborations with foreign companies.

45. Liberalisation means the opening of the country for foreign investments and capitals. Trade barriers are often used by countries to protect the domestic industries from the products of other countries. It has led to dismantling of the trade barriers. Free trade benefits consumers through increased choices and reduced prices. On the other hand, free flow of capital ensures that any country can make investments in other countries.

Impacts:

- (i) Increase in the foreign trade leading to better foreign reserves
- (ii) Increase in foreign investment.
- (iii) Exchange of technology between countries, has led to improvement in production in domestic companies. Also, competition from MNCs makes the Indian companies perform better.
- (iv) Foreign companies (MNCs) can now setup factories and offices in India to boost their production for the global markets. Many MNCs now export products that has been manufactured in India.
- (v) Better means of communication have developed alongside globalisation, which facilitates trading activities.

46. Information and communication technology has been the most important factor in triggering globalisation.

It has been the main catalyst for its advancement.

For Example, the internet and information systems. Massive amounts of information and data are available via the World Wide Web. The obvious benefits have been as follows-

- (i) The world's banking systems have benefited from the ability to instantly transfer funds, simplifying long- distance transactions.
- (ii) Most global businesses use technology that has been available for many years, such as planes and ships. However, innovative navigation advancements, such as global positioning systems, have increased efficiency made travel safer.
- (iii) In cargo handling our ports have become safer and more efficient. With the improvement in infrastructure and better engineered vehicles domestic cargo movement (and passenger movement) has become safer and efficient.

47. Globalisation means integration of the domestic economy with the world economy through trade, capital and technology flows. MNC's play an important role in the globalisation process. They compete with the local producers thus integrating the markets.

The role of MNCs in the process of globalisation can be understood through the following five examples:

- (i) MNCs have led to the availability of products from all over the world in any country. For example, in India, corporations like Toyota, Ford and Hyundai have led to availability of cars from other countries which are of high quality.
- (ii) MNCs from developing countries are also increasing their presence in developed countries. For example, Tata Tea purchased Tetley, a tea brand in Britain a few years ago.
- (iii) They have led to a greater movement of labour across the world. For example, Indian software engineers working in TCS go to the U.S. for work.
- (iv) MNCs have increased the inflow of foreign capital across different countries. For example, when a corporation like General Electric invests in India, it brings in capital from abroad.
- (v) They have led to more transfer of technology across the countries. For example, Samsung brings in more advanced technology for manufacturing electronics into countries like India.

48. Impact of globalisation on Indian economy:

- (i) Higher standard of living in urban areas.
- (ii) The impact has not been uniform among producers and workers.
- (iii) There is greater choice before the consumers who now enjoy improved quality and lower prices for several products.
- (iv) MNCs have increased their investments in India leading to more job opportunities.
- (v) Globalisation has enabled some large Indian companies to emerge as MNCs themselves like Tata Motors, Infosys, Asian Paints, etc.
- (vi) Globalisation has also created new opportunities for companies providing services particularly those involving IT (Information Technology).
- (vii) Local companies that supply raw materials to foreign industries have prospered.

However, for a large number of producers and workers, globalisation has posed major challenges.

- (i) Small products were hit badly by globalisation
 - (ii) They could not stand the competition and had to shut down some industries like batteries, capacitors, plastics, toys, tyres, dairy products and vegetable oils are industry which have suffered a lot.
 - (iii) Due to this, a lot of people lost their jobs and faced unemployment
- 49.** Globalisation for small producers and workers have not always been beneficial they create some problems are:
- (i) It has led to widening of income inequalities among various countries.
 - (ii) Worker's jobs are no longer secure.
 - (iii) Expansion of unorganised sector.
 - (iv) Small manufacturers are forced to hit hard due to severe competition.
 - (v) Several units are forced to shutdown rendering many workers jobless.
 - (vi) Lives of workers are on the whims of employers.
 - (vii) Workers are denied their fair share of benefits.
- 50.** The following steps should be taken to make trade more fair:
- (i) Before imposing trade barrier interest of the developing countries should be looked into.
 - (ii) Rules and regulation should be uniform.
 - (iii) Ensure that the developed countries do not retain

trade barriers unfairly.

- (iv) Labour laws should be implemented properly.
 - (v) Small producers should be supported to improve their performance till they become strong enough to compete.
- 51.** The multinational corporations (MNCs) are controlling and spreading their production across the world in the following ways:
- (i) MNCs set-up their production units close to market.
 - (ii) They set-up units jointly with local companies.
 - (iii) They set-up units where the labour is available at low cost.
 - (iv) Large MNCs place orders for productions with small producers.
 - (v) They have tremendous power to control price, quality, delivery and labour conditions for distant producers.
 - (vi) By purchasing local companies.
- 52.** Globalisation and greater competition among producers has been advantageous to consumers.
- (i) Globalisation and greater competition among producers both local and foreign has been advantageous to consumers, particularly the well off sections of urban areas.
 - (ii) There is greater choice before these consumers who now enjoy higher standards of living.
 - (iii) Producers have invested in newer technology and production methods and have raised their production standards leading to the availability of the better products for consumers.
 - (iv) Wide ranging choice of goods in our markets is a recent phenomenon and have brought changes in lives of people. For example, consumers are buying cameras, mobiles, T.V. or many other daily life items with the latest technology made by leading brands.
- 53.** Fair globalisation create opportunities for all and also ensure that benefits of globalisation are shared better.
- (i) Government policies must protect the interests not only of the rich and powerful but of all the people in the country.
 - (ii) Government can ensure that labour laws are properly implemented and the workers get their rights.

- (iii) Government can support small producers to improve their performance till they become strong enough to compete.
- (iv) If necessary the government can use trade and investment barriers.
- (v) It can negotiate at the WTO for fairer rules.
- (vi) It can also align with other developing countries with similar interests to fight against the domination of developed countries in the WTO.

54. This statement is true due to following reasons:

- (i) As the resources are always limited, international trade provides the opportunity for its best use.
- (ii) Goods or resources of one country are required by other and vice-versa. These differences create conditions for international trade.
- (iii) Foreign investment and trade has helped India to improve its productivity of manufactured goods. International trade contributes to India's economic growth, raising income levels of people. As more people in the world come to know about India it stimulates tourism and opens the door for business and earning of foreign exchange.
- (iv) In the recent years, exchange of commodities and goods have been superseded by the exchange of services associated with information technology adding large sums to the foreign exchange reserves.

- (v) India has emerged as a large data processing giant at the international level and it is earning large foreign exchange through the export of information technology. Thus, it can be concluded that advancement of international trade of a country is an index of its economic prosperity.

55. Globalisation has been advantageous to producers in the following ways:

- (i) The producers now have access to the international markets.
- (ii) Globalisation has also enabled fast movement of capital, via electronic transfers.
- (iii) Globalisation has enabled access to foreign investment in capital and technology.

Globalisation has been advantageous to consumers in the following ways:

- (i) Globalisation has led to employment generation, as a result, benefited people.
- (ii) Globalisation has also given rise to intense competition due to opening up of markets to foreign companies. As a result, this has led to the increase in product quality and decrease in the prices of the products.
- (iii) The consumers have benefited from the arrival of MNCs as they have brought good quality products to India.

The Rise of Nationalism in Europe

Previous Year Questions

Multiple Choice Type Questions

- There are two statements marked as Assertion (A) and Reason (R). Mark your answer as per the codes provided below:

- Both (A) and (R) are true and (R) is the correct explanation of (A)
- Both (A) and (R) are true but (R) is not the correct explanation of (A)
- (A) is correct but (R) is wrong.
- (A) is wrong but (R) is correct.

Assertion (A): On Prussian initiative Zollverein Custom Union was formed

Reason (R): It was to create unified economic territory allowing the unhindered movement of goods, people and capital. **[CBSE 2024]**

- Arrange the following in chronological order and choose the correct option:

- Napoleonic wars
- The Treaty of Vienna
- Greek Struggle for Independence
- Slav Nationalism in Ottoman Empire

(a) III, II, I and IV

(b) I, II, III and IV

(c) IV, III, II and I

(d) IV, II, III and I

[CBSE 2023]

- The phrase "Blood and Iron" is associated with which leader? **[CBSE 2023]**

(a) Otto von Bismarck

(b) Giuseppe Garibaldi

(c) Victor Emmanuel II

(d) Count Cavour

- Match the following attributes of allegory of Germania

with its significance and choose the correct option.

Attributes		Significance	
A.	Broken Chains	I.	Heroism
B.	Breast-Plate with eagle	II.	Readiness to fight
C.	Crown of oak leaves	III.	Strength
D.	Sword	IV.	Being free

- | | | | | |
|-----|----------|----------|----------|----------|
| | A | B | C | D |
| (a) | I | II | III | IV |
| (b) | IV | III | I | II |
| (c) | II | II | IV | III |
| (d) | III | IV | II | I |

[CBSE 2023]

- Which type of governments were mainly driven in Europe after the defeat of Napoleon in 1815?

- Conservative
- Liberal
- Federal
- Feudal

[CBSE 2021-22]

- Which one of the following group of countries collectively defeated Napoleon in 1815?

- Britain, Russia, Prussia and Austria
- Britain Russia. Prussia and Australia
- Britain, Russia Netherlands and Germany
- Britain, Luvembourg, Germany and Italy

[CBSE Term-1, 2021-2]

- Industrialisation began in which one of the following European countries in the second half of the eighteenth century? **[CBSE Term-1, 2021-22]**

- Germany
- France

- (c) Italy
(d) England
8. In which one of the following countries did the first liberalist-nationalist upheaval take place in July 1830? **[CBSE Term-1, 2021-22]**
- (a) France
(b) Germany
(c) England
(d) Italy
9. Who among the following remarked “When France sneezes, the rest of Europe catches cold”? **[CBSE Term-1, 2021-22, 2020]**
- (a) Lord Byron
(b) Metternich
(c) Johann Herder
(d) Napoleon
10. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option. **[CBSE Term-1, 2021-22]**
- Assertion (A) : After Russian occupation in Poland, the Russian language was imposed on its people.
Reason (R) : The use of Polish soon came to be a symbol of struggle against Russian dominance.
- (a) Both A and R are correct, and R is the correct explanation of the A.
(b) Both A and R are correct, but R is not the correct explanation of the A.
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.
11. Read the facts regarding the Revolution of the Liberals in Europe during 1848 and choose the correct option: **[CBSE Term-1, 2021-22]**
- I. Abdication of the monarch
II. Universal male suffrage had been proclaimed
III. Political Rights to women were given
IV. Freedom of the press had been asked for
- (a) Only I and II are correct.
(b) Only I, II and III are correct.
(c) Only I and IV are correct.
(d) Only I, II and IV are correct.
12. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option.

Assertion (A) : Weavers in Silesia had led a revolt against contractors in 1845.

Reason (R) : Contractors had drastically reduced their payments **[CBSE Term-1, 2021-22]**

- (a) Both A and R are correct, and R is the correct explanation of the A.
(b) Both A and R are correct, but R is not the correct explanation of the A.
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.
13. Which of the following is not a part of the ‘United Kingdom of Great Britain’? **[CBSE 2021-22 C]**
- (a) England
(b) Poland
(c) Scotland
(d) Ireland
14. Who among the following was the architect for the unification of Germany? **[CBSE Term-1, 2021-22]**
- (a) Otto Von Bismarck
(b) William I
(c) Frederick III
(d) William II
15. Who among the following had sought to put together a coherent programme for a unitary Italian Republic during the 1830 s? **[CBSE Term-1, 2021-22]**
- (a) Victor Emmanuel I
(b) Victor Emmanuel II
(c) Giuseppe Mazzini
(d) Count Cavour
16. Who among the following was proclaimed King of united Italy in 1861? **[CBSE Term-1, 2021-22]**
- (a) Charles I
(b) Victor Emmanuel II
(c) Giuseppe Garibaldi
(d) Nero
17. On which of the following modern aspects did the new Germany place a strong emphasis?
- I. Currency
II. Banking
III. Legal system
IV. Demography **[CBSE Term-1, 2021-22]**
- (a) Only I and II are correct.
(b) Only II and III are correct.
(c) Only III and IV are correct.
(d) Only I, II and III are correct.

18. Which one of the following Italian states was ruled by an Italian princely house? **[CBSE Term-1, 2021-22]**
- Papal State
 - Lombardy
 - Venetia
 - Sardinia-Piedmont
19. Identify the characteristics of Cavour among the following and choose the correct option:
[CBSE Term-I, 2021-22]
- He was an Italian statesman.
 - He spoke French much better than Italian.
 - He was a tactful diplomat.
 - He belonged to a Royal family.
- Only I and II are correct.
 - Only I, II and III are correct.
 - Only II, III and IV are correct.
 - Only I, II and IV are correct.
20. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option.
- Assertion (A) : In Britain, the formation of the nation state was not result of a sudden upheaval.
- Reason (R) : Ethnic groups of Britain extended its influence. **[CBSE 2021-22]**
- Both A and R are correct, and R is the correct explanation of the A .
 - Both A and R are correct. but R is not the correct explanation of the A.
 - A is correct, but R is incorrect.
 - A is incorrect, but R is correct.
21. Which of the following revolutions is called as the first expression of 'Nationalism'? **[CBSE 2020]**
- French Revolution
 - Russian Revolution

43. The main aim of the French Revolutionaries was to create a sense of collective identity amongst the French people.
44. The French revolution led to the transfer of sovereignty from the monarchy to a body of French Citizens.
45. For the new middle classes 'Liberalism' stood for freedom for the individual and equality of all before the law. Politically, it emphasized the concept of government by consent. Since the French Revolution, liberalism had stood for the end of autocracy and clerical privileges, a constitution and representative government through parliament. Nineteenth-century liberals also stressed

the inviolability of private property.

46. Freedom of the Press

Short Answer Type Questions

47. After Napoleon's defeat in 1815, many Germans wanted an independent Germany. The King of Prussia, Kaiser William I, chose Chief Minister Bismarck to Way Germany under the rule of Prussia.
 - (i) Bismarck was a fearless leader and believed in the urgent need for unification In Germany. He started with the modernisation of the army, defying the parliament in collecting taxes. His policy came to be known as 'Blood and iron' policy and earned him the nickname of the 'Iron Chancellor'.
 - (ii) Bismarck took great efforts to improve the army. With the improved army, he encouraged the German population of Schleswig and Holstein to revolt against their ruler Denmark. In 1864, Bismarck joined hands with Austria against Denmark. Prussia also defeated Austria and formed the North German Confederation.
 - (iii) Bismarck was able to keep Italy, Russia (and Napoleon III, of France till the end) out of war by diplomacy and negotiations.
 - (iv) The unification of Germany was complete under Kaiser William I in 1871 Soon Germany emerged as the leading power in Europe, building a colonial empire to further German economic interest and increase German influence in the world.
48.
 - (i) It resulted in the transfer of power from the King Louis XVI, to the National Assembly.
 - (ii) A collective identity of the people developed.
 - (iii) The Estate General was elected by the body of active citizens and renamed the National Assembly.
 - (iv) Jacobin clubs were set up for the propagation of liberal thoughts.
 - (v) A new French Flag, the tricolour was chosen to replace the former royal standard.
 - (vi) Regional dialects were discouraged and French became the common language of the nation.
49. The ideas of national unity in early 19th century Europe was closely associated with the ideology of liberal ism. For the new middle classes in Europe:
 - (i) Liberalism meant freedom for the individual and equality of all before the law.
 - (ii) Politically, it emphasised the concept of government by consent.
 - (iii) In economic sphere, liberalism stood for the freedom of markets and the abolition of state-

imposed restrictions on the movement of goods and capital.

50. Role played by culture in creating the idea of the nation:

- (i) Romanticism was a cultural movement which sought to develop a particular form of nationalist sentiment
- (ii) Romantic artists and poets generally criticized the glorification of reason and science and focused instead of emotions, intuitions and mystical feelings.
- (iii) Their effort was to create a sense of a shared collective heritage, a common cultural past, as the basis of a nation.

51. As per the Napoleonic code :

- (i) All the privileges obtained at birth was dismissed. It established equality before law.
- (ii) Granted right to property to the French citizens and simplified administration making it more efficient. abolished multiple taxes.
- (iii) Improved transportation and business travel and freed peasantry by abolishing serfdom/feudalism. Weights and measures were standardised.

52. In 1815, representatives of the European powers - Britain, Russia, Prussia and Austria - who had collectively defeated Napoleon, met at Vienna to draw up a settlement for Europe.

The Congress was hosted by the Austrian Chancellor Duke Metternich, the Treaty of Vienna was drawn with the object of undoing most of the changes that had come about in Europe during the Napoleonic wars.

The Bourbon dynasty, which had been deposed during the French Revolution, was restored to power.

France lost the territories it had annexed under Napoleon.

A series of states were set up on the boundaries of France to prevent French expansion in future. Thus the kingdom of the Netherlands, which included Belgium, was set up in the north and Genoa was added to Piedmont in the south. Prussia was given important new territories on its western frontiers, while Austria was given control of northern Italy.

The German confederation of 39 states that had been set up by Napoleon was however, left untouched. In the east, Russia was given part of Poland while Prussia was given a portion of Saxony.

The main intention was to restore the monarchies that had been overthrown by Napoleon and create a new

conservative order in Europe.

Conservative regimes set up in 1815 were autocratic. They did not tolerate criticism and dissent, and sought to curb activities that questioned the legitimacy of autocratic governments. Most of them imposed censorship laws to control what was said in newspapers, books, plays and songs and reflected the ideas of liberty and freedom.

53. (i) There were more seekers of jobs than employment. Population from rural areas migrated to the cities to live in overcrowded slums.

(ii) Small producers in towns were often faced with stiff competition from imports of cheap machine-made goods from England. This was especially so in textile production, which was carried out mainly in homes or small workshops.

(iii) In those regions of Europe where the aristocracy still enjoyed power, peasants struggled under the burden of feudal dues and obligations. The rise of food prices or a year of bad harvest led to widespread pauperism in town and country.

54. Three conditions that led to the emergence of the British Nation state are:

(i) The emergence of the new middle class

(i) The ideology of liberalism

(iii) The ideas of conservatism and treaty of Vienna.

55. (i) Though conservative forces were able to suppress liberal movements in 1848, they could not restore the old order. Monarchs were beginning to realise that the cycles of revolution and repression could only be ended by granting concessions to the liberal-nationalist revolutionaries.

(ii) Hence in the years after 1848, the autocratic monarchies of Central and Eastern Europe began to introduce the changes that had already taken place in Western Europe before 1815.

(iii) Thus, serfdom and bonded labour were abolished. The Habsburg rulers granted more autonomy to the Hungarians in 1867.

56. (i) After 1815, many liberal nationalists went underground for the fear of repression like Giuseppe Mazzini Italian revolutionary who founded two underground societies: first Young Italy in Marseilles and then Young Europe in Berne. Following the footsteps of Mazzini, many secret societies were set-up in Germany, France, Switzerland and Poland.

(ii) Romanticism was the cultural movement which sought to develop a particular form of nationalist sentiment. The Romantics used folk songs, folk poetry and folk dances to popularize the true

spirit of the nation. For example : Karol Kurpinski celebrated the national struggle through his operas and music in Poland. He turned folk dances; like polonaise and mazurka into nationalist symbols.

- (iii) Language also played a n important role in developing nationalist sentiments. For Example: It was mainly used as a weapon of national resistance when Polish language was forced out of schools and the Russian language was imposed every where in Poland.
57. Romanticism was a cultural movement which sought to develop a particular form of nationalists sentiments in the fol lowing ways.
- (i) Critical approach towards reason and science Romantic artists criticized the glorification of reason and science and focused on emotions, intuitions and mystical feeling.
 - (ii) Folk culture as the spirit of the nation: Johann Gottfried Herder claimed that through folk songs, folk poetry and folk dances, the true spirit of nation could be popularised.
 - (iii) Emphasis on vernacular language They gave emphasis on vernacular language to recover the national spirit and to carry the modern nationalist message to large audience who were mostly illiterate.
58. Culture played an important role in creating the idea of the nation:
- (i) Art and poetry, stories and music helped express arid shape nationalist feelings.
 - (ii) Romanticism, a cultural movement which sought to develop a particular form of nationalist sentiment. Though they generally criticized the glorification of reason and science and focused on emotions, intuition and mystical feelings. Their effort was to create a sense of a shared collective heritage, a common cultural past. as the basis of a nation.
 - (iii) Romantics such as the German philosopher Johann Gottfried Herder claimed that true Ger man culture was to be discovered among the common people - das yolk. It was through folk songs, folk poetry and folk dances that the true spirit of the nation was popularised.
 - (iv) The emphasis on vernacular language and the collection of local folklore ignited the national spirit, and carried the modern nationalist message to large audiences who were mostly illiterate. This was especially so in the case of Poland, which had been partitioned.
- (v) Language too played an important role in developing nationalist sentiments. After Russian occupation the Polish language was forced out of schools and the Russian language was imposed. Many members of the clergy in Poland began to use language as a weapon of national resistance. Polish was used for Church gatherings and all religious instruction.
59. Artists in the eighteenth and nineteenth centuries found a way out by personifying a nation. They portrayed a nation as a female figure.
- (i) The female form that was chosen to personify the nation did not stand for any particular woman in real life.
 - (ii) It gave an abstract idea of the nation a concrete form.
 - (iii) The female figure became an allegory of the nation.
 - (iv) In France she was named Marianne and in Germany she was named Germania.
60. France was a full-fledged territorial state in 1789 under the rule of an absolute monarch
- (i) French Revolution led to the transfer of sovereignty from the monarchy to a body of French citizens.
 - (ii) The revolution proclaimed that it was the people who would henceforth constitute the nation and shape its destiny. So, the French revolutionaries introduced various measures and practices that could create a sense of collective identity amongst the French people.
61. Economic nationalism strengthened the wider nationalist sentiment.
- (i) In the economic sphere liberalisation stood for the freedom of markets and the abolition of state imposed restrictions on the movement of goods and capital There was a strong demand of the emerging middle classes of the German speaking regions for this.
 - (ii) Napoleon's administrative measures had created a confederation of 39 states. Each of these possessed its own currency, weights and measures. Such conditions were viewed as obstacles to economic exchange and growth by the new commercial classes who argued for the creation of a unified economic territory allowing the unhindered movement of goods, people and capital.
 - (iii) The union abolished tariff barriers and reduced the rumber of currencies from over thirty to two.
 - (iv) The creation of network of railways further stimulated mobility. harnessing economic interest

to rational unification.

62. The important events of the French revolution that affected other parts of Europe include:

- (i) The first clear expression of nationalism came with the French Revolution and it spread in most parts of Europe.
- (ii) The political and constitutional changes that came in the wake of the French Revolution led to the transfer of sovereignty from the monarchy to a body of French citizens. This spread the message of rule by people's representatives.
- (iii) The ideas of La Patrie (the fatherland) and Le Citoyen (the citizen) emphasised the notion of a united community enjoying equal rights under a constitution.
- (iv) A centralized administrative system was put in place and it formulated uniform laws for all citizens within its territory. Internal customs duties and dues were abolished and a uniform system of weights and measures was adopted. These measures were also implemented in other countries which came under the occupation of Napoleon.
- (v) Knowing about the various changes in France. Jacobian clubs were formed in various cities of Europe by the educated middle class and students.

63. As the news of the events in France reached the different cities of Europe, students and other members of educated middle classes began setting up Jacobin Clubs. This spread the ideals of liberalism in different parts of Europe. Thus, the ideals of freedom for the individual and equality of all before the law, government by consent etc. spread. With the outbreak of the revolutionary wars, the French armies began to carry the idea of nationalism abroad.

64. In the areas conquered by Napoleon, the reactions of the local populations to French rule were mixed.

- (i) Initially, in many places such as Holland and Switzerland, as well as in certain cities like Brussels, Mainz, Milan and Warsaw, the French armies were welcomed as harbingers of liberty.
- (ii) But the initial enthusiasm soon turned to hostility, as it became clear that the new administrative arrangements did not go hand in hand with political freedom.
- (iii) Increased taxation, censorship, forced conscription into the French armies required to conquer the rest

of Europe, all seemed to outweigh the advantages of the administrative changes.

65. Some of the prevailing conditions that were viewed as obstacles to economic exchange and growth by the new commercial classes in the 19th century Europe include -

- (i) In a large number of small principalities that formed a confederation of 39 states, Each of them had its own currency, and weights and measures.
- (ii) A merchant traveling through Europe even for medium distances had to cross numerous custom barriers and pay a custom duty of about 5 per cent at each one of them.
- (iii) Duties were often levied according to the weight or measurement of the goods. As each region had its own system of weights and measures, this involved time-consuming calculation
- (iv) State imposed restrictions on movement of goods and capital.
- (v) Small producers faced stiff competition from import of cheap machine-made goods.

Long Answer Type Questions

66. Romanticism was a cultural movement that emerged in the late 18th and early 19th centuries, emphasizing emotion, individualism, and a deep connection to nature as a response to the rationalism of the Enlightenment. It celebrated personal feelings and intuition, portraying nature as a powerful source of inspiration. The movement critiqued industrialization and often idealized rural life and the past. Additionally, it drew on folk tales and traditions to foster a sense of national identity. Influential figures included poets like William Wordsworth and painters such as Caspar David Friedrich. Overall, Romanticism significantly impacted literature, art, and politics, promoting a more emotional approach to artistic expression.

67. The year 1848 was pivotal in France, marked by a revolution that led to the establishment of the Second Republic. Frederic Sarrieu's painting, "The Dream of a Republic," encapsulated the aspirations for a democratic and social republic that many revolutionaries sought. This artwork reflected a desire for a government that truly represented the people's will, while also emphasizing the need for social justice and the alleviation of poverty and inequality. Sarrieu's vision highlighted the unity among various social classes working together in their struggle for change. Although the revolution initially succeeded in creating

the Second Republic, many of these democratic aspirations encountered significant challenges in the years that followed.

68. Greek war of independence mobilised the nationalist feeling in Europe through the following ways

- (i) Greece was viewed as a part of Europe that had been annexed by Ottomans and now needed to be liberated.
- (ii) Greece perceived as the foundation and cradle of civilisation in Europe by poets and artists and this led to nationalist contentiousness.
- (iii) Greek nationalists received support from other Greeks living in exile.
- (iv) Many Europeans had a natural sympathy for the ancient Greek civilization.
- (v) Europeans and Greek nationalist were against the Muslim Empire.

69. By the last quarter of the nineteenth century nationalist aspirations of the subject people in Europe to further their own imperialist aims. The spread of the ideas of romantic nationalism in the Balkans together with the disintegration of the Ottoman Empire made this region very explosive after 1871.

One by one, its European subject nationalities of the Ottoman empire, broke away from its control and declared independence. The Balkan people based their claims for independence or political rights on nationality and used history to prove that they had once been independent but had subsequently been subjugated by foreign powers. Hence the rebellious nationalities in the Balkans thought of their struggles as attempts to win back their long-lost independence. This made the Balkans an area of intense conflict. The Balkan states were fiercely jealous of each other and each hoped to gain more territory at the expense of the others. Matters were further complicated because the Balkans also became the scene of big power rivalry. During this period, there was intense rivalry among the European powers over trade and colonies as well as naval and military might

Each power - Russia, Germany, England, Austro-Hungary was keen on countering the hold of other powers over the Balkans and extending its own control over the area. This led to a series of wars in the region and finally the First World War.

70. The first clear expression of nationalism came with the French Revolution in 1789. France was a full-

fledged territorial state in 1789 under the rule of an absolute monarch.

- (i) The political and constitutional changes that came in the wake of the French Revolution led to the transfer of sovereignty from the monarchy to a body of French citizens.
- (ii) From the very beginning, the French revolutionaries introduced various measures and practices that could create a sense of collective identity amongst the French people.
- (iii) The ideas of 'La Patrie' (the fatherland) and 'Le Citoyen' (the citizen) emphasised the notion of a united community enjoying equal rights under a constitution.
- (iv) A new French flag, the tricolour, was chosen to replace the former royal standard. The Estates General was elected by the body of active citizens and renamed the National Assembly. New hymns were composed, oaths taken and martyrs commemorated, all in the name of the nation.
- (v) The revolutionaries further declared that it was the mission and the destiny of the French nation to liberate the people of Europe from despotism.

71. Measures and practices:

- (i) The ideas of 'La Patrie' (the fatherland) and 'Le Citoyen' (the citizen) emphasised the notion of united community enjoying equal rights under a constitution.
- (ii) A new French flag, the tricolour was chosen to replace the former royal standard.
- (iii) The Estate General was elected by the body of active citizen and renamed the National Assembly.
- (iv) New hymns were composed, oaths taken and martyrs commemorated, all in the name of the nation.
- (v) A centralised administrative system was put in place and it formulated uniform laws for all citizens within its territory.
- (vi) Internal customs duties and dues were abolished and a uniform system of weights and measures was adopted.
- (vii) Regional dialects were discouraged and French became the common language of the nation.

72. The four important ideas of Liberal nationalists in the economic sphere were -

- (a) Removal of internal customs duties.

- (b) Reducing the number of currency from 30 to just two.
- (c) Implementation of a uniform system of weights and measures.
- (d) Regional dialects were discouraged and French, as it was spoken and written in Paris, became the common language of the nation, which improved business communication.

73. After 1848, nationalism in Europe separated from its association with democracy and revolution. Nationalist sentiments were mobilised by conservatives for promoting state power and achieving political domination over Europe.

Nationalist feelings were widespread among middle-class Germans, who in 1848 tried to unite the different regions of the German confederation into a nation-state governed by an elected parliament.

This liberal initiative to nation-building was, however, repressed by the combined forces of the monarchy and the military, supported by the large landowners (called Junkers) of Prussia.

From then Prussia took on the leadership of the movement for national unification. The chief minister of Prussia, Otto von Bismarck, was the architect of this process. It was carried out with the help of the Prussian army and bureaucracy.

Three wars over seven years - with Austria, Denmark and France - ended in Prussian victory and completed the process of unification. In January 1871, the Prussian king, William 1, was proclaimed German Emperor in a ceremony held at Versailles.

74. "Napoleon had destroyed democracy in France but in administrative field he had incorporated revolutionary principles in order to make the whole system more rational and efficient." Napoleon introduced following social and administrative reforms in Europe:

- (i) The Civil Code of 1804, known as Napoleonic code, did away with all the privileges based on birth.
- (ii) Administration became more efficient. Napoleon introduced revolutionary principles in an administration making it more efficient and rational.
- (iii) Secured the Right to Property.
- (iv) Simplified administrative divisions.
- (v) Abolished feudal system.

- (vi) Freed peasants from serfdom and dues.
- (vii) In the towns too, guild restrictions were removed.
- (viii) Transport and communication was improved.
- (ix) Peasants, artisans, workers and new businessmen enjoyed new-found freedom, uniform laws, standardised weight and the measures facilitated the movement of goods and capital from one region to another.

75. (i) Secret societies sprang up in many European states to train revolutionaries and spread their ideas.

(ii) To be revolutionary at this time meant a commitment to oppose monarchical forms that had been established after the Vienna Congress, and to fight for liberty and freedom. (iii)

Most of these revolutionaries also saw the creation of nation-states as a necessary part of this struggle for freedom. One such individual was the Italian revolutionary Giuseppe Mazzini.

(iv) He subsequently founded two more underground societies, first, Young Italy in Marseilles, and then, Young Europe in Berne, whose members were like-minded young men from Poland, France, Italy and the German states.

(v) Mazzini believed that God had intended nations to be the natural units of mankind. So, Italy could not continue to be a patchwork of small states and kingdoms. It had to be forged into a single unified republic within a wider alliance of nations.

(vi) This unification alone could be the basis of Italian liberty. Following his model, secret societies were set-up in Germany, France, Switzerland and Poland.

(vii) Mazzini's relentless opposition to monarchy and his vision of democratic republic frightened the conservatives. Metternich described him as 'the most dangerous enemy' of our social order.

76. (i) Napoleon was set about introducing many of the reforms that he had already introduced in France.

(ii) Through a return to monarchy Napoleon had destroyed democracy in France, but in the administrative field he had incorporated revolutionary principles in order to make the whole system more rational and efficient.

(iii) The Civil Code of 1804 usually known as the Napoleonic Code did away with all privileges based on birth, established equality before the law and secured the right to property.

- (iv) This Code was exported to the regions under French control. In the Dutch Republic, in Switzerland, in Italy and Germany, Napoleon simplified administrative divisions, abolished the feudal system and freed peasants from serfdom and manorial dues.
 - (v) In the towns too, guild restrictions were removed.
 - (vi) Transport and communication systems were improved.
- 77. Sentiment of Nationalism in the last half of the 19th century.**
- (i) Nationalist groups became increasingly intolerant, which led to war.
 - (ii) Major European powers manipulated the nationalist aspirations to further their own imperialist aims.
 - (iii) Source of nationalist tension in Europe was the area called Balkans.
 - (iv) Idea of romantic nationalism in the Balkan together with disintegration of the Ottoman empire made this region very explosive.
 - (v) One by one, European nationalists broke away from its control and declared Independence.
 - (vi) The Balkan people based their claims for independence or political rights on nationality to prove that they were once independent but were subjugated by foreign power.
 - (vii) As the different, Slavic nationalities struggled to define their identity and Independence, the Balkan area became an area of intense conflict.
- 78. Unification of Germany :**
- Nationalist feelings were widespread among middle class farmers. In 1848, they tried to unify Germany into a nation. This feeling was repressed by the combined forces of the monarchy and the military.
- From then on Prussia took on the leadership of unification of Germany. Its Chief Minister, Otto-von Bismarck was the architect of this process, he took the help of military and bureaucracy.
- Three wars over seven years ended in Prussian victory and completed the process of unifications. The Prussian King William-I was proclaimed German Emperor in January 1871.
- 79. (i)** The English nation steadily grew in wealth, importance and power, it was able to extend its influence over the other nations of the islands.
- (ii)** The English parliament, which had seized power from the monarchy in 1688 at the end of a protracted conflict, was the instrument through which a nation-state, with England at its center, came to be forged.
- (iii)** The Act of Union (1707) between England and Scotland that resulted in the formation of the 'United Kingdom of Great Britain' meant, in effect, that England was able to impose its influence on Scotland.
- (iv)** Scotland's distinctive culture and political institutions were systematically suppressed. The Catholic clans that inhabited the Scottish Highlands suffered terrible repression whenever they attempted to assert their independence.
- (v)** The Scottish Highlanders were forbidden to speak their Gaelic language or wear their national dress, and large numbers were forcibly driven out of their homeland.
- (vi)** The English helped the Protestants of Ireland to establish their dominance over a largely Catholic country. Catholic revolts against British dominance were suppressed.
- 80. (i)** During the years following 1815, the fear of repression drove many liberal-nationalists underground.
- (ii)** Secret societies sprang up in many European states to train revolutionaries and spread their ideas.
- (iii)** To be revolutionary at this time meant a commitment to oppose monarchical forms that had been established after the Vienna Congress, and to fight for liberty and freedom.
- Most of these revolutionaries also saw the creation of nation-states as a necessary part of this struggle for freedom.
- (iv)** One such individual was the Italian revolutionary Giuseppe Mazzini. He became a member of the secret society of the Carbonari. As a young man of 24, he was sent into exile in 1831 for attempting a revolution in Liguria.
- (v)** He subsequently founded two more underground societies, Young Italy in Marseilles, and Young Europe in Bern, whose members were like-minded young men from Poland, France, Italy and the German states.
- (vi)** Mazzini believed that God had intended nations to be the natural units of mankind. So Italy could not continue to be a patchwork of small states and kingdoms. It had to be forged into a single unified republic within a wider alliance of nations. This unification alone could be the basis of Italian

liberty.

Following his model, secret societies were set up in Germany, France, Switzerland and Poland. Mazzini's relentless opposition to monarchy and his vision of democratic republics frightened the conservatives.

81. (i) The Balkan was a region of geographical and ethnic variation comprising of many states and territories whose inhabitants were commonly known as Slaves.

(ii) A large part of Balkans was under the control of the Ottoman empire while some other parts were under the control of Russia and Austria causing a complex problem.

(iii) The spread of the ideas of Romantic nationalism in the Balkans together with the disintegration of the Ottoman Empire made the region very explosive.

(iv) The Balkan people based their claim for independence or political rights on nationality and desired to win back their long lost freedom.

(v) The Balkans also became the scene of big power rivalry over trade and colonies as well as naval and military might. Each power- Russia Germany. England, and Austria-Hungary-was keen on countering the hold of other powers over the Balkans, and extending its own control over the area. This led to a series of wars in the region and finally the First World War.

2 CHAPTER

Nationalism in India

Previous Year Questions

Multiple Choice Type Questions

1. Which one of the following pairs regarding Indian nationalism is correctly matched?

	Leaders	Contribution
(a)	Sardar Patel	Hindustan Socialist Republican Army
(b)	Bhagat Singh	Swaraj Party
(c)	C.R. Das	Bardoli Satyagraha
(d)	Jawahar Lal Nehru	Oudh Kisan Sabha

[CBSE 2023-24]

2. Certain events are given below. Choose the appropriate chronological order :

- I. Coming of Simon Commission to India
- II. Demand of Purna Swaraj in Lahore Session of INC.
- III. Government of India Act, 1919
- IV. Champaran Satyagraha

Choose the correct option:

- (a) III - II - IV - I
- (b) I - IV - II
- (c) II - III - I - IV
- (d) IV - III - I - II

[CBSE 2020]

3. Identify the appropriate reason from the following options, for the non-participation of industrial workers in the Civil Disobedience Movement.

- (a) Industrialists were close to the Congress
- (b) British offered them good salaries
- (c) They were reluctant towards the boycott of foreign goods
- (d) Growth of Socialism.

[CBSE 2020]

4. Why did the Simon Commission come to India? Identify the correct reason from the following options.

- (a) To control the campaign against the British in cities

- (b) To look into the functioning of the British
- (c) To initiate salt law in India
- (d) To suggest changes in the functioning of the constitutional system in India

[CBSE 2020]

5. Who among the following wrote the Vande Mataram?

[CBSE 2020]

- (a) Rabindranath Tagore
- (b) Bankim Chandra Chattopadhyay
- (c) Abiridranath Tagore
- (d) Dwarkanath Tagore

6. In which one of the following places Mahatma Gandhi organised Satyagraha for the first time in India?

[CBSE Delhi 2014]

- (a) Dandi
- (b) Ahmedabad
- (c) Kheda
- (d) Champaran

7. In which one of the following Indian National Congress sessions was the demand of 'Purna Swaraj' formalised in December 1929?

[CBSE AI 2014]

- (a) Madras Session
- (b) Lahore Session
- (c) Calcutta Session
- (d) Nagpur Session

8. Who among the following was associated with the formation of 'Swaraj Party' within the Congress?

[Foreign 2014]

- (a) Subhas Chandra Bose
- (b) Motilal Nehru
- (c) Jawahar Lal Nehru
- (d) Dadabhai Naoroji

Very Short Type Questions

9. Mention any two impacts of the First World War on Indian Economy.

[CBSE Term-11, 2021-22]

10. Mention any two causes that led to the Disobedience

Movement. [CBSE Term-II, 2021-22C]

11. Why did Mahatma Gandhi decide to call off the Civil Disobedience Movement in 1931?
[CBSE Term-II, 2021-22]
12. Why did Gandhiji support the 'Khilafat' issue? Write main reason. [CBSE 2020]
13. Name the two main leaders of 'Khilafat Committee' formed in the year 1919. [CBSE 2020]
14. Why was the Inland Emigration Act of 1859 troublesome for plantation workers? [CBSE 2020]
15. Name the association formed by Dr. B.R. Ambedkar for Dalits in 1930. [CBSE 2020]
- 16 Name the author of the novel 'Anandamath'
[CBSE 2020, Delhi 2017]
17. Trace the reason because of which Gandhiji started Satyagraha in 1919. [CBSE 2016]
18. What did British do to repress the Rowlatt Satyagrahis?
[CBSE 2016]

Short Answer Type Questions

19. "Describe any three causes that led to the Non-Cooperation Movement." [CBSE 2023-24]
 20. "Describe any three causes of the 'Civil Disobedience Movement.'"
[CBSE 2023-24]
 21. Map based questions.
 - (i) Two places 'A' and 'B' have been marked on the given Political outline map of India. Identify them with the help of the following information and write their correct names on the lines drawn near them :
 - (a) The place where Mahatma Gandhi broke the salt law.
 - (b) The place where Session of Indian National Congress was held in 1927.[CBSE 2023-24]
 22. Analyse the role of folklore and symbols in the revival, of nationalism in India during late 19th century. [CBSE 2023]
- OR**
- Evaluate the contribution of folklore, songs, popular prints etc. in shaping the nationalism during freedom struggle. [CBSE 2017]
23. 'Mahatma Gandhi launched a more broad-based movement in India by joining Khilafat Andolan'

Explain the statement with any three arguments in the context of Non-Cooperation Movement

[CBSE Term-II 2021-22]

24. "The effects of Non-Cooperation Movement on the economic front were more dramatic". Support the statement with examples. [CBSE Term-II, 2021-22]
25. How could Non-Cooperation become a movement? Give your opinion.
[CBSE Term- II, 2021-22C, Foreign 2015]
26. Read the following source carefully and answer the questions that follows.

Nationalism In India

Modern nationalism in Europe came to be associated with the formation of nation-states. It also meant a change in people's understanding of who they were, and what defined their identity and sense of belonging. New symbols and icons, new songs and ideas forged new links and redefined the boundaries of communities. In most countries the making of this new national identity was a long process. How did this consciousness emerge in India?

In India and as in many other colonies, the growth of modern nationalism is intimately connected to the anti-colonial movement. People began discovering their unity in the process of their struggles with colonialism. The sense of being oppressed under colonialism provided a shared bond that tied many different groups together. But each class and group felt the effects of colonialism differently, their experiences were varied, and their nations of freedom were not always the same. The Congress under Mahatma Gandhi tried to forge these groups together within one movement. But the unity did not emerge without conflict.

- (i) What was people's understanding of nation?
- (ii) How was the growth of modern nationalism intimately connected to the anti-colonial movement?
- (iii) How did people in India develop a sense of collective belonging? Explain.

[CBSE Term-II, 2021-22]

27. Describe the spread of Non-Cooperation Movement in the countryside. [CBSE Term-II, 2021-22C, 2015]
28. Why did the Non-Cooperation Movement gradually slowdown in the cities? Explain.
(CBSE 2021-22 C, 2015, Foreign 2014)
29. Read the given source below carefully and answer the questions that follow:
The Independence Day Pledge. 26, January, 1930
'We believe that it is the inalienable right of the Indian people, as of any other people, to have freedom and to

enjoy the fruits of their toil and have the necessities of life, so that they may have full opportunities of growth. We believe also that if any government deprives people of these rights and oppresses them, the people have a further right to alter it or to abolish it. The British Government in India has not only deprived the Indian people of their freedom but has based itself on the exploitation of the masses, and has ruined India economically, politically, culturally and spiritually. We believe, therefore, that India must sever the British connection and attain Purna Swaraj or Complete Independence'

- (i) Why was freedom considered an inalienable right of the Indian people?
- (ii) Why was Purna Swaraj considered essential by the people of India?
- (iii) Explain the significance of the Lahore Session of Congress. (1930). **[CBSE 2021-22]**

30. "It was essential to preserve folk tradition. In order to discover one's national identity and restore a sense of pride in one's past, support the statement in reference to India. **[CBSE Term-II, 2021-22]**

31. Read the case given below carefully and answer the questions that follow:

The Sense of Collective Belonging

This sense of collective belonging came partly through the experience of united struggles. But there were also a variety of cultural processes through which nationalism captured people's imagination. History and fiction, folklore and songs, popular prints and symbols, all played a part in the making of nationalism. The identity of the nation, as you know, is most often symbolised in a figure or image. This helps create an image with which people can identify the nation. It was in the twentieth century, with the growth of nationalism, that the identity of India came to be visually associated with the image of Bharat Mata. The image was first created by Bankim Chandra Chattopadhyay. In the 1870s he wrote 'Vande Mataram' as a hymn to the motherland. Later it was included in his novel *Anandamath* and widely sung during the Swadeshi movement in Bengal. Moved by the Swadeshi movement, Rabindranath Tagore painted his famous image of Bharat Mata. In this painting, Bharat Mata is portrayed as an ascetic figure; she is calm, composed, dignified and spiritual. In subsequent years, the image of Bharat Mata acquired many different forms, as it circulated in popular prints, and was painted by different artists. Devotion to this mother figure can be seen as evidence of one's nationalism.

- (i) How did the 'nation' become a reality? In the minds of people?
- (ii) How did nationalism capture the people's imagination.
- (iii) How did people belonging to different groups develop a sense of collective belonging?

[CBSE 2021-22]

32. Read the source given below and answer the questions that follow:

Why Non-cooperation?

In his famous book *Hind Swaraj* (1909), Mahatma Gandhi declared that British rule was established in India with the cooperation of Indians, and had survived only because of this cooperation. If Indians refused to cooperate, British rule in India would collapse within a year, and swaraj would come. How could non-cooperation become a movement? Gandhiji proposed that the movement should unfold in stages. It should begin with the surrender of titles that the government awarded, and a boycott of civil services, army, police, courts and legislative councils, schools, and foreign goods.

Then, in case the government used repression, a full civil disobedience campaign would be launched. Through the summer of 1920 Mahatma Gandhi and Shaukat Ali toured extensively, mobilising popular support for the movement.

- (i) What was the weapon of Gandhiji to fight against British Empire in India?
- (ii) How did the British survive in India?
- (iii) Explain Gandhiji's idea for making non-cooperation as movement **[CBSE 2020]**

33. Read the extract given below and answer the questions that follow:

Source - Swami in the Plantations

Workers too had their own understanding of Mahatma Gandhi and the nation of Swaraj. For plantation workers in Assam, freedom meant the right to move freely in and out of the confined space in which they were enclosed, and it meant retaining a link with the village from which they had come. Under the Inland Emigration Act of 1859, plantation workers were not permitted to leave the tea gardens without permission, and in fact they were rarely given such permission. When they heard of the Non-Cooperation Movement, thousands of workers defied the authorities, left the plantations and headed home. They believed that Gandhi Raj was coming and everyone would be given land in their own villages. They, however, never

reached their destination. Stranded on the way by a railway and steamer strike, they were caught by the police and brutally beaten up.

- (i) Explain the understanding of 'Swaraj' for plantation workers in Assam.
- (ii) Explain the Inland Emigration Act of 1859 as a barrier to freedom of plantation workers.
- (iii) Explain the main outcome of the participation of workers in the Non-Cooperation Movement.

[CBSE 2020]

34. Read the source given below and answer the questions that follows:

The movement In the towns

The movement started with middle-class participation in the cities. Thousands of students left government-controlled schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices. The council elections were boycotted in most provinces except Madras, where the Justice Party, the party of the non-Brahmans, felt that entering the council was one way of gaining some power—something that usually only Brahmins had access to. The effects of non-cooperation on the economic front were more dramatic. Foreign goods were boycotted, liquor shops picketed, and foreign cloth burnt in huge bonfires. The import of foreign cloth halved between 1921 and 1922, its value dropping from Rs. 102 crore to Rs. 57 crore. In many places merchants and traders refused to trade in foreign goods or finance foreign trade. As the boycott movement spread and people began discarding imported clothes and wear only Indian ones, production of Indian textile mills and handlooms went up.

- (i) Explain the role of 'Justice Party' in boycotting of council elections.
- (ii) How was the effects of 'Non-Cooperation on the economic front' dramatic?
- (iii) Explain the effect of 'Boycott' movement on 'foreign textile trade'

[CBSE 2020]

35. Read the sources given below and answer the questions that follow :

A. The Salt March and The Civil Disobedience Movement

Mahatma Gandhi found in salt a powerful symbol that could unite the nation. On 31 January, 1930, he sent a letter to Viceroy Irwin stating eleven demands. Some of these were of general interest; while others were specific demands of different classes, from industrialists to peasants.

B. How Participants saw the Movement

In the countryside, rich peasant communities - like the Patidars of Gujarat and Jats of Uttar Pradesh - were active in the movement. Being producers of commercial crops, they were very hard hit by trade depression and falling prices.

C. The limits of Civil Disobedience Movement

When the Civil Disobedience Movement started there was an atmosphere of suspicion and distrust between communities.

(i) The Salt March and the Civil Disobedience Movement

How did Gandhiji react to the Salt Law?

(ii) How Participants saw the Movement

Why did the rich peasants become supporters of the Civil Disobedience Movement?

(iii) The limits of the Civil Disobedience Movement
Examine the limits of the Civil Disobedience Movement

[CBSE 2020C]

- 36. Why did Gandhiji decide to withdraw the Non-Cooperation Movement' in February, 1922? Explain any three reasons.**

[CBSE AI 2017]

OR

What were the causes of the withdrawal of the Non-Cooperation Movement? Explain.

[CBSE 2015]

- 37. Discuss the various stages of the Non-Cooperation Movement launched by Mahatma Gandhi.**

[CBSE 2016]

- 38. Simon Commission was greeted with slogan 'Go Back Simon' at arrival in India. Support this reaction of Indians with argument.**

[CBSE Foreign 2016]

- 39. Explain in brief the 'Dandi March.'**

[CBSE 2016]

OR

Describe the main features of the 'Salt March'.

[CBSE AI 2024]

- 40. Why did the different social groups join the Civil Disobedience Movement? Explain..**

72. Why did political leaders differ sharply over the question of separate electorates for muslims and the dalits? **[CBSE 2014]**

Explanations

Previous Year Questions

Multiple Choice Questions

1. (d)
2. (d) IV - III - I - II
3. (a) : Industrialists were close to the Congress
4. (d) : To suggest changes in the functioning of the constitutional system in India.
5. (b) : Bankim Chandra Chattopadhyay
6. (d) Champaran
7. (b) : Lahore Session
8. (b) : Motilal Nehru

Very Short Type Questions

9. The first world war created a new economic and political situation in India.
 - (i) EXPENDITURE: There was a huge increase in the defense expenditure which was financed by war loans and increasing taxes, custom duties were raised and income tax was introduced.
 - (ii) PRICES: Prices of goods increases, almost doubling between 1921 and 1929. This caused extreme hardship for the common people.
10. The Civil Disobedience Movement was one of the most significant movements launched by Mahatma Gandhi in the course of India's freedom struggle in 1930. The two main causes of the civil disobedience movement are:
 - (i) The constitution of Simon commission with no Indians and the death of Lala Lajpat Rai while protesting against the commission enraged the entire nation.
 - (ii) In the Lahore session the demand of Purna Swaraj was declared, thus the civil disobedience movement was launched as the first step to fulfill this goal.
11. (i) Colonial government responded with brutal repression. Many satyagrahis were attacked when children were beaten in huge numbers and about 100,000 people were rearrested.
 (ii) Gandhiji once again decided to call off the movement and entered into a pact with Irwin on 5

March 1931 (Gandhi-Irwin Pact) to participate in a Round Table Conference.

12. Gandhiji saw khilafat issue as an opportunity to bring Muslim under the umbrella of a united national movement.
13. Leaders of Khilafat Committee- Muhammad Ali and Shaukat Ali.
14. Because they were not allowed to move out the tea garden without permission.
15. The association formed by Dr. B. R. Ambedkar is Depressed Class Association.
16. Bankim Chandra Chattopadhyay
17. Gandhiji started Satyagraha in 1919 to protest against the Rowlatt Act.
18. The British decided to clamp down on satyagrahis.

Short Answer Type Questions

19. (a) Three Causes that Led to the Non-Cooperation Movement:
 1. **Jallianwala Bagh Massacre (1919):** The brutal killing of hundreds of unarmed civilians by British troops at Jallianwala Bagh in Amritsar deeply angered Indians. It highlighted the oppressive nature of British rule and triggered widespread resentment across the country.
 2. **Rowlatt Act (1919):** The British government passed the Rowlatt Act, which allowed them to imprison any Indian suspected of sedition without trial. This law was seen as an infringement on civil liberties and further increased the demand for self-rule.
 3. **Khilafat Movement:** The defeat of the Ottoman Empire in World War I and the subsequent harsh treatment of the Turkish Sultan, the Caliph of Islam, by the Allies deeply upset Indian Muslims. The Khilafat Movement sought to protect the Caliphate, and its leaders allied with Mahatma Gandhi, who saw an opportunity for Hindu-Muslim unity in the freedom struggle.
20. (b) Three Causes of the Civil Disobedience Movement:
 1. **Salt Tax and the Salt March (1930):** The British imposed a heavy tax on salt, a basic necessity for Indians. Gandhi's Salt March in 1930, where he defied the law by making salt from the sea, symbolized the oppression faced by Indians and

sparked mass participation in the movement.

2. **Economic Exploitation:** The British policies led to the destruction of local industries, heavy taxation, and economic hardship for the Indian population. The Great Depression of 1929 worsened the economic conditions, making Indians even more determined to oppose colonial rule.
3. **Simon Commission (1928):** The Simon Commission, formed to discuss constitutional reforms, did not include a single Indian member. This exclusion enraged Indians, as it showed British disregard for Indian political aspirations. The slogan "Simon Go Back" became a rallying cry, increasing the demand for complete independence.

21. (i) Two places 'A' and 'B' have been marked on the given Political outline map of India. Identify them with the help of the following information and write their correct names on the lines drawn near them :
 - (i) The place where Mahatma Gandhi broke the salt law.
 - (ii) The place where Session of Indian National Congress was held in 1927.

22. Ideas of nationalism developed through a movement greatest achievements, to revive Indian folklore songs popular prints in the following ways:
 - (i) In late-nineteenth-century India, nationalists began recording folk tales sung by bards and they toured villages to gather folk songs and legends.
 - (ii) These tales, they believed, gave a true picture of traditional culture that had been corrupted and

damaged by outside forces. It was essential to preserve this folk tradition in order to discover one's national identity and restore a state of "wide in one's past."

- (iii) In Bengal, Rabindranath Tagore himself began collecting ballads, nursery rhymes and myths, and led the movement for folk revival.
 - (iv) In Madras, Natesa Sastri published a massive four-volume collection of Tamil folk tales, The Folklore of Southern India. He believed that folklore was national literature: it was 'the most trustworthy manifestation of people's real thoughts and characteristics'.
 - (v) As the national movement developed, nationalist leaders became more and more aware of such icons and symbols in unifying people and inspiring in them a feeling of nationalism.
23. (i) **LIMITS:** Mahatma Gandhi's satyagrahas in Champaran, kheda and ahmedabad were limited to a particular social group the Rowlatt Act satyagraha was also limited to cities and towns. Mahatma Gandhi now felt the need to launch a more broad-based movement in India. But he thought that no such movement could succeed without the united cooperation of Hindus and Muslims.
 - (ii) **KHILAFAT ISSUE:** The first world war ended with the defeat of Ottoman Turkey. There were rumors that harsh peace terms were going to be imposed on the Ottoman emperor, the spiritual head of the Islamic world, the khalifa. This enraged the Muslims in India and a khilafat committee was formed in Bombay in March 1919 to defend the khalifa's.
 - (iii) **UMBRELLA MOVEMENT:** A young generation of Muslim leaders like Muhammad Ali and Shaukat Ali, in discussion with Mahatma Gandhi, saw this as an opportunity to bring the Muslims under a united umbrella movement.
 24. The effects of Non-cooperation Movement on the economic front were:
 - (i) The import of foreign clothes halved between 1921 and 1922 and its value dropped from 102 crores to 57 crores.
 - (ii) Foreign goods were boycotted, liquor shops picketed and foreign cloth burnt in huge bonfires.
 - (iii) In many places, traders and merchants refused to trade in foreign goods or finance foreign goods. As the boycott movement spread, people refused

to wear imported clothes and wore Only Indian ones.

- (iv) Production of Indian textiles and handlooms went up.
- 25. (i) The Non-Cooperation-Khilafat Movement began in January 1921. Various social groups participated in this movement, each with its own specific aspiration. All of them responded to the call of Swaraj, but the term meant different to different people.
- (ii) The movement started with middle-class participation in the cities. Thousands of students left government-control led schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices. The council elections were boycotted in most provinces (except Madras, where the Justice Party, the party of the non-Brahmans, felt that entering the council was one way of gaining some power.
- (iii) Foreign goods were boycotted, liquor shops picketed, and foreign cloth was burnt in huge bonfires. As the boycott movement spread, people began discarding imported clothes wearing only Indian.
- (iv) From the cities, the Non-Cooperation Movement spread to the countryside. It drew into its fold the struggles of peasants and tribals. In Awadh, peasants were led by Baba Ramchandra - the movement here was against talukdars and landlords who demanded from peasants exorbitantly high rents.
- (v) In the Gudem Hills of Andhra Pradesh, a militant guerrilla movement spread in the early 1920s - not a form of struggle that the Congress could approve. When the colonial government shut forest areas and began forcing the tribals to contribute begar for road building, the hill people revolted violently under the leadership of Alluri Sitaram Raju.
- 26. (i) People's understanding of nations was of modern states, having centralised powers exercising sovereign control over their own territory.
- (ii) A shared bond that tied different groups together was the sense of being oppressed under colonialism, the British policies and the growing anger against the colonial government brought different sections of the society together. Hence, we can say nationalism grew partly as a result of colonial policies and partly as a reaction to colonial
- (iii) People in India develop a sense of belonging through the experience of united struggles history, folklore etc all played Important role in bringing

them together.

- 27. Non-Cooperation Movementspreadinthe countryside:
 - (i) Awadh peasants were led by Baba Ramchandra. Here the move merit was against talukdars and landlords who demanded from peasants exorbitantly high rents and a variety of other ceases.
 - (ii) Peasants had to do begar and work at landlords farms without any payments. As tenants they had no security of tenure and were regularly evicted so that they have no right over the leased land.
 - (iii) The Peasant Movement demanded reduction of revenue, abolition of begar and social boycott of oppression of landlords.
 - (iv) In the meantime, Jawaharlal Nehru began going around the villages in Awadh.
The Awadh Kisan Sabha was set up in the villages. The peasant movement, however, developed in forms that the Congress leadership was unhappy with.
 - (v) As the movement spread, the houses of talukdars and merchants were attacked: bazaars were looted and grain hoards were taken over.
- 28. The Non-Cooperation Movement gradually slowed down in the cities because:
 - (i) Khadi clothes were more expensive than mill clothes. Poor people could not afford to buy it
 - (ii) The boycott of British institutions posed a problem as there was no alternate arrangement.
 - (iii) Students and teachers began trickling hack to government schools.
 - (iv) Lawyers joined work in government courts.
- 29. (i) It was an inalienable right of the Indian people to have freedom and to enjoy the fruits of their hard labour and to have the necessities of life so that they might have full opportunities of growth.
- (ii) The British government exploited the Indian people economically, politically, socially hence, they wanted complete independence from the British rule.
- (iii) Lahore session of congress (1930) is very significant because in this session congree decided to observe 26th January 1930 as the purna sawaraj day.
- 30. (i) The nationalist histories urged the readers to take pride in India's great achievements in the past and struggle to change the miserable conditions of life under British rules.
- (ii) In the nineteenth century the Indian nationalists began recording folk sang sung by bards and they

- toured to different villages to gather folk songs and legends.
- (iii) They believe that tales give true picture of traditions culture that has been corrupted and damaged by the outsiders.
 - (iv) Indian's began to look into the past to discover India's
 - (v) They wrote about the glorious developments in ancient times when art and architecture, science and mathematics, religion and culture, law and philosophy, crafts and trade had flourished.
31. 1. The identify of the nation is often symbolised as figure or an allegory that further sans identify with it thus, people can associate themselves with the nation.
 2. Cultural processes like duster and fictions forelock and songs, popular prints and symbols as well as the experience of united struggles, captured further imagination.
 3. People belonging to different gaps developed a sense of collective belonging through:-
 - (i) sense of being appraised
 - (ii) icons and symbols including Bharat Mata, Vande Mataram, Swaraj flag, etc.,
 - (iii) survival of formalised
 - (iv) reinterpretation of history.
 32. (i) Satyagraha was the weapon of Gandhiji to fight peacefully against British Empire in India.
 - (ii) According to Gandhiji in his book Hind Swaraj, British rule was established in India with the cooperation of Indians and had survived only because of this cooperation.
 - (iii) Gandhiji proposed that the movement should unfold in stages:
 - (a) Surrender of titles that the government awarded.
 - (b) Boycott of civil services, army, police, courts and legislative, councils, school, and foreign goods.
 - (c) Then, in case the government used repression, a full civil disobedience campaign would be launched.
 33. (i) For plantation workers in Assam, freedom meant the light to move freely in and out of the confined space in which they were inclosed.
 - (ii) Under the inland Emigration Act of 1859, plantation worker were not permitted to leave the tea gardens without permission and in fact they were rarely given such permission.
 - (iii) The participation of worker were identifying with a movement which went beyond the limits of their immediate locality.
 34. (i) Justice Party of non-brahmans felt that entering the council was one way of gaining power. So, they did not boycott council elections.
 - (ii) The imports of foreign cloth halved between 1921 and 1922, its value dropping from 102 crore to 57 crore. Productions of Indian textile and handlooms went up.
 - (iii) (a) The import of foreign cloth halved between 1921 and 1922. its value dropping from Rs. 102 crore to Rs. 57 crore.
 - (b) As the boycott movement spread and people began discarding imported clothes and wearing only Indian one, production of Indian textile mills and handlooms went up.
 35. (i) Gandhiji opposed to Britishers salt tax and their monopoly over its production. He demanded to abolish the salt tax. It is consumed by all as an essential food item. So, Gandhiji started his famous Dandi March.
 - (ii) Rich Peasants were hit by depressed prices of the food grains so were unable to pay the land revenue. This demand for reduction in revenue was refused that is why for them fight for swaraj was fight against high revenue.
 - (iii) Limitations of Civil Disobedience Movement -
 - (a) Industrialist did not participate in this movement in large numbers.
 - (b) Congress was reluctant to include worker's demand as part of its programme of struggle.
 36. Withdrawal of Non-Cooperation Movement in February 1922:
 - (i) Gandhiji felt the movement was turning violent in many places.
 - (ii) A clash took place at Chauri Chaura in Uttar Pradesh. A group of volunteers picketing a liquor shop were beaten up by the police.
 - (iii) In protest a group of peasants went to the police station, bolted the door and set fire to the police station killing 22 policemen.
The incident shocked Gandhiji and he immediately withdrew the movement.
 37. Gandhiji proposed that the movement should unfold in stages:
 - 1st Stage - Surrender of titles that the government awarded.
 - 2nd Stage - Boycott of civil services, army, police, courts and legislative, councils, school, and foreign goods.

- 3rd Stage - Then, in case the government used repression, a full civil disobedience campaign would be launched.
38. Simon Commission was set-up to look into the functioning of the Constitutional System in India and suggest changes.
- The new Tory government in Britain constituted a Statutory Commission under Sir John Simon.
 - It was set up in response to the nationalist movement.
 - The commission was to look into the functioning of the constitutional system in India and suggest changes.
 - The problem was that the commission didn't have a single Indian member. They were all whites.
 - When the Simon Commission arrived in India in 1928, it was greeted with the slogan 'Go Back Simon'
 - All parties, including the Congress and the Muslim League, participated in the demonstrations.
39. (i) Mahatma Gandhi started his famous 'Salt March' or 'Dandi March' on 11th March, 1930 accompanied by 78 of his trusted volunteers.
- The march was to cover 240 miles from Gandhi's ashram in Sabarmati to the Gujarat Coastal town of Dandi.
 - On 6th April, 1930, he reached Dandi and ceremonially violated the law by manufacturing salt by boiling sea water.
 - This marked the beginning of Civil Disobedience Movement.
40. Different social groups joined in the Civil Disobedience Movement for different reasons:
- Rich Peasantry Group:** The Patidar and Jats demanded reduction in revenue and participated in the boycott program.
 - Poor Peasantry Group:** They wanted unpaid rent to be remitted, joined radical movement led by the socialist and communist.
 - Business Class Group :** Prominent industrialist like Purshottamdas, G D Birla formed FICCI. They wanted protection against imports of foreign goods and stable rupee sterling exchange ratio and refused to sell imported goods.
 - Working Class Group :** Nagpur workers adopted boycott of foreign goods, against low wages and poor working conditions.
 - Women:** Participated in the protest marches, manufacturing of salt and boycotted foreign goods.
41. During the Swadeshi movement in Bengal, a tricolour flag (red, green and yellow) was designed. It had eight lotuses representing eight provinces of British India, and a crescent moon, representing Hindus and Muslims.
42. By 1921, Gandhiji had designed the Swaraj Flag. It was again a tricolor (red, green and white) and had a spinning wheel in the center, representing the Gandhian ideal of self-help. Carrying the flag, holding it aloft, during marches became a symbol of defiance.
43. (i) Mahatma Gandhi declared that British rule was established in India with the cooperation of Indians and if Indians had refused to cooperate, British rule in India would have collapsed within a year.
- He proposed that the movement should unfold in stages.
 - It should begin with the surrender of titles that the government had awarded to the Indians.
 - A boycott of civil services, army, police, courts and legislative assemblies, schools and foreign goods would show their non-cooperation to the British empire. Mahatma Gandhi felt that in case the government used repression, full civil disobedience campaign would be launched.
44. Problems faced by the peasants of Awadh in the days of Non-Cooperation Movement were:
- Talukdars and landlords posed high rent on land and variety of taxes.
 - Various taxes were also implemented on them.
 - Peasants had to do begar and work at landlord's farm without any payment.
 - They had no security of tenure and were evicted regularly.
 - They had no right over leased land.
- Write any three.
45. Participation of women in the Civil Disobedience Movement was:
- Women in large number participated in the Civil Disobedience Movement.
 - During Salt March thousands of women came out of their homes to listen to Gandhiji.
 - They participated in protest marches, manufactured salt.
 - They picketed foreign cloth and liquor shops.
 - Many went to jail.
 - They began to see service to the nation as a sacred duty of women.
46. The main features of 'Poona Pact' were:

- (i) The Poona Pact (September 1932) gave Depressed Classes (later to be known as Scheduled Caste) reserved seats in provincial and central legislative councils.
 - (ii) They were to be voted in by the general electorates.
 - (iii) The Act came into force due to Gandhiji's fast unto death.
 - (iii) Ambedkar ultimately accepted Gandhiji's stand.
- 47. Salt March** became an effective tool of resistance against colonialism because:
- (i) Mahatma Gandhi found in salt a powerful symbol that could unite the nation.
 - (ii) Salt was an essential item of food and was consumed by rich and poor alike.
 - (iii) Irwin was unwilling to negotiate, so Gandhiji started Salt march with 78 volunteers. (On 6th April) he reached Dandi, violated the law and made salt.
 - (iv) This march developed the feeling of nationalism, people in different parts of the country broke the salt law and manufactured salt and demonstrated in front of government salt factories.
- 48. Khilafat Agitation:**
- (i) World War I had ended with defeat of Ottoman Turks. There were rumours of harsh treaty on Khalifa.
 - (ii) To defend Khalifa's temporal powers, Khilafat Committee was formed in 1919 as he was considered as the spiritual head of Muslims.
 - (iii) Gandhiji supported it because he saw it as an opportunity to bring Muslims under the umbrella of a unified National Movement
- 49. (i)** Peasants of Awadh were led by Baba Ram chandra, a Sanyasi. The movement was against Talukdars and Landlords.
- (ii) The landlords and talukdars demanded exorbitantly high rents and other cess. Peasants had to do begar and work at landlord's farms without any payment.
 - (iii) As tenants, the farmers had no security of tenure. The peasant movement demanded reduction of revenue, abolition of begar and social boycott of oppressive landlords.
 - (iv) In many places, nai-dhobi bandhs were organized by panchayats to deprive landlords of the services of barbers and washermen.
 - (v) Oudh Kisan Sabha was set up headed by Jawaharlal Nehru: Baba Ram Chandra and few others.
- Within a month, over 300 branches were set up in the

villages. The peasants development in forms. In 1921, the houses of Talukdars and Merchants were attacked. Bazaars were looted. Grain hoards were taken over.

Long Answer Type Questions

- 50.** The following were the affects of the First World War on the economic and political situation of India:
- (i) More defense budget forcing countries to take war loans
 - (ii) Shortages leading to prices doubling between 1913-18
 - (iii) The Custom duties and taxes were raised leading to price rise.
 - (iv) Forced recruitment in to the army led to discontent among the people.
 - (v) Acute shortage of food Items because of crop failures
 - (vi) Spread of epidemic leading to death of many people
- 51. (i)** Mahatma Gandhi found salt a powerful symbol that could unite the nation. On 31st January 1930, he sent a letter to Viceroy Irwin stating wide ranging eleven demands.
- (ii) All classes of the Indian society identified with the broad ranging demands. The most stirring of all was the demand to abolish the salt tax.
 - (iii) Salt was something consumed by the rich and the poor alike, and it was one of the most essential items of food. The tax on salt and the government monopoly over its production. Mahatma Gandhi revealed the most oppressive face of British rule.
 - (iv) In the Dandi march the volunteers walked for 24 days, about 10 miles a day. Thousands came to hear Mahatma Gandhi wherever he stopped, and he told them what he meant by swaraj and urged them to peacefully defy the British.
 - (v) On 6th April he reached Dandi, and ceremonially violated the law, manufacturing salt by boiling sea water. This marked the beginning of the Civil Disobedience Movement. People were now asked not only to ref use cooperation with the British, as they had done in 1921-22, but also to break colonial laws.
- Thousands of people broke the salt law in different parts of the country, manufactured salt and demonstrated In front of govern merit salt factories.
- As the movement spread, foreign cloth was boycotted, and liquor shops were picketed.

Peasants refused to pay revenue and chaukidari taxes, village officials resigned, and in many places forest people violated forest laws.

52. The following points analyse the progress made by difference-strata of society in civil disobedience movement.

- (i) Rich Peasants : Their demand for reduction in revenue was refused. For them, fight for Swaraj was fight against high revenue.
- (ii) Poor Peasants : Economic depression made it very difficult for them to pay rent to the landlords. Congress did not support them in rent campaign fearing that it would upset the rich farmers.
- (iii) Business Community: Their demand was for protection against exports and fixed exchange ratio. To protect their business interests, they formed the Indian Industrial and Commercial Congress in 1920 and the Federation of the Indian Chamber of Commerce and Industries (FICCI) in 1927.
- (iv) Workers : As the Congress was seen close to the industrialists, the workers did not participate in the movement except in Nagpur.
- (v) Women : There was large scale participation of women in the Civil Disobedience Movement. They participated in the Salt March and other protest march. They participated in picketing of foreign cloth and liquor shops.

53. After arriving in India, Mahatma Gandhi successfully organised satyagraha movements in various places. In 1917 he travelled to Champaran in Bihar to inspire the peasants to struggle against the oppressive plantation system. Then in 1917, he organised a satyagraha to support the peasants of the Kheda district of Gujarat. Affected by crop failure and a plague epidemic, the peasants of Kheda could not pay the revenue, and were demanding that revenue collection be relaxed. In 1918, Mahatma Gandhi went to Ahmedabad to organise a satyagraha movement amongst cotton mill workers.

54. Non-Cooperation Movement spread in cities across the country:

- (i) The movement started with middle class participation in the cities.
- (ii) Thousands of students left government controlled schools and colleges.
- (iii) Headmasters and teachers resigned and lawyers gave up their legal practices.
- (iv) The council elections were boycotted in most

provinces except Madras where Justice Party took part in elections.

55. (i) Thousands of students left government-controlled schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices.

(ii) The effects of non-cooperation on the economic front was dramatic. Foreign goods were boycotted, liquor shops picketed, and foreign cloth burnt in huge bonfires.

(iii) The import of foreign cloth halved between 1921 and 1922, its value dropping from Rs. 102 crore to Rs. 57 crore.

(iv) In many places merchants and traders refused to trade in foreign goods or finance foreign trade. As the boycott movement spread, and people began discarding imported clothes and wearing only Indian ones, production of Indian textile mills and handlooms went up.

56. Dr. B.R. Ambedkar, organised the dalits into the Depressed Classes Association in 1930.

(i) Ambedkar clashed with Mahatma Gandhi at the second Round Table Conference by demanding separate electorates for dalits.

(ii) The British government conceded Ambedkar demand, however Gandhiji opposed it and began a fast unto death.

(iii) Gandhiji believed that separate electorates for dalits would slow down the process of their integration into society. This resulted in the Poona Pact of September 1932.

(iv) It gave the Depressed Classes (later to be known as the Schedule Castes) reserved seats in provincial and central legislative councils, but they were to be voted in by the general electorate.

57. (i) Plantation workers had their own understanding of Mahatma Gandhi and the notion of swaraj. For plantation workers freedom meant the right to move freely in and out of the confined space in which they were enclosed, and it meant retaining a link with the village from which they had come.

(ii) Under the Inland Emigration Act of 1859, plantation workers were not permitted to leave the tea gardens without permission, and in fact they were rarely given such permission.

(iii) When they heard of the Non-Cooperation Movement, thousands of workers defied the authorities, left the plantations and headed home.

(iv) They believed that Gandhi Raj was coming and everyone would be given land in their own villages.

58. Civil Disobedience Is the active, professed refusal of a citizen to obey certain laws, demands, orders or commands of a government. In India It refers to the movement led by Gandhiji against the British rule.

Both the rich and the poor peasants did not participate in the Civil Disobedience movement because of varying reasons. There reasons were as follows

Rich Peasants :

- (i) They were hit by depressed prices of the food grains.
- (ii) They were unable to pay the land revenue. Their demand for reduction in revenue was refused.
- (iii) For them fight for swaraj was fight against high revenue.
- (iv) They were disappointed with the calling off of civil disobedience movement and were reluctant to join it back upon its relaunch.

Poor Peasants

- (i) Economic depression made it very difficult for them to pay rent to the landlords
- (ii) Congress did not support their no rent campaign fearing that it would upset the rich farmers.

59. The limits of the Civil Disobedience Movement were-

- (i) The Congress ignored the dalits and the depressed classes in order to please the high caste Hindus. Hence, the participation of the depressed classes was Limited.
- (ii) The Congress was associated with the Hindu related Nationalist groups. So, the Muslim, participation was less.
- (iii) There was distrust between the communities alienated by the Congress. Large sections of Muslims did not respond to the civil disobedience movement.
- (iv) The rich peasants were disappointed when the civil disobedience movement was called off in 1931 without the revenue rates being revised. The participation of the landless peasants was poor.
- (v) The Congress was closer to and supported the business class due to which the industrial working class did not participate in the movement

60. For a long time, the congress was reluctant to allow women to hold any position of authority within the organisation. It was keen only on their symbolic presence. Gandhiji was convinced that it was the duty of women to look after the home and health, to be a good mother and good wives.

Large number of women participated in the Civil

Disobedience Movement As was seen during Gandhiji's Salt March, thousands of women came out of their homes to listen to him. They participated in protest marches, manufactured salt, and picketed foreign cloth and liquor shops. Many went to jail. In urban areas these women were from high-caste families; in rural areas they came from rich peasant households. Moved by Gandhiji's call, they began to see service to the nation as a sacred duty of women.

61. Satyagraha against the proposed Rowlatt Act, 1919

- (i) The Rowlatt Act was hurriedly passed through the Imperial Legislative Council.
- (ii) Indian members unitedly opposed it
- (iii) It gave government enormous powers to repress political activities.
- (iv) It allowed detention of political prisoners without trials for two years.

Organisation of Satyagraha:

- (i) Mahatma Gandhi wanted non-violent civil disobedience against, such unjust laws.
- (ii) It was started with a "Hartal" on 6TH
- (iii) Rallies were organised in various cities.
- (iv) Workers went on strike in railway workshops.
- (v) Shops were closed down.

62. Worried by the developments, the colonial government began arresting the Congress leaders one by one. This led to violent clashes in many places.

When Abdul Ghaffar Khan, a devout disciple of Mahatma Gandhi, was arrested in April 1930, angry crowds demonstrated in the streets of Peshawar, facing armored cars and police firing. Many were killed.

A month later, when Mahatma Gandhi himself was arrested, industrial workers in Sholapur attacked police posts, municipal buildings, law courts and railway stations - all structures that symbolized British rule.

A frightened government responded with a policy of brutal repression. Peaceful satyagrahis were attacked, women and children were beaten, and about 100,000 people were arrested.

63. Mahatma Gandhi relaunched the Civil Disobedience Movement with great apprehension because

- (i) In December, 1931 Gandhiji went to London for the Round Table Conference, but the negotiations broke down and he returned disappointed.
- (ii) In India, he discovered that the government had begun a new cycle of repression.
- (iii) Abdul Ghaffar Khan and Jawahar lal Nehru were both in jail.
- (iv) The Congress had been declared illegal.

- (v) A series of measures had been imposed to prevent meetings, demonstration and boycotts.
- 64.** The response of the plantation workers to the Non-Cooperation Movement was as follows:
- (i) Under the inland Emigration Act of 1859, plantation workers, were not permitted to leave the tea gardens without permission. When they heard of the Non-Cooperation Movement, thousands of workers defied the authorities, left the plantations and headed home.
 - (ii) They believed that Gandhi Raj was coming and everyone would be given land in their own village.
 - (iii) For them, freedom meant the right to move freely in and out of the confined space in which they were enclosed.
 - (iv) They, however, never reached their destination. Stranded on the way because of a railway and steamer strike, they were caught by the police and brutally beaten up.
- 65.** Civil Disobedience Movement came into force in various parts of the country:
- (i) Gandhiji led the Salt March from Sabarmati Ashram to Dandi with his followers starting the Civil Disobedience Movement.
 - (ii) Thousands in different parts of the country broke the Salt Law, manufactured salt and demonstrated in front of government salt factories.
 - (iii) In the country side, the rich Patidars of Gujarat and Jats of Uttar Pradesh were active in the movement.
 - (iv) As rich peasant communities were very hard hit by the trade depression and falling prices, they became enthusiastic supporters of the Civil Disobedience Movement.
 - (v) As the depression continued and cash income dwindled, the small tenants found it difficult to pay the rent. They wanted the unpaid rent to the landlords to be waived off and thus they joined the movement.
 - (vi) Merchants and industrialists supported the moment by not giving the financial assistance and refused to buy and sell the imported goods.
 - (vii) The industrial working class of Nagpur region participated in the Civil Disobedience Movement (CDM).
 - (viii) Railway workers, dock workers, coal mine workers of Chotanagpur, etc. participated in protest rallies and boycott campaigns.
- (ix) Women also participated in large numbers.
- 66.** Rich merchants and industrialists played an important role in Civil Disobedience movement
- (i) After the first world war, the Indian industrialists and merchants realised that the colonial restrictions on them were not letting them trade freely and make profits.
 - (ii) They wanted to be safeguarded against the import of foreign products and a rupee sterling foreign exchange ratio, which would deter imports. When the civil disobedience movement began, they took an enthusiastic part in it as they were keen to expand their business.
 - (iii) GD Birla and other industrialists formed the Federation of the Indian Chamber of Commerce and Industries (FICCI) in 1927 to organise their interests.
 - (iv) They declined to purchase and sell imported products, and this was a very good step towards Civil disobedience. Most merchants and traders started seeing Swaraj as a time when there would no longer be colonial business restrictions and trade and industry would flourish without any prohibitions.
 - (v) And most importantly they gave financial assistance to the movement by funding Congress
- 67.** Nationalism spreads when people begin to believe in promotion of nationalism. Literature also helped to that they are all part of the same nation. The sense of collective belonging came partly through the experience of united struggles. Variety of cultural processes through which nationalism captured people's imagination.
- History and fiction, folklore and songs helped to arouse national feelings. The ideas of nationalism also developed through the celebration of regional festival. As the national movement developed nationalist leaders became more and more aware and more aware of icons and symbols in unifying and inspiring in them a feeling of nationalism.
- 68.** Developments which led to the launching of Non-Cooperation Movement:
- (i) In 1917, he travelled to Champaran in Bihar to inspire the peasants to struggle against the oppressive plantation system
 - (ii) Then in 1917, he organised a Satyagrah to support the peasants of the Kheda district of Gujarat
 - (iii) In 1918, he went to Ahmedabad to organise.

- a Satyagraha movement amongst cotton mill workers.
- (iv) In 1919, he decided to launch a nationwide Satyagraha against the proposed Rowlatt Act.
 - (v) Rallies were organised in various places.
 - (vi) At the Calcutta session of the Congress in September 1920, he convinced other leaders of the need to start a non-cooperation movement in support of Khilafat, as well as for Swaraj.
- 69.** (i) The Non-Cooperation-Khilafat Movement began in January 1921. Various social groups participated. In this movement, each with its own specific aspiration. All of them responded to the call of Swaraj, but the term meant different things to different people.
- (ii) The movement started with middle-class participation in the cities. Thousands of students left government-controlled schools and colleges, headmasters and teachers resigned, and lawyers gave up their legal practices. The council elections were boycotted in most provinces (except Madras, where the Justice Party, the party of the non-Brahmins, felt that entering the council was one way of gaining some power).
 - (iii) Foreign goods were boycotted, liquor shops picketed, and foreign cloth was burnt in huge bonfires. As the boycott movement spread, people began discarding imported clothes wearing only Indian cloth.
 - (iv) From the cities, the Non-Cooperation Movement spread to the countryside. It drew into its fold the struggles of peasants and tribals. In Awadh, peasants were led by Baba Ramchandra - the movement here was against talukdars and landlords who demanded from peasants exorbitantly high rents.
 - (v) In the Gudem Hills of Andhra Pradesh, a militant guerrilla movement spread in the early 1920s - though not a form of struggle that the Congress could approve. As the colonial government shut forest areas and began forcing the tribals to contribute towards road building, the hill people revolted rather violently under the leadership of Alluri Sitaram Raju.
- 70.** (i) Local leaders were picked up from Amritsar and Mahatma Gandhi was barred from entering Delhi.
- (ii) Open firing upon a peaceful procession in Amritsar, which led to widespread attacks on banks, railway stations etc. Imposition of Martial Law.
 - (iii) Forcing the Satyagrahis to rub their noses on the ground and do salute to all sahibs.
- 71.** Different social groups conceived the movement differently such as-
- (i) The participation of the middle class people was the first approach towards the movement where students left their schools and colleges, the headmasters resigned from their posts, the lawyers left their practice and were boycotted, the elections were boycotted too. In the movement the Indian textiles were bought with the burnt rig of foreign clothes.
 - (ii) Peasants also took part in the movement and were always against the talukdars and landlords who charged high rents and different cess from them which they had to pay. This led to the boycott of these landlords and talukdars.
 - (iii) The plantation workers in the area of Assam also took part with a hope that they would get freedom and can move easily anywhere they want because in those times they had to work in a specified limit and area. Permission was to be taken from the authority which they did not get easily.
 - (iv) The tribals living in the area of Andhra Pradesh were also against the British policies because they stopped them entering the forest area for grazing their cattle. Thus, everyone had different problems but the main motive was only to get freedom and bring peace.
- 72.** (i) Dalits began organising themselves, demanding reserved seats in educational institutions and a separate electorate. Dr. B.R. Ambedkar, who organised the Dalits into the Depressed Classes Association in 1930, clashed with Mahatma Gandhi asking for separate electorates for Dalits.
- (ii) Ambedkar ultimately accepted Gandhiji's proposal and the result was the Poona Pact of September 1932.
 - (iii) After the decline of the Non-Cooperation-Khilafat Movement, large sections of Muslims felt alienated from the Congress. Many Muslim leaders and intellectuals expressed their concern about the status of Muslims as a minority within India. They feared that the culture and identity of minorities would be submerged under the domination of Hindu majority.

CHAPTER

The Making of Global World

Previous Year Questions

Multiple Choice Type Questions

1. "Buddhism emerged from eastern India and spread in several directions." Read the following reasons for its spread and choose the correct option.

- I Due to Cultural exchange
- II Due to Silk route
- III Due to trade & travellers
- IV Due to European efforts

Options:

[CBSE 2024]

- (a) Only (I) (II) and (IV) are correct.
 - (b) Only (II) (III) and (IV) are correct.
 - (c) Only (I) (II) and (III) are correct.
 - (d) Only (I) (III) and (IV) are correct.
2. There were three important developments that greatly shrank the pre-modern world. Identify the incorrect one from the following options: **[CBSE 2023]**
- (a) The flow of trade
 - (b) The flow of labour
 - (c) The flow of capital
 - (d) The flow of technology
3. Arrange the following in chronological order and choose the correct option. **[CBSE 2023]**
- I. The Bretton Woods conference established the International Monetary Fund.
 - II. The Second World War broke out between the Axis and Allied groups.
 - III. A car manufacturer Henry Ford adopted the 'Assembly Line Method' for production.

- IV. The Western economic organised themselves as a group - "The Group of 77".

Options:

- (a) III, II, I and IV only
- (b) I, II, III and IV only
- (c) IV, III, II and I only
- (d) IV, II, III and I only

Very Short Answer Type Questions

4. Differentiate between fixed and floating exchange rate **[CBSE 2023]**
5. Why big European powers meet in Berlin in 1885? **[CBSE 2018]**

Short Answer Type Questions

6. How did Europeans help in the expansion of trade, knowledge and customs across European countries during mid-sixteenth century? Explain. **[CBSE 2024]**
7. Explain any three effects of population growth in England in the later eighteenth century. **[CBSE 2020]**
8. Explain the impact of the Great Depression on Indian Weavers during the early twentieth century. **[CBSE 2020 C]**
9. Describe any three economic hardships faced by Europe in the 1830s. **[CBSE 2017]**
10. Food offers many example of long distance cultural exchange. Justify this statement. **[CBSE 2017, 2016]**
11. Elucidate any three factors that led to the Great Depression. **[CBSE 2017, 2016]**

12. Why did the industrialists and people living in cities of Britain forced the government to abolish Corn Laws in the 18th century? Give two reasons.
[CBSE AI 2016]
13. "Trade and cultural exchange always went hand in hand". Explain the statement in the light of silk routes.
[CBSE 2016]
14. Explain the three impacts of the First World War on the British economy.
[CBSE 2016]
15. The multinational companies (MNCs) choose China as an alternative location for investment? Explain the statement.
[CBSE 2016]

OR

- China becomes an attractive destination for investment by foreign MNCs in the 19th and 20th century. Justify the statement.
[CBSE 2015]
16. Mention three reasons for the creation of International Monetary Fund and the World Bank. [CBSE 2015]
 17. Trade flourished and markets expanded in the 19th century, but there was a darker side to the process. Justify the statement. [CBSE 2015]
 18. Explain the effects of the Great Depression of 1929 on the Unites States. [CBSE 2015]
 19. How did the Great Depression of 1929 affect the Indian trade? Explain. [CBSE 2015]
 20. What were the main features of the First World War? [CBSE 2014]
 21. What were the Corn Laws? Why were the Corn Laws abolished? What was the result of the abolishing the laws? [CBSE 2014]
 22. How did Rinderpest become subjugating the Africans? instrumental in subjugating the Africans [CBSE 2014]
 23. 19th century indenture had been described as a new system of slavery. Explain the statement briefly. [CBSE 2014]
 24. Write any three factors responsible for indentured labour migration from India. [CBSE 2014]
 25. What attracted the Europeans to Africa? Give any three reasons. [CBSE 2014]

26. Describe any three effects of the Great Depression of 1929 on the Indian economy. [CBSE 2014]
27. What is Group 77? Why did Group 77 countries demand a New International Economic Order? Explain. [CBSE 2014]
28. When was the Bretton Woods conference convened? State the main aim of the conference. [CBSE 2014]
29. The relocation of industry to low-wage countries stimulated world trade and capital flows, Justify the statement. [CBSE 2014]

Long Answer Type Questions

30. Explain the role of Bretton Woods institutions in post-Second World War settlement. [CBSE 2020]
31. Explain any five effects of the abolition of the Corn Laws. [CBSE 2019 C]
32. "Indian trade had played a crucial role in the late nineteenth century world economy." Analyse the statement. [CBSE 2019]
33. Describe the impact of 'Rinderpest' in Africa in the 1890s. [CBSE AI 2019]
34. Describe the condition of indentured labour that migrated from India during the nineteenth century. [CBSE 2019]
35. Describe the contribution of indentured labours towards the cultural fusion in emerging global world. [CBSE 2017, 2014]
36. Describe any five factors that led to the end of the Bretton Woods System and the beginning of globalisation. [CBSE 2016]
37. After 19th century, how did the indentured labourers discover their own ways of survival? Explain? [CBSE 2016]
38. Explain the two key lessons learnt by economists and the politicians from the economic experiences of the Second World War. [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (c) Buddhism evolved as a result of cultural exchange because its teachings managed to connect with a variety of cultures and belief systems. Buddhism began to spread because of the silk route which allowed ideas and practices to be shared between several different regions. Buddhism was widely propagated by trade and travellers, who carried the teachings of the religion to far-off places.
2. (d) The flow of Technology
3. (b) IILILI and IV

Very Short Answer Type Questions

4. Fixed exchange rates mean that two currencies will always be exchanged at the same price while floating exchange rates means that the prices between each currency can change depending on market factors primarily supply and demand.
5. For partitioning Africa among themselves.

Short Answer Type Questions

6. Europeans helped in the expansion of trade, knowledge and customs across European countries during mid-sixteenth century in the following ways:
 - (1) **New wealth sources:** In an effort to discover new wealth sources, nations engaged in mercantilism and colonialism.
 - (2) **Discovery and colonisation:** The 16th century discovery and colonisation of the Americas generated an era of economic growth known as the Commercial Revolution.
 - (3) **Sea routes:** European traders found a sea-route to Asia and an ocean-route to the Americas in the 16th century. South American mines producing silver and other precious metals made Europe's trade with Asia feasible.
 - (4) **New trade routes:** Trade shifted from the Mediterranean and Italy to the nations bordering Europe's Atlantic coast as trade routes between the

colonies of the New World and Old World Europe expanded.

7. (i) Due to pressure from industrialists, government was forced to remove corn laws. Food was imported in Britain.
(ii) Demand on food grains increased as urban centres expanded.
(iii) Due to pressure from landed groups government restricted import of corn by enacting corn laws.
8. Impact of Industrialisation on Indian weavers.
 - (i) Clashes between the weavers and Gomasthas.
 - (ii) Weavers were given punishment for delays in supply.
 - (iii) The weavers lost the space to bargain for prices and sell to different buyers.
 - (iv) Received miserably low price from the company.
 - (v) Weavers of Carnatic and Bengal deserted villages and migrated.
 - (vi) Weavers along with village traders revolted against the company.
 - (vii) Few weavers closed down their workshops.
9. The economic hardships faced by Europe in the 1830's were:
 - (i) Rise in food prices, a year of bad harvest left the country poorer.
 - (ii) The ratio of the rise of population was larger than that of employment generation.
 - (iii) Migration of rural population to cities led to overcrowded slums.
 - (iv) Peasants suffered under the burden of feudal dues and obligations in some regions in Europe.
10. (i) Traders and travellers introduced new crops to the lands they travelled.
(ii) It is believed that noodles travelled west from China to become spaghetti.
(iii) Arab traders took pasta to 5th century Sicily, an island now in Italy.
(iv) Many of our common food such as potatoes, soyabean, groundnuts, maize tomatoes, chillies,

sweet potatoes and so on were not known to our ancestors.

11. (i) Agricultural overproduction remained a problem and it was made worse by falling agricultural prices.
(ii) As prices slumped and agricultural incomes declined, farmers tried to expand production and bring a large volume of produce to the market but it pushed down prices.
(iii) In the mid 1920s, many countries financed their investments through loans from the US, it was extremely easy to raise loans in the US when the going was good.
(iv) But in the first half of the 1920's, countries that depended crucially on US loans faced an acute crisis.
(v) The withdrawal of the US loans affected the rest of the world in different ways. In Europe, it led to the failure of small major banks and the collapse of currencies, such as the British Pound Sterling
12. Unhappy with high food prices, urban dwellers and industrialists forced the abolition of the Corn laws.
As the population in Britain grew in the late 18th century the demand for food grains went up. This led to a spike in prices of food.
With the expansion of industries cities began expanding. This also led to a rise in food demand. As the food prices rose there was social unrest. This forced the government to scrap Corn Laws.
Most of the industrialists and landlords, also did not support Corn Laws, as these laws hindered free trade.
13. (i) The silk routes are a good example of vibrant pre-modern trade and cultural links between distant parts of the world.
(ii) The name 'silk routes' points to the importance of west-bound Chinese silk cargoes along this route. Precious metals gold, silver, etc. flowed from Europe to Asia. Chinese potteries, textiles from China and spices from India were traded.
(iii) Various food items offer very good examples of long distance cultural exchanges.
(iv) Christian missionaries, Muslim preachers and Buddhist monks travelled through this route.

14. (i) After the war, Britain found it difficult to recapture its earlier position of dominance in the colonial market.
(ii) Due to finance the war expenditures, Britain had borrowed money from the U.S. At the end of the war Britain was burdened with huge external debts.
(iii) The war had led to a huge increase in demand, production and employment.
(iv) The government reduced bloated war expenditures to bring them at par with peace time revenues.
(v) These developments led to huge job losses. In 1921, one in every five British worker was out of work.
15. (i) Since the revolution in 1949, China gradually came in the field of world economy. It attracted the foreign MNC's because of its economic structure
(ii) Wages were relatively low.
(iii) China has the largest population besides labour, that formed a larger consumer base.
16. (i) The International Monetary Fund and the World Bank were created to meet the financial needs of the industrial countries.
(ii) When Japan and Europe rapidly rebuilt economies, they became less dependent on the IMF and the World Bank.
(iii) Thus, from the late 1950s the Bretton Woods institutions, WB and IMF, began to turn their attention towards newly developing countries.
(iv) The newly independent countries facing problems of poverty came under the guidance of international agencies dominated by the former colonial powers.
17. (i) In many parts of the world, these developments meant loss of freedom and livelihoods.
(ii) Late 19th century European conquest brought about many destructive economic, social and ecological changes in the colonies.
(iii) In Africa, in the 1890s, a fast-spreading disease of cattle plague or Rinderpest had a terrifying impact on people's livelihoods and the local economy.
(iv) The example of indentured labour migration from India illustrates that it was a world of faster economic growth for some and great misery and poverty for others. It led to technological advances

in Europe but a new form of coercion in Asia and Africa.

18. (i) With the fall in prices and the prospect of depression, the US banks also slashed domestic lending and called back loans
- (ii) Farmers were unable to sell their harvests.
- (iii) Faced with falling income, many households in the US could not repay what they had borrowed, and were forced to give up their homes, cars and other consumer durables.
19. The Great Depression affected the Indian trade in many ways.
- (i) India's exports and imports were halved between 1928 and 1934.
- (ii) As international prices crashed, prices in India also plunged.
- (iii) Peasants and farmers suffered more than urban dwellers.
- (iv) Peasants producing for the world market were the worst hit.
- (v) Town-dwelling land owners and middle-class salaried employees found themselves better off as everything cost less for them.
20. The main features of the First World War are as follows:
- (i) The First World War (1914-18) was mainly fought in Europe. But its impact was felt around the world.
- (ii) It was fought between two power blocks the Allies (Britain, France and Russia) and the Central Powers Germany, Austria Hungary and Ottoman Turkey).
- (iii) It lasted for more than four years.
- (iv) It was the first modern industrial war as it saw the use of machine guns, tanks, aircraft, chemical weapons, etc. on a large scale.
- (v) To fight the war, millions of soldiers had to be recruited from around the world and most of them were young men and men of working age.
- (vi) Death and injuries reduced the able-bodied workforce in Europe.
- (vii) Industries were restructured to produce war-related goods.
21. (i) The laws allowing the British Government to

restrict import of corn is known as the "Corn Laws".

- (ii) These laws were abolished because the industrialists and urban dwellers were unhappy with high food prices; as a result of which they forced the abolition of the Corn Laws.

Result: Food could be imported into Britain at a much cheaper rate.

22. (i) The loss of 90% of the cattle destroyed African livelihood.
- (ii) Planters, mine owners and colonial government now successfully monopolised what little cattle resources remained, to strengthen their power and forced Africans into the labour market.
- (iii) Control over the scarce resource of cattle enabled European colonisers to conquer and subdue Africa.
23. New system of slavery:
- (i) Recruiting agents tempted the poor people by giving false information about the nature of work, final destinations, living and working conditions, mode of travel, etc.
- (ii) Less willing workers were, at times, forcibly abducted by the agents.
- (iii) On arrival at the plantations, when labourers found conditions to be different, many of them escaped into the wilds while others developed new forms of individual and collective self expression.
24. Factors responsible for indentured labour migration from India:
- (i) In the mid-19th century, cottage industries declined, land rents rose, lands were cleared for mines and plantations.
- This affected poor people because they were highly indebted and were forced to migrate for work.
- (ii) Temptations As the agents provided false information about final destinations, nature of work and living and working conditions, many poor people were tempted to go and work.
- (iii) In order to escape poverty or oppression at home and in villages, many migrants agreed to work.
25. (i) Europeans were attracted due to the resources of land and minerals of Africa.
- (ii) They came to Africa to establish plantations and exploit mines.
- (iii) African countries were militarily weak and backward. So, it was easy to conquer them.

26. (i) India's exports and imports nearly halved.
 (ii) As international prices crashed, prices in India also plunged.
 (iii) Wheat prices in India fell by 50 percent (iv) Peasants and farmers suffered more than urban dwellers.
 (v) The colonial government refused to reduce revenue demands.
 (vi) India's peasants' indebtedness increased.
 (vii) They used up their savings and sold jewellery and precious metals. The Great Depression helped the urban people, especially the fixed income earners.
27. As colonies, many of the less developed regions of the world had been part of Western empires. As newly independent countries facing urgent pressures to lift their populations out of poverty, they came under the guidance of international agencies that was dominated by the former colonial powers. The former colonial powers still controlled vital resources such as minerals and land in many of their former colonies.
- Even the large corporations of other powerful countries, for example the US, also often managed to secure rights to exploit developing countries' natural resources very cheaply.
- At the same time, most developing countries did not benefit from the fast growth of the Western economies experienced in the 1950s and 1960s. Therefore, they organised themselves as a group the Group of 77 (or G-77) to demand a new international economic order (NIEO). By the NIEO they meant a system that would give them real control over their natural resources, more development assistance, fairer prices for raw materials, and better access for their manufactured goods in developed countries' markets.
28. (i) The Bretton Wood conference was convened in July, 1944 at Bretton Woods in New Hampshire, USA.
 (ii) Its main aim was to preserve economic stability and full employment in the industrial world
 (iii) The conference established International Monetary Fund (IMF) and the International Bank for Reconstruction and Development (World Bank).
29. (i) MNCs shifted their production units to Asian countries because of cheap labour and low wages
 (ii) Availability of raw materials and a large market.

- (iii) **Effects:** It stimulated world trade and flow of capital. Countries like India, China and Brazil underwent rapid economic transformation. It generated employment opportunities and introduced competition in the domestic markets.

Long Answer Type Questions

30. Role of the Bretton Woods Institution in Post-Second world war settlement:
- It inaugurated an era of unprecedented growth of trade and incomes for the western industrial nation
 - World trade grew
 - Incomes of people in western countries grew.
 - The growth was stable without fluctuations.
 - The unemployment rate reduced
 - There was world wide spread of technology and enterprise.
31. The British government abolished the Corn Laws that brought several changes to the British economy. The effects of the abolition are as follows:
- The abolition of Corn Laws in England contributed to cheaper grain imports in Britain.
 - British farming was unable to cope with inexpensive imports and vast land was left uncultivated, leaving thousands of men and women unemployed. They were flocking to towns or migrating abroad.
 - Higher sales due to industrialisation in England led to more food imports and higher food production in Eastern Europe, Russia, America and Australia.
 - It increased the revenues and political influence associated with the possession of land.
32. The role on Indian economy in the nineteenth century world economy can be explained as follows:
- India was a major exporter of raw materials to Britain most importantly items such as cotton, spices, indigo etc.
 - Indian markets were flooded with the British manufactured goods, giving huge profits to the British companies.
 - There was a trade surplus for Britain while trading with India. This trade surplus was used in many ways by Britain. This was used to pay for the

private remittances by the British officials.

- (iv) Not only with Britain, India also traded with China mainly in opium.
- (v) In the nineteenth century, thousands of Indian labourers went to work on plantations in mines and in road and railway construction projects around the world as indentured labor.

33. Rinderpest or cattle-plague was the fast-spreading and devastating disease of cattle. Rinderpest arrived in Africa in the late 1880s. It was carried by infected cattle imported from British Asia to feed the Italian soldiers invading Eritrea in East Africa. Entering Africa in the east, rinderpest moved to the west like forest fire reaching Africa's Atlantic coast in 1892. It killed 90% of the cattle on the way.

It affected the Africans in following ways:

- (i) 90% of cattle were killed.
- (ii) The loss of cattle destroyed African livelihoods.
- (iii) Earlier people rarely worked for a wage. They possessed land and livestock. Due to Rinderpest, they were forced to work for wages and so it affected the economy.
- (iv) Colonial government forced the Africans into labor market.
- (v) Thus, this worked as a god's gift to the colonizers as now they could easily have cheap labor to meet their colonial needs.

34. During the nineteenth century indenture has been described as a "newsystem of salvery".

- (i) Agents tempted the poor people by giving false information about the nature of work, living and working conditions, final destinations, modes of travel, etc.
- (ii) Less willing workers were at times forcibly abducted by the agents.
- (iii) On the plantation, the working conditions were harsh and they had a few legal rights.
- (iv) They were beaten or imprisoned for not being able to meet tasks that used to be very heavy or for running away from the job.
- (v) Nominal medical attention was given to them and wages were deducted in case of absence at work or failure to fulfill the task.

35. Indentured labour made a huge contribution towards

cultural fusion.

- (i) Cultural fusion is a phenomenon, which emerges when two or more cultures inter-mingle and produce a new culture.
- (ii) Indentured labourers used to live and work in very harsh conditions. This forced them to seek new avenues of comfort and relaxation. This blended different cultural forms.
- (iii) Examples:

- (a) **Hosay:** In Trinidad, the annual Muharram procession was transformed into a riotous carnival called 'Hosay' in which workers of all races and religions joined.
- (b) **Chutney Music:** It is another creative contemporary expression of the post indentured experience.
- (c) **Rastafarianism:** The protest religion of 'Rastafariansim' is also said to reflect social and cultural links with Indian migrants to the Caribbean.

36. The five factors are:

- (i) Decline in economic power of the USA
 - (i) US dollar no longer commanded confidence.
 - (b) US dollar could not maintain its value in relation to gold.
 - (c) Collapse of fixed exchange rates on floating exchange rates.
- (ii) Change in the international finance: The International Monetary Fund and the World Bank were created to meet the financial needs of the industrial countries. International financial system changed, and developing countries were forced to borrow from western commercial banks.
- (iii) Unemployment in industrialised countries: Industrial world was hit by unemployment. The number of unemployed started rising and people travelled long distances looking for any work they could find.
- (iv) Shifting to production enterprises: MNCs shifted their production units to Asian countries because of abundant labour and low wages.
- (v) Changes in China: China became an attractive destination for investment by foreign MNCs.

37. (i) Initially the indentured labourers found it difficult to adjust to the harsh living conditions of the

plantation. But very soon they discovered new ways of survival.

- (ii) They developed new forms of individual and collective self expression, blended art, cultural forms, old and new.
- (ii) In Trinidad, the cultural Muharram Procession was transformed into a riotous carnival called 'Hosay' in which workers of all races and religions joined
- (iv) The protest-religion 'Rastafarianism' is also said to reflect social and cultural links with Indian migrants to the Caribbean.
- (v) 'Chutney music popular in Trinidad and Guyana is another creative expression of the post indenture experience.

38. The economists and politicians learnt two key lessons

from the inter-war economic experiences of the Second World War.

- (i) (First, an industrial society based on mass production cannot be sustained without mass consumption.
- (ii) There was a need for high and stable income which depends on full employment of the people.
- (iii) Since market alone could not guarantee full employment; government should intervene and take steps to minimise fluctuation of market forces.
- (iv) The second lesson is that the global economy is inter-related.
- (v) The goal of full employment could only be achieved if governments had power to control flow of goods, capital and labour.

4

CHAPTER

The Age of Industrialisation

Previous Year Questions

Multiple Choice Type Questions

- Who among the following improved the steam engine? [CBSE 2023]
(a) James Watt
(b) Thomas Edison
(c) Benjamin Franklin
(d) Alexander Fleming
- Who of the following set up the first Iron and Steel industry in India? [CBSE 2023]
(a) J.R.D. Tata (b) Purushotam Das
(c) R.G. Saraiya (d) Thakur Das

Very Short Type Questions

- Read the given case and answer the questions that follow.

Market for Goods]

One way in which new consumers are created is through advertisements. As you know, advertisements make products appear desirable and necessary. They try to shape the minds of people and create new needs. Today we live in a world where advertisements surround us. They appear in newspapers, magazines, hoardings, street walls, television screens. But if we look back into history, we find that from the very beginning of the industrial age, advertisements have played a part in expanding the markets for products, and in shaping a new consumer culture. When Manchester industrialists began selling cloth in India, they put labels 'MADE IN MANCHESTER' on the cloth bundles. The label was needed to make the place of manufacture and the name of the company familiar to the buyer. The label was also to be a mark

of quality. When buyers saw written in bold on the label, they were expected to feel confident about buying the cloth.

- How was the marketing of goods done in India by the British?
 - How were the new consumers created through advertisement during colonial India?
 - Identify the messages conveyed through advertisements during industrialization.
- Define the term 'Carding'. [CBSE 2020]
 - Name the two industrialists of Bombay who built huge industrial empires during nineteenth century. [CBSE 2020]

Short Answer Type Questions

- Why did the elite of Britain prefer hand made goods in the mid nineteenth century? Explain. [CBSE 2020]
- Why did the export of Indian textile decline at the beginning of the nineteenth century? Explain any three reasons. [CBSE 2020]

OR

Describe any three main reasons for the decline of textile exports from India in the 19th century. [CBSE 2014]

- Explain any three causes which led to the decline of Indian cotton textiles in the early nineteenth century. [CBSE 2019, 2016]
- Why were merchants from towns in Europe began to move to countryside in seventeenth and eighteenth century? [CBSE 2018]
- What is proto-industrialisation? Explain the conditions in 18th century English country side that created conditions for proto-industrialisation.

- [CBSE 2017]**
11. How did the East India Company procure regular supplies of cotton and silk textiles from Indian weavers? **[CBSE 2017]**
 12. In the eighteenth century Europe, the peasants and artisans in the countryside readily agreed to work for the merchants. Explain any three reasons. **[CBSE 2016]**
 13. Describe any three conditions that were favourable for the continuing growth of industries in the 18th century India. **[CBSE 2016]**
 14. Industrialisation gave birth to Imperialism. Justify the statement with three arguments. **[CBSE 2016]**
 15. How was foreign trade from India conducted before the age of machine industries? Explain. **[CBSE 2016]**
 16. Explain any three reasons for the clashes between the weavers and the gomasthas. **[CBSE 2016]**
 17. The upper classes, during Victorian period, preferred things produced by hands because: Give the reasons. **[CBSE 2014]**
 18. Explain the effects of the East India Company's exploitative methods of asserting monopoly over trade. **[CBSE 2014]**

Long Answer Type Questions

19. Explain the impact of Industrialisation on the Indian weavers during the eighteenth century. **[CBSE 2020 C]**
20. Explain the ways through which British manufacturers attempted to take over the Indian market. **[CBSE 2020]**
21. Explain any five factors responsible for the decline of the cotton textile industry in India in mid-nineteenth century. **[CBSE 2019 C]**
22. Describe the role of early entrepreneurs of India in the development of industries. **[CBSE 2019]**
23. Describe the conditions of workers in Europe after the Industrial Revolution. **[CBSE 2019]**
24. "Series of changes affected the pattern of industrialisation in India by the early twentieth century." Analyse the statement. **[CBSE Delhi 2019]**
25. What is 'Proto-industrialisation'? Explain the importance of proto-industrialisation. **[CBSE 2018]**
26. How did the abundance of labour in the market effect the lives of the workers in the nineteenth century? Explain with examples. **[CBSE 2017]**
27. Why were the British industrialists not keen to introduce modern machinery in the nineteenth century? Explain any five reasons. **[CBSE 2016]**
28. Explain with examples the importance of advertisement in the marketing of the goods. **[CBSE 2016]**
29. Why could mechanical technology not replace human labour in Victorian Britain? Explain. **[CBSE 2015]**
30. Describe the technique which were adopted by the Manchester industrialists to sell their goods in India. **[CBSE 2015]**
31. Describe the condition of the workers in nineteenth century in England. **[CBSE 2014]**
32. Who were the Jobbers? Explain their main functions. **[CBSE 2014]**
33. Describe the contributions of Dwarkanath Tagore as an entrepreneur of Bengal. **[CBSE 2014]**
34. The First World War created dramatically a new situation for Indian Industries. Analyse how this change took place. **[CBSE 2014]**
35. Explain the role played by advertisements in creating new consumers for the British products. **[CBSE 2014]**

Explanations

Previous Year Questions

Multiple Choice Questions

1. (a) James Watt
2. (a) J.R.D. Tata

Very Short Type Questions

3. (i) Marketing of goods done in India by the British through advertisements.
(ii) Advertisements through newspapers, magazines, hoarding were the most important method used by the producers to expand the market. It played a major role in expanding the markets and shaping a new consumer culture. Advertisements make products appear desirable and necessary.
(iii) During industrialization, advertisements conveyed messages of modernity, convenience, quality, patriotism, and social status of consumers. These messages helped to promote and sell products to a growing consumer market and also shape up minds of people and create new needs in them.
4. Carding is a mechanical process that disentangles, cleans and intermixes fibres to produce a continuous web such as cotton or wool are prepared prior to spinning
5. Dinshaw Petit and Jamsetjee Nisserwanjee Tata.

Short Answer Type Questions

6. The elite of Britain prefer hand made goods, because
(i) A range of products could be produced only with hand labour. Machine were oriented to produce uniform standardised goods for a mass market.
(ii) Handmade products came to symbolise refinement and class.
(iii) They were better finished, individually produced and carefully designed.
(iv) Machine-made goods were for export to the colonies.
7. (i) Britain imposed duties on cotton textiles thus export market declined.
(ii) Exports of British goods to India increased. The Manchester goods flooded Indian markets.
(iii) The machine-made goods were cheaper and

weavers could not compete with them.

- (iv) By 1850, exports from most weaving regions declined.
8. (a) The machine-made cotton was cheaper than hand-made cotton piece-goods in India. The weavers thus lost a huge market share to imports from Britain. By 1850s, most of the cotton producing centers in India faced a steep decline.
(b) As the Civil war broke out in the US in 1860s, the supply of cotton from the US to Britain was cut off. Britain thus began to source cotton from India. This led to a huge shortage of raw cotton for weavers in India
(c) By the end of the nineteenth century, cotton factories began to come up in India as well. This was the final blow for traditional cotton textiles industry in India.
9. Merchants from the towns in Europe began moving to the countryside, supplying money to peasants and artisans, persuading them to produce for an international market. With the expansion of world trade and the acquisition of colonies in different parts of the world, the demand for goods began growing. But merchants could not expand production in the towns. This was because here urban crafts and trade guilds were powerful and prevented the entry of merchants.
10. Proto-industrialisation was the early phase of industrialisation in Europe. Before factories began to dot the landscape in England and Europe, there was large-scale production for an international market. This was not based on factories. In the seventeenth and eighteenth centuries, merchants from the towns in Europe began moving to the countryside, supplying money to peasants and artisans, persuading them to produce for an international market. With the expansion of world trade and the acquisition of colonies in different parts of the world, the demand for goods began growing. But merchants could not expand production within the cities. This was because here urban crafts and trade guilds were powerful and prevented the entry of merchants.

During the 18th century, this was a time when open fields were disappearing. Cottagers and poor peasants who had earlier depended on common lands for their survival, gathering their firewood,

berries, vegetables, hay and straw, had to now look for alternative sources of income. Many had tiny plots of land which could not provide work for all members of the household. So when merchants came around and offered advances to produce goods for them, peasant households eagerly agreed to take up the work.

This also provided extra income that supplemented their meagre income from small fields.

11. (i) The East India company tried to eliminate the existing traders and appointed Gomasthas' as supervisors.
- (ii) The system of advances was introduced to have a direct control over the weavers
- (iii) Weavers devoted entire time to weaving. They were forced to accept the prices fixed by the company.
12. (i) Open fields were disappearing and commons were being enclosed so common people had no alternative sources of income.
- (ii) Many had small plots of land which could not provide work for all family members.
- (iii) Merchants offered them advances for which they agreed.
- (iv) They got a source of income which supplemented their shrinking income from cultivation.
13. Three conditions that were favourable for the continuing growth of industries in 18th century India are:
 - (i) India abounds in coal and iron-ore deposits.
 - (ii) Number of perennial rivers.
 - (iii) Abundant raw-materials.
 - (iv) Vast network of roads and railways
 - (v) Big market.
 - (vi) Demand in several Arabian and Asian countries.
14. 'Industrialisation gave birth to Imperialism.
 - (i) Imperialism followed industrialisation.
 - (ii) Industrialisation chiefly needed the constant supply of raw materials. The finished goods needed to be sold at the same speed.
 - (iii) The industrialised countries had introduced heavy import duties as protective tariffs to check the import from other countries.
 - (iv) Faced with the problem of finding new markets for their products, the producer nations choose such countries where industrialisation had not yet happened.
 - (v) Hence a race for bringing those areas under their effective occupation or effective influence started among the various industrialised nations.

- (vi) As a consequence, Britain, France, Germany, Japan, etc., set up their colonies in Asia, Africa, South America, etc.
- (vii) These colonies served two purposes of being the suppliers of cheap raw materials and an easy market for their finished goods
15. (i) Before the age of machine industries, silk and cotton goods from India dominated the international market in textile. Coarser cotton was produced in many countries, but the finer varieties often came from India. Armenian and Persian merchants took the goods from Punjab to Afghanistan, Eastern Persia and Central Asia.
- (ii) Bales of fine textiles were carried on camel back via the North West frontier, through mountain passes and across deserts.
- (iii) A vibrant sea trade operated through the main precolonial ports. Surat on the Gujarat coast connected India to the Gulf and Red Sea Ports: Masulipatnam on the Coromandel Coast and Hooghly in Bengal had trade links with Southeast Asian ports.
16. There were frequent clashes between Gomasthas and weavers in the village because of the following reasons:
 - (i) Earlier supply merchants often belonged to the same villages and had a close relationship with the weavers.
 - (ii) The company's appointed Gomasthas were outsiders, with no long-term social link with the villagers.
 - (iii) They acted arrogantly, marched into villages with sepoys and peons and punished weavers for delays.
 - (iv) The weavers could no longer bargain for prices or sell to other buyers in place or the British who paid them low wages.
 - (v) In many places, Carnatic (Karnataka) and Bengal weavers deserted the village, migrated or revolted along with the village traders.
17. The upper classes, during Victorian period preferred things produced by hands because:
 - (i) They symbolised refinement and class.
 - (ii) They were better finished.
 - (iii) They were individually produced and carefully designed.
18. (i) The company tried to eliminate the existing traders and brokers connected with cloth trade and tried to establish a direct control over the weavers.
- (ii) This was a situation of helplessness and desperation which made the workers to revolt against the

British. The workers started to either change their profession or migrated to other places.

- (iii) These measures ultimately led to the elimination of the Indian weavers.

Long Answer Type Questions

19. (i) Due to the coming of industrialisation weavers had loosed the space to bargain for the price of goods and sells them to different buyers. It created a miserable condition in country.
 - (ii) It created clashes between the gomasthas (appointed servants who hires the weavers) and weavers.
 - (iii) Weavers in many villages started protesting the British government.
 - (iv) Weavers were punished for the delays in supply of material.
 - (v) Villagers of carnatic and Bengal deserted the villages and migrated. -few weavers closed down their workshops and refused to work for British government.
20. British manufacturers took over the Indian market:
 - (i) British manufacturers pressurized the government to impose import duties on Indian cotton textiles.
 - (ii) Persuaded the East India Company to sell British manufactures in Indians market.
 - (iii) Through advertisements; to create interest in the product.
 - (iv) Through labels, when Manchester industrialists began selling cloth in India, they put labels on the cloth bundles
 - (v) Images of Indian Gods and Goddesses.
21. Right from the beginning of 19th century exports of Indian textile began to decline. Export of piece-goods declined from 33% in 1811-12 to less than 3% by 1850-51.
 - (a) Duties were imposed on Indian exports to Britain, because of pressure from British manufacturers.
 - (b) The East India Company was pressurized to sell British manufactured goods in Indian markets. In 1850 cotton piece-goods constituted 31% of the value of Indian imports. By 1870s, the value increased to over 70%.
 - (c) The machine-made cotton was cheaper than hand-made cotton piece-goods in India. The weavers thus lost a huge market share to imports from Britain. By 1850s, most of the cotton producing centers in India faced a steep decline.
 - (d) As the Civil war broke out in the US in 1860s, the supply of cotton from the US to Britain was cut off. Britain thus began to source cotton from India This led to a huge shortage of raw cotton for weavers in India.
- (e) By the end of the nineteenth century.cotton factories began to come up in India as well. This was the final blow for traditional cotton textiles industry in India.
22. Role of early entrepreneurs of India in development of industries:
 - (i) Dwarkanath Tagore was among the pioneers to begin industries in the 1830s and 1840s. Tagore's enterprise was closed during the business crises of the 1840s.
 - (ii) In the later nineteenth century, many businessmen became successful industrialists In Bombay, Parsis like Dinshaw Petit and Jamsetjee Nusserwanjee Tata went on to build huge industrial empires. They accumulated their initial wealth partly from exports to China and partly from raw cotton shipments to England.
 - (iii) Seth Hukumchand; a Marwari businessman; set up the first Indian jute mill in Calcutta in 1917. The Birla Group was similarly started by successful traders from China
23. Large number of people came to cities looking for jobs. The wages for women and children were almost half that of men. Most people worked for between 12 to 16 hours a day six days a week and without any paid holidays. The working conditions were really poor.
 - (i) Finding a job largely depended on existing network of friendship and kin relations. People without jobs often had to spend nights on bridges or in night shelters. Some private individuals had set up Night Refuges. The Law authorities maintained Casual Wards for such people.
 - (ii) People employed in seasonal jobs often moved to villages or stayed in towns looking for odd jobs. During the periods of economic slump, the unemployment increased anything between 35 and 75%. This reduced the wages as workers were in surplus.
 - (iii) Workers often turned hostile to new technology because of fear of unemployment. For example; when Spinning Jenny was introduced, women began to attack the new machines because they survived on hand spinning.
 - (iv) Factories were dusty, dirty and dark the only light source was sunlight that came in through a few windows. Because the machines ran on steam from

fires, there was smoke everywhere. Many people ended up with eye problems and lung diseases. There was no safety norm and accidents happened frequently.

- (v) After the 1840s, because of more construction activity there was an increase in employment. The number of workers in the transport industries doubled in the 1840s, and doubled again in the subsequent 30 years.

24. By the first decade of 20th Century, a series of changes affected the pattern of industrialisation.

- (i) As the Swadeshi Movement gathered momentum in India, the nationalists mobilized people to boycott foreign cloth and other goods. Industrial groups organized themselves to protect their collective interests pressurizing the government to increase tariff protection and grant other concessions.
- (ii) From 1906, export of Indian yarn to China declined. So Indian industrialists shifted their interest from yarn to cloth production leading to considerable production of cotton piece goods.
- (iii) The beginning of First World War created a new situation. Since British mills were busy in producing war materials to meet their own war needs, export of goods to India declined. This gave an opportunity to Indian industries to thrive. Indian mills now had a vast home market to supply.
- (iv) As the war continued, Indian factories were called upon to supply war needs, such as jute bags, cloth for army uniform tents, leather boots, horse and mule saddles, etc. New factories were set up and old factories ran double shift.
- (v) After the war, industries in Britain got a severe setback. In India however local industrialists gradually consolidated their position substituting foreign manufactures and capturing home market. Handicraft production also expanded in the 20th century.

25. Proto-industrialisation refers to the system of industries that existed in Europe before the arrival of modern machine run factories. Large scale production took place for an international market. It was based in the countryside, not in factories.

Effects:

- (i) Open fields were disappearing and commons were being enclosed so common people had no alternative sources of income.
- (ii) Many had small plots of land which could not provide work for all family members.
- (iii) Merchants offered them advances for which they

agreed.

- (iv) They got a source of income which supplemented their shrinking income from cultivation.

26. Abundance of labour in the market affected the lives of the workers in nineteenth century as follows:

- (i) The life of workers in the 19th century was miserable. They were given lower wages and were made to work for longer hours. Seasonality of work in many industries meant prolonged periods without work.
Many returned to the countryside. But most of them looked for odd jobs.
- (ii) Most of the workers had to wait for weeks or more to get job. They had to spend nights under bridges or in night shelters.
- (iii) Wages had increased somewhat in the early nineteenth century. When prices rose sharply during the prolonged Napoleonic war, the real value of what the workers earned fell significantly, since the same wages could now buy fewer things.

27. The British industrialists did not wish to introduce modern machinery because:

- (i) Seasonal demand of laboures in industries.
- (ii) Range of products could be produced only with handlooms.
- (iii) For certain products only human skill was required.
- (iv) Upper class society preferred things produced by hands.
- (v) Handmade products symbolised refinement or class.

28. (i) **Advertisement:** Advertisements through newspapers, magazines, hoarding, were the most important method used by the producers to expand the market. It played a major role in expanding the markets, and shaping a new consumer culture. Advertisements make products appear desirable and necessary.

(ii) **Labelling:** Labelling was another method used by the producers to expand their market. When Manchester industrialists began selling cloth in India, they put labels on the cloth bundles. When buyers saw 'MADE IN MANCHESTER' written in bold on the labels, they were expected to feel confident about buying the cloth. But labels did not only carry words and texts. They also carried images, and were very often beautifully illustrated.

(ii) **Calendars:** By the nineteenth century, manufacturers were printing calendars to popularise their products. Unlike newspapers and magazines, calendars were used even by people, who could

not read. They were hung in tea shops and in poor people's homes just as much as in offices and middle-class apartments. Those, who hung the calendars had to see the advertisements, day after day, through the year. Even in these calendars, images of gods and goddesses were used to attract the consumers.

(iv) Images of important personages: Along with the images of gods, figures of important personages, of emperors and nawabs were also used. The message very often seemed to say; if you respect the royal figure, then respect this product; when the product was being used by kings, or produced under royal command, its quality could not be questioned.

29. (i) In Victorian Britain, there was no shortage of human labour. So industrialists had no problem with labour shortage or high wage costs. They did not want to introduce machine that get rid of human labour and required large capital investment.
- (ii) Manual labour was cheaper than machines as large number of migrant labour had come to cities.
- (iii) The Queen had banned the use of machines in factories to create job opportunities for the poor.
- (iv) Machines often broke down and their repair was expensive.
- (v) In seasonal industries, where production fluctuated with the seasons, industrialists usually preferred hand labour, employing workers only for the season, when it was needed.
 - They symbolised refinement and class.
 - They were better finished.
 - They were individually produced and carefully designed.
30. Manchester industrialists began selling cloth in India, they put labels on the cloth bundles. When buyers saw 'MADE IN MANCHESTER' written in bold on the labels, they were expected to feel confident about buying the cloth. But labels did not only carry words and texts. They also carried images and were very often beautifully illustrated. If we look at these old labels, we can have idea of the mind of the manufacturers, their calculations, and the way they appealed to the people.
31. (i) Labour was in abundance.
- (ii) Job opportunities were few.
- (iii) Job seekers who came from villages had to spend the night under bridges or in night shelters and they had no place to stay in the city.

- (iv) Much of the work was seasonal in nature such as book binding.
- (v) Wages were low and life was difficult when prices of goods in the city rose sharply.
- (vi) Workers had to look for odd jobs when they could not find proper employment in factories.

32. Jobber was employed to get new recruits for the factories or industrialists.

- (i) Initially Jobbers lured people from his village ensuring them jobs. He also helped them settle in the city and lend them money in the times of crisis.
- (ii) They started demanding money and gifts for all the favours.
- (iii) Jobbers got people from his own village and restricted entries of others in the mills.

33. (i) Dwarkanath Tagore believed that India would develop through westernisation and industrialisation.

- (ii) He invested in shipping ship building, mining, banking, plantations and insurance.
- (iii) Dwarkanath Tagore made his fortune in China trade before he turned to industrial investment, setting up six joint stock companies in the 1830s and 1840s.

34. (i) The First World War created a dramatically new situation till then industrial production had been slow.

- (ii) British mills were busy with war production to meet the needs of the army. Manchester imports into India declined.
- (iii) Indian mills now had a vast home market to cater to.
- (iv) As the war prolonged, Indian factories were called upon to supply war needs, jute bags, cloth for army uniforms, tents, leather boots, horse and mule saddlers and many other items.
- (v) Many workers were employed as new factories were set up and old ones ran in multiple shifts.
- (vi) Over the years, industrial production boomed. Manchester was unable to capture its old position in the Indian market after the war. Cotton production collapsed and export of cotton cloth from Britain fell dramatically.

35. (i) Advertisements make products appear desirable and necessary.

- (ii) They try to shape the minds of people and create new needs.
- (iii) If we look back into history since the very beginning of the industrial age, advertisements have played a very vital role in expanding the markets for products and in shaping a new consumer culture.

5 CHAPTER

Print Culture and the Modern World

Previous Year Questions

Multiple Choice Type Questions

- Who among the following published 'Samvad Kaumudi'? [CBSE 2024]
 (a) Rashesundari Debi
 (b) Tarabai Shinde
 (c) Raja Rammohan Roy
 (d) Ram Chaddha
- Which one of the following aspects was common between the writings of B.R. Ambedkar and E.V. Ramaswamy Naicker? [CBSE 2023]
 (a) Wrote on the caste system in India
 (b) Highlighted the experiences of woman
 (c) Raised awareness about cultural heritage
 (d) Motivated Indians for their national freedom
- Meaning of Vellum was ____ [CBSE 2023]
 (a) Printing on palm leaves
 (b) Printing on paper
 (c) A parchment made from the skin of animals
 (d) Printing on cloth.
- Which one of the following was NOT the reason for the popularity of scientific ideas among the common people in eighteenth century Europe? [CBSE 2020]
 (a) Printing of ideas of Isaac Newton
 (b) Development of printing press
 (c) Interest of people in science and reason
 (d) Traditional aristocratic groups supported it
- Why was reading of manuscript not easy in India? Choose the appropriate reason from the following Options: [CBSE 2020]
 (a) Manuscripts were highly cheap
 (b) Manuscripts were widely spread out

- (c) Manuscripts were written in English and Hindi
 (d) Manuscripts were fragile.

- Select the correct pair from the following Column A and Column B. [CBSE 2020]

	Column A	Column B
(a)	Jyotiba Phule	Istri Dharm Vichar
(b)	Raja Ram Mohan Roy	Sambad Kaumudi
(c)	Ram Chaddha	Gulamgiri
(d)	Gangadhar Bhattacharya	Chhote Aur Bade Sawal

- What was one of the main purposes of publishing children's literature in the 19th century? [CBSE 2018]
 (a) To entertain only
 (b) To educate and instill moral values
 (c) To promote politics
 (d) To sell more newspapers
- Which of the following is a negative effect of print culture? [CBSE 2017]
 (a) Increased access to diverse viewpoints
 (b) Spread of misinformation
 (c) Promotion of literacy
 (d) Preservation of knowledge
- Which of the following was one of the first books printed using movable type? [CBSE 2016]
 (a) The Bible
 (b) The Qur'an
 (c) The Iliad
 (d) The Bhagavad Gita

Very Short Answer Type Questions

- Fill In the blank.

Buddhist missionaries from China introduced hand printed technology into _____ around A.D. 768-770. [CBSE 2023]

OR

How had hand printing technology introduced in Japan? [CBSE Delhi 2019]

11. Name the oldest Japanese book.[CBSE 2020 C, 2016]
12. Who 'merited the Printing Press? [CBSE 2020]
13. Who brought the knowledge of woodblock printing technique to Ital during the 13th century?[CBSE 2020]
14. By 1448, Gutenberg perfected the system of printing. The first book he printed was the _____. [CBSE 2020]
15. Wooden or Metal frames in which types are laid and the text composed for printing was known all? [CBSE 2020]
16. Name the first hook printed by Gutenberg Press. [CBSE 2020 C, 2017]
17. Why was 'Gulamgiri' book written by Jyotiba Phule in 1871? [CBSE 2020]
18. Name the book published by Raja Ram Mohan Roy. [CBSE 2020]
19. Name the author of 'Amor Jibon'. [CBSE 2020]
20. Why was the Vernacular Press Act passed in 1878? [CBSE 2020]
21. Explain the meaning of the term 'Calligraphy'. [CBSE AI 2019, 2014]
22. Why did Roman Catholic church impose control over publishers and book sellers? [CBSE 2018]
23. Who was Menocchio? [CBSE 2016]
24. How were Biliotheque Bleue different from penny chapbooks? [CBSE 2015]
25. Who wrote "Chhote aur Bade ka Sawal"? When was it published? [CBSE 2015]
26. How did Governor General William Bentinck react to the petition filed by editors of English and vernacular newspapers? [CBSE 2014]
27. Who introduced hard-printing technology in Japan? [CBSE 2014]
28. Which method of hand-printing was developed in China? [CBSE 2014]
29. Who developed the first printing press?[CBSE 2014]
30. Who were the UlaMa? [CBSE 2014]

Short Answer Type Questions

31. "Thee shift from hand printing to mechanical printing led to the print revolution in Europe'.

Explain the statement with examples. [CBSE 2023]

32. Read the given source and answer the questions that follow :

WHY NEWSPAPERS?

'**Krishnaji** Trimbuck Ranade Inhabitant of Poona Intends to publish a Newspaper in the Marathi Language with a view of affording useful information on every topic of local interest. It will be open for free discussion on subjects of general utility, scientific investigation and the speculations connected with the antiquities, statistics, curiosities, history and geography of the country and of the Deccan especially....the patronage and support of all interested in the diffusion of knowledge and Welfare of the People is earnestly solicited.'

Bombay Telegraph and Courier, 6 January, 1849

'The task of the native newspapers and political associations is identical to the role of the opposition in the House of Commons in Parliament in England. That is of critically examining government policy to suggest improvements, by removing those parts that will not be to the benefit of the people, and also by ensuring speedy implementation. These assoc inns ought to carefully study the particular issues, gather diverse relevant information on the nation as well as on what are the possible and desirable improvements, and this will surely earn it considerable influence'

Native Opinion, 3 April 1870

- (i) Explain the main reason of publishing newspaper by Krishnaji.
- (ii) How was the task of native newspaper and political association seen identical to the role of opposition?
- (iii) Analyse the reasons of popularity of newspapers during 19th century. [CBSE 2023]

33. Read the source even below and answer the questions that follow:

From the early nineteenth century, there were intense debates around religious issues. Different groups confronted the changes happening within colonial society in different ways, and offered a variety of new interpretations of the beliefs of different religions. Some criticised existing practices and campaigned for reform, while others countered the arguments of reformers These debates were carried out in public and in print Printed tracts and newspapers not only spread the new ideas, but they

shaped the nature of the debate. A wider public could now participate in these public discussions and express their views. New ideas emerged through these clashes of opinions. This was a time of intense controversies between social and religious reformers and the Hindu orthodoxy over matters like widow immolation, monotheism, Brahmanical priesthood and idolatry. In Bengal, as the debate developed, tracts and newspapers proliferated, circulating a variety of arguments. To reach a wider audience, the ideas were printed in the everyday, spoken language of ordinary people. [CBSE 2020]

(i) Analyse any one issue of intense debate around religious issues.

(ii) Examine the role of print media in these debates.

34. Examine the steps taken by the British under the Vernacular Press Act, 1878. [CBSE 2020]

OR

What restrictions were imposed by the Vernacular Press Act on the Indian Press? Explain. [CBSE 2016]

35. How had the Imperial State in China been the major producer of printed material for a long time? Explain with examples. [CBSE Delhi 2019]
36. "Printing brought the reading public and hearing public closer." Substantiate the statement with appropriate argument. [CBSE 2019 C]
37. "Print Revolution in sixteenth century Europe transformed the lives of people? Support the statement with suitable arguments. [CBSE AI 2019]

OR

"The Print Revolution had transformed the lives of people -changing their relationship to information knowledge" Analyse the statement. [CBSE 2018, AI 2014]

38. Mention any three reasons for the limited circulation of manuscripts in Europe before Marco Polo introduced the printing technology. [CBSE 2017]
39. What are the factors that lead to the reading mania in the seventeenth and eighteenth centuries in Europe? [CBSE 2017]
40. How were the students taught in pre-colonial Bengal? [CBSE 2017]
41. What is manuscript? Mention any two limitations of it, during nineteenth century. [CBSE 2016]
42. How had the earliest printing technology developed in the world? Explain with example. [CBSE 2016]

43. How did a new reading public emerge with the printing press? Explain. [CBSE 2016]

OR

'With the printing press a new public emerged in Europe', Justify the statement. [CBSE 2015]

44. Print culture created the condition within which French Revolution occurred. Give any three suitable arguments to support the statement. [CBSE 2016]
45. Enumerate any three features of handwritten manuscripts before the age of print in India. [CBSE 2016]
46. Why did British Government curb the freedom of the Indian press after the revolt of 1857? [CBSE 2016]
47. How did print help to spread new ideas that led to the reformation in Europe? [CBSE 2015]
48. Explain the reasons favouring shift from hand printing to mechanical printing in China. [CBSE 2015, 2014]
49. Why did the Roman Catholic Church begin to keep an index of prohibited books from the mid 16th century? [CBSE 2015]
50. How did print help in empowering women folk? [CBSE 2015]
51. Why were women not educated in India in the early part of the nineteenth century? Give any two reasons. [CBSE 2015]
52. For what purpose did RAM Chaddha, publish 'Istri Dharm Vichar'? [CBSE 2015]
53. Describe any five uses of print culture in the 17th century China. [CBSE 2014]
54. Why were manuscripts not widely used in everyday life? Give three reasons. [CBSE 2014]
55. What is meant by the print revolution? Explain its significance. [CBSE 2014]
56. What led the colonial government to pass the Vernacular Press Act in 1878? How did it affect the vernacular newspapers? [CBSE 2015]

Long Answer Type Questions

57. Read the sources given below and answer the questions that follow.

Source - (i): Religious Reform and Public Debates

There were intense controversies between social and religious reformers and the Hindu orthodoxy

over matters like widow immolation, monotheism, brahmanical priesthood and idolatry. In Bengal, as the debate developed, tracts and newspapers proliferated, circulating a variety of argument

Source - (ii): New Forms of Publication

New literary forms also entered the world of reading lyrics, short stories, essays about social and political matters. In different ways, they reinforced the new emphasis on human lives and intimate feelings, about the political and social rules that shaped such things.

Source - (iii): Women and Print

Since social reforms and novels had already created a great interest in women's lives and emotions, there was also an interest in what women would have to say about their own lives.

Source - (i): Religious Reform and Public Debates

- (i) Evaluate how did the print shape the nature of the debate in the early nineteenth century in India.

Source - (ii): New Forms of Publication

- (ii) To what extent do you agree that print opened up new worlds of experience and gave a vivid sense of diversity of human lives ?

Source - (iii): Women and Print

- (iii) To what extent did the print culture reflect a great interest in women's lives and emotions? Explain.

[CBSE 2020]

58. Describe the impact of the print revolution in Europe during 15th and 16th century. [CBSE 2017, 2016]

59. Printing press played a major role in shaping the Indian society of the 19th century, support with examples. [CBSE 2017]

60. Explain with example how print culture catered to the requirement of children. [CBSE 2016]

61. Explain briefly the initial efforts made by foreigners to introduce printing press in India. [CBSE 2016]

62. "Print not only stimulated the publication of conflicting opinions amongst communities but it also connected communities and people in different parts of India". Examine the statement.[CBSE 2016]

63. Describe the attitude of liberal and conservative Indians towards women's reading. [CBSE 2016]

64. Martin Luther remarked "Printing is the ultimate gift of God and the greatest one". Explain this remark in the light of the religious reforms that took place in Europe in the 16th century. [CBSE 2014]

65. What difference did printing technology make in the lives of women and children in the 19th century?

[CBSE 2014]

66. How were the manuscripts written in India before the age of print? What were their drawbacks and effect? [CBSE 2014]

67. Evaluate the role of print in connecting various communities in different parts of India. [CBSE 2014]

68. "From the late 19th century, issues of caste discrimination began to be written about in many printed tracts and essays." Support the statement by giving example. [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (c) Raja Rammohan Roy
2. (a) Wrote on the caste system in India
3. (c) A parchment made from the skin of animals
4. (d) Traditional aristocratic groups supported it
5. (d) Manuscripts were fragile.
6. (b) Raja Ram Mohan Roy - Sambad Kaumudi
7. (b) To educate and instill moral values
8. (b) Spread of misinformation
9. (a) The Bible

Very Short Type Questions

10. Buddhist missionaries from China introduced hand-printing technology into Japan around A.D. 768-770.
11. Diamond Sutra
12. Johann Gutenberg
13. Marco Polo
14. Bible
15. Galley
16. The Bible
17. Gulamgiri book written by Jyotiba Phule on the injustice of the caste system.
18. Sambad Kaumudi/Tuhfat-ul-Muwahhidin
19. Rashsundari Debi
20. It was passed to restrict the publishing work of Indians.
21. Calligraphy is a visual art of giving form to signs and writing or lettering in an expressive, harmonious, and skillful manner with a pen or brush.

26. In 1835, faced with urgent petitions by editors of English and vernacular newspapers. Governor-General William Bentinck agreed to revise press laws.
27. Buddhist missionaries from China.
28. Woodblock printing
29. Johannes Gutenberg developed the first-known printing press in the 1430s.
30. They were legal scholars of Islam and the Sharia, which is a body of Islamic law.

Short Answer Type Questions

31. With the invention of printing press, the printing of books started on a large scale.
 - (i) Wider sections of people started having an easy access of books.
 - (ii) Books were printed in large numbers with greater ease.
 - (iii) The hearing public and reading public became intermingled.
 - (iv) Publishers started publishing popular ballads folk tales with beautiful pictures and illustrations.
 - (v) Luther's translation of the New Testament sold 5,000 copies within a few weeks and a second edition appeared within three months. Deeply grateful to print, Luther said, 'Printing is the ultimate gift of God and the greatest one. Several scholars, in fact, think that print brought about a new intellectual atmosphere and helped spread the new ideas that led to the Reformation.'
32. (i) Reason of publishing newspaper by Krishnaji is to give useful information of every topic of local interest.
 - (ii) Native newspapers and political associations identically criticised the government policy to

suggest improvements by removing those parts that was not to be the benefit for the people.

- (iii) (a) Newspapers conveyed news from one place to another by creating pan-India identities.
 - (b) Vernacular newspapers became assertively nationalist.
 - (c) India mirror, Bombay Samachar, The Hindu, Kesari. These are some newspapers exerted deep imprint on the minds of people.
33. (i) Issue of intense debate around religious issues - widow immolation.
- (ii) **Role of print media:**
- (a) Print spread the new ideas as well as shaped these ideas.
 - (b) It increased public participation in public discussions.
 - (c) Public discussions and expression of views
 - (d) Argumentative ideas were circulated
34. (i) The Vernacular Press Act provided the government with extensive rights to censor reports and editorials in the Vernacular press.
- (ii) The government kept regular track of the Vernacular newspapers published in different provinces.
- (iii) When a report was judged as seditious, the newspaper was warned.
- (iv) If the warning was ignored, the press was liable to be seized and the printing machine could be confiscated.
35. The Imperial state in China for a long time was the major producer of printed material. China had a large bureaucracy. The Chinese civil services examinations required the use of large number of text books for its preparation in the recruitment process.
- Thus, large number of books and other study materials were printed under the sponsorship of the Imperial State. From the 16th century, the number of examination candidates went up and thus the volume of print also increased.
- Thus, printing of books started rapidly all over the nation. This was further accelerated by authors and rich merchants.
36. Access to books created a new culture of reading. Earlier, reading was restricted to the elites. Common people lived in a world of oral culture. They heard sacred texts read out, ballads recited, and folk tales narrated. Knowledge was transferred

orally. People collectively heard a story, or saw a performance. They did not read a book individually and silently. Before the age of print, books were not only expensive but they could not be produced in sufficient numbers. Now books could reach out to wider sections of people. If earlier there was a hearing public, now a reading public came into being.

37. The print revolution transformed the lives of a large section of the society in the 16th century Europe.
- (i) A new reading public merged as printing reduced the cost of books making it very affordable.
 - (ii) Access to books created a new culture of reading. Earlier, reading was restricted to the elites. Common people lived in a world of oral culture. Common folk only heard sacred texts that was read out. Knowledge was transferred orally. People collectively heard a story, or saw a performance.
 - (iii) Now books could reach out to wider sections of people and a reading public came into being. The line that separated the oral and reading cultures became blurred. And the hearing public and reading public became intermingled.
38. The circulation of manuscript remained limited because :
- (i) The production of handwritten manuscripts could not satisfy the ever increasing demand for books.
 - (ii) Copying was an expensive, laborious and time-consuming business.
 - (iii) Manuscripts were fragile, awkward to handle, and could not be carried around or read easily.
39. As literacy spread to peasants and artisans, the literacy rate rose as high as 60 to 80 percent in some parts of Europe.
- (i) People wanted to read books and the printers produced books in ever increasing numbers.
 - (ii) By mid-eighteenth century, there was a common belief that books were a means of spreading progress and enlightenment.
 - (iii) Others felt that books could change the world, liberate society from despotism and tyranny and would bring an era when reason and intellect would rule.
 - (iv) Convinced by the power of print, there was virtual reading mania among Europeans of 18th century.
40. Even though pre-colonial Bengal had developed an extensive network of village primary schools, students very often did not read texts.

They only learnt to write teachers dictated portions of texts from memory and students wrote them down. Many thus became literate without ever actually reading any kinds of texts.

41. Manuscripts are hand written records of the past, written on palm leaves or on handmade paper.

Limitations of manuscripts are:

- (i) Pages were beautifully illustrated.
 - (ii) Manuscripts were highly expensive but fragile.
 - (iii) They were in various vernacular languages.
 - (iii) They could not be read easily as the script was written in different Styles.
42. (i) The earliest kind of print technology was developed in China, Japan and Korea. In China woodblocks were used for hand printing.
- (ii) Upto the 6th century print was used only by the scholar officials but later it became common.
 - (iii) The Buddhist missionaries introduced hand printing technology from China to Japan.
 - (iv) It was Marco Polo, a great explorer, who brought printing knowledge of woodblock from China to Italy.
43. (i) Wider sections of people started having an easy access to books.
- (ii) Books were printed in large numbers with greater ease.
 - (iii) The prices fell and they became affordable for large public.
 - (iv) The hearing public and reading public became intermingled.
44. (i) Print popularised the ideas of enlightened thinkers on traditions, superstition and despotism.
- (ii) They advocated reasons.
 - (iii) People read books of Voltaire and Rousseau. Print created dialogue and debate.
 - (iv) People started discussion and evaluated the royalty.
 - (v) Print literature mocked the royalty.
 - (vi) These Kind of print literature circulated underground and it created awareness among people and formed the basis of French Revolution.
45. Three features of handwritten manuscripts before the age of print everything had to be written by hand.
- (i) Handwritten manuscripts were expensive and it was a laborious and time consuming business.
 - (ii) Skilled hand writers could not meet the ever increasing demand for books.

- (iii) As Initially paper was not available, bark of trees, palm leaves, vellum, etc were used to write manuscripts.

46. After the revolt of 1857, the attitude to freedom of press changed. Enraged English officials clamped down the Indian press because of their nationalists activities.

- (i) In 1887, the Vernacular Press Act was passed. It provided the government extensive right to censor reports.
 - (ii) The government kept regular track of the Vernacular newspaper, when a report was judged as seditious the newspaper was warned, the press was liable to be seized and machinery could be confiscated.
47. (i) In 1517, the religious reformer Martin Luther wrote 'Ninety Five Theses' criticising many of the practices and rituals of the Roman Catholic Church.
- (ii) Due to writings of Martin Luther, the church got divided and a new Protestant reformation had started.
 - (iii) Several scholars, think that print brought about a new intellectual atmosphere and helped spread the new ideas that led to reformation.
48. The reasons favouring shift from hand printing to mechanical printing in China are:
- (i) Textbooks of Civil Service Examination were printed in vast numbers under the sponsorship of the imperial state. From the 16th century, the number of examination candidates went up and that increased the volume of print.
 - (ii) By the 17th century, print was no longer used just by scholar officials, merchants used print in their everyday life, as they collected trade information.
 - (iii) The new reading culture was accompanied by a new technology. Western printing techniques and mechanical presses were imported in China and Shanghai became the new hub of the new print culture.
49. (i) Printed religious literature stimulated a variety of interpretations of faith, even among the less educated working class in the early 16th century.
- (ii) Menocchio, an Italian miller, reinterpreted the Bible in a way that enraged the Roman Catholic Church.
 - (iii) Such instances worried the Church about people reading the various interpretations of the religion and questioning the Church.

- (iv) Hence, it imposed severe controls over publishers and booksellers and began maintaining an index of prohibited books.

50. Printing helped in empowering women folk greatly. Lives and feelings of women were written with intensity in the books. This increased the number of women who took to reading.

Liberal husbands and fathers started educating their women folk at home and some sent them to schools.

Many journals began carrying writings by women and explained why women should be educated. They also carried a syllabus and attached suitable reading matter which could be used for home-based schooling.

Social reforms and novels created a great interest in women's lives and emotions. Women's opinions and views began to be considered and respected. Stories were written about how women were imprisoned at home, kept in ignorance, forced to do hard domestic labor and treated unjustly by the very people they served.

Stories about the miserable lives of upper-caste Hindu women, especially widows also appeared in print. These stories paved the way for the liberation of the suppressed Indian woman.

51. (i) This was because of the superstitions and myths that prevailed in the society.
(ii) Conservative Hindus believed that a literate girl would be widowed and Muslim feared that educated women would be corrupted by reading Urdu romances.
52. (i) In Punjab, a similar folk literature about discussing women issues was widely printed from the early 20th century.
(ii) Ram Chaddha published the fast selling 'Istri Dharm Vichar' to teach women how to be obedient wives.
53. (i) By the 17th century, as urban culture bloomed in China, the uses of print diversified.
(ii) Print was not only used just by scholar-officials.
(iii) Merchants used print in their everyday life, as they collected trade information.
(iv) The new readership preferred fictional narratives, poetry, autobiographies, anthologies of literary masterpieces and romantic plays.
(v) Rich women began to read and many women began publishing their poetry and plays.

- (vi) Wives of scholar-officials published their works and courtiers wrote about their lives.

54. Manuscripts were documents or books written by hand.

They were not used widely because:

- (i) They could not satisfy the ever increasing demand for books.
(ii) They were expensive as copying was an expensive, laborious and time consuming work.
(iii) Manuscripts were fragile, awkward to handle and could not be carried around or read easily.
(iv) Their circulation was limited.

55. With the invention of printing press, the printing of books started at a large scale. It was called the Print Revolution.

Significance :

- (i) With the printing press, a new reading public emerged.
(ii) Printing reduced the cost of books.
(iii) Books flooded the market, reaching out to an ever growing readership.
56. (i) The Vernacular Press Act was passed because the vernacular newspapers were assertively nationalist. They openly criticised and debated the government policies.
(ii) The Vernacular Press Act of 1878 was passed which empowered the government to censor reports and editorials.
(iii) The government kept a regular track of vernacular newspapers. If a report was judged seditious, the newspaper was warned and if warning was ignored, appropriate actions were taken.

Long Answer Type Questions

- (iv) Punjab revolutionaries were deported: Tilak wrote in Kesari.

- (v) It led to his imprisonment in 1908 provoking large protest.

60. (i) In Europe, primary education became compulsory from the late nineteenth century, children became an important category of readers. Production of school textbooks became critical for the publishing industry.

- (ii) A children’s press devoted to literature for children alone, was set up in France in 1857.
- (iii) This press published new works as well as old fairy tales and folktales.
- (iv) The Grimm brothers in Germany spent years in compiling traditional folk tales gathered from peasants. What they collected was edited before the stories were published in a collection in 1812.
- (v) Anything that was considered unsuitable for children or would appear vulgar to the elites, was not included in the published version. Rural folk tales thus acquired a new form. In this way, print recorded old tales but also changed them.

61. (i) The Portuguese missionaries first introduced printing press in India in the mid 16th century.

- (ii) Jesuit priests learnt Konkani and printed several texts.
- (iii) By 1674 about 50 books had been printed in the Konkani and Kannada language.
- (iv) Catholic priest first published printed books in Tamil in Cochin and in 1713 first Malayalam book was printed.
- (v) Dutch Protestant missionaries had printed nearly 32 text in Tamil which were later translated.
- (vi) The English language press did not grow in India till quite late even though official of the East India Company began to import presses from late 17th century.
- (vii) From 1780, James Augustus Hickey began to edit the Bengal Gazette, a weekly magazine; it was a private English enterprise and was free from colonial influence.
- (viii) Hickey published a lot of advertisements including those that related to import and sale of shaves.
- (ix) By the close of the 18th century, a number of newspaper and journals appeared in print.

62. (i) Religious texts, reached a wide circle of people encouraging discussions, debates and controversies within and among different religions.

- (ii) Newspapers conveyed news from one place to another creating pan-Indian identities.
 - (iii) Spread of ideas through printed texts and newspapers led to widespread participation of Indians.
 - (iv) Print propagated opinion against social evils like sati, child marriage and the purdah system.
 - (v) New ideas emerged through the clashes of opinions.
- 63.** (i) Liberal husbands and fathers began educating their womenfolk at home and sent them to schools.
- (ii) Conservative Hindus believed that a literate girl would be widowed and Muslims feared that educated women would be corrupted by reading romantic books.
- Kailashbhashini Devi wrote books highlighting the experiences of women-how women were imprisoned at home, kept in ignorance, forced to do hard domestic labour.
- 64.** (i) Martin Luther wrote 'Ninety Five Theses' criticising the malpractices in the Roman Catholic Church. He posted a printed copy of it on the door of a church in Wittenberg.
- (ii) Luther's writing immediately became popular through printed copies and was read widely.
- (iii) 5000 printed copies of Luther's translation of the New Testament were sold in a week.
- (iv) All these led to a religious debate and marked the beginning of the Protestant Reformation.
- (v) Printing technology played a key role in bringing religious reforms in the 16th century. Hence Martin Luther's remarks were apt, effective and practical.
- 65. Impact on Women :**
- (i) Women became important readers and writers. Penny magazines, especially meant for women, contained guidelines on proper behaviour and housekeeping.
 - (ii) Novel began to be written in the 19th century and some of the best novelists were women like Jane Austen, Brontë sisters, George Eliot, etc.
 - (iii) Their writing created a new image of woman with will, strength of personality, determination and power to think.
- Impact on Children :**
- (i) Primary education became compulsory from the late 19th century.
 - (ii) School textbooks, rural folk tales in edited versions, fairy tales and new stories were published for children.
 - (iii) Grimm brothers of Germany spent years to collect traditional folk tales from peasants and in France a children's press was set up in 1857.
- 66.** (i) In India, manuscripts were written on palm leaves or on handmade paper before the age of print.
- (ii) Pages were sometimes beautifully illustrated.
- (iii) They would be either pressed between wooden covers or sewn together to ensure preservation.
- (iv) Manuscripts continued to be produced till well after the introduction of print, down to the late nineteenth century.
- (v) Manuscripts, however, were highly expensive and fragile. They had to be handled carefully and they could not be read easily as script was written in different styles.
- 67.** (i) In Bengal as the debate developed, tracts and newspapers proliferated, circulating a variety of arguments.
- (ii) To reach a wider audience, the ideas were printed in the everyday spoken language of ordinary people.
- (iii) Ram Mohan Roy published the 'Sambad Kaumudi' from 1821 and the Hindu orthodoxy commissioned the 'Samachar Chandrika' to oppose his opinion.
- (iv) A wider range of people could not participate in these public discussions and express their views but they read the opinions.
- (v) New ideas emerged through these clashes of opinions.
- (vi) Newspapers conveyed news from one place to another, creating pan-Indian identities.
- 68.** From the late 19th century, issues of caste discrimination began to be written.
- (i) Jyotiba Phule, the Maratha pioneer of low caste, started protest movement. He wrote about the injustice of the caste system in his 'Gulamgiri'.
 - (ii) B. R. Ambedkar in Maharashtra and E.V. Ramaswamy in Madras wrote powerfully on caste. Their writings were read by people all over India.
 - (iii) Local protest and movements also created a lot of journals and tracts.
 - (iv) Kashibaba a Kanpur millworker wrote and published 'Chhote Aur Bade ka Sawal.'
 - (v) Bangalore cotton millworkers set up libraries to educate themselves.
 - (iii) Workers were overburdened and lacked the education to write much but they kept reading.

POLITICAL SCIENCE

CHAPTER

Power-Sharing

Previous Year Questions

Multiple Choice Type Questions

1. Identify the primary objective of power-sharing arrangements in Belgium from the following options:

[CBSE 2024]

- (a) Establishing a unitary form of government.
- (b) Centralized political control of government.
- (c) Establishing cultural and educational matters of Dutch.
- (d) Accommodating linguistic and regional interests.

2. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the correct option:

Assertion (A): Sri Lanka adopted “Tamil” as the official language of the State.

Reason (R): The Govt. of Sri Lanka adopted a series of majoritarian measures. [CBSE 2023]

- (a) Both (A) and (R) are true and (R) is the correct explanation of (A).
- (b) Both (A) and (R) are true but (R) is not the correct explanation of (A).
- (c) (A) is true but (R) is false.
- (d) (A) is false but (R) is true.

3. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the correct option. [CBSE 2023]

Assertion (A): Elections are the spirit of democracy.

Reason (R): Elections expand Political participation.

- (a) Both (A) and (R) are true and (R) is the correct explanation of (A).

- (b) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

- (c) (A) is true but (R) is false.

- (d) (A) is false, but (R) is true

4. Consider the following statements on Power Sharing and choose the correct option. [CBSE 2023]

I. It deepens democracy.

II. It helps to reduce conflicts among social groups

III. It is a way to ensure political stability.

IV. It brings socio-economic struggles.

(a) I, II and III

(b) II, III and IV

(c) I, III and IV

(d) I, II and IV

5. Consider the following statements on Power Sharing and choose the correct option: [CBSE 2023]

I. Majoritarianism is the real spirit of democracy.

II. It creates balance and harmony in different groups.

III. It reduces the possibility of conflict among social groups.

IV. Power sharing is the essence of democracy.

(a) I, II and III

(b) II, III and IV

(c) I, III and IV

(d) I, II and IV

6. Which one of the following elements is NOT included in the Belgium model? [CBSE 2021-22]

(a) Dutch and French speaking ministers shall be equal in the government.

(b) Many powers of the central government have been given to state governments.

(c) Brussels has a separate government in which both the communities have equal representation.

(d) There is a community government which has special powers of administration.

7. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option.

Assertion (A): Majority community is dominant in a few democratic states.

Reason (R): Dominance can undermine the unity of the country. [CBSE 2021-22]

- (a) Both A and R are correct, and R is the correct explanation of the A
(b) Both A and R are correct, but R is not the correct explanation of the A
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.

8. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option.

Assertion (A): The distrust between Sinhalese and Tamil communities turned into widespread conflict in Sri Lanka

Reason (R): 1956 Act recognised Sinhala as the only official language. [CBSE 2021-22]

- (a) Both A and R are correct, and R is the correct explanation of the A.
(b) Both A and R are correct, but R is not the correct explanation of the A.
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.

9. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the most appropriate option. [CBSE 2021-22]

Assertion (A): Power-sharing is good.

Reason (R): It helps to reduce the possibility of conflicts between social groups.

- (a) Both A and R are correct, and R is the correct explanation of the A.
(b) Both A and R are correct, but R is not the correct explanation of the A.
(c) A is correct, but R is incorrect.
(d) A is incorrect, but R is correct.

10. Identify 'Horizontal power-sharing arrangements among the following in modern democracies.

[CBSE, 2021-22]

- (a) Different organs of government
(b) Governments at different levels
(c) Different social groups
(d) Different parties, pressure groups and movements

11. What is NOT an integral part of the government?

[CBSE, 2021-22]

- (a) Office of the Prime Minister
(b) Legislature
(c) Executive
(d) Judiciary

12. Which one of the following is a major caste group of Sri Lanka? [CBSE 2020]

- (a) Christian and Tamil
(b) Buddhist and Hindu
(c) Sinhali and Tamil
(d) Sinhali and Christian

13. Under which of the following is power shared in the 'Community Government' of Belgium?

[CBSE 2020]

- (a) Different social groups
(b) Different organs of government
(c) Central and State government
(d) State government and Community government

Very Short Type Questions

14. Fill in the blank: 59 percent of the total population of Belgium live in the region. [CBSE 2021 C]

15. State any one step taken in Belgium to rule out the problem of regional differences and cultural diversities. [CBSE 2020]

16. The Belgium model of 'Community government' worked well because. [CBSE 2020 C]

17. Why was there an acute problem in Brussels during 1950s and 1960s between the two communities? [CBSE 2019 C]

18. Explain the major repercussion of passing Sinhala as the only official language in Sri Lanka in 1956. [CBSE 2019C]

19. Explain any one benefit of 'Power-Sharing'. [CBSE 2019]

20. How and when was Sinhala recognised as the official language of Sri Lanka? [CBSE 2016]

21. What does 'the system of checks and balances' ensure in power-sharing? [CBSE 2016]
22. Mention any one characteristic of power-sharing. [CBSE 2016]
23. What system of power-sharing is called "Checks and Balances"? [CBSE 2015]
24. Which factor is responsible for increasing the feeling of alienation among the Sri Lankan Tamil? [CBSE 2015]
25. Which type of powers does community government of Belgium enjoy? [CBSE 2015]
26. State any two measures adopted by Sri Lanka in 1956 as part of their majoritarian policy. [CBSE 2015]

OR

What measure was adopted by the democratically elected government of Sri Lanka to establish Sinhala supremacy? [CBSE 2014]

27. Who formed the majority in terms of population in Sri Lanka? [CBSE 2014]
28. What is the state religion of Sri Lanka? [CBSE 2014]
29. In which city is the headquarters of the European Union located? [CBSE 2014]
30. What is the prudential reason behind power-sharing? [CBSE 2014]

Short Answer Type Questions

31. How did the Belgium government accommodate the social differences? [CBSE 2021 C]
- OR**
- Describe the elements of Belgian model for accommodating diversities. [CBSE 2020]
32. Describe arrangements, the horizontal power-sharing [CBSE 2020]

33. Explain the three measures taken by Sri Lanka, as per the Act passed in 1956. [CBSE 2017]
34. How is the ethnic composition of Belgium very complex? Explain. [CBSE 2016]
35. How did Sri Lanka and the Belgium government try to solve the ethnic problem? [CBSE 2016]
36. "Attempts at forced integration often sow the seeds of disintegration". Support the statement with suitable arguments. [CBSE 2016]
37. "Sharing of powers makes a country more powerful and united." Do you agree with this statement and why? [CBSE 2016]
38. Give reasons why power-sharing is desirable. [CBSE 2015]
39. Describe the power-sharing arrangement made in Belgium. [CBSE 2015, 2014]
40. What is power-sharing? Why power-sharing is important in democracy? [CBSE 2014]
41. How can power be shared among governments at different levels? Explain. [CBSE 2014]

Long Answer Type Questions

42. Compare the situation of Belgium and Sri Lanka considering their location, size and cultural aspects. [CBSE 2019]
43. How is the idea of power-sharing emerged? Explain different forms that have common arrangements of power-sharing. [CBSE Delhi 2019]
44. Why is power-sharing necessary in democracy? Explain. [CBSE 2016]

Explanations

Previous Year Questions

Multiple Choice Questions

1. (d)
2. (d) (A) is false but (R) is true. Sri Lanka adopted 'Sinhala' as the official language.
3. (d) Power sharing is the spirit of democracy.
4. (a) I, II and III
5. (b) II, III and IV
6. (d) Community government in Belgium has the power regarding cultural, educational and language related issues.
7. (b) There are some countries in which majority community is dominant, like Sri Lanka. Reason is also correct, but they do not relate.
8. (b) 1956 Act recognised Sinhala as the only official language further the government also followed the preferential policies that favoured Sinhala applicants for jobs. Different government measures coming one after the other gradually, led to distrust between Sinhalese and Tamil communities, which turned into widespread conflict in Sri Lanka.
9. (a) Power sharing is good for democracy as it helps to reduce the possibility of conflicts between social groups.
10. (a) The power that is shared among different organs of government equally is known as horizontal power-sharing.
11. (a) Office of the Prime Minister.
12. (b) Buddhist and Hindu.
13. (a) Different social groups.

Very Short Type Questions

14. 59% of total population of Belgium lives in Flemish region.
15. Equal representation in the centre.
16. Belonging to one language community.
17. In Belgium, the minority French speaking community was richer than the Dutch speaking people. This was resented by the Dutch speaking community. This led

to acute problem in Brussels during 1950s and 1960s between these two communities.

18. Major repercussion of passing Sinhala as the only official language in Sri Lanka in 1956 is it increased the feeling of alienation among the Sri Lanka Tamils. They launched parties and struggles for the recognition of Tamil as an official language.
19. Power-sharing helps to reduce the possibility of conflicts between different social groups. A social conflict often leads to violence and political instability. Power sharing helps to ensure the stability of political order.
20. Sinhala was recognised as the official language of Sri Lanka by passing an Act in 1956.
21. The system of checks and balances ensures that no one branch of the national government gains too much power.
22. Power-sharing is a system of governance where all the communities in the society participate in the policy making.
23. The system of horizontal power distribution is called "checks and balances".
24. **Majoritarianism:** Sri Lanka shows us a contracting example: it shows us that if a majority community wants to force its dominance over others and refuses to share power, it can undermine the unity of the country.
25. The government has power regarding cultural, educational and issues related to language.
26. Majoritarianism measures adopted in Sri Lanka are:
 - (i) They declared Sinhala as an official language
 - (ii) They tried to promote their religion Buddhism.
 - (iii) In order to gain control over Tamil speakers they changed constitution and made new constitution in their own favour

27. Sinhala community
28. Buddhism
29. Brussels
30. Power-sharing helps in reducing the conflicts between various social groups. Hence, power-sharing is necessary for maintaining social harmony and peace.

Short Answer Type Questions

31. Belgium model for the accommodation of diversities:
- (i) Though the Dutch were in majority in the country, the French and Dutch speaking population was given equal representation in the central government.
 - (ii) Belgium was declared as a Federal state and thus state governments were given important powers.
 - (iii) The state governments did not act as a subordinate to the central government.
32. Arrangements of power in horizontal power-sharing are as follows:
- (i) Power is shared among different organs of the government, such as the legislature, executive and judiciary.
 - (ii) Different organs of the government exercise different powers.
 - (iii) This arrangement is called a system of checks and balances.
33. The measures taken by Sri Lanka are:
- (i) Government adopted majoritarian measure to establish Sinhala Supremacy. In 1956, an Act was passed to recognise Sinhala as the only official language thus disregarding Tamil
 - (ii) The governments followed preferential politics that favoured Sinhala applicants for university positions and government jobs.
 - (iii) A new Constitution stipulated that the state shall protect and foster Buddhism.
34. (i) Out of the country's total population, 59 per cent live in the Flemish region and speak Dutch language.
- (i) Another 40 per cent people live in the Wallonia region and speak French
 - (iii) Remaining one per cent of the Belgians speak German.
 - (iv) In the capital city Brussels, 80 per cent people speak French while 20 per cent are Dutch speaking.
35. (i) The Belgium leaders tried to solve the ethnic problem by respecting the feelings and interests of different communities and regions, whereas the Sri Lankan government tried to solve the problem through majoritarianism
- (i) Belgian leaders established a federal structure under which power was shared between the Union Government and its other constituent units whereas Sri Lankan leaders adopted Unitary Government structure
 - (iii) The Belgium solution helped in avoiding civic strife whereas the majoritarianism in Sri Lanka led to the civil war.
36. It is true that forced integration of communities very often bring in a lot of feelings of grudge and disagreement among the regions. This has been seen in Sri Lanka between the Sinhalese and Tamils.
- The problem arises during integration of two regions in division of power and sharing of resources. Each side is afraid that the other party or region will dominate over their region. They are afraid of going backwards. And, in today's world no one wants to be pushed aside by others. An important example is the breakdown of erstwhile USSR into different countries of East Europe. That is why integration should be on a harmonious, cordial and amical terms and not by force.
37. (i) The first reason is power-sharing helps to reduce the possibility of conflict between social groups.
- (ii) Power-sharing is a good way to ensure the stability of political order as social conflict often leads to violence and political instability.
 - (ii) Imposing the will of the majority community over others may look like an attractive option in the short run, but in the long run it undermines the unity of the nation.
 - (iv) Tyranny of the majority is not only oppressive for the minority but it also brings ruin to the majority
 - (v) Another important reason is that the very spirit of democracy is power-sharing. A democratic rule involves sharing power with those affected by its exercise, and who have to live with its effects. People have a right to be consulted on how they are to be governed. A legitimate government is one where citizens, through participation, acquire a stake in the system.
38. Power-sharing is desirable in democracy because:
- (i) Prudential reasons:
 - (a) It helps to reduce the possibility of conflicts between social groups. Since social conflict often leads to violence and political instability.
 - (b) It is a good way to ensure the stability of political order.
 - (c) Imposing the will of majority Community over others may look like an attractive option in the short run, but in the long run it undermines the unity of the nation.
 - (ii) Moral reasons:

- (a) Power-sharing is the very spirit of democracy. A democratic rule involves sharing of power with those affected by its exercise and who have to live with its effect.
- (b) People have a right to be consulted on how they are to be governed
- (c) A legitimate government is one where citizens through participation, acquire a stake in the system.

39. The Power-sharing arrangement made in Belgium are:

- (i) Constitution prescribes that the number of Dutch and French speaking ministers shall be equal in the Central Government. Some special laws require the support of majority of members from each linguistic group. Thus, no single community can make decisions unilaterally.
- (ii) Many powers of the Central Government have been given to State Governments of the two regions of the country. The State Governments are not subordinate to the Central Government
- (iii) Brussels had a separate government in which both the communities have equal representation. The French- speaking people accepted equal representation in Brussels because the Dutch-speaking community has accepted equal representation in the Central Government.
- (iv) Apart from the central and the state government, there is a third kind of government called the community government.
- (v) This community government is elected by people belonging to one language community such as - Dutch. French and German speaking. This government has the power regarding cultural, educational and language related issues.

40. (i) When the power does not rest with any one organ of the state rather it is shared among legislature, executive and judiciary it is called power-sharing.
- (ii) Power-sharing is important in a democracy because:
- (a) It helps to reduce the possibility of conflicts between social groups.
 - (b) It is the very spirit of democracy.
 - (c) It is a good way to ensure the stability of the political order.

41. Vertical division of power: Vertical division of power means sharing of power among governments at different levels.

In India, there are three levels of the government:

- (i) **For the entire country:** Central Government/ Union Government.
- (ii) **At the provincial level:** State Governments.
- (iii) **At the local level (i.e., rural and urban):** Local self governments like panchayats and municipal councils.

Horizontal power-sharing is:

- (i) Power is shared among different organs of the government, such as the legislature, executive and judiciary.
- (ii) Different organs of the government exercise different powers
- (iii) This arrangement is called a system of checks and balance.

Long Answer Type Questions

42.

Basic of difference	Belgium	Sri Lanka
Location	It is located in Western Europe, bordered to the north by the Netherlands, to the east by Germany and Luxembourg and to the south and the west by France.	It is located in the Indian Ocean South of India
Size	It is relatively small country covering a size of about 30,688 sq. km	It covers an area of about 65,610 sq. km

Culture	Population of Belgium are diversified as: – 59% of the total population speak Dutch – 40% of the total population speak French 1% of the total population speak German However, in the capital Brussels 80% speak French and 20% speak Dutch.	Population of Sri Lanka are diversified as: – 74% population is Sinhala speaking – 18% population speak tamil, out of which Sri lankan Tamil is 13% and Indian immigrant tamils are 4% – The Sinhala speakers are Buddhists and the Tamil speakers are Muslims or Hindus.
---------	---	--

43. The idea of power-sharing has emerged contrary to the notions of undivided political power. Earlier it was believed that all powers of a government must reside in one person or group located at one place. It was felt that if the power to decide was dispersed, it would not be possible to take quick decisions and to enforce them. But these notions have changed with the emergence of democracy.

Different forms that have common arrangements of Power Sharing:

(i) **Horizontal power-sharing:** Power is shared among different arms of the government, such as the legislature, executive and judiciary. This ensures that none of the arms of the government has unlimited power. Each organ acts as a check for the others. This leads to a balance of power among various institutions.

(ii) **Vertical power-sharing:** Power-sharing among governments at different levels. A government

for the entire country is called 'Central or Union or Federal government'. The government in a particular state is called 'State government' in India. In such cases the constitution clearly lays down the powers of different levels of government.

(iii) **Empowering social groups:** Power may also be shared among different social groups such as the religious and linguistic groups. System of 'reserved constituencies' in assemblies and the Parliament of our country is an example of empowering minority community.

(iv) **Political parties and pressure groups and movement:** Power-sharing is also seen in the way political parties, pressure groups and social movements control or influence those in power. Such competition ensures that power does not remain in one hand. In the long run, power is shared among different political parties that represent different ideologies and social groups.

44. (i) The first reason is power-sharing helps to reduce the possibility of conflicts between social groups.
- (ii) Power-sharing is a good way to ensure the stability of political order as social conflict often leads to violence and political instability.
- (iii) Imposing the will of the majority community over others may look like an attractive option in the short run, but in the long run it undermines the unity of the nation.
- (iv) Tyranny of the majority is not only oppressive for the minority but it also brings ruin to the majority.
- (v) Another important reason is that the very spirit of democracy is power-sharing. A democratic rule involves sharing of power with those affected by its exercise, and who have to live with its effects. People have a right to be consulted on how they are to be governed. A legitimate government is one where citizens, through participation, acquire a stake in the system.

Previous Year Questions

Multiple Choice Questions

1. Choose the correct answers to the questions from the given options. Match Column-I with Column-II and choose the correct option from the following:

[CBSE 2024]

No.	Column-I Subject List in the Indian Constituting	No.	Column-II (Subject)
(A)	Union List	(i)	Trade Union
(B)	State List	(ii)	Banking
(C)	Concurrent List	(iii)	Police
(D)	Residuary List	(iv)	Internet

Options:

- (a) (A)-(IV), (B)-(I), (C)-(III), (D)-(IV)
 (b) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
 (c) (A)-(I), (B)-(II), (C)-(IV), (D)-(III)
 (d) (A)-(III), (B)-(IV), (C)-(II), (D)-(I)
2. Match Column-A and Column-B and choose the correct option.

[CBSE 2023]

No.	Column-A (Subject)	No.	Column-B (List/Subjects)
I.	Defence	1.	Concurrent list
II.	Police	2.	Union list
III.	Marriage	3.	State list
IV.	Computer software	4.	Residency

Options:

- (a) (I)-(4), (II)-(3), (III)-(1), (IV)-(2)
 (b) (I)-(3), (II)-(4), (III)-(1), (IV)-(2)
 (c) (I)-(4), (II)-(1), (III)-(3), (IV)-(2)
 (d) (I)-(2), (II)-(3), (III)-(1), (IV)-(4)

3. Match the column-A and column-B and choose the correct option.

[CBSE 2023]

No.	Column-A (Subject)	No.	Column-B (List)
I.	Banks	1.	Concurrent List
II.	Agriculture	2.	Union List
III.	Education	3.	State List
IV.	Computer	4.	Residuary subjects

Options:

- (a) (I)-(4), (II)-(3), (III)-(1), (IV)-(2)
 (b) (I)-(3), (II)-(4), (III)-(1), (IV)-(2)
 (c) (I)-(2), (II)-(3), (III)-(1), (IV)-(4)
 (d) (I)-(4), (II)-(2), (III)-(1), (IV)-(3)
4. Identify the administrative level of Indian Government with the help of the information given in the box and choose the correct option:

[CBSE 2023]

5. Power shared between Central to Local Government.
 6. The State Governments are required to share some powers and revenue with them.
 7. It is called a three tier government.

- (a) Dictatorial System
 (b) Unitary Federal System
 (c) Decentralised System
 (d) Imperialistic System

5. Which one of the following countries is the example of 'Holding together federation?'

[CBSE 2021-22]

- (a) Australia (b) India
 (c) U.S.A. (d) Switzerland

6. Identify the correct feature of Unitary form of government from the following options.

[CBSE, 2021-22]

- (a) There are two or more levels of government.
- (b) Different tiers of government govern the same citizens.
- (c) Each tier of government has its own jurisdiction.
- (d) The sub-units are subordinate to the central government.

7. Choose the correct pair among the following:

[CBSE, 2021-22]

(Country)	(Administration)
(a) Russia	Unitary
(b) China	Federal
(c) Canada	Unitary
(d) Argentina	Federal

8. Which of the following countries is an example of 'coming together federation'? [CBSE, 2021-22]

- (a) United States of America
- (b) India
- (c) Spain
- (d) Belgium

9. Which one of the following subjects is included in the Union list? [CBSE, 2021-22]

- (a) Communication
- (b) Trade
- (c) Commerce
- (d) Irrigation

10. Which one of the following subjects is included in the State list? [CBSE, 2021-22]

- (a) Banking
- (b) Business
- (c) Currency
- (d) Communication

11. Which one of the following subjects is included in the Concurrent List? [CBSE, 2021-22]

- (a) Trade
- (b) Commerce
- (c) Agriculture
- (d) Marriage

12. Match Column-A and Column-B and choose the correct option. [CBSE 2021-22]

No.	Column-A (Subject)	No.	Column-B (List/Subjects)
I.	Defence	A.	Trade Union
II.	Police	B.	Banking
III.	Marriage	C.	Police
IV.	Computer software	D.	Internet

- (a) (I)-(C), (II)-(D), (III)-(B), (IV)-(A)
- (b) (I)-(A), (II)-(B), (III)-(C), (IV)-(D)
- (c) (I)-(D), (II)-(C), (III)-(B), (IV)-(A)
- (d) (I)-(B), (II)-(A), (III)-(C), (IV)-(D)

Very Short Answer Type Questions

13. Which institution has been created in each State of India to conduct Panchayat and Municipal elections? [CBSE 2020]
14. Rewrite the correct statement: India, Spain and Belgium are examples of 'Coming Together Federation'. [CBSE 2020 C]
15. Rewrite the correct statement: The Union Government as well as the State Governments can make laws on State subjects like forest, trade unions, marriage, etc. [CBSE 2020 C]
16. List under which both the Union and State Governments can make laws under the federal system in India. [CBSE 2017]
17. What is the system of Panchayati Raj? [CBSE 2017]
18. Mention the dual objectives of federal system of government. [CBSE 2016]
19. How do the central and state governments enjoy their power in federal system? [CBSE 2016]
20. Much of the official work in Indian states is done in which language? [CBSE 2016]
21. Which is the highest institution of Panchayati Raj in India? [CBSE 2016]
22. What is decentralisation? What is the need for it? [CBSE 2016, 2015, 2014]
23. Why was State Reorganisation Commission formed? [CBSE 2016]
24. In which list of the Indian constitution does education come? Why? [CBSE 2015]
25. What status has been given to Hindi by the Constitution of India? [CBSE 2015]
26. What is the official post for the chairperson of a Municipal Corporation? [CBSE 2014]
27. Which subjects are included in the Union List? [CBSE 2014]
28. What do you understand by 'coming together' federations? [CBSE 2014]

Short Answer Type Questions

29. Read the given source and answer the questions that follow:

Language Diversity of India How many languages do we have in India? The answer depends on how one counts it. The latest information that we have is from the Census of India held in 2011. This census

recorded more than 1300 distinct languages which people mentioned as their mother tongues. These languages were grouped together under some major languages. For example languages like Bhojpuri, Magadhi, Bundelkhandi, Chhattisgarhi, Rajasthani and many others were grouped together under 'Hindi. Even after this grouping, the Census found 121 major languages. Of these 22 languages are now included in the Eighth Schedule of the Indian Constitution and are therefore called 'Scheduled Languages. Others are called 'Non-Scheduled Languages. In terms of languages, India is perhaps the most diverse country in the world.

- (I) Explain the importance of language diversity in India.
- (II) Differentiate between Scheduled and Non-Scheduled Languages.
- (III) 'The fusion of languages has united the country into one cultural entity, Explain the statement with an example. **[CBSE 2023]**

30. Read the given extract and answer all questions.

DECENTRALISATION IN INDIA

When power is taken away from Central and State governments and given to local government, it is called decentralization. The basic idea behind decentralization is that there are a large number of problems and issues which are best settled at the local level. People have better knowledge of problems in their localities. They also have better ideas on where to spend money and how to manage things more efficiently. Besides at the local level it is possible for the people to directly participate in decision making. This helps to inculcate a habit of democratic participation. Local government is the best way to realise one important principle of democracy, namely local self-government.

The need for decentralisation was recognized in our Constitution. Since then, there have been several attempts to decentralize power to the level of villages and towns. Panchayats in villages and municipalities in urban areas were set up in all the States. But these were directly under the control of State Governments. Elections to these local governments were not held regularly.

- (i) Explain Decentralization in democracy.
- (ii) Explain the importance of Local self Government in democracy.
- (iii) Describe any two steps taken by Indian government for decentralization. **[CBSE 2023]**

31. Describe any three features of 'federal government. **[CBSE 2020]**

32. Describe any three features of 'unitary government. **[CBSE 2020]**

33. Describe any three characteristics of distribution of power between the centre and states in India. **[CBSE 2020]**

34. Enumerate the features of federalism. **[CBSE 2020 C, AI 2019, 2017]**

35. Describe the rationale behind the implementation of Decentralisation in India. **[CBSE 2020]**

OR

Explain the basic idea behind decentralisation of political power in India. **[CBSE 2019 C]**

36. Describe any three steps taken to strengthen the local self-governments, by the Constitutional Amendment, 1992. **[CBSE 2019]**

OR

Explain the steps taken by the Indian Government in the year 1992 to make the third-tier of democracy more powerful. **[CBSE 2019 C]**

37. Name any two subjects that are included in Concurrent List. How are laws made on these subjects? Explain. **[CBSE 2019]**

38. How is sharing of power between the union and the state government basic of the structure of the constitution of India? Explain. **[CBSE 2019]**

39. Explain any five features of Panchayati Raj system in India. **[CBSE 2016]**

40. Explain the factors that make federal government in India so attractive. **[CBSE 2016]**

41. Highlight any three steps taken by India towards making it a federation. **[CBSE 2015]**

42. What are the three lists given in the Constitution? **[CBSE 2014]**

43. Why has federalism succeeded in India? Which were the policies adopted by India that ensured this success? Explain. **[CBSE 2014]**

Long Answer Type Questions

44. Federalism is a system of government in which the power is divided between a central authority and various constituent units of the country. Support the statement in reference of India. **[CBSE 2020]**

45. Describe the nature of the Panchayati Raj System in India. **[CBSE 2020]**

46. Describe the importance of a third-tier of government in a vast country like India. **[CBSE 2019]**
47. How has the Panchayati Raj strengthened the democracy in India? Express your views. **[CBSE 2016]**
48. Differentiate between Gram Sabha and Gram Panchayat. **[CBSE 2015]**
49. Do you take decentralisation as means to minimise the conflicts? Give your view point. **[CBSE 2015]**
50. Highlight three major distinctions between the federations of 'coming together' type and 'holding together' type. **[CBSE 2015]**
-

Explanations

Previous Year Questions

Multiple Choice Questions

1. (b) (A)-(II), (B)-(III), (C)-(I), (D)-(IV)
2. (d) (I)-(2), (II)-(3), (III)-(1), (IV)-(4)
3. (c) (I)-(2), (II)-(3), (III)-(1), (IV)-(4)
4. (c) Decentralised System
5. (b) India, Spain and Belgium are the examples of 'holding together federation. Australia, U.S.A and Switzerland are 'coming together federations.
6. (d) Under the Unitary form of government, either there is only one level of government or the sub-units are subordinate to the central government.
7. (d) Russia, Canada and Argentina are federal countries. China is a unitary country.
8. (a) United States of America is a 'coming together federation. India, Spain and Belgium are 'holding together' federation.
9. (a) Communication is included in the Union list. Trade, irrigation and commerce are included in State list.
10. (b) Business is included in the State list. Banking, currency and communication are included in the Union list.
11. (d) Concurrent list includes subjects of common interest to both the Union Government as well as the State Governments. These are education, forest, marriage, adoption and succession. Trade, Commerce and agriculture come under the State list.
12. (c) I-(D), II-(C), III-(B), IV-(A)

Very Short Answer Type Questions

13. State Election Commission
14. India, Spain and Belgium are examples of holding together federation.
15. Union Government as well as the state Government can make laws on concurrent subjects-like forest, trade unions, education etc.
16. Concurrent List
17. In India, the Panchayati Raj functions as a system of governance in which gram panchayats are the basic units of local administration. The system has

three levels: Gram Panchayat (village level), Block Samiti or Panchayat Samiti (block level), and Zila Parishad (district level).

18. Federal system has dual objectives to safeguard and promote unity of the country, while at the same time accommodate regional diversity.
19. The central and state governments enjoy powers because their 'Powers' are clearly divided in Union list and State list. They exercise authority equally on items listed in the concurrent list. The two governments operate according to their jurisdiction.
20. Much of the official work in Indian states is done in the official language of the concerned state.
21. Zila Parishad
22. Decentralisation can be defined as systematic distribution of authority or power at every level of the government. In India, it is the centre, the state and the village level.
23. State Reorganisation Commission was formed in 1953, to recommend creation of states in India on linguistic basis.
24. Education comes under the concurrent list; so both the states and the centre can legislate on any aspect of education.
25. Official language of India.
26. The Mayor
27. Subjects included in the union list are defence foreign affairs, banking, etc
28. The independent states which come together on their own to form a bigger unit so that they can increase their security, while maintaining their sovereignty are called the 'coming together federations! Examples- USA, Switzerland and Australia.

Short Answer Type Questions

29. (i) India has vast number of languages, this makes India a diverse country. Thus it preserve the unique identities of different communities.
- (ii) The Indian constitution includes 22 languages therefore these are called scheduled languages. Others are called 'non-scheduled languages
- (iii) This means that the diverse languages and cultures of India have blended together to create a shared

sense of national identity. For example unlike Sri Lanka, the leaders of our country adopted a very cautious attitude in spreading the use of Hindi.

30. (i) When power is taken away from central and state government and given to local government is called decentralisation in democracy.
- (ii) Importance of local self government- There are large number of problems and issues which are best settled at the local level.
- (iii) Steps taken for decentralisation-
- (a) Setting of panchayats in villages and municipalities in urban areas in all the states.
- (b) Direct participation of local people in decision making process
31. The three features of federal government are
- (i) The central government gives some powers to the state government.
- (ii) Power is distributed among legislature, executive and judiciary.
- (iii) Elected officials exercise supreme power in the government.
32. Three features of unitary government:
- (i) It makes a centralised government.
- (ii) The central government is supreme.
- (iii) The administrative divisions such as state or districts exercise less power than centre
33. The Constitution clearly provided a three-fold distribution of legislative powers between the Union Government and the State Governments. Thus, it contains three lists.

List of Jurisdiction:

- (i) **Union List:** Union List includes subjects of national importance: such as defence of the country, foreign affairs, banking, communications and currency. They are included in this list because we need a uniform policy on these matters throughout the country. The Union Government alone can make laws relating to the subjects mentioned in the Union List.
- (ii) **Concurrent List:** Concurrent List includes subjects of common interest such as education, forest, trade unions, marriage adoption and succession. Both the Union as well as the State Governments can make laws on the subjects mentioned in this list. If their laws conflict with each other, the law made by the Union Government will prevail.
- (iii) **State List** State List contains subjects of State and

local importance such as police, trade, commerce, agriculture and irrigation. The State Governments alone can make laws relating to the subjects mentioned in the State List.

- (iv) **Residuary List:** Anything out of purview of above mentioned list is taken as residuary subject. Union Government has the power to legislate on these subjects.

34. The key features of federalism are:

- (i) There are two or more levels (or tiers) of government. We have three levels of government in India.
- (ii) Different tiers of government govern the same citizens, but each tier has its own jurisdiction in specific matters of legislation, taxation and administration.
- (iii) The jurisdictions of the respective levels or tiers of government are specified in the constitution. Thus the existence and authority of each tier of government is constitutionally guaranteed.
- (iv) The fundamental provisions of the constitution cannot be unilaterally changed by one level of government. Such changes require the consent of both the levels of government.
- (v) The High court and the Supreme court act as an umpire if disputes arise between different levels of government in the exercise of their respective powers.
- (vi) Sources of revenue for each level of government are clearly specified to ensure its financial autonomy.
- (vii) The federal system thus has dual objectives: to safeguard and promote unity of the country, while at the same time accommodate regional diversity.
35. The basic idea behind decentralisation is that there are a large number of problem and issues which are best settled at the local level, people have better knowledge about problems in their localities. They also have better idea about where to spend money and how to manage things more efficiently. Besides at the local level, it is possible for the people to directly participate in decision making. This helps to inculcate a habit of democratic participation. Local government is the best way to realise one important principle of democracy, namely local self-government.

36. A major step towards decentralisation and strengthening of the local self-government was taken in 1992. The Constitution was amended to make the third-tier of democracy more powerful and effective. The local governing bodies were given constitutional status.
- (i) Now, it is constitutionally mandatory to hold regular elections to local government bodies. An independent institution called the State Election Commission has been created in each State to conduct panchayat and municipal elections
 - (ii) Seats are reserved in the elected bodies and the executive heads of these institutions for the Scheduled Castes, Scheduled Tribes and Other Backward Classes. At least one-third of all positions are reserved for women.
 - (iii) The State governments are required to share some powers and revenue with local government bodies. The nature of sharing varies from State to State.
37. **Concurrent List:** Concurrent List includes subjects of common interest such as education, forest, trade unions, marriage, adoption and succession. Both the Union as well as the State Governments can make laws on the subjects mentioned in this list. If their laws conflict with each other, the law made by the Union Government will prevail.
38. The sharing of power between the Union Government and the State governments, there is power-sharing which is basic to the structure of the Constitution. It is not easy to make changes to this power-sharing arrangement. Any change to it has to be first passed by both the Houses of Parliament with at least two-thirds majority. Then it has to be ratified by the legislatures of at least half of the total states.
39. Rural local government is known as Panchayati Raj
- (i) Panchayati Raj is rural-based.
 - (ii) Each village has a Gram Panchayat.
 - (iii) It has Panchs and a Sarpanch.
 - (iv) He/she is directly elected by the adult population in the village.
 - (v) Panchayat works under the Gram Sabha
 - (vi) All the voters meet at least twice or thrice in a year.
 - (vii) Few Gram Panchayats form the Panchayat Samiti or Block or Mandal.
40. (i) The jurisdiction of different arms of the government are defined.
- (ii) Administrative interference is absent because there is financial autonomy.
 - (iii) Problems are solved as per jurisdiction. The federal structure ensures “Unity amongst the people”.
41. Steps taken by any Indian towards making it a federation:
- (i) Reorganisation of states on linguistic basis.
 - (ii) Centre-state relations are well defined.
 - (iii) Decentralisation at local level.
42. The three-fold distribution of legislative powers are:
- (i) **Union list:** Union list consists of 100 (as on 2022) subjects. It includes subjects of national importance such as defence of the country, foreign affairs, banking, communication and currency.
 - (ii) **State list:** State list consists of 61 (as on 2022) subjects. It contains subjects of state and local importance such as police, trade, commerce, agriculture and irrigation.
 - (iii) **Concurrent list:** Concurrent list consists of 52 (as on 2022) subjects. It includes subjects of common interest to both such as education, forest, trade unions, marriage, adoption and succession.
43. Federalism has succeeded in India due to the nature of democratic policies in our country. The policies adopted by India to ensure this success.
- (i) **Linguistic states:** In 1947, the boundaries of several old states were changed in order to create new states. This was done to ensure that people who spoke the same language lived in the same state. Some states were created not on the basis of language but to recognise differences based on culture, ethnicity or geography. The experience shown that the formation of linguistic states has actually made the country more united.
 - (ii) **Language policy:** A second test for Indian federation is the language policy. Our Constitution did not give the status of national language to any one language. Therefore, many safeguards were put to protect other languages. Besides Hindi, there are 21 other languages recognised as Scheduled Languages in the Constitution.
 - (iii) **Centre-State relations:** Restructuring the Centre-State relations is one more way in which federalism has been strengthened in practice. This happened particularly after 1990 when there was a coalition government at the centre.

- (iv) **Decentralisation of power:** The governmental power has been decentralised to form the third tier of government in the form of Panchayati Raj and municipal government

Long Answer Type Questions

44. Different tiers of government govern the same citizens, but each tier has its own jurisdiction in specific matters of legislation, taxation and administration.

The jurisdictions of the respective levels or tiers of government are specified in the constitution. So, the existence and authority of each tier of government is constitutionally guaranteed.

The fundamental provisions of the constitution cannot be unilaterally changed by one level of government. Such changes require the consent of both the levels of government.

Courts have the power to interpret the constitution and the powers of different levels of government. The highest court acts as an umpire if disputes arise between different levels of government in the exercise of their respective powers.

Sources of revenue for each level of government are clearly specified to ensure its financial autonomy.

The federal system thus has dual objectives: to safeguard and promote unity of the country, while at the same time accommodate regional diversity. We can see that all the features of federalism mentioned above apply to the provision of the Indian constitution

45. Nature of Panchayati Raj System in India:

- (i) Gram Panchayat is a council consisting of several ward members, often called panch, and a president or sarpanch.
- (ii) They are directly elected by all the adult population living in that ward or village
- (iii) It is the decision-making body for the entire village.
- (iv) The constitution was amended in 1992 to make a more effective and powerful three tier system viz. Gram Panchayat, Block Samiti and Zila Parishad.

46. Importance of third-tier government are:

- (i) There are a large number of problems and issues which are best settled at the local level.. People have better knowledge of problems in their localities.
- (ii) They also have better ideas on how to solve the problems and where to spend the resources.

- (iii) At the local level, it is possible for the people to directly participate in decision making.

- (iv) This helps to inculcate a habit of democratic participation.

47. (i) Panchayati Raj strengthened the democracy in India. Panchayati Raj is the best example of decentralisation of power.

- (ii) People can get most of their problems solved at the local level by participating in decision making. This is because people understand the problems better and can find better solutions locally.

- (iii) People can think and plan for themselves.

48. Gram Panchayat is a council consisting of several ward members oftencalled 'Panchs' and a president called 'Sarpanch. It is the decision making body for the village. The Panchayat works under the overall supervision of the 'Gram Sabha'. All the voters in the village are its members.

49. Yes, decentralisation reduces conflicts. It helps in the settlement of a large number of problems and issues at the local level.

- (i) It provides a platform for the direct participation of people in decision making
- (ii) Decentralisation in the form of different tiers of government is the best way to realise the principles of democracy.

50. Holding Together Federation:

- (i) Large countries decide to divide its power between states and the centre.
- (ii) Central government tends to be more powerful.
- (iii) Federating units have unequal power.
- (iv) India, Spain, Belgium are examples of Holding Together Federation.

Coming Together federation:

- (i) Independent states coming together on their own to form a bigger unit.
- (ii) All the states have equal power and are strong.
- (iii) By pooling sovereignty and retaining identity, they can increase their security.
- (iv) U.S.A, Switzerland, Australia are examples of this Federation.

Gender Religion and Caste

Previous Year Questions

Multiple Choice Type Questions

1. Two statements are given below as Assertion (A) and Reason (R). Read the statements and choose the appropriate option.

Assertion (A): Women in different parts of the world organised themselves and agitated for equal rights.

Reason (R): Women's movement aimed at equality in personal and family life as well.

[CBSE 2023]

- (a) Both (A) and (R) are true and (R) is the correct explanation of (A).
(b) Both (A) and (R) are true, but (R) is not the correct explanation of (A).
(c) (A) is true but (R) is false.
(d) (A) is false, but (R) is true.
2. Which one of the following laws was enacted by the Government of India in October 2005? [CBSE 2014]
(a) The Right to Property Act
(b) The Right to Education Act
(c) The Consumer Protection Act
(d) The Right to Information Act
3. Which one of the following matters do not deal with the 'Family Laws'? [CBSE 2023]
(a) Marriage (b) Adoption
(c) Inheritance (d) Finance

Very Short Type Questions

4. "Women face discrimination in various ways in our society." Explain any two ways. [CBSE 2023]
5. How has caste system in modern India undergone great change? Explain. [CBSE 2023]

6. Suggest any one way to protect women from domestic oppression. [CBSE 2020]
7. Suggest any one way to pay equal wages to women in all areas of work as men. [CBSE 2020]
8. What percentage of reservation is given to women in local administration in India? [CBSE 2020]
9. Suggest any one way to increase the participation of women in the legislative domain of India. [CBSE 2020 C]
10. Suggest any one way to create communal harmony among various communities of India. [CBSE 2020]
11. Suggest any one way to change 'family laws' of all religions. [CBSE 2020]
12. Fill in the blank:
The Indian Constitution provides to all individuals and communities freedom to profess, practise and propagate any religion because of _____. [CBSE 2020]
13. "Caste system is still prevalent in the Indian society." Suggest any one measure to abolish it. [CBSE 2020]
14. "Sometimes elections are all about caste in India." How can this situation be avoided? [CBSE 2020]
15. Fill in the blank:
Castes and Caste system in modern India have undergone a great change because _____. [CBSE 2020]
16. What do you mean by a patriarchal society? [CBSE 2015]
17. By what term is now the person known who believes in equal right and opportunities for women? [CBSE 2015]
18. At which level of government in India, 1/3rd of seats are reserved for women? [CBSE 2015]

19. In which constitutional institution have seats been reserved for women? [CBSE 2014]

Short Answer Type Questions

20. Role of women is gradually being enhanced in the politics of the country." Examine the statement. [CBSE 2024]
21. Describe the problems of low representation of women in Indian legislature. [CBSE 2020]
22. Describe the ways of discrimination faced by women in India. [CBSE 2020]

OR

"Women still lag much behind men in India despite some improvements since independence." Analyse the statement. [CBSE Delhi 2019]

23. Describe any three problems of communalism in Indian politics. [CBSE 2020]
24. Mention any three features of 'secularism' described in the Indian Constitution. [CBSE 2020]

OR

Secularism is not an ideology of some political parties, but it is one of the foundations of a country. Examine the statement. [CBSE 2018]

25. Describe the influence of Politics in the Caste system. [CBSE 2020 C]
26. Mention the problem of 'Casteism' in Indian politics. [CBSE 2020]
27. "Politics and social divisions should not be allowed to mix." Justify the statement. [CBSE 2019]
28. What is communalism? How does it affect the political life of the people? [CBSE 2016]
29. Describe the three factors which determine the outcome of the politics of social divisions. [CBSE 2016]
30. "Gender division is not based on biology but on social expectations and stereotypes." Support the statement. [CBSE 2019 C, 2015]
31. Suggest any three measures to enhance the participation of woman in politics. [CBSE 2015]
32. Suppose a politician seeks your vote on the religious ground. Why is his act considered against the norms of democracy? Explain. [CBSE 2015]
33. Describe three advantages of the political expression of caste differences. [CBSE 2015]

34. Literacy and urbanisation combined with economic growth have changed the value system of Indian society. Explain with reference to India's social problems. [CBSE 2015]
35. Suggest any two measures to check communalism in India. [CBSE 2014]
36. "The Government of India gives holidays for the festivals of most of the religions." Why is it so? Give your view point. [CBSE 2014]

Long Answer Type Questions

37. How has the caste system in modern India undergone great change? Explain. [CBSE 2023]
38. 'Communalism can take various forms in politics' Explain. [CBSE 2020]

OR

What form does communalism take in politics? [CBSE 2015]

39. Explain any five methods to raise the political representation of women in India. [CBSE 2019]
40. Examine the different forms of 'Casteism' in Indian politics. [CBSE 2019 C]
41. Explain the factors that have led to the weakening of the caste system in India. [CBSE 2019 C, 2014]
42. Explain the constitutional provisions that make India a secular state. [CBSE 2017, 2014]
43. Why did the framers of the constitution choose the ideals of secularism for India? How is this choice reflected in the constitutional provisions? Explain. [CBSE 2017]
44. How is gender division understood in the society? To what extent does political mobilisations on gender help to improve women's role in public life? [CBSE 2016]
45. Define communalism. Explain any three forms of communalism in the Indian Politics. [CBSE 2016]
46. Caste has not still disappeared from contemporary India. Justify the statement. [CBSE 2016, 2014]
47. The focus on caste in politics can sometimes give an impression that elections are all about caste and nothing else. Do you agree? Explain. [CBSE 2015]
48. Examine the standard of women's representation in India's legislative bodies. [CBSE 2014]

Explanations

Previous Year Questions

Multiple Choice Question

1. (a) Both (A) and (R) are true and (R) is the correct explanation of (A).
2. (d) The Right to Information Act
3. (d) Finance

Very Short Type Questions

4. (i) A smaller proportion of girls students go for higher studies.
(ii) The proportion of women among the highly paid and valued jobs is still very small
5. Caste system has undergone a major change in modern India. Following points explain this statement:
(i) Large scale urbanisation has diminished the awareness of caste system, as people work together. It does not matter much who is walking along next to us.
(ii) Growth of literacy and education has helped to decrease the belief in caste.
6. Women can take help from NGO or Mahila Aayog.
7. Better implementation of 'Equal Remuneration Act, 1976 which provide equal wages to be paid to equal work.
8. 33% or one-third
9. One way to solve this problem is to make it legally binding to have a fair proportion of women in the elected as well as nominated bodies.
10. Spread awareness about unity and integrity.
11. Enforcement of dowry prohibition act can bring a remarkable change in the family law of all religions.
12. Secularism
13. One measure to abolish caste system is increasing the literacy rates in our country.
14. Proper laws should be passed to separate elections from casteism.
15. Occupational mobility/implementation of laws.
16. A male dominated society

17. A feminist
18. Third tier government
19. Local self-government bodies.

Short Answer Type Questions

20. The role of women in Indian politics is gradually improving due to:
(i) **Increased Participation:** More women are running for office and holding elected positions.
(ii) **Legislative Support:** Reserved seats for women in local bodies enhance their representation.
(iii) **Empowerment Initiatives:** Programs and policies support women's political involvement.
(iv) **Grassroots Activism:** Women's involvement in activism boosts their political influence.
(v) **Role Models:** Prominent female leaders inspire greater participation.
21. Problems of low representation of women in legislature
(i) Political parties are not giving tickets to women candidates to fight election in proportion to their population.
(ii) No or low representation led many feminists and women's movement to the conclusion that unless women control power. This problems will not get adequate. attention.
(iii) India is behind the averages for several developing countries that make India, among the bottom group of nations in the world.
22. In our country, women still lag much behind men despite some improvements since Independence. Women face disadvantage, discrimination and oppression in various ways:
(i) The literacy rate among women is only 64.60 per cent as compared with 80.90 per cent among men (2011 data).
(ii) Similarly, a smaller proportion of girl students go for higher studies. Girls are performing as well as boys in school. But they drop out because parents prefer to spend their resources for their boy's education rather than spending equally on their sons and daughters.
(iii) The proportion of women among the highly paid

and valued jobs is still very small. On an average an Indian woman works one hour more than an average man every day.

- (iv) In some parts of India, parents prefer to have sons and find ways to have the girl child aborted before she is born. Such sex selective abortion has led to a decline in child sex ratio.
- (v) Women often face harassment, exploitation and violence on the domestic front

23. Problems of communalism in Indian politics.

- (i) Communalism routinely involves religious prejudices, stereotypes of religions communities and belief in the superiority of one's religion over other religions.
- (ii) For those belonging to the minority community, it can take the form of a desire to form a separate political unit.
- (iii) Communalism takes its most ugly form of communal violence, riots and massacre. India and Pakistan suffered some of the worst communal riots at the time of partition. The post-independence period has also seen large scale communal violence.

24. The makers of our Constitution were aware of religion related challenge. That is why they chose the model of a secular state. The important provisions that makes India a secular state are:

- (i) There is no official religion for the Indian states. Unlike the status of Buddhism in Sri Lanka, that of Islam in Pakistan and that of Christianity in England, our Constitution does not give a special status to any religion.
- (ii) The Constitution provides to all individuals and communities freedom to profess, practice and propagate any religion, or not to follow any.
- (iii) The Constitution prohibits discrimination on grounds of religion.
- (iv) At the same time the Constitution allows the state to intervene in the matters of religion in order to ensure equality within religious communities. For example, it bans untouchability.

25. We can say that, while caste matters in electoral politics, so do many other factors. People within the same caste have different interests depending on their economic condition; that is why rich and poor or men and women from the same caste often vote very differently.

A caste group often tries to become bigger by incorporating within it neighboring castes or sub-castes thus changing the definition of the group.

Sometimes various caste groups enter into a coalition and thus enter into a dialogue and negotiation. This leads to new kinds of caste groups such as 'backward' and "forward"

26. Problems of casteism in India:

- (i) There is discrimination between upper and lower castes. Still there is wide gap and difference between different castes.
- (ii) Upper castes still enjoy respectable position in the society.
- (iii) Political leaders contest election on the name of castes, for the vote bank.

27. It is absolutely correct to say that politics and social divisions should not be allowed to mix. This is because:

- (i) It can make social divisions into political division and lead to conflict, violence or even disintegration of a country.
- (ii) In Northern Ireland, there has been a violent and bitter ethno-political conflict for many years.
- (iii) It caused disintegration of Yugoslavia into six independent countries. In Sri Lanka, when the ethno-social difference between Sinhals and Tamils were politicised, the result was the Civil War in the country.

28. Communalism: When beliefs of one religion are presented as superior to those of other religions, when the demands of one religious group are formed in opposition to another and when state power is used to establish domination of one religious group over the rest, Then, it is called as communalism. Communalism is a hindrance in the functioning of our democracy because:

- (i) Communalism leads to the belief that people belonging to different religions cannot live as equal citizens within one nation. Either, one of them has to dominate the rest or they have to form different nation.
- (ii) Any attempt to bring all followers of one religion together is bound to suppress the voices of others.

29. Factors that decide the outcome of the politics of social divisions are

- (i) When the people's perception of their identities is strict, the accommodation of other identities becomes difficult in the group.
 - (ii) Representation of a community by political leaders: While representing a community, if politicians raise demands that are constitutional, then, it is easier to accommodate those demands.
 - (iii) The government's reaction If the reasonable demands of a community are suppressed by the government, then it leads to social divisions, which in turns threatens the integrity of the country.
- 30. (i)** Gender division is a form of hierarchical social division based on social expectation and stereotypes.
- (ii) Boys and girls are brought up to believe that the main responsibilities of women is house work and bringing up children.
 - (iii) There is a sexual division of labour in most families where women do all the household chores and men work outside the home.
 - (iv) Majority of women may do some paid work in addition of domestic labour both in rural and Urban areas but their work is not valued and does not get recognition.
- 31. (i)** Women should be given proper education, so that they are aware of their rights and duties and participate actively in politics.
- (ii) Every woman should be self reliant, so that she enjoys a respectable position in the society and is confident about her meaningful contribution in politics as well.
 - (iii) It should be legally binding to have a fair proportion of woman in the elected bodies. That is why 1/3rd of seats in local government bodies in panchayats and in municipalities are now reserved for women.
- 32.** His act is against the spirit of democracy as the said politician is not working as per the Constitution.
- (i) It also exploits the social difference.
 - (ii) It may create social discord and may lead to social division.
 - (iii) It is also biased attitude and neglects the principle of equality.
- 33.** Advantages of the political expression of caste differences are:
- (i) It gives disadvantaged groups the opportunity to demand a share in power and decision-making.
- (ii) Many political parties have taken up the issue of ending caste discrimination.
 - (iii) Measures for uplifting the status of the backward castes has also been undertaken.
- 34. (i)** The caste system is very old in India and also very rigid at one point of time but due to rise in literacy and economic development the caste barriers are breaking down. People in urban areas who are literate mostly do not believe in inequality based on caste. It is accepted that all are equal. Rising economic status of backward castes has helped in eroding the caste barriers.
- (ii) The problem of communalism has decreased and there is less violence in the name of religion. People who are literate mostly do not get swayed by appeal to religious emotions. Economic progress and urbanisation has greatly helped in spread of in spread of secularism.
 - (iii) The position of women too has improved with the spread of literacy among women. Now they can earn and be economically independent. This helps to increase self- esteem and decreases dependence on male members of society.
 - (iv) The system of dowry at the time of marriage is getting diluted due to literacy and economic development of women.
 - (v) The practice of child marriage is decreasing due to spread of literacy.
 - (vi) There is occupational mobility due to spread of urbanisation and literacy and people are free to follow the profession of their choice rather than follow hereditary professions.
- 35. (i)** Communal prejudices and proganda need to be countered in everyday life.
- (ii) Religion based mobilisation to meet political needs must be countered.
- 36.** It is so because:
- (i) India is a secular state, there is no official religion in our country.
 - (ii) The Constitution provides us freedom to profess. practice and propagate any religion or not to follow any.
 - (iii) The Constitution prohibits discrimination on the ground of religion.

Long Answer Type Questions

37. The caste system in modern India has evolved due to several factors:

- (i) **Urbanization:** Movement to cities reduces traditional caste structures and promotes social integration.
- (ii) **Education:** Higher literacy and education levels empower individuals, decreasing the influence of caste on occupations and social status.
- (iii) **Legislative Reforms:** Laws such as reservations and anti-discrimination measures promote equality and aim to dismantle caste-based biases.
- (iv) **Social Movements:** Activists and leaders like Dr. B.R. Ambedkar have actively worked to challenge and reform caste hierarchies.
- (v) **Economic Changes:** Economic growth and new industries provide diverse job opportunities, reducing dependence on traditional caste-based roles.
- (vi) **Political Mobilization:** Increased political participation and representation of marginalized communities help address and combat caste discrimination.

38. Communalism can take various forms in politics:

- (i) The most common expression of communalism is in everyday beliefs. These involve spread of religious prejudices, stereotype of religious belief, in the superiority of one's religion over other religions. This is so common that we often fail to notice it, even when we do not believe in it.
- (ii) It often leads to a quest for political dominance of one's own religious community, this takes the form of majoritarian dominance. For those belonging to the minority community, it leads to formation of a separate political unit.
- (iii) Political mobilisation on religious lines is another frequent form of communalism. This involves the use of sacred symbols by religious leaders. Emotional appeals are made to bring the followers of one religion together in the political arena.
- (iv) Sometimes communalism can lead to communal violence, riots and massacre.

39. The political representation of women in India can be improved by adopting a holistic approach. This

would include:

- (i) By improving the literacy rate. Presently the literacy amongst women is only 65.46% as compared to over 82% in men. This would improve the political awareness amongst women.
- (ii) The percentage of women in highly paid jobs is still very small. At many workplaces, women are paid less than men for the same job. When equal pay comes the voice of women will get strengthened.
- (iii) The Hindu Succession (Amendment) Act, 2005 removes discriminatory gender practices. The daughters now have equal right of inheritance to their father's estate as sons. This definitely has increased the political power of females.
- (iv) The political representation of women had been very poor in the Indian legislatures. Even in the cabinet, the number of women ministers is very low. The political parties must give more representation to female candidates in union and state elections. The Supreme court of India must intervene in this matter.
- (v) One-third of seats in local government bodies have been reserved for women candidates. This has helped in increasing women's representation in panchayats and municipalities. There is a need to enhance this to 50%. A bill for providing one-third reservation in the Lok Sabha and State Assemblies has been pending in the Parliament for more than a decade. Political parties are yet to arrive at consensus on this issue.

40. Different forms of casteism in Indian politics:

- (i) While choosing candidates: When parties choose candidates in elections, they keep in mind the caste composition of the electorate, and nominate candidates from different castes so as to get the necessary support to win elections.
- (ii) While forming a government: When the governments are formed, political parties usually take care that representatives of different castes and tribes find a place in it.
- (iii) While campaigning: Political parties and candidates in elections make appeals to people to give them their votes on the basis of caste. Some political parties are known to favour some castes, and are seen as their representatives.
- (iv) Universal adult franchise and the principle of one- person-one-vote, has compelled the political leaders to raise the caste-based issues

during elections. They do so to mobilise and secure political support. It also brought new consciousness among the people of castes that were hitherto treated as inferior and low.

41. Factors that led to the weakening of caste systems in India:

- (i) Efforts of social reformers like Jyotiba Phule, Gandhiji, Ambedkar against caste system have helped to promote a casteless society.
- (ii) Economic development has reduced the emphasis on caste.
- (iii) Large scale urbanisation has diminished the awareness of caste, as people work together.
- (iv) Growth of literacy and education has helped to decrease the belief in caste.
- (v) Occupational mobility is possible now and children are not compelled to continue the profession of the family or father.

42. Secularism means no special status is given to any religion.

- (i) There is no official religion for India unlike the status of Buddhism in Sri Lanka, or that of Islam in Pakistan.
- (ii) The constitution provides freedom to practice and propagate any religion, or not to follow any.
- (iii) The Constitution prohibits discrimination on the grounds of religion.
- (iv) The Constitution allows the state to intervene in the matters of religion to ensure equality within religious communities. For example, it bans untouchability

43. Secularism in India means equal treatment for all religions by the state. The term ‘Secular’ was added along with the term ‘Socialist’ through the 42nd Amendment in the Preamble of the Constitution of India in 1976. The Preamble of Constitution of India asserts that India is a secular country. The Indian Constitution does not profess any state religion. The state recognises and accepts all religions. It enforces parliamentary laws and not religious laws, and respects pluralism. The framers of constitution chose the model of secular state because of the following reasons:

- (i) India emerged as an independent country amidst heavy turmoil and faced many problems like

partition based on religion. The constitution makers did not want to give importance to any religion as it could again divide the country.

- (ii) After getting independence, the important leaders of India made it clear that India has to be a secular state as they could not afford any disturbance in the country based on religion.
- (iii) The framers of constitution knew that if any particular religion was promoted then there would be a chance of conflict among people of various religions and that would harm the progress of the country. This would also bring a feeling of insecurity among the people who follow other religions.

There is no discrimination among people based on the religious grounds in India. No religion is given superiority over any other religion.

44. (i) In Indian society, gender division tends to be understood as natural and unchangeable. It is based on social expectations and stereotypes.

- (ii) This attitude leads to sexual division of labour i.e., boys and girls are brought up to believe that, the main responsibility of women is house work and bringing up children whereas all the outside works are to be done by men.
- (iii) The result of this division of labour is that though the women constitute almost half the population, their role in public life is minimal.
- (iv) Political mobilisation on this issue has helped to improve women’s role in public life. We now find women working as scientists, doctors engineers, teachers, etc.
- (v) Now 33% seats are reserved for women in local government bodies and a similar demand has been made for assemblies and the Parliament.

45. (i) Communalism is a situation when beliefs of one religion are presented as superior to those of other religions. When the demands of one religious group are formed in opposition to another and when state power is used to establish domination of one religious group over the rest.

- (ii) Various forms of communalism in politics:
 - (a) The most common expression of communalism is in everyday beliefs and practices.
 - (b) Practice of political dominance of one’s own

religious community over others.

- (c) Political mobilisation on religious lines is another frequent form of communalism. This involves the use of sacred symbols by religious leaders, emotional appeals to spread fear.

46. It is true the caste factor has still not disappeared from our society:

- (i) Most people marry within their own caste or tribe.
- (ii) Untouchability has not ended despite provisions in the constitution.
- (iii) Effects of centuries of advantages to upper cast and disadvantages to lower castes continue to be felt today.
- (iv) Large number of low caste people still do not have access to education.
- (v) Caste is still linked to economic and social status.

47. No, I do not agree. The focus on caste in politics can sometimes give an impression that elections are all about caste and nothing else is not correct because-

- (i) No parliamentary constituency in the country has a clear majority of one single caste. So, every candidate and party needs to win the confidence of more than one caste and community to win elections.
- (ii) No party wins the votes of all voters of a caste or community. When people say that a caste is a 'vote

bank' of one party, it usually means that a large proportion of the voters from the caste vote for the party, not all.

- (iii) Many political parties may put up candidates from the same caste (if that caste is believed to dominate the electorate in a particular constituency). Some voters may have more than one candidate from their caste while many voters may have no candidate from their caste.
- (iv) The ruling party or the sitting M.P. or M.L.A. frequently lose elections in our country. That could not have happened if all castes or communities were frozen in their political preferences.

48. The status of women's representation in India's legislative bodies is as follows:

- (i) **Central Legislature:** Less than 10% of its total strength are women.
- (ii) **State Legislature:** Less than 5% of its total strength are women.
- (iii) **Panchayati Raj:** One-third of the seats are reserved for women.
- (iv) India is among the bottom group of nations in the world, in this aspect.
- (v) Women's organisations and activists have been demanding a reservation of at least one third of seats in Lok Sabha and State Assemblies. But the bill to this effect has not been passed.

CHAPTER

Political Parties

Previous Year Questions

Multiple Choice Type Questions

1. How do Political Parties ensure accountability to the public? Choose the most suitable option from the following.
[CBSE 2024]
(a) Through Press Conferences
(b) Through Social Media Campaigns
(c) Through encouraging Partisanship
(d) Through Elections and Voter Support
2. Which one of the following countries has two party system?
[CBSE 2023]
(a) China (b) Russia
(c) America (d) India
3. Which one of the following is a 'National Political Party'?
[CBSE 2014]
(a) Samajwadi Party
(b) Rashtriya Janata Dal
(c) Rashtriya Lok Dal
(d) Bahujan Samaj Party
4. Which one of the following facilities is offered by the 'Election Commission' to a recognised political party?
[CBSE Delhi 2014]
(a) Party name (b) Election funds
(c) Election symbol (d) Manifesto
5. Who among the following recognises 'Political Parties' in India?
[CBSE Foreign 2014]
(a) Election Commission
(b) President of India
(c) Speaker of Lok Sabha
(d) Supreme Court

Very Short Type Questions

6. Explain any three challenges faced by Political Parties in India.
[CBSE 2023]
7. Differentiate between ruling and opposition parties
[CBSE 2021-22]
8. Why has India adopted a multi-party system? Explain.
[CBSE 2021-22]
9. How do political parties shape public opinion?
[CBSE 2021-22]
10. Give one technical term for the following statement: "A person who is strongly committed to a party or group."
[CBSE 2020]
11. Correct the following statement and rewrite it: Bahujan Samaj Party (BSP) was formed under the leadership of Mayawati.
[CBSE 2020]
12. Why is one party system not considered a good democratic system?
[CBSE 2016]
13. Name any one political party that has national level political organisation but not recognised as the national political party.
[CBSE 2016]
14. Name the alliance formed by the Congress Party.
[CBSE 2016]
15. Which party was the principal opposition party in Lok Sabha in 2004?
[CBSE 2016]
16. "No party system is ideal for all countries and all situations." Justify the statement with arguments.
[CBSE 2016]
17. "Dynastic succession is one of the most serious challenges before the political parties." Analyse the statement.
[CBSE 2015]
18. How do money and muscle power play an important role in elections? Explain.
[CBSE 2015]

19. If all the decisions of a political party are made by single family and all other members are neglected, then what challenge is being faced by that party?
[CBSE 2015]
20. Why do political parties involve partisanship?
[CBSE 2015]
21. What is meant by 'Political Party'? [CBSE 2015]
22. What is the requirement laid down by the Election Commission for a political party to be recognized as a 'State Party'? [CBSE 2015]
23. What is the guiding philosophy of Bharatiya Janata Party?
[CBSE 2015]
24. Name of two regional parties of West Bengal.
[CBSE 2015]
25. What is mean by 'defection' in democracy? Explain.
[CBSE 2014]

Short Answer Type Questions

26. Explain the merits of Multi Party System.[CBSE 23]
27. Explain, how the rise of political parties are directly linked to the emergence of representative democracies.
[CBSE 2021-22]
28. Explain any three features of 'one-party system'.
[CBSE 2021-22]
29. Read the source given below and answer the questions that follow:

Democracies that follow a federal system all over the world tend to have two kinds of political parties : parties that are present in only one of the federal units and parties that are present in several or all units of the federation. This is the case in India as well. There are some countrywide parties, which are called 'national parties. These parties have their units in various states. But by and large, all these units follow the same policies, programmes and strategy that is decided at the national level.

Every party in the country has to register with the Election Commission. While the Commission treats all parties equally, it offers some special facilities to large and established parties. These parties are given a unique symbol only the official candidates of that party can use that election symbol. Parties that get this privilege and some other special facilities are 'recognised' by the Election Commission for this purpose. That is why these parties are

called, 'recognised political parties. The Election Commission has laid down detailed criteria of the proportion of votes and seats that a party must get in order to be a recognised party. A party that secures at least 6 percent of the total votes in an election to the Legislative Assembly of a State and wins at least two seats is recognised as a State party. A party that secures at least six percent of total votes in Lok Sabha elections or Assembly elections in four States and wins at least four seats in the Lok Sabha is recognised as a National party. Answer the following MCQs by choosing the most appropriate option:

[CBSE 2021 C]

- (i) Which one of the following is a National party?
 - (a) Bharatiya Janata Party
 - (b) Samajwadi Party
 - (c) Shiv Sena
 - (d) Shiromani Akali Dal
- (ii) Which of the following is not a regional party?
 - (a) Jharkhand Mukti Morcha
 - (b) Asom Gana Parishad
 - (c) Indian National Congress
 - (d) Dravida Munnetra Kazhagam
- (iii) Where does every political party have to register in India?
 - (a) Government of India
 - (b) NITI Aayog
 - (c) Election Commission
 - (d) Law Commission
- (iv) When a party that secures at least six per cent of total votes in Lok Sabha elections or Assembly elections in four states and wins at least four seats of Lok Sabha, it is recognised as a:
 - (a) Regional Party
 - (b) National Party
 - (c) Pressure Group
 - (d) Business Organisation.
30. What is a political party? State any two points of the ideology of Bhartiya Janata Party.
[CBSE Foreign 2016]
31. How are political parties recognised as regional and national parties in India? Explain with examples.
[CBSE 2019]
32. "Nearly every one of the state parties wants to get an opportunity to be a part of one or the other national level coalition." Support the statement with arguments.
[CBSE 2016]

33. What is meant by regional political party? State the conditions required to be recognised as a 'regional political party'. **[CBSE 2016]**
34. What is meant by a 'national political party? State the conditions required to be a national political party. **[CBSE 2016]**
35. What is a multi-party system? Why has India adopted a multi-party system? Explain. **[CBSE 2015]**
36. Describe any three main features of two-party system. **[CBSE 2015]**
37. Name the 'regional political parties' that are predominant in Jharkhand, Maharashtra and Odisha respectively with their symbols. **[CBSE 2014]**

Long Answer Type Questions

38. Describe any three functions of the Political Parties. **[CBSE 2024]**
39. "There are various reforms taken to strengthen parties in India so that they perform their function well." Explain the statement with examples. **[CBSE 2021-22]**
40. "Political parties have become omnipresent in democracies all over the world." Explain the statement with examples. **[CBSE 2021-22]**
41. Describe the role of political parties in Indian democracy. **[CBSE 2021-22 C, 2020 C]**
OR
Describe any five functions of political party. **[CBSE 2020, 2019 C]**
OR
Highlight any functions of political parties to strengthen democracy. **[CBSE 2019]**
42. Define the term 'Political Party'. Explain with examples, the need of political parties in India. **[CBSE 2020]**
43. "All over the world, people express their dissatisfaction with the failure of political parties to perform their functions well." Analyse the statement with arguments. **[CBSE 2016]**
44. Examine any two institutional amendments made by different institutions to reform political parties and their leaders. **[CBSE 2016]**
45. What is meant by a political party? Describe the three components of a political party. **[CBSE 2015]**
46. "Modern democracies cannot exist without political parties." Examine the statement. **[CBSE Foreign 2015]**

Explanations

Previous Year Questions

1. (d) Through Elections and Voter Support
2. (c) America
3. (d) Bahujan Samaj Party
4. (c) Election symbol
5. (c) Election Commission

Very Short type Questions

6. (i) Lack of internal democracy: In most of the political parties, the power is concentrated in the hands of one or few leaders. Ordinary members of the party cannot even dream of rising to the top as there are no internal elections.
(ii) No records There are hardly any records of registered members. The top leadership is often disconnected with the grassroots workers. Loyalty to the policies and principles of the party has less value than the loyalty to the top leadership.
(iii) **Dynastic succession:** The top positions in many political parties are usually controlled by members of one family. A person born in a particular family becomes the leader by virtue of his birth; which is not the sign of a healthy democracy. This is not the case in India alone, but in many other countries as well.
7. The party which gets elected by winning the elections and forms a government is the ruling party. Playing opposition: A party which does not get majority or does not come under the majority coalition, needs to play the role of opposition.
8. India is a democratic country and has adopted a multi-party system because of the social and geographical diversity of the nation which cannot be easily accommodated in one or two political parties. Through this system, variety of interests and opinions could enjoy different political representations.
9. Political parties shape public opinion in the following ways:
(i) They highlight and raise issues.
(ii) Parties have lakhs of members spread all over the country. Often pressure groups are an extension of political parties, among different sections of the

society.

They help in taking up issues and forming public opinion.

- (iii) Sometimes, parties launch movements for solving the problems faced by the people.

10. Partisan
11. Bahujan Samaj Party (BSP) was formed under the leadership of Kanshi Ram.
12. This is because 'one party' system does not provide any democratic option.
13. Samajwadi party, Samata Party, Rashtriya Janta Dal.
14. United Progressive Alliance-UPA
15. Bharatiya Janata Party
16. No party system is ideal for all countries and all situations because:
(i) Party system is not something, any country can choose.
(ii) It evolves over a long period depending on the nature of the society.
(iii) Its social and regional division, its history of policies and its system of elections also play a role.
(iv) Each country develops a party system that is conditioned by its special circumstances.
17. Dynastic succession is one of the most serious challenges before the political parties because:
(i) Most political parties do not practice open and transparent procedures for their functioning.
(ii) There is no way for an ordinary worker to rise to the top in a party.
(iii) In many parties, the top positions are always controlled by members of one family.
(iv) This practice is unfair to other members of that party and is also bad for democracy.
(v) People who do not have adequate experience or popular support come to occupy position or power.
18. Money and muscle power play an important role in elections because:
(i) Parties tend to nominate those candidates who have or can raise large amounts of money.
(ii) Rich people and companies who give funds to the parties tend to have influence on the policies and decisions of the party.

- (iii) In some cases, parties support criminals who can win election.
- (iv) Democrats all over the world are worried over the increasing role of rich people and big companies in democratic politics.

19. Challenge of dynastic succession
20. Because they are part of the party, hence political parties involve partisanship.
21. A political party is a group of people, who have come together to contest elections to hold power in the government.
22. A political party that secures at least 6% of the total votes in an election to the Legislative Assembly of a State and wins at least two seats is recognized as a state party.
23. (i) Cultural nationalism
(ii) Restoring India's ancient culture and values
24. Marxist Forward Bloc, and All India Forward Bloc.
25. Defection in politics means moving of a person from one party to another party for some personal benefit. It means changing party allegiance from the party on which the person got elected to a different party. The anti- defection rule prevents it

Short Answer Type Questions

26. Merits of multi-party system are:
 - (i) It allows various interests and opinions to enjoy political participation.
 - (ii) In a diverse country, this system cover all the aspects of different sections of society
27. When societies develop and expand it becomes, more complex in terms of social, economic and political relations. They need political relations, and political parties to sustain governance. Political parties tend to provide the base on which the policies of representative government is built. They gather public views on various important issues, articulate them and then present them to the government. Parties bring various representatives together, support or restrain the government and its apparatus, develop policies and justify or oppose them in the public domain depending on their political ideology. These conditions are necessary for healthy development or representative democracies. Hence, it can be said that political parties are essential for this purpose.

28. Three features of one party system are as follows:

- (i) Only one party is allowed to control and rule the government. There is no change of government and power is concentrated in the hands of the party leader.
- (ii) In this system electoral politics does not permit free competition for power.
- (iii) There is absence of the checks and balances provided by democratic government.

29. (i) (a): Bharatiya Janata Party
(ii) (c): Indian National Congress
(iii) (c): Election Commission
(iv) (b): NITI Aayog

30. A political party is a group of people who come together to contest elections and hold power in the government. They agree on some policies and programmes for the society with a view to promote the collective good. The ideologies of Bharatiya Janata party are
(a) Cultural Nationalism
(b) Resolving India's ancient culture and value.

31.

National Political Parties	State Parties
A party that secures at least six per cent of total votes in Lok Sabha elections or Assembly elections in four States and wins at least four seats in the Lok Sabha is recognised as a national party.	A party that secures at least 6 per cent of the total votes in an election to the Legislative Assembly of a State and wins at least two seats is recognised as a State party.
Now, India has seven recognised national parties.	There are 54 state recognised parties in India.
Indian National Congress, Bhartiya Janata Party	Biju Janta Dal, Mizo National Front.

32. State parties seeking national level coalition: Before general election of 2014, in three general elections not one national party was able to secure a majority on its own in Lok Sabha. Thus the national parties were compelled to form alliances with state or regional parties. Since 1996, nearly every one of the state

parties has got an opportunity to be a part of one or the other national level coalition government. This has contributed to the strengthening of federalism and democracy.

33. A regional political party is a party that is present in only some states. Conditions required for a party to be recognised as a regional political party are:

- (i) A party that secures at least six percent of the total votes in an election to the Legislative Assembly of a State.
- (ii) Wins at least two seats in the Legislative Assembly.

34. National political parties have units in the various states, they follow the same policies, programmes and strategy that is decided at the national level. Conditions required:

- (i) A party that secures at least 6% of the total votes in general elections of Lok Sabha or assembly elections in four states.
- (ii) Wins at least 4 seats in Lok Sabha.

35. Multi-party system: If several parties compete for power, more than two parties have a reasonable chance of coming to power either on their own strength or by alliance with others, we call it a multi-party system.

India adopted a multi-party system because:

- (i) There is social and geographical diversity in India
- (ii) India is such a large country which is not easily represented by two or three parties.
- (iii) The system allows a variety of interests and opinions for political representation.

36. Main features of two-party system are as follow:

- (i) Power usually changes between two parties, though several other parties may exist.
- (ii) In such system, people get clear choice.
- (iii) The party that wins majority forms the government and the other sits in opposition.
- (iv) Strong opposition is good for democracy.
- (v) Prompt decisions are taken and implemented.
- (vi) Promotes more development and less corruption.

37. Jharkhand-JMM-Jharkhand Mukti Morcha
(Bow and Arrow)
Maharashtra-Shiv Sena (Bow and Arrow)
Odisha-BJD-Biju Janata Dal (Conch)

Long Answer Type Questions

38. Functions of Political Parties are:

- (1) They contest election.
- (2) They put forward different policies and programmes.
- (3) Parties form and run the government.
- (4) Parties that lose in the election play the role of opposition.
- (5) They shape public opinion.
- (6) They provide people access to government machinery and welfare schemes.

39. Some reforms taken to strengthen parties in India so that they can perform their functions well are:

(1) Anti deflection Law: Deflection refers to changing party alliance from the party on which one got elected to another party.

- (i) The law was changed in order to prevent MPs and MLAs from changing party alliance to become minister or for cash rewards.
- (ii) Any MP or MLA who changes party alliance loses his/her seat in the legislature.
- (iii) While this has strengthened democracy it has also made desert more difficult.

(2) (i) Affidavit is a signed document submitted to an officer in which the person makes a sworn state statement regarding his/her person information.

- (ii) The supreme court passed an order making it compulsory for the elected representatives to file an affidavit, stating their educational qualifications and the criminal cases pending against them.

(iii) This has promoted transparency as well as reduced the influence of money and crime in politics.

(3) Income tax: An order was passed to make it compulsory for parties to hold their organisational elections and file their income tax returns.

(4) Internal affair regulation: Political parties must:

- (i) Maintain a register of their members
- (ii) Have their own format constitution
- (iii) Act as a judge in case of internal disputes.
- (iv) Have an authority
- (iv) Have an independent authority
- (v) Hold upon and transparent elections to the highest posts.

(5) Reservation: About one-third seats should be reserved for women candidates.

(6) Government support: The governments should

provide support to parties for election campaigns in cash or kind.

People Participation: People can help strengthen political parties by:

- (i) Protests and rallies
- (ii) Joining parties themselves

40. We need political parties because of the functions that the political parties perform:

- (i) They contest in elections.
- (ii) They put forward different policies and programmes for the betterment of society.
- (iii) They play a decisive role in the making of laws that affect each of us.
- (iv) They form and run the government.
- (v) They play the role of opposition to the ruling party.
- (vi) They shape public opinion, as they raise and highlight issues.
- (vii) They provide people access to government machinery and welfare schemes implemented by the government.

41. Indian democracy has a multi-party system, political parties perform a series of functions to strengthen our democracy in the following manners:

- (i) **Contesting elections:** Political parties contest elections. A political party nominates its candidate for the electoral contest in various constituencies. This provides a variety of choice of personalities for the people to vote for.
- (ii) **Policies:** Political parties put forward different policies and programmes so that the voters can choose from amongst them. A political party brings a large number of similar opinions under one umbrella. These opinions are channelised to form policies and programmes. The policies and programmes of the ruling party generally become the government policies.
- (iii) **Making law:** Political parties play a decisive role in making laws for the country that benefits the whole population.
- (iv) **Playing opposition:** A party which does not get majority or does not come under the majority coalition, needs to play the role of opposition. This forms the basis of checks and balances in a democracy.
- (v) **Shaping public opinion:** Political parties shape public opinion. They do so by raising and highlighting issues in the legislature and in the media.
- (vi) **Providing access to government machinery:** Political parties provide people access to government machinery and welfare schemes

implemented by governments. Parties need to be responsive to people's needs and demands thus bring good governance.

Political parties are as easily one of the most visible institutions in a democracy. For most ordinary citizens, democracy is equal to political parties.

42. **Political parties:** A political party is a group of people in who come together to contest elections and hold power in the government.

Need of Political Parties in India:

- (i) The rise of political parties is directly linked to the emergence of representative democracies.
- (ii) As societies became large and complex, they also needed some agency to gather different views on various issues and to present these to the government.
- (iii) They needed some ways, to bring various representatives together so that a responsible government could be formed.
- (iv) They needed a mechanism to support or restrain the government, make policies, justify or oppose them.
- (v) Political parties fulfill these needs that every representative government has.

43. All over the world, people express strong dissatisfaction with the failure of political parties to perform their functions well. This statement can be described on the following grounds:

- (i) **Lack of internal democracy:** Power often concentrates in the hands of one or few leaders at the top of a party. Since parties are not usually involved in keeping track of regular activities, ordinary citizens who are members of the party, do not get much information of what is actually happening.
- (ii) **Dynastic succession:** Moreover, the top positions in many parties are controlled by members of one family who tend to favour people close to them or their family members in giving positions of power. This tendency is harmful to the functioning of parties as well as the democracy.
- (iii) **The role of money and muscle power:** Since the main aim of the parties is to win elections, they often use short-cuts in doing so. For example - they nominate candidates who have or can raise lots of money or they may support criminals who can easily win the elections.
- (iv) **Lack of meaningful choices:** The decline in the ideological difference between parties in recent times does not offer a meaningful choice to the voters as there is not much difference in the

policies and programmes of the various political parties.

44. (i) The Constitution was amended to prevent elected MLA's and MP's from changing parties.

This was done because many elected representatives were indulging in defection in order to become ministers or for cash rewards. Now, if any MLA or MP changes parties, he or she loses the seat in the legislature or the parliament.

- (ii) The Supreme Court passed an order to reduce the influence of money and criminals. Now, it is mandatory for every candidate who contests elections to file an affidavit giving details of his property and criminal cases pending against him. The new system has made a lot of information available to the public. But there is no system to check if the information given by the candidates is true and complete.
- (iii) The Election Commission passed an order making it necessary for political parties to hold their organizational elections and file their income tax returns.
- (iv) The parties have started doing so but sometimes it is mere formality. It is not clear if this step has led to greater internal democracy in political parties.

45. **Political party:** A political party is a group of people who come together to contest elections and hold power in the government. Political parties take up policies and programmes for the society with a view to promote the collective good. The political party tries to persuade people why their policies are better than other parties, and tries to win the support of people.

Three components of a political party:

- (i) **The leaders:** Every political party has some prominent leaders who formulate policies and programmes of the party and choose candidates for contesting elections.

- (ii) **The active members:** They are involved in different committees of the party and participate directly in the party activities.

- (iii) **The followers:** They believe in the party's ideology and support the party by casting their votes in favour of the party at the time of election.

46. In all the democracies, citizens have rights but they should be able to claim these rights.

- (i) When the elected political parties become the ruling party then they give these rights to the citizens legally and practically.

- (ii) In all the democracies, people need good governance, for this we need political parties which contest in elections. (iii) The society needs rapid development, this work is done by the political parties. They can introduce many new policies and programmes for the welfare of the citizens.

- (iv) The opposition political party also plays a vital role by finding mistakes in the work of the ruling party so that the development stays on course.

- (v) If there were no political parties in such cases we would only have independent candidates contesting election with individual agenda and not a national agenda. (vi) The rise of political parties is directly linked to the emergence of representative democracies. Large societies need a way to bring various representatives together so that a responsible government could be formed.

We can say that parties are a necessary condition for a democracy.

5

CHAPTER

Outcomes of Democracy

Previous Year Questions

Multiple Choice Type Questions

1. Read the following statements regarding democracy and choose the correct option. [CBSE 2024]

- (i) Promotes equality among citizens
- (ii) Government by few individuals
- (iii) Protection of human rights
- (iv) Ensures checks and balance system

Options:

- (a) (i), (ii) and (iii) (b) (ii) (iii) and (iv)
 - (c) (i), (iii) and (iv) (d) (i), (ii) and (iv)
2. Which one of the following is the most popular form of government in the contemporary world? [CBSE 2023, AI 2014]

- (a) Dictatorial Government
- (b) Constitutional Monarchy
- (c) Military Government
- (d) Democratic Government

3. Which type of government is likely to be more acceptable to the people in the world? [CBSE 2023]

- (a) Democratic
- (b) Military
- (c) Dictatorship
- (d) Theocratic

4. Which one of the following types of government promotes equality among citizens? [CBSE 2021C]

- (a) Democracy
- (b) Dictatorship
- (c) Autocracy
- (d) Aristocracy

5. Which one of the following is a foundational challenge of democracy? [CBSE Foreign 2017]

- (a) Empowering women
- (b) Keeping military away from controlling government
- (c) Ensuring greater power to local governments
- (d) Empowering minority groups

6. Which one of the following is an example of outcomes of a democracy that produces an accountable government? [CBSE Delhi 2014]

- (a) Open to public debates on major policies and legislation
- (b) Open in promoting economic development
- (c) Open in reducing economic inequalities
- (d) Open to rulers elected by the people

Very Short Type Questions

7. "Democracies are based on political equality." Examine the statement. [CBSE Term-II, 2021-22 C]
8. Mention the two conditions that democracy must fulfill in order to achieve a harmonious social life. [CBSE 2021-22]
9. Explain the meaning of democracy. [CBSE 2017]
10. Explain the meaning of 'sectional interest group'. [CBSE Foreign 2017]
11. What is meant by economic inequality? [CBSE 2016]
12. In which area does democracy fail to achieve the same results as in dictatorship? [CBSE 2016]
13. Name any two sectional interest groups. [CBSE 2016]
14. Which system can reduce the possibility of tension and conflict among different groups of society? [CBSE 2016]

15. Which form of government is better, democratic or non-democratic? [CBSE 2015]
16. What is meant by transparency? [CBSE 2015]
17. Why is a democratic government better than other alternatives? [Foreign 2015]

Short Answer Type Questions

Explanations

Previous Year Questions

Multiple Choice Type Questions

1. (c)
2. (d) Democratic government
3. (a) Democratic
4. (a) Democracy
5. (b) Keeping military away from controlling government.
6. (d) Open to rulers elected by the government.

Very Short Type Questions

7. The word democracy literally mean people's rule. In a democracy, every citizen vote has the same value irrespective of gender, caste, religion, or race. This ensures political equality among its citizens. It is a form of government in which people either directly or indirectly participate in decision making that affect them, though the system of representation.
8. Two conditions that democracy must fulfil in order to achieve harmonious social life are
 - (i) The majority must cooperate with the minority is the voices of the minority must not be ignored. Each community must have equal rights and opportunities.
 - (ii) The rule by majority must not mean majority by sex, religion, age, economic status, etc. Majority rule means rule by the wishes of a major part of the population, regardless of their status.
9. Democracy is a system of government by the whole population or all the eligible members of a state, typically through elected representatives.
10. Sectional interest groups seek to represent the common interests of a particular section of society. As a result, members of sectional pressure groups are directly and personally concerned with the outcome of the campaign fought by the group because they usually stand to gain from it.
11. It refer to disparities in the distribution of economic assets and income.
12. Economic development
13. Labours' Union and Farmer Associations are two

sectional interest groups.

14. Democracies have an advantage in resolving social differences, diversion and conflicts because they have evolved a mechanism to negotiate the differences.
15. Democratic form of government is better.
16. To examine the process of decision-making in a democracy is known as transparency
17. (i) It promotes equality among citizens.
(ii) It enhances the dignity of the individual.

Short Answer Type Questions

18. Democracy's ability to generate its own support is itself an outcome of that cannot be ignored.
 - (i) **Demands and wishes:** As people's expectations are fulfilled, they come up with even more expectations for democracy.
 - (ii) **Testimony:** This shows that the evaluation of democracy is never over. People's complaints themselves act as a testimony to the success of democracy. It elucidates that people have understood the main philosophy of democracy. They have become aware of their power to support or restrain the government.
 - (iii) **Status:** Democracy has transformed people from the status of objects to subjects. People which to be ruled by the representatives elected by them and want to participate in democracy.
19. Democracy enhances the dignity and freedom of individual. This statement is supported on the basis of
 - (i) The societies which have been built on the basis of subordination and domination, democracy recognise that all individuals are equal.
 - (ii) For women, most societies are male dominated. But democracy recognise the equality of women as well.
 - (iii) Same in the case of caste inequalities. Democracy give equal status and opportunities to all sections of society.
20. A democratic government is called legitimate government because it is people's own government.
 - (i) It may be slow, less efficient and may have other

flaws but it is people's government.

- (ii) There is an overwhelming support for the idea of democracy all over the world. People of South Asia, Bangladesh, Sri Lanka, India, Pakistan and Nepal have no doubt about the suitability of democracy for their country.
- (iii) People wish to be ruled by representatives elected by them. Democracy's ability to generate its own support makes it more legitimate.

21. A democratic government has to be responsive to the needs of its citizens.

- (i) Through discussions and public opinions the democratic government can check the popularity of its decisions and mechanism of administering justice.
- (ii) A government which is able to respond to grievances faster is able to avoid confrontation and provide good governance. Such governments are said to be responsive.

22. Following are the ways by which democratic government ensures transparency:

- (i) Democratic government ensures that the decision making process is based on proper norms and procedures.
- (ii) Citizens have the right to examine the process of decision making.
- (iii) A democratic government develops mechanism for the citizens to hold the government accountable and mechanism for citizens to take part in decision making whenever they think fit

23. A democratic government must safeguard the fundamental rights of every citizen. This is the basis of a harmonious social life. The values that must be followed are:

- (i) The rulers elected by the people must take all the major decisions and be responsible to them.
- (ii) Elections must offer a choice and fair opportunity to the people to change the current government.
- (iii) This choice and opportunity should be available to all the people equally.
- (iv) The government must be limited by basic rules of the constitution and citizen's rights.

24. Democracy means rule of people. That is of the

people, for the people and by the people. Democracy is a form of government in which all eligible citizens participate equally-either directly or through elected representatives.

Values it represents are:

- (i) Freedom of expression is granted in a democratic nation. For example, the role of media. It allows people to form groups, and indulge in peaceful protests to vent their grievances.
- (ii) Democracy represents the views and opinions of all the citizens of the country, whether in majority or minority.
- (iii) Solving conflicts and quarrels by discussion and negotiation.
- (iv) Dignity to the people of every section of the society.

25. A democratic government can be made accountable by:

- (i) Conducting discussions and negotiations.
- (ii) Ensuring transparency.
- (iii) Holding regular, free and fair elections.
- (iv) Having an independent media.

26. Democracies fail to fulfill the expectations of economic development:

- (i) Slow economic development and economic growth can be due to large population.
- (ii) Basic needs of life, such as food, clothing, shelter are difficult to achieve in certain democracies.
- (iii) Prevalence of economic inequalities are often seen.
- (iv) Poverty is still a big issue.
- (v) Allocation of resources in few hands.
- (vi) Unjust distribution of goods and opportunities.

However despite mediocre economic outcomes democracy is preferred for the dignity it provides to every citizen.

27. "Democracy accommodates social diversities":

- (i) Democracies develop a procedure to deal with conflicts. This reduces the possibility of the tensions becoming explosive or violent.
- (ii) No society can fully and permanently resolve conflicts among different groups. But we can certainly learn to respect these differences and can evolve a mechanism to negotiate these differences.
- (iii) Ability to handle social differences, divisions and conflicts is thus a definite advantage of democratic

regimes.

- (iv) Example Belgium has successfully negotiated differences among its ethnic population.

28. In general, there is a healthy relationship between democracy and development. However,

- (i) Experience from poor countries shows that economic growth under dictatorship regime has been slightly faster. However such societies lack positive social aspects of personal dignity and freedom.
- (ii) It can be said that in democracies, opportunities for economic growth are available to a large section of the population. This indicates that the chances of economic inequality is reduced.
- (iii) A democratic government is more likely to spend resources on public projects such as education, health, public transport, etc., which has a positive effect on the population. Thus holistically democracy scores much more than dictatorship.
- (iv) Democracy provides better conflict resolution by discussion and negotiation; rather than through violent means which destroys public resources, property and morale of the people.

29. (i) Democracy provides right to the citizens to choose their leaders and keep a check on them.

- (ii) If required people can participate in decision-making either directly or through representatives.
- (iii) It produces accountable, responsive and legitimate government.

30. Democracy is considered to be successful if:

- (i) The government elected by the people must take all major decisions and not be influenced by the rich and powerful people.
- (ii) The election must offer a free choice and opportunity to the people to select its leaders.
- (iii) The choice should be available to all the people based on political equality and without any coercion.

31. (i) It is necessary to understand that democracy is not simply rule by majority. The majority always needs to work with the minority so that governments function to represent the general view.

- (ii) It is also necessary that rule by majority does not become rule by majority community in terms of religion or race or linguistic group.

The exception is in the government of Sri Lanka

where majoritarianism is followed leading to many problems.

32. The expected outcomes of democracy are as follows:

- (i) The government is accountable to the people.
- (ii) The government is responsive to the needs of the people.
- (iii) Economic growth and development reducing all forms of inequality and end of poverty is expected.
- (iv) Accommodating all social diversities happen.
- (v) It ensures dignity and freedom of the individuals

33. Merits of democracy are:

- (i) Democracy assures equality in every sphere of life like political, social and economic
- (ii) It upholds basic individual liberties like freedom of speech, etc.
- (iii) Inademocracy transparency in governance is achieved

34. (i) Imagine a government that may take decisions very fast. But it may take decisions that are not accepted by the people and may, therefore, face problems.

- (ii) In contrast, the democratic governments take more time to follow procedure before arriving at a decision.
- (iii) However, because it has followed procedure, its decisions may be more acceptable to the people and more effective. So, the cost of time that democracy pays is worth it.

Long Answer Type Questions

35. (i) Democracy produces an accountable government because, in a democracy, people have the right to choose their representatives through the electoral process.

- (ii) Elected representatives participate in the decision-making process on behalf of the people. They are accountable to the people who elect them.

(iii) If these elected representatives do not work properly, people have the chance to correct them in the next elections. Thus, it is a legitimate government because it is chosen by people through free and fair elections.

(iv) Democratic governments are elected by the people and are responsible towards the constitution and the parliament.

(v) A democratic government is the people's government. It is popular and responsible for

making favorable laws for the collective good of society.

36. Accommodation of social diversity is the key feature of democracy because:

- (i) **Constitutional Framework:** All Indian citizens, regardless of caste, religion, gender, or ethnicity, are guaranteed fundamental rights by the Indian Constitution. To remedy the past injustices that minority people have endured, it also contains provisions for affirmative action measures like reservations.
- (ii) **Federal Structure:** India's federal structure provides for decentralized governance, allowing states to have autonomy in matters pertaining to language, culture, and regional identity.
- (iii) **Representation in Government:** India has implemented reservation policies to ensure the representation of marginalized communities in elected bodies, educational institutions, and government jobs.
- (iv) **Cultural Pluralism:** The diversity of languages, faiths, traditions, and customs that make up India's cultural landscape is remarkable. India's democratic culture promotes cultural plurality, enabling people to freely practice their various cultural identities as individuals and communities.

37. Democracy produces an accountable, responsive and legitimate Government. This statement can be explained on the following grounds:

- (i) The government can be responsible when people start taking actions when the government becomes insensitive about their aspirations. People can hold protests, carry out campaigns and organise rallies and force the government to respond to them.
- (ii) A democratic government is a legitimate government, as it is elected by citizens and enjoys the confidence and trust of the citizens.
- (iii) People have the right to choose their rulers and they have control over their rulers. Citizens can participate in decision making.
- (iv) Democracy makes the point that decision making is based on norms and procedures. So, a citizen who wants to know if a decision was taken through the correct procedures, can find out this information.
- (v) A democratic government is the people's own government and it is run by the people. People are

ruled by representatives elected by them.

38. "Democracy stands much superior in promoting dignity and freedom of the citizens":

- (i) Every individual wants to receive respect from fellow beings. Democracy provides fundamental rights to every citizen.
- (ii) Freedom from coercion is basis of any democracy, where everyone can have faith of choice.
- (iii) In a democracy people have equal opportunities so they can come up in life. They are not discriminated on the basis of caste or gender.
- (iv) Long struggles by women have got them respect and equal treatment. In many democracies, women were deprived of their right to vote for a long time which they have achieved now. In India 1/3rd of seats have been reserved for women in local bodies.
- (v) Democracy has strengthened the claims of the disadvantaged and discriminated castes for equal status and equal opportunity.

39. Despite any shortcomings that we might witness in a democratic model of governance, it is still the most preferred form of government all over the world including in South Asia. Some reasons for this are given below:

- (i) People have the right to choose who governs them through regular elections.
- (ii) The elected government is answerable to the people and to ensure its stability, and has to deliver its promises
- (iii) Democracy ensures transparency.
- (iv) It accommodates diversity and promotes inclusion and equality.
- (v) It gives an equal chance of participation to all the citizens.
- (vi) An important pillar of democracy is ensuring the dignity and freedom of people.
- (vii) The true power lies with people
- (viii) Lastly, democracy has proven to be a better model than dictatorship, aristocracy, or any other form of governance

40. Democratic system is better than any other form of governments due to following reasons:

- (i) Democratic government is accountable to the people. It gives responses to the people related to

any issues.

- (ii) Democratic government gives political and economic rights to the citizens.
- (iii) All citizens are considered equal before the law.
- (iv) People can participate in the decision-making process.
- (v) If government is not functioning in a proper way, people can change the government in the next elections
- (vi) Power is shared among different organs and levels of the government

41. Democracy promotes dignity and freedom of the people:

- (i) Democracy stands much superior to any other form of government in promoting dignity and freedom of the people.
- (ii) It promotes equality among citizen and hence increases respect for each other among citizen.
- (iii) Respect and freedom have been recognised as the basis of democracy.
- (iv) Freedom and equality to women
- (v) Strengthened the claims of the disadvantaged and discriminated castes for equal status and equal opportunity.
- (vi) Majority-minority coordination.

42. Democracies lead to peaceful and harmonious life among citizens:

Democracy provides the opportunity to negotiate the differences and decide on what is better for everyone. Non-democratic regimes usually just ignore the internal problems or suppress it. Democracy ensures inclusion of every group including minorities and its interests in the decision-making

Democracy is considered better because:

- (i) It promotes equality among citizens.
- (ii) It recognises and enhances the dignity of the individual.
- (iii) It improves the quality of decision-making.
- (iv) It provides a method to resolve conflicts.
- (v) It allows room to correct mistakes.

43. (i) Democracy ensures that decision making will be based on norms and procedure.

(ii) Every citizen has the right and means to examine

the process of decision making

- (iii) Democratic governments are accountable, legitimate and transparent governments
- (iv) People have the right to choose their rulers.
- (v) Democracy gives its citizens the right to information about the government.
- (vi) A democratic government is the people's own government and it is run by the people.
- (vii) Democracy provides dignity and freedom to its citizens.
- (viii) Democracy accommodates social diversity

44. Democratic government can be said to be accountable and legitimate government. The following reasons can be scribed to it:

Accountable government:

- (i) When people choose their representatives, they are expected to be accountable this is the basic outcome of democracy.
- (ii) The citizens have the right and also the means to examine the process of decision making, that is high level of accountability is expected.
- (iii) The government is expected to practice regular, free and fair elections and open discussions on important issues.
- (iv) Democratic government can apparently be less efficient than a non-democratic government. This happens because a non-democratic government does not need to arrive at consensus among a diverse set of people. Democracy functions on the basis of deliberation and negotiation and hence decisions are often delayed. But this does not mean that a democratic government is less efficient.

Legitimate government:

- (i) A democratic government is people's own government. That is why there is an overwhelming support for the idea of democracy all over the world and there is the element of legitimacy attached to it
- (ii) People wish to be ruled by representatives elected by them. They also believe that democracy is suitable for their country. Democracy's ability to generate support for itself is an outcome that cannot be ignored.
- (iii) Though there are many reports of democracies ignoring the demands of people and there are routine tales of corruption but yet chances of governments improving only exists in democratic set-up.

45. The characteristics of democracy are:

- (i) Elected representatives rule the country.

- (ii) Elections that are free and fair are held at regular periodicity.
 - (iii) Rights of the individual citizen are protected and rule of law prevails that is equal for everyone.
 - (iv) Independent judiciary functions without the intervention of the rulers.
 - (v) Opposition parties question the actions of the rulers and thus ensure good governance.
 - (vi) Freedom of religion and culture is ensured
- 46.** The role of citizens in a democracy are as follows:
- (i) Citizens must exercise their rights and freedom to get benefited from democratic set-up.
 - (ii) They must be aware of their rights and duties.
 - (iii) They should be aware of the local issues and greater problems the country is facing.
 - (iv) They must cooperate in maintaining law and order.
 - (v) People must be sensitive to the needs and interest of others.
- 47.** A public expression of dissatisfaction with democracy shows the success of democratic project.
- (i) It shows that people have developed awareness and the courage to ask questions.
 - (ii) When people look critically at the government, democracy becomes better.
 - (iii) When people complain, government begins to perform better.
- (iv) They value their democratic rights and make use of it.
- 48.** It is true that some people think that democracy produces a less effective government because:
- (i) Non-democratic rulers do not have to bother about deliberation in assemblies or worry about public opinion.
 - (ii) They can be very quick and efficient in decision making and implementation.
 - (iii) But democracy is based on the idea of deliberation and negotiation. So some delay is bound to take place.
 - (iv) Some democracies fall short in providing a fair chance to everyone in selecting their leaders.
 - (v) Democratic governments do not have a very good record when it comes to sharing information with citizens.
 - (vi) Democracies often frustrate the needs of the people and often ignore the demands of a section of its population.
